Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Standard Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executed investment transactions. The plan administrator has obtained certification from the trustees as of March 31, 2014 and 2013, and for the year ended March 31, 2014, that the information provided to the plan administrator by the trustees is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of Assets Held for Investment Purposes at End of Year and Reportable Transactions as of or for the year ended March 31, 2014 are required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Modern Method Gunite, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

1. Description of the Plan

The following description of the Modern Method Gunite, Inc. 401(k) Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan, formed on December 16, 1995, covering all employees of Modern Method Gunite, Inc. (the Company) meeting participation requirements described below. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA) and all requirements of Section 401(a) and 401(k) of the Internal Revenue Code ("the Code") and all amendments.

The Plan is intended to be a qualified defined contribution plan which satisfies the requirements of Section 401(k) of the Code. Under the Code, participants are not liable for federal income taxes on employee contributions, the Company's contributions or plan earnings until such time as they are partially or completely withdrawn from the plan.

The trustee is responsible for oversight of the plan. The investment committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the trustee.

Administration

The Plan's administration is the responsibility of the management of Modern Method Gunite, Inc. (the "Plan Administrator").

Enrollment

All employees that are eighteen (18) years or older and have completed one year of service with at least 1,000 hours are eligible to participate in the Plan. Eligible employees can enroll in the Plan during the enrollment periods at April 1st, July 1st, October 1st and January 1st of each year.

Contributions

Contributions to the 401(k) Plan may consist of funds contributed by the Company, employees, and rollover contributions. Participants can make contributions in specific dollar amounts or in percentages of compensation as defined in the plan document, to the Plan on a tax-deferred basis subject to applicable legal limits.

The Company provides a discretionary matching contribution equal to a uniform percentage of the salary reduction up to 5 % of compensation. The percentage is determined annually. The Company also provides a discretionary profit sharing contribution allocated utilizing the "New Comparability Method". During the year ended March 31, 2014, the Company's matching contribution and profit sharing contribution amounted to $46,226 and $533,726, respectively.

Modern Method Gunite, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

1. Description of the Plan (continued)

Vesting

Participants are fully vested in their elective contributions, employer matching contribution, qualified non-elective contribution ("QNEC") and the actual earnings thereon. Vesting in the employer profit sharing contributions and earnings thereon is based on years of service and is determined as follows:

Years of Service	Vested Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Forfeitures and non-vested balances

At March 31, 2014 and 2013 forfeited non-vested accounts totaled $17,364 and $3,592, respectively. These accounts are used to reduce the employer profit sharing contribution and offset administrative expenses. During the year ended March 31, 2014, $11,907 of forfeited participant accounts was used to reduce the Company's profit sharing contribution.

Allocations

Allocation of the employer profit sharing contribution is done using the "New Comparability" method which is based on participants' hours of service. Earnings and losses on investments are allocated based on participants' balances.

Payment of Benefits

Participants may withdraw all or a portion of vested contributions subject to certain conditions as specified in the Plan document. In the event of termination, hardship or death, a participant will receive a distribution in the form of a single lump sum payment equal to their vested interest in the account. Participants attaining age 59 ½ years may also elect distributions without regard to employment status.

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of (a) the Company's contribution and (b) plan earnings, and charged with an allocation of administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. All contributions made to these accounts are directed by the participant into a particular investment offered by the administrator and the allocations between investments can be changed at will.

Notes to Financial Statements

1. Description of the Plan (continued)

Investment Options

Participants direct the investment of their contribution, and employer match, if any, into various investment accounts offered by the Plan. Pooled separate accounts and a guaranteed investment contract are available for the investment of participants' elective and employer matching and profit sharing contributions. Pooled separate accounts are invested in stock, bonds or other types of securities and pursue various investment objectives. The guaranteed investment contract provides a guaranteed interest rate for a set period of time. It is invested primarily in investment-grade securities, commercial mortgage and other fixed-income instruments.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's accounts. Principal and interest are paid ratably through weekly payroll deductions. During the year ended March 31, 2014, fifty-three new loans were made totaling $389,108 at an interest rate of 3.25%. Loan balances including interest as of March 31, 2014 and 2013 amount to $534,141 and $470,854, respectively.

Administrative Expenses

Administrative expenses include fees of investment managers and accountants, and other costs of administration of the Plan. Administrative expenses amounted to $10,232 for the year ended March 31, 2014.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual method of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transaction under the terms of the Plan. The accompanying statement of net assets available for benefits for the year ended March 31, 2013 presented the fair value of the investment in the insurance contract, as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The accompanying statement of net assets available for benefits for the year ended March 31, 2014 presents the investment in the insurance contract at contract value, which approximates fair value (see Note 4). The statement of changes in net assets available for benefits is prepared on a contract value basis.

Modern Method Gunite, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

2. Summary of Significant Accounting Policies (continued)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of investments are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. Any distributions received from an underlying fund are reinvested into additional shares of the underlying fund.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Terminated Employees with Vested Benefits

As of March 31, 2014, terminated participants with vested benefits in the amount of $246,981 remain in the Plan. The benefit payments are not reflected in the financial statements until benefit claims have been processed and approved for payment. Terminated employees with vested balances were paid $94,966 after the year end.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Notes to Financial Statements

2. Summary of Significant Accounting Policies (continued)

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are not included in these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account.

Reclassifications

Certain amounts in 2013 have been reclassified to conform to the 2014 presentation. Pooled separate account name changes have been retroactively restated.

3. Investments

The following presents the fair values of the Plan's investments that represent 5% or more of the Plan's net assets.

	March 31, 2014		March 31, 2013

Harbor Capital Appreciation	756,273	9.5%	496,572	7.5%

During 2014, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $863,195.

4. Fair Value Measurements

Financial Accounting Standards Board (FASB) Accounting Standard Codification (ASC) 820, Fair Value Measurements and Disclosures, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurement) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Modern Method Gunite, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

4. Fair Value Measurements (continued)

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Money market and pooled separate accounts: Valued at the close of each business day based on market value and using a specified formula. The market values are determined by the account share balance and the net assets value received daily from the mutual fund manager. While the underlying asset values are publically quoted prices, the net asset values of separate accounts are not publically quoted. Therefore, the pooled separate accounts are assigned level 2 for the purpose of fair value measurement.

Guaranteed investment contract: The contract is a fully benefit-responsive investment contract, and the assets of the contract are held in the general account of the custodian. The custodian is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan. The investments of the contract (and the contract itself) are not actively traded, and significant other observable inputs are not available. As of March 31, 2014, the contract value of the guaranteed investment contract approximated fair value. As of March 31, 2013, the fair value of the contract was based on the fair value of the discounted cash flows of its underlying investments. The change in valuation techniques between March 31, 2014 and 2013 was made to more accurately reflect the value at which participants may execute transactions in the investment.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

4. Fair Value Measurements (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of March 31, 2014 and 2013:

Assets at Fair Value as of March 31, 2014

	Level 1	Level 2	Level 3	Total
Guaranteed investment contract	$ -	$ -	$ 750,008	$ 750,008

Sales	(86,102)
Transfers in and/or out of level 3	191,792
Balance, end of year	$ 750,008

The following table represents the Plan's level 3 financial assets, the valuation techniques used to measure the fair value of those financial assets and the significant unobservable inputs and the ranges of values for those inputs as of March 31, 2013:

Financial Asset	Fair Value	Principal Valuation Technique	Unobservable Inputs	Significant Input Values	Weighted Average
Guaranteed investment contract	$ 564,869	Discounted cash flow	Expected future option purchase	1% - 5%	N/A
			Various assumptions	5% - 36%	N/A

Modern Method Gunite, Inc. 401(k) Profit Sharing Plan

Notes to Financial Statements

5. Investment Contract with Insurance Company

In 2012, the Plan entered into a benefit-responsive investment contract with The Standard Insurance Company (The Standard). The Standard maintains the contributions in a Stable Asset Fund. The account is credited with earnings on the underlying investments and charged for participant withdrawals and fees. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by The Standard. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Crediting rates are calculated monthly by The Standard based on the interest rate forecast and the margins required for the business. The average crediting rates were 1.79% ad 1.84% for the plan years ending March 31, 2014 and 2013, respectively.

Certain events may limit the ability of the Plan to transact at contract value with The Standard. Such events include termination of the contract, spinoffs, divestitures, layoffs, corporate relocation, partial or total Plan termination, retirement incentive programs, and the liberalization of the Plan withdrawal and transfer rules. Upon occurrence of any of these events, a market value adjustment may apply.

The Standard may terminate the contract with 30 days advance written notice to the contract owner for reasonable cause, which includes the contract owner's failure to abide by state or federal law, failure to render performance necessary to comply with the terms of the contract, failure to maintain assets of at least $25,000, plan disqualifications, and failure to adopt the Plan in a reasonable period of time. Upon termination by The Standard, a market value adjustment may apply.

6. Plan Termination

Although it has not expressed an interest to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their profit sharing contributions.

7. Information Prepared and Certified by Trustee

At March 31, 2014 and 2013, the Plan's investments were held by Standard Insurance Company. The following is a summary of the Plan's financial information that is included in the financial statements based on the information certified by the trustees as complete and accurate in accordance with Section 2520.103 – 8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated July 6, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator believes that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRS and, therefore, believes that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of March 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

9. Related Party Transactions

Certain plan investments are shares of pooled separate accounts and a guaranteed investment contract managed by Standard Insurance Company. Standard Insurance Company is the custodian as defined by the plan, and therefore, these transactions qualify as party-in-interest. Fees paid by the plan for administrative services amounted to $10,232 and $20,373 for the years ended March 31, 2014 and 2013, respectively.

Modern Method Gunite, Inc. is the sponsor of the plan and paid substantially all administrative expense of the plan during the years ended March 31, 2014 and 2013. In addition, the trustees of the plan and the plan administrator are participants in the plan.

10. Concentration of Credit Risks and Uncertainties

At March 31, 2014 and 2013, none of the Plan's funds are insured by the Federal Deposit Insurance Corporation (FDIC). The Plan also invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. ERISA Bond Requirements

The Employee Retirement Income Security Act of 1974 (ERISA) requires that every person who handles funds or other property of the Plan be bonded. The bond coverage is to be determined by the balance of the total plan assets and is required to be at least equal to the lesser of 10% of the Plan's assets at the beginning of the plan year or $500,000. At March 31, 2014 and 2013, the Plan's sponsor maintained bond coverage in the amount of $500,000.
