NOTES TO FINANCIAL STATEMENTS

Note 1 Description of the Plan

The following description of the Creative Alternatives, Inc. Employee Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General The Plan is a participant directed 403(b) defined contribution plan covering all full-time employees of Creative Alternatives, Inc., (the Company). All employees are eligible on the first day of employment. A participant is eligible to receive employer contributions at the beginning of the following quarter once they have attained one year of service during which they complete at least 1,000 hours of services and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The financial statements are prepared in accordance with accounting principles generally accepted in the United States of America.

Contributions Eligible employees of the Company may elect to contribute up to the applicable limits allowed under the Internal Revenue Code. Participants are allowed to make additional catch-up contributions to the Plan if they are 50 years of age or older as of the end of the plan year. The Company matches eligible 403(b) contributions, which is at the discretion of the board of trustees. Additionally, participants are permitted to make rollover contributions to the Plan from sources specified in the Plan agreement. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts Each participant's account is credited with the participant's contribution and allocation of (a) the Company's contribution, (b) plan earnings, and charged with an allocation of administrative expenses, and (c) any forfeitures. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Notes Receivable from Participants Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the vested balance in the participant's account. Loan terms, unless for the purchase of a principal residence, are not to exceed five years. Principal and interest are paid ratably through payroll deductions. Delinquent loans are treated as distributions based upon the terms of the plan document.

Payment of Benefits A participant may elect to receive all or a portion of their vested account balance upon termination of service, normal retirement date, or disability. Benefits may be paid in the form of a single lump sum or a partial payment or rolled over into another qualified plan. A participant may elect a hardship distribution prior to his or her separation from service in accordance with the hardship distribution policy.

Investment Options Upon enrollment in the Plan, a participant may direct contributions into numerous investment choices offered by Ascensus Trust Company. Participants may change their investment options through written request through the Company or via the internet.

Vesting Participants are immediately 100% vested in their elective deferrals and rollover contributions. Participants vesting in employer matching contributions is based on years of continuous service. A participant receives 20% vesting after two years of credited service and is 100% vested after five years. A vesting year of service is any plan year during which a participant completes 1,000 hours of service. A participant is 100% vested after reaching normal retirement age, or upon death or disability.

Note 1 Description of the Plan (Continued)

Forfeitures Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures will be used to reduce employer matching contributions. At June 30, 2014 and 2013, forfeited non-fully vested accounts totaled $5,537 and $4,101, respectively.

Administrative Expenses Certain administrative functions are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan. Most administrative expenses are paid directly by the Company.

Note 2 Summary of Accounting Policies

Basis of Accounting The Plan maintains its financial statements and accounting records on the accrual basis of accounting.

Investment Valuations and Income Recognition The Plan's investments are reported at fair value or contract value. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Investments Investments in Lincoln National Life Insurance Company are made in accordance with a group annuity contract, which offer fixed interest and variable investment options. Other investments are reported at fair value based on the quoted market price of the fund, which represents the net asset value of the shares held by the fund at year-end. Investments are maintained at the participant's direction.

The guaranteed account held at Lincoln National Life Insurance Company is a fully benefit responsive contract. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. As required, the fair value of investment contracts as well as any adjustment of the fully benefit responsive investment contracts are to be adjusted from fair value to contract value. For the years ending June 30, 2014 and 2013, an adjustment was not necessary because fair value equals contract value.

The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contract value as reported to the Plan represents contributions made under the contracts, plus earnings, less withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value. Certain events limit the Plan's ability to transact at contract value. Such events include a) failure of the Plan to qualify for exemption from federal income taxes or any required prohibited transaction exemption federal income taxes or any required prohibited transaction exemption under ERISA of 1974, or b) surrender charges due to early termination of the guaranteed account. The Plan administrator does not believe that the occurrence of any such value event is probable.

Note 2 Summary of Accounting Policies (Continued)

Recent Accounting Pronouncements On July 8, 2013, the Financial Accounting Standards Board issued Accounting Standards Update No. 2013-09, Fair Value Measurement (Topic 820): Deferral of the Effective Date of Certain Disclosures for Nonpublic Employee Benefit Plans in Update No. 2011-04, which was effective upon issuance. The amendments in this Update defer indefinitely the effective date of certain required disclosures in Update No. 2011-04 (Topic 820) of quantitative information about the significant unobservable inputs used in Level 3 fair value measurements for investments held by a nonpublic employee benefit plan in the plan sponsor's own nonpublic entity equity securities, including equity securities of its plan sponsor's nonpublic affiliated entities. The amendments in this Update do not defer the effective date for those certain quantitative disclosures for other nonpublic entity equity securities held in the nonpublic employee benefit plan or any qualitative disclosures. This Update No. 2013-09 has been adopted and reflected in Note 9.

In October 2012, the FASB issued ASU 2012-04, Technical Corrections and Improvements. The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The amendments in this update will generally be effective for fiscal periods beginning after December 15, 2013, for non public entities, except for amendments in this update where there was no transition guidance which were immediately effective upon issuance. The adoption of this update was not significant to these financial statements.

Payment of Benefits The Plan records benefits when paid. Total vested benefits due to terminated participants but not paid was $650,352 as of June 30, 2014.

Accounting for Uncertainty in Income Taxes Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the appropriate taxing jurisdictions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years ending June 30, 2010 and before.

Use of Estimates The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein. Accordingly, actual results could differ from those estimates.

Subsequent Events In preparing these financial statements, the Plan has evaluated events and transactions for potential recognition or disclosure through February 24, 2015, the date the financial statements were available to be issued.

Note 3 Information Prepared and Certified by the Trustees

The following is a summary of the Plan's asset information as of June 30, 2014 and 2013, and for the year ended June 30, 2014, included throughout the Plan's financial statements and supplemental schedules, that were prepared by or derived from information provided by the trustees and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the trustees that information provided to the Plan Administrator by the trustees related to the following assets are complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedules related to the following assets:

Note 5 Transactions with Parties-in-Interest

Ascensus Trust Company and Lincoln National Life Insurance Company, the Plan's trustees, Merrill Lynch, the Plan's financial advisor, and Atherton & Associates, LLP, independent auditor, qualify as parties-in-interest according to Section 3(14) of ERISA.

Note 6 Income Tax Status

The Plan and the related trust are designed in accordance with the applicable sections of the Internal Revenue Code. Although the Plan is not required to receive a tax determination letter, the Plan Administrator believes the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 7 Plan Termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to discontinue their contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

Note 8 Risk and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities, will occur in the near term and that such changes could materially affect participants' account and balances and the amounts reported in the statements of net assets available for benefits.

Note 9 Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Note 9 Fair Value Measurements (Continued)

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

There have been changes in the methodologies used at June 30, 2013. The mutual funds have been reclassified from a Level 2 investment to a Level 1 investment due to quoted market prices available for valuation. Following is a description of the valuation methodologies used for assets measured at fair value.

Money market funds: Determined using a market approach and is based upon unadjusted quoted prices for identical assets in active markets.

Mutual funds: Valued at the net asset value ("NAV") of shares held by the plan daily and at year end.

Pooled separate accounts: Valued at contract value, which is based on the number of participation units owned under the contract in each separate account times the unit value of the participation units. The unit values of participation units are estimated by the trustee based on the value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of participation units outstanding.

Guaranteed account: Valued based on the contract provisions. The funds are guaranteed against loss of principal, less all withdrawals, including charges and adjustments in order to meet the financial obligations from the general assets of the contract provider (Lincoln National Life Insurance Company. Interest is credited daily at an interest rate that will not be less than the interest rate contained in the contract. The interest crediting rate is declared on a quarterly basis, which the account earned an average of 3.5% during the plan year.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of:
