GULF COPPER & MANUFACTURING CORPORATION
PROFIT SHARING PLAN AND TRUST
NOTES TO FINANCIAL STATEMENTS

A. DESCRIPTION OF PLAN

The following description of the GULF COPPER & MANUFACTURING CORPORATION ("Company") PROFIT SHARING PLAN AND TRUST ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions. A copy of the Plan Document is at the Company's office.

1. General
The plan is a defined contribution 401(k) Profit Sharing plan covering all full-time employees of the Company who have completed six months of service. Eligible employees may enter the Plan on the first day of the month on or after completing six months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

2. Contributions
Each year, participants may contribute as little as 1 percent of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company, at the discretion of the Company's board of directors, may contribute amounts based on the Participants annual pay. During the year ending April 30, 2014, the company did not contribute to the Plan.

3. Participant Accounts
Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

4. Vesting
Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary contribution portion of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

5. Payment of Benefits
On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

6. Disposition of Forfeitures
Forfeitures of employer discretionary contributions are reallocated to remaining participants, allocated with employer discretionary contributions, and used to reduce future employer contributions. There were no forfeitures for the year ended April 30, 2014.

7. Costs of the Plan
The Company absorbs significant costs of the plan including record keeping and the independent auditor's fees.

B. SUMMARY OF ACCOUNTING POLICIES

1. Basis of Accounting
The financial statements of the Plan are prepared under the modified cash basis of accounting. That is, the asset amounts are reflected on a cash basis except for the contributions. The contributions are reported on a plan year accrual basis.

2. Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

3. Investment Valuation
The Plan's investments are stated at fair value in accordance with Accounting Standards Codification Topic 820 "Fair Value Measurements and Disclosures" (ASC 820). See Note C for fair value measurements

4. Payment of Benefits
Benefits are recorded when paid.

C. PLAN INVESTMENTS

1. In 1982, the Plan entered into an investment contract with The Principal Life Insurance Company (Principal). Principal maintains contributions in two types of accounts - a General Fund Account and Pooled Separate Accounts.

The assets of a pooled separate account plan are assets of the insurance company but are not commingled with insurance company general assets. The Plan's share of each Pooled Separate Account is determined on a participation-unit basis. The Plan's account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by Principal.

The value of each Pooled Separate Account is determined at the close of each business day based on market value. The value of the account is expressed in "units". The "unit value" is the dollar value of one unit and is determined at the close of each business day by dividing the value of the entire account by the total number of units in the account.

Change in market value from year to year is reported as gains/(losses) for the Plan's Pooled Separate Accounts.

2. Within the General Fund Account, the Plan holds a guaranteed investment contract that provides for a guaranteed return on principal over a specified time period. The General Account is invested mostly in private placement bonds, commercial mortgages, and residential mortgages.

The fair market value of the Guaranteed Interest Account is the value paid any time funds are withdrawn prior to their maturity and reflects the surrender charge, if applicable.

C. PLAN INVESTMENTS (CONTINUED)

3. The Plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the following information certified by the trustees of the Plan, as complete and accurate, except for comparing such information to information included in the Plan's financial statements and supplemental schedule.

C. PLAN INVESTMENTS (CONTINUED)

During the plan years ended April 30, 2014 and 2013, the Plan's Pooled Separate Accounts (including gains and losses on the investments bought and sold, as well as held during the year) appreciated/depreciated in value by $879,173 and $435,192, respectively, and the Plan's Guaranteed Interest Account by $6,079 and ($1,244), respectively. For the plan years then ended, the total value of all Plan assets appreciated in value by $885,252 and $433,948, respectively.

As required by SFAS No. 157, the following table presents a reconciliation of the beginning and ending balances of the fair value measurements using significant unobservable inputs (Level 3):

Guaranteed Investment Contract	2014	2013
Beginning Balance May 1, 2013 and 2012	$ 303,743	$ 317,847
Total gains or losses (realized and unrealized) included in changes in net assets	(3,707)	(1,244)
Interest credited	895	1,815
Purchases and sales, net	8,892	(945)
Transfers out of level 3	-	(13,730)
Balance April 30, 2014 and 2013	$ 309,823	$ 303,743
Change in unrealized gains or losses related to assets still held at April 30, 2014 and 2013	$ (3,707)	$ (1,244)

4. Fair Value Measurements

ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 also established a fair value hierarchy that prioritizes the inputs used to measure fair value. This hierarchy requires entities to maximize the use of observable inputs and minimize the use of unobservable inputs. The three levels of inputs used to measure fair value are as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets:
- Inputs other than quoted prices that are observable for the asset or liability; and
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3 – Inputs to the valuation methodology are unobservable inputs that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

C. PLAN INVESTMENTS (CONTINUED)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

The Plan's portfolio investments as of April 30, 2014 and 2013, were classified as follows, based on fair values:

	2014 Fair Value	2013 Fair Value
Level 1	$ -	$ -
Level 2	4,700,296	3,821,124
Level 3	309,823	303,743
Total portfolio investments	$ 5,010,119	$ 4,124,867

5. Investment Contract

The Plan has an investment contract with Principal Life Insurance Company that is not fully-benefit responsive. Principal Life maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by Principal Life Insurance Company. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract has certain restrictions that impact the ability to collect the full contract value, for example, the complete or partial termination of the plan.

Principal Life Insurance Company is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan.

Type	Fair Value	Valuation Technique	Significant Unobservable Inputs	Range of Rates
Guaranteed Interest	309,823*	Market Value Adjustment	Current Rate on 4/30/2014	.10 % - .45%

* Fair Value is considered contract value adjusted to take into account the current rates of interest available in the market place ("Market Value Adjustment").

D. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100 percent vested in their accounts.

E. TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated August 7, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator, and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

F. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of pooled separate accounts managed by Principal Life Insurance Company. Principal Life Insurance Company is the trustee as defined by the Plan and, therefore, these investments qualify as party-in-interest transactions. Fees paid by the Plan for investment management services for the years ended April 30, 2014 and 2013 amounted to $43,402 and $34,731 respectively.

G. SUBSEQUENT EVENTS

Plan management has evaluated material events and transactions that have occurred after April 30, 2014 and concluded that no subsequent events have occurred through February 5, 2015, the date the financial statements were issued, that require adjustment to or disclosure in these financial statements.

H. RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term that such changes could materially affect participants' account balances, and the amounts reported in the statement of net assets available for benefits.

I. CORRECTIVE DISTRIBUTIONS

Corrective distributions for the plan year ending April 30, 2014 totaled $9,866. The distributions were refunds of excess contributions to various participants.
