Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Reliant Pro Rehab, LLC Retirement Plan, (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2013 and 2012, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by Section 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information certified by State Street Bank and Trust Company and Nationwide Trust Company, FSB, the custodians of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the Plan Administrator that State Street Bank and Trust Company held the Plan's investment assets and executed investment transactions from November 1, 2013 to December 31, 2013, and that Nationwide Trust Company, FSB held the Plan's investment assets and executed investment transactions as of December 31, 2012 and for the period from January 1, 2012 to October 31, 2013. The Plan Administrator has obtained certifications from the custodians as of and for the years ended December 31, 2013 and 2012, that the information provided to the Plan Administrator by the custodians is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion of these financial statements.

Other Matters

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year), which is the responsibility of Plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosures under the Employee Retirement Income Security Act of 1974.

1. DESCRIPTION OF PLAN

The following description of the Reliant Pro Rehab, LLC Retirement Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Reliant Pro Rehab LLC and affiliated employers (the "Company") under the provision of section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC, for the benefit of eligible employees of the Company.

All employees of the Company are eligible to participate provided they are at least 21 years of age and have completed 6 months of service with the Company. The Plan is subject to the provision of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

Plan Administration

The Plan is administered by the Company. The duties of the Plan Administrator are to oversee the operations and administration of the Plan in accordance with the specific terms of the Plan, provide for prudent investment of Plan assets and keeping accurate records and reports. The Plan's custodians, State Street Bank and Trust Company ("State Street") and Nationwide Trust Company, FSB ("Nationwide") (collectively the "Custodians") are responsible for the custody and management of the Plan's assets. For the period January 1, 2012 through October 31, 2013, Nationwide served as the custodian and was responsible for the custody and management of the Plan's assets. For the period November 1, 2013 through December 31, 2013, State Street was appointed the custodian and assumed responsibility for the custody and management of the Plan's assets.

Contributions

Each year, participants may contribute up to 90 percent (100 percent prior to November 1, 2013) of annual compensation, as defined in the Plan, not to exceed the limits of IRC §401(k), §402(g), §404 and §415. The Plan permits both pre-tax and certain after-tax (Roth) deferral contributions. The effective date of the Roth elective deferral is November 1, 2013. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Plan does not provide for employer matching contributions. Profit sharing contributions may be contributed at the option of the Company. To be eligible for the employer profit sharing contributions, generally a participant must be actively employed at the end of the Plan year and complete a year of service, as defined in the Plan. Contributions are subject to certain limitations.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer contributions, as well as the participant's share of investment income, appreciation (depreciation) and any related administrative expenses. The participant determines both the amount to be invested and the allocation of the investment to one or more of the investment alternatives. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their elective contributions and the earnings received on those contributions. Vesting in the Company's contribution portion of their accounts is based on years of vesting service, as defined in the Plan. A participant is 100 percent vested after six years of credited service. Full and immediate vesting will also occur upon normal retirement age (age 65), death, or total and permanent disability, as defined in the Plan. Participants who leave the Company before they are vested in the Company's contributions forfeit their non-vested portion.

1. DESCRIPTION OF PLAN (Continued)

Investment Options

Upon enrollment in the Plan, a participant may direct the contributions made to the Plan, for or on behalf of the participant, to any one or more of the investment funds determined at the discretion of the participant and in such multiples as the participant prescribes. A participant may change his or her investment direction with respect to future contributions or redirect the investment of his or her account balances.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to $50,000 or 50 percent of their vested account balance, whichever is less. A participant can only have one loan outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at rates that are commensurate with local prevailing rates as determined by the Plan Administrator. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution equal to the participant's vested account balance. In addition, in-service and hardship distributions are permitted if certain criteria are met. After making a hardship withdrawal, the employee is restricted from making any employee pre-tax contributions until at least 6 months after the date of the withdrawal. Benefits are recorded when paid.

Forfeited Accounts

At December 31, 2013 and 2012, unallocated forfeitures totaled $516 and $487, respectively. Forfeitures are used to pay administrative expenses and reduce employer contributions. No forfeitures were used in 2013 and 2012.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Method of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Certain administrative expenses of the Plan are paid by the Plan. The remaining administrative expenses are paid by the Company. The Plan has no obligation to reimburse the Company for the expenses paid by the Company.

Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are recorded as distributions based upon terms of the Plan document.

Excess Contributions Payable

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding charge to corrective distributions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Investment Valuation and Income Recognition

Investments are stated at fair value. Changes in market value are reflected in operations. Mutual funds represent investment with various investment managers. The fair values of these investments are determined by reference to the funds' underlying assets, which are principally marketable equity and fixed income securities. Shares held in mutual funds are traded on national securities exchanges and are valued at the net asset value at year end. Interest and other income are recorded on the accrual basis. The units of common / collective trust funds are stated at fair value, which are estimated using net asset value per share as determined by the issuer of the funds, and are generally based on the fair market value of the underlying investments. Underlying investments in the Invesco Stable Asset Trust (the "Stable Asset Trust") are valued at fair market value of the underlying investments and then adjusted by the issuer to contract value. Purchases and sales of investments are recorded on the trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation (depreciation) of investments, including realized gains and losses on sales during the year and current changes in unrealized appreciation (depreciation) in the market value of investments held at year-end, is presented in the statements of changes in net assets available for benefits.

The Stable Asset Trust is a common / collective trust. The primary investment objectives of the Stable Asset Trust are to seek the preservation of principal and to provide interest income reasonably obtained under prevailing market conditions and rates, consistent with seeking to maintain required liquidity. The Stable Asset Trust's returns are based on returns generated by an actively managed, highly diversified portfolio of investment grade, fixed and floating rate securities. The Fund may invest in such securities directly or indirectly through commingled investment vehicles. In addition to the fixed income investments above, the Stable Asset Trust may enter into security investment contracts (sometimes called 'wrap agreements') issued by banks and insurance companies. These contracts are linked to the Stable Asset Trust's fixed income investments and are generally intended to allow for plan participant transactions to be effected at book value and the amortization of underlying fixed income gains and losses over a specified period of time through adjustments to the future contract interest crediting rate (which is the rate earned by investors in the Fund). The investment contracts provide that the adjustments to the interest crediting rate will not result in a future interest crediting rate that is less than zero. In general, if the contract value of the investment agreements exceeds the market value of the underlying investments (including accrued interest), the investment contract issuer becomes obligated to pay that difference to the Stable Asset Trust in the event that permitted plan participant redemptions result in a total contract liquidation. The circumstance under which payments are made and the timing of payments between the Stable Asset Trust and the contract issuer may vary based on the terms of the investment contracts, and the investment contract issuer's obligation to pay is subject to significant conditions relating to, among other things, the types and frequency of redemptions from or by the Stable Asset Trust. The Stable Asset Trust may also invest in traditional guaranteed investment contracts or insurance company separate account contracts as defined in the investment guidelines. The beneficial interest of each participant is represented by units. Units are issued and redeemed on each business day at the Stable Asset Trust's net asset value, based upon the closing value per unit, which is determined daily.

Fully benefit-responsive investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value remains the relevant measurement attribute for that portion of net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Any material difference between the fair value of these investments and their contract value is to be presented as a separate adjustment line in the statement of net assets available for benefits. The Plan invests in investment contracts through the Stable Asset Trust.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment at contract value. Contract value represents contributions made, plus earnings, less participant withdrawals and administrative expenses. The Stable Asset Trust imposes certain restrictions on the Plan, and the Stable Asset Trust itself may be subject to circumstances that affect its ability to transact at contract value. Redemptions are generally permitted daily. Plan management believes that the occurrence of events that would cause the Stable Asset Trust to transact at less than contract value is not probable.

The average yield earned by the Stable Asset Trust was 1.15 percent and the average yield earned and paid to plan participants by the Stable Asset Trust was 1.31 percent for the year ended December 31, 2013.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Risks and Uncertainties

The Plan provides for investments in various investment securities which, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Further, due to the level of risk associated with certain investment securities, it is at least reasonably possible that change in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the financial statements.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and affected the short term liquidity associated with certain investments held by the Plan which could impact the value of investments after the date of these financial statements. Because the values of individual investments fluctuate with market conditions, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined.

3. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by State Street, Nationwide or an affiliate. State Street and Nationwide are the custodians of the Plan and therefore, these transactions qualify as party-in-interest transactions. Purchases and sales of these accounts and the underlying investments comprising these accounts are open market transactions at fair value. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

4. INVESTMENTS

The following investments represent 5% or more of the Plan's net assets available for benefits:

(a) - The schedule reflects the fair value. The contract value of the Invesco Stable Asset Trust was $176,168 at December 31, 2013.

The net appreciation in fair value of plan investments was $175,717 and $84,451 for the years ended December 31, 2013 and 2012, respectively, is attributable to the investments in mutual funds.

5. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board Accounting Standards Codification 820, *Fair Value Measurements and Disclosures* ("FASB ASC 820") provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2013 and 2012, there were no significant transfers in or out of levels 1, 2 or 3.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2013 and 2012.

Mutual Funds: Valued at the net asset value of shares held by the Plan at year end.

Common / collective trusts: Investments in common / collective trust funds are valued based upon the redemption price of units held by the Plan, which are based on the current fair value of the common / collective trust funds' underlying assets using information reported in the audited financial statements of the common / collective trusts funds at year-end. Unit value or net asset value per unit is determined by the financial institution sponsoring such funds by dividing the fund's net assets at fair value by its units outstanding at the valuation dates. Net asset value is used as a practical expedient to estimate fair value. Units are issued and redeemed on each business day at net asset value, based upon the closing value per unit, which is determined daily.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

5. FAIR VALUE MEASUREMENTS (Continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets measured at fair value on a recurring basis as of December 31, 2013:

The Plan's independent accountants did not perform any auditing procedures with respect to this information, except for comparing such information to the related information included in the accompanying financial statements and supplemental schedule.

7. REPORTABLE TRANSACTIONS

During the years ended December 31, 2013 and 2012, the Company inadvertently failed to deposit $2,435 of participant deferrals within the required time frame as stated by the United States Department of Labor ("DOL"). The DOL considers late deposits to be prohibited transactions.

During the years ended December 31, 2013 and 2012, there were no other reportable transactions, loans in default or uncollectible, investment assets acquired and disposed of within the Plan or non-exempt transactions with parties-in-interest which would require supplemental presentation under DOL regulations.

8. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and the IRC. In the event of Plan termination, participants would become 100 percent vested in their employer accounts and the assets of the Plan will be distributed to the participants in accordance with the Plan's provisions.

9. TAX STATUS

Through October 31, 2013, the Company utilized the Simpkins & Associates, Inc. Prototype Non-Standardized 401(k) Profit Sharing Plan and Trust. The Internal Revenue Service has issued an opinion letter dated March 31, 2008 stating that the Plan is acceptable under section 401(a) of the IRC for use by employers for the benefit of their employees. The Company is relying on the opinion letter (in accordance with Announcement 2001-77) that the Plan meets the qualification requirements of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Effective November 1, 2013, the Company adopted the Automatic Data Processing Defined Contribution Non-Standardized 401(k) Profit Sharing Plan. The Internal Revenue Service has issued an opinion letter dated March 31, 2008 stating that the volume submitter document is acceptable under section 401(a) of the IRC for use by employers for the benefit of their employees. The Company is relying on the opinion letter (in accordance with Announcement 2001-77) that the Plan meets the qualification requirements of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

9. TAX STATUS (Continued)

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2013 and 2012 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2010.

On January 5, 2015, the Plan Administrator was notified that the DOL has rejected the Plan's 2013 Form 5500 pursuant to Section 104(a)(4) of ERISA. The DOL has determined that the Plan Administrator has failed to provide certain material information required to be part of the annual report filed pursuant to Section 101(b)(1) of ERISA and the regulations issued thereunder. An annual report which is rejected for a failure to provide material information is treated as a failure to file an annual report unless a revised report satisfactory to the DOL is filed within 45 days of the date of the notice of rejection. In this regard, both the IRS and DOL may impose substantial penalties on the Company. The DOL may bring a civil action or take any other action authorized by Title 1 of ERISA, including assessment of a civil penalty of up to $1,100 per day from the date on which the annual report was due (determined without regard to any extension for filing). Such penalties may be reduced by submitting the Form 5500 and corresponding audit of the Plan to the DOL.
