Independent Auditors' Report

To the Plan Administrator of
LaserFiche 401(k) Plan

We were engaged to audit the financial statements and supplemental schedule of the LaserFiche 401(k) Plan (the "Plan") as of December 31, 2009 and 2008 and for the year ended December 31, 2009, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Fidelity Management Trust Company, trustee and custodian of the Plan, except for comparing such information with the related information included in the 2009 financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee and custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee and custodian as of December 31, 2009 and 2008 and for the year ended December 31, 2009 that the information provided to the plan administrator by the trustee and custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee and custodian have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

General

The following description of the LaserFiche 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan was established in 1997 and has been further amended as mandated by federal law. It is a defined contribution 401(k) plan that covers eligible employees of the Compulink Management Center, Inc., (the "Employer" or the "Company") who have completed three months of continuous service, and are age twenty-one or older. Eligible employees may join the Plan at the beginning of the each month. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration of Plan Assets

Fidelity Management Trust Company ("Fidelity") is the custodian, trustee, record-keeper, and third party administrator of the Plan. The general duties of the custodian are to hold and manage the Plan's assets, which consist of investments in registered investment companies. Fidelity receives contributions from the Company, invests cash received, allocates interest and other investment income and makes distributions to participants. Fidelity also administers the repayment of interest and principal on participant loans, which is remitted to Fidelity when withheld from the employees as determined by the Company. The trustee is responsible for investment decisions of the Plan. The Company's Chief Financial Officer is the plan administrator. The general duties of the administrator are to administer the Plan in accordance with Plan rules and ensure compliance of the Plan with the Employee Retirement Income Security Act ("ERISA") of 1974, as amended.

Contributions

Participant contributions are based upon an elected percentage. The Plan allows participants to contribute, on a pre-tax basis, an amount up the lesser of the maximum prescribed amount, which is $16,500 for 2009, or 60% of their income under Section 401(k) of the Internal Revenue Code (the "Code") and allows for "catch-up" contributions if a participant is age 50 or older not to exceed $5,500 in 2009. The plan allows participants, upon proper notice, to enter into special salary reduction agreement to make deferral contributions in an amount up to 100% of any Employer cash bonuses paid during the plan year. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

1. Description of Plan (Continued)

Contributions (Continued)

Participants are eligible to receive the discretionary employer-matching contribution, if any. In 2009 the Company elected decrease its discretionary contribution to match employee deferrals from 100 percent to 50 percent of the first fifteen percent of employee eligible compensation contributed. Such discretionary contributions totaled $407,928 and $666,144, which were reduced by applied forfeitures of $0 and $76,407 for 2009 and 2008 respectively. Net employer contributions of $407,928 and $589,737 were recorded as a receivable to the Plan as of December 31, 2009 and 2008 respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of (a) the Company's discretionary contributions and (b) Plan earnings, net of certain investment management related fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based upon years of credited service. Participants vest 20 percent per year beginning after the second year of service and are fully vested after six years of credited service.

Forfeited Accounts

At December 31, 2009, forfeited non-vested accounts totaled $12,636. These accounts will be used to reduce future employer contributions. No forfeitures were used to offset 2009 employer contributions.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any of the investment options managed by Fidelity.

1. Description of Plan (Continued)

Participant Loans

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. A participant may have more than one loan outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at an interest rate determined by the plan administrator based on prevailing interest rates under similar circumstances and is fixed over the life of the loan.

Payment of Benefits

On termination, the participant may elect to receive a distribution of their vested account balance from the Plan. The Custodian processes properly authorized distribution requests on a monthly basis. Benefits may be paid as a lump sum distribution or in an installment distribution if the account balance is greater than $5,000. If a participant's vested benefit is less than $5,000, a lump sum distribution from the Plan may be made at the discretion of the employer, regardless of whether the participant requests a distribution. However, the employer may determine not to cash out participant accounts provided that such determination is uniform with respect to all participants. Minimum distributions will be made no later than April 1 following the calendar year in which any participant attains age seventy and one-half, unless they are still employed and elect to defer minimum distributions. Withdrawals may also be made for financial hardship, which is determined pursuant to the provisions of the Code and the plan document.

Administrative Expenses

The Company pays certain administrative expenses of the Plan (see Note 6), while other expenses including loan-related fees are paid by the Plan. Other management fees and transaction costs associated with the investment options are included by the custodian in net appreciation (depreciation) in fair value of investments.

Plan Termination

The Company has the right to discontinue contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of termination of the Plan, an evaluation is required to be made of all assets of the Plan, and an allocation made to participants. All participants become fully vested in the event of termination.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions from net assets during the reporting periods. Actual results could differ from those estimates.

Concentration of Credit Risk

The Plan's investments include registered investment company mutual funds that represent obligations by the counterparties to meet the terms of the financial instruments. Should one or more of the counterparties default, the Plan might lose amounts up to the recorded carrying value of the related instruments.

At December 31, 2009 and 2008, and throughout the year, the Plan maintained cash balances in excess of the federally insured limits.

Risks and Uncertainties

The Plan provides for various investment options in mutual funds and other securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are stated at fair value. The Custodian determines the fair value of the shares of registered investment companies based on readily available quoted market prices. Participant loans are valued at the unpaid principal amount which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. The Plan presents, in the Statement of Changes in Net Assets Available for Benefits, the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and unrealized appreciation (depreciation) on those investments.

Contributions

Participant contributions are recorded in the year withheld from earnings of Plan participants. Company match and discretionary contributions are recorded in the year which they become an obligation of the Company.

Payment of Benefits

Benefit payments are recorded when paid to participants.

Recent Accounting Pronouncements

On January 1, 2008, the Plan fully adopted authoritative guidance which expanded the disclosure of fair value measurements and its impact on the Plan's financial statements. (See Note 4.) In September 2009, the FASB issued authoritative guidance requiring additional disclosures regarding the inputs and valuation techniques used to measure fair value. The guidance also requires that the Plan disclose debt and equity securities by major category, on a more disaggregated basis. The adoption did not materially impact the Plan's financial statements.

For the year ending December 31, 2009, the Plan adopted the FASB's update to general standards on accounting for disclosures of events that occur after the balance sheet date but before the financial statements are issued or are available to be issued. The guidance is effective for interim and annual reporting periods ending after June 15, 2009. The adoption of the guidance did not materially impact the Plan's financial statements. (See Note 9.)

2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements (Continued)

In June 2009, the FASB codified existing accounting standards. The FASB Accounting Standards Codification (the "Codification" or "ASC") became the single official source of authoritative U.S, Generally Accepted Accounting Principles ("GAAP"), (other than guidance issued by the SEC), superseding existing FASB, American Institute of Certified Public Accountants, Emerging Issues Task Force, and related Literature. After that date, only one level of authoritative GAAP will exist. All other literature will be considered non-authoritative. The Codification does not change GAAP; instead it introduces a new structure that is organized in an easily accessible, user-friendly online research system. The Codification, which changes the referencing of financial standards, becomes effective for interim and annual periods ending on or after September 15, 2009. The adoption of this guidance did not have a material impact on the Plan's financial statements except for references made to authoritative accounting literature in footnotes.

3. Tax Status of the Plan

On October 9, 2003, the Internal Revenue Service issued a favorable opinion letter with respect to the qualified tax status of the Plan's prototype form under Section 401(a) of the Code and the Plan's compliance with the requirements of ERISA. The Plan is therefore exempt from federal income taxes under the provisions of Section 501(a) of the Code. Although, the Plan has not yet filed for its own determination letter, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

4. Summary of Financial Data Certified By the Plan Custodian

The following is a summary of the investment information relating to the Plan, included in the accompanying financial statements and supplemental schedule. The information was prepared by Fidelity, the custodian and trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained certification from Fidelity that such information is complete and accurate under 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

All amounts enumerated in the Supplemental Schedule of Assets (Held at End of Year) at December 31, 2009 (pages 16-17) were also certified by the custodian.

5. Fair Value Measurements

Authoritative guidance issued by the FASB provides a definition of fair value, establishes a framework for measuring fair value and expands the disclosure on fair value measurements. It defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The guidance also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Under the guidance, the three levels of inputs that may be used to measure fair value are:

Level 1: Quoted prices for identical assets or liabilities in active markets.

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Money market accounts: Highly liquid instruments purchased with an initial maturity of three months or less and considered to be cash equivalents valued using Level 1 inputs.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total

Level 3 Gains and Losses

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 assets for the year ended December 31, 2009:

	Participant loans
Balance, beginning of year	$ 74,489
Realized gains/(losses)	-
Unrealized gains/(losses) relating to instruments still held at the reporting date	-
Purchases, sales, issuances and settlements, net	61,882
	$ 136,371

6. Party-in-Interest Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are shares of mutual funds under the group annuity contract managed by Fidelity, custodian, trustee, and record-keeper of the Plan. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. The Company may pay certain administrative expenses of the Plan, including, recordkeeping and audit fees. During 2009, the Company elected to pay certain administrative fees of the Plan of $23,570, excluding fees charged by the underlying mutual funds and administrative expenses charged by the Custodian. These transactions qualify as party in interest transactions for which a statutory exemption exists.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend or discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan terminations, participants will become 100 percent vested in their account balances.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits as shown in the accompanying financial statements to those that will be shown in the Form 5500:

December 31,	**2009**	2008
Net assets available for benefits per the accompanying financial statements	**$ 8,026,434**	$ 5,173,032

Employee contributions receivable	**(92,449)**	(65,273)
Net assets available for benefits per Form 5500	**$ 7,526,057**	$ 4,518,022

The following is a reconciliation of total contributions as shown in the accompanying financial statements to those that will be shown in the Form 5500:

Year ended December 31,	2009
Total contributions per the accompanying financial statements	$ 1,331,210
Contributions receivable at December 31, 2008	655,010
Contributions receivable at December 31, 2009	(500,377)
Total contributions per Form 5500	$ 1,485,843

9. Subsequent Event

Effective February 2, 2010, the Plan was amended and restated to comply with the Economic Growth and Tax Relief Reconciliation Act of 2001 ("EGTRRA"). This restatement did not result in any changes to the Plan; rather, it incorporates EGTRRA and a number of other statutory and regulatory changes.

In providing the disclosure contained in this Note, the Plan evaluated events occurring between the end of its most recent plan year end and September 1, 2010, the date the accompanying financial statements became available to be issued.

Independent Auditors' Report

To the Plan Administrator of
LaserFiche 401(k) Plan

We were engaged to audit the financial statements and supplemental schedule of the LaserFiche 401(k) Plan (the "Plan") as of December 31, 2009 and 2008 and for the year ended December 31, 2009, as listed in the accompanying index. These financial statements and schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Fidelity Management Trust Company, trustee and custodian of the Plan, except for comparing such information with the related information included in the 2009 financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee and custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee and custodian as of December 31, 2009 and 2008 and for the year ended December 31, 2009 that the information provided to the plan administrator by the trustee and custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and schedule taken as a whole. The form and content of the information included in the financial statements and schedule, other than that derived from the information certified by the trustee and custodian have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

General

The following description of the LaserFiche 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

The Plan was established in 1997 and has been further amended as mandated by federal law. It is a defined contribution 401(k) plan that covers eligible employees of the Compulink Management Center, Inc., (the "Employer" or the "Company") who have completed three months of continuous service, and are age twenty-one or older. Eligible employees may join the Plan at the beginning of the each month. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration of Plan Assets

Fidelity Management Trust Company ("Fidelity") is the custodian, trustee, record-keeper, and third party administrator of the Plan. The general duties of the custodian are to hold and manage the Plan's assets, which consist of investments in registered investment companies. Fidelity receives contributions from the Company, invests cash received, allocates interest and other investment income and makes distributions to participants. Fidelity also administers the repayment of interest and principal on participant loans, which is remitted to Fidelity when withheld from the employees as determined by the Company. The trustee is responsible for investment decisions of the Plan. The Company's Chief Financial Officer is the plan administrator. The general duties of the administrator are to administer the Plan in accordance with Plan rules and ensure compliance of the Plan with the Employee Retirement Income Security Act ("ERISA") of 1974, as amended.

Contributions

Participant contributions are based upon an elected percentage. The Plan allows participants to contribute, on a pre-tax basis, an amount up the lesser of the maximum prescribed amount, which is $16,500 for 2009, or 60% of their income under Section 401(k) of the Internal Revenue Code (the "Code") and allows for "catch-up" contributions if a participant is age 50 or older not to exceed $5,500 in 2009. The plan allows participants, upon proper notice, to enter into special salary reduction agreement to make deferral contributions in an amount up to 100% of any Employer cash bonuses paid during the plan year. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

1. Description of Plan (Continued)

Contributions (Continued)

Participants are eligible to receive the discretionary employer-matching contribution, if any. In 2009 the Company elected decrease its discretionary contribution to match employee deferrals from 100 percent to 50 percent of the first fifteen percent of employee eligible compensation contributed. Such discretionary contributions totaled $407,928 and $666,144, which were reduced by applied forfeitures of $0 and $76,407 for 2009 and 2008 respectively. Net employer contributions of $407,928 and $589,737 were recorded as a receivable to the Plan as of December 31, 2009 and 2008 respectively.

Participant Accounts

Each participant's account is credited with the participant's contribution, allocations of (a) the Company's discretionary contributions and (b) Plan earnings, net of certain investment management related fees. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their account is based upon years of credited service. Participants vest 20 percent per year beginning after the second year of service and are fully vested after six years of credited service.

Forfeited Accounts

At December 31, 2009, forfeited non-vested accounts totaled $12,636. These accounts will be used to reduce future employer contributions. No forfeitures were used to offset 2009 employer contributions.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any of the investment options managed by Fidelity.

1. Description of Plan (Continued)

Participant Loans

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. A participant may have more than one loan outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at an interest rate determined by the plan administrator based on prevailing interest rates under similar circumstances and is fixed over the life of the loan.

Payment of Benefits

On termination, the participant may elect to receive a distribution of their vested account balance from the Plan. The Custodian processes properly authorized distribution requests on a monthly basis. Benefits may be paid as a lump sum distribution or in an installment distribution if the account balance is greater than $5,000. If a participant's vested benefit is less than $5,000, a lump sum distribution from the Plan may be made at the discretion of the employer, regardless of whether the participant requests a distribution. However, the employer may determine not to cash out participant accounts provided that such determination is uniform with respect to all participants. Minimum distributions will be made no later than April 1 following the calendar year in which any participant attains age seventy and one-half, unless they are still employed and elect to defer minimum distributions. Withdrawals may also be made for financial hardship, which is determined pursuant to the provisions of the Code and the plan document.

Administrative Expenses

The Company pays certain administrative expenses of the Plan (see Note 6), while other expenses including loan-related fees are paid by the Plan. Other management fees and transaction costs associated with the investment options are included by the custodian in net appreciation (depreciation) in fair value of investments.

Plan Termination

The Company has the right to discontinue contributions at any time and terminate the Plan, subject to the provisions of ERISA. In the event of termination of the Plan, an evaluation is required to be made of all assets of the Plan, and an allocation made to participants. All participants become fully vested in the event of termination.

2. Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions from net assets during the reporting periods. Actual results could differ from those estimates.

Concentration of Credit Risk

The Plan's investments include registered investment company mutual funds that represent obligations by the counterparties to meet the terms of the financial instruments. Should one or more of the counterparties default, the Plan might lose amounts up to the recorded carrying value of the related instruments.

At December 31, 2009 and 2008, and throughout the year, the Plan maintained cash balances in excess of the federally insured limits.

Risks and Uncertainties

The Plan provides for various investment options in mutual funds and other securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

2. Summary of Significant Accounting Policies (Continued)

Investment Valuation and Income Recognition

Investments are stated at fair value. The Custodian determines the fair value of the shares of registered investment companies based on readily available quoted market prices. Participant loans are valued at the unpaid principal amount which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned on the accrual basis. Dividend income is recorded on the ex-dividend date. The Plan presents, in the Statement of Changes in Net Assets Available for Benefits, the net appreciation (depreciation) in the fair value of its investments, which consists of the realized gains or losses and unrealized appreciation (depreciation) on those investments.

Contributions

Participant contributions are recorded in the year withheld from earnings of Plan participants. Company match and discretionary contributions are recorded in the year which they become an obligation of the Company.

Payment of Benefits

Benefit payments are recorded when paid to participants.

Recent Accounting Pronouncements

On January 1, 2008, the Plan fully adopted authoritative guidance which expanded the disclosure of fair value measurements and its impact on the Plan's financial statements. (See Note 4.) In September 2009, the FASB issued authoritative guidance requiring additional disclosures regarding the inputs and valuation techniques used to measure fair value. The guidance also requires that the Plan disclose debt and equity securities by major category, on a more disaggregated basis. The adoption did not materially impact the Plan's financial statements.

For the year ending December 31, 2009, the Plan adopted the FASB's update to general standards on accounting for disclosures of events that occur after the balance sheet date but before the financial statements are issued or are available to be issued. The guidance is effective for interim and annual reporting periods ending after June 15, 2009. The adoption of the guidance did not materially impact the Plan's financial statements. (See Note 9.)

2. Summary of Significant Accounting Policies (Continued)

Recent Accounting Pronouncements (Continued)

In June 2009, the FASB codified existing accounting standards. The FASB Accounting Standards Codification (the "Codification" or "ASC") became the single official source of authoritative U.S, Generally Accepted Accounting Principles ("GAAP"), (other than guidance issued by the SEC), superseding existing FASB, American Institute of Certified Public Accountants, Emerging Issues Task Force, and related Literature. After that date, only one level of authoritative GAAP will exist. All other literature will be considered non-authoritative. The Codification does not change GAAP; instead it introduces a new structure that is organized in an easily accessible, user-friendly online research system. The Codification, which changes the referencing of financial standards, becomes effective for interim and annual periods ending on or after September 15, 2009. The adoption of this guidance did not have a material impact on the Plan's financial statements except for references made to authoritative accounting literature in footnotes.

3. Tax Status of the Plan

On October 9, 2003, the Internal Revenue Service issued a favorable opinion letter with respect to the qualified tax status of the Plan's prototype form under Section 401(a) of the Code and the Plan's compliance with the requirements of ERISA. The Plan is therefore exempt from federal income taxes under the provisions of Section 501(a) of the Code. Although, the Plan has not yet filed for its own determination letter, the Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Code.

4. Summary of Financial Data Certified By the Plan Custodian

The following is a summary of the investment information relating to the Plan, included in the accompanying financial statements and supplemental schedule. The information was prepared by Fidelity, the custodian and trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained certification from Fidelity that such information is complete and accurate under 29 CFR 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

All amounts enumerated in the Supplemental Schedule of Assets (Held at End of Year) at December 31, 2009 (pages 16-17) were also certified by the custodian.

5. Fair Value Measurements

Authoritative guidance issued by the FASB provides a definition of fair value, establishes a framework for measuring fair value and expands the disclosure on fair value measurements. It defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. The guidance also establishes a fair value hierarchy which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Under the guidance, the three levels of inputs that may be used to measure fair value are:

Level 1: Quoted prices for identical assets or liabilities in active markets.

Level 2: Observable inputs other than Level 1 prices, such as quoted prices for similar assets or liabilities; or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3: Unobservable inputs that are supported by little or no market activity and that are financial instruments whose values are determined using pricing models, discounted cash flow methodologies, or similar techniques, as well as instruments for which the determination of fair value requires significant judgment or estimation.

The following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Money market accounts: Highly liquid instruments purchased with an initial maturity of three months or less and considered to be cash equivalents valued using Level 1 inputs.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the Plan at year-end.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. Fair Value Measurements (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009			
	Level 1	Level 2	Level 3	Total

6. Party-in-Interest Transactions

The Plan allows for transactions with certain parties who may perform services or have fiduciary responsibilities to the Plan. Certain Plan investments are shares of mutual funds under the group annuity contract managed by Fidelity, custodian, trustee, and record-keeper of the Plan. The Plan issues loans to participants, which are secured by the balances in the participants' accounts. The Company may pay certain administrative expenses of the Plan, including, recordkeeping and audit fees. During 2009, the Company elected to pay certain administrative fees of the Plan of $23,570, excluding fees charged by the underlying mutual funds and administrative expenses charged by the Custodian. These transactions qualify as party in interest transactions for which a statutory exemption exists.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to amend or discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan terminations, participants will become 100 percent vested in their account balances.
