INDEPENDENT AUDITORS' REPORT

To the Advisory Committee of
Baker Tilly Virchow Krause, LLP 401(k) Savings Plan

We have audited the accompanying financial statements of Baker Tilly Virchow Krause, LLP 401(k) Savings Plan, which comprise the statements of net assets available for benefits as of May 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended May 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Baker Tilly Virchow Krause, LLP 401(k) Savings Plan as of May 31, 2014 and 2013, and the changes in its net assets available for benefits for the year then ended May 31, 2014 in accordance with accounting principles generally accepted in the United States of America.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Baker Tilly Virchow Krause, LLP (the Company) 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit-sharing plan covering any employee of the Company. Employees may begin participating in the Plan immediately upon their employment commencement date. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

The Plan offers a pre-tax (Regular) deferred arrangement and an after-tax (Roth) deferred arrangement both described in Internal Revenue Code Section 401(k). Both options are part of a qualified defined contribution plan that provides for an election by employees to defer part of their compensation. Regular 401(k) deferrals reduce current year taxable income but upon distribution, the deferrals and earnings thereon are taxed. Roth 401(k) deferrals are subject to income tax in the year they are made but upon distribution, the deferrals and, in most cases, the earnings on the deferrals are not subject to tax. Each year, participants may contribute up to 100% of annual compensation, as defined by the Plan, but cannot exceed the 402(g) limit. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions in accordance with, and subject to the limitations of, Section 414(v) of the Code.

Under the Safe Harbor Election, the Employer will contribute 3% of annual compensation to the Plan for all eligible Employees. Employees are eligible to receive this contribution after they have completed six months of service and work at least 500 hours by May 31 (the Plan year end).

In addition to making any safe harbor contribution, the Company may contribute a discretionary profit sharing or qualified nonelective contribution to Employees and/or Partners which will be determined each year by the Employer. Employees and/or Partners are eligible to receive these discretionary contributions if they are actively employed on the last day of the Plan year and work at least 500 hours by May 31 (the Plan year end).

The Plan includes an auto-enrollment provision whereby all new eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default deferral rate set at 6% of eligible compensation. Participants who are automatically enrolled into the Plan will have their deferral rates increased by 1% per year (to a maximum of 10%) unless they elect otherwise.

Participants may also contribute amounts representing distributions from other qualified plans and certain IRAs at the discretion of the administrator.

NOTE 1 - DESCRIPTION OF PLAN (cont.)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Benefits

On termination of service due to death, disability, retirement or any other reason, a participant or beneficiary may elect, from several optional forms of distribution, to receive an amount equal to the value of the vested account balance.

Vesting

A participant has a 100% vested interest at all times in his/her deferral contributions, qualified nonelective contributions, safe harbor contributions and profit sharing contributions.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any of several investment options. Participants may change their investment options at any time.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Participants may have up to two loans outstanding. Loans must be repaid within a five-year period unless the loan qualifies as a home loan. The loans are secured by the balance in the participant's account and are charged an interest rate determined by the Plan Administrator. Principal and interest payments must be made at least quarterly under a level amortization schedule. A loan initiation fee is applicable.

Forfeited Accounts

As of May 31, 2014 and May 31, 2013, forfeited nonvested accounts totaled $93,997 and $39,941 respectively, from participants of the former Beers & Cutler Retirement Savings Plan who terminated employment before May 31, 2010, Baker Tilly Virchow Krause, LLP employees who terminated employment before June 1, 2007, as well as revenue sharing from the former plan administrator, Milliman. These accounts will be used to reduce future employer contributions.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are reported at estimated fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (cont.)

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through the date of the independent auditors' report, which is the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

All contributions under the Plan are paid to the duly appointed Trustee, and shall be held, managed and administered, together with all income from such funds, as a trust fund. Participants allocate their contributions to various investment options provided by the Trustee. Participants are also permitted to borrow funds from the Plan in accordance with the appropriate provisions as described in Note 1.

The following presents investments that represent 5% or more of the Plan's net assets:

	5/31/2014	5/31/2013
Wells Fargo Stable Value	28,077,399	26,481,499
PIMCO Total Return Institutional	10,428,024	10,659,156
PIMCO All Asset Institutional	12,092,996	11,088,281
Dodge & Cox Stock	22,702,539	17,325,064
Vanguard Institutional Index	16,085,556	15,136,697
Harbor Capital Appreciation	20,363,275	16,322,303
American Funds Euro Pacific Growth	13,965,533	11,637,558

During the year ended May 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $17,640,874 as follows:

	5/31/2014
Mutual funds	$16,741,353
Self directed brokerage accounts	246,493
Collective trust fund	653,028
Net appreciation in fair value	$17,640,874

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

- Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 inputs to the valuation methodology include the following:

  — Quoted prices for similar assets or liabilities in active markets
  — Quoted prices for identical or similar assets or liabilities in inactive markets
  — Inputs other than quoted prices that are observable for the asset or liability
  — Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- *Mutual funds.* Valued at the net asset value of shares held by the Plan at year-end.
- *Collective trust fund.* Valued at the net asset value based on the underlying assets of the trust. The fair value of the underlying assets is obtained from information provided by the trustee using the audited financial statements of the collective trust fund at the respective year end.

The Wells Fargo Stable Return Fund is a fully benefit-responsive investment contract, with underlying investments in traditional guaranteed investment contracts ("GICs") and security-backed contracts issued by insurance companies and other financial institutions. Fair value of GICs is based on present value of future cash flows using the current discount rate. The fair value of a security-backed contract includes the value of the underlying securities and the value of the wrapper contract. Common collective trust funds are classified as having used Level 2

NOTE 4 - FAIR VALUE MEASUREMENTS (cont.)

inputs. Accordingly, the fair value measurement is classified as having used Level 2 inputs.

The plan sponsor is responsible for the determination of fair value. Accordingly, the plan sponsor performs periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services. The investments that calculate fair value based on net asset value have no unfunded commitment, daily redemption frequency and no redemption notice period.

For those assets with fair value measured using Level 3 inputs, the Plan Administrator determines the fair value measurement policies and procedures in consultation with the Plan trustee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy the Plan's assets at fair value as of May 31, 2014 and 2013:

	Assets at Fair Value as of May 31, 2014			
	Level 1	Level 2	Level 3	Total

Gains and losses (realized and unrealized) included in the statement of changes in net assets available for benefits for the year ended May 31, 2014 are reported in net appreciation in fair value of investments.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 6 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements, to Schedule H of Form 5500:

	5/31/2014	5/31/2013
Net assets available for benefits per the financial statements	$212,178,603	$171,447,786
Adjustments from contract value to fair value for fully benefit-responsive investment contract	477,316	503,148
Net assets available for benefits per Form 5500	$212,655,919	$171,950,934

NOTE 6 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 (cont.)

The following is a reconciliation of the changes in net assets available for benefits per the financial statements for the year ended May 31, 2014 to the Form 5500:

Increase in net assets per the financial statements	$40,730,817
Adjustment from contract value to fair value for fully benefit-responsive stable value fund – May 31, 2014	477,316
Adjustment from contract value to fair value for fully benefit-responsive stable value fund – May 31, 2013	(503,148)
Net income per Form 5500	$40,704,985

NOTE 7 - INCOME TAX STATUS

U.S. generally accepted accounting principles require management to evaluate income tax positions taken by the Plan and recognize an income tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would be sustained upon examination by taxing authorities. The Plan Administrator analyzed the tax positions taken by the Plan and concluded that as of May 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions for tax years for which the applicable statutes of limitations have not expired; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 – Transactions With Parties In Interest

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest. Fees paid by the plan for custodial and recordkeeping services amounted to $165,974 for the year ended May 31, 2014.

Certain accounting and administrative fees are paid for by the Company.

Investment management services are performed by an affiliate of the Company. Fees for these services amounted to $87,297 for the year ended May 31, 2014. The Company is the Plan sponsor and, therefore, these transactions qualify as party-in-interest.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 – SUBSEQUENT EVENTS

ParenteBeard, LLC merged into Baker Tilly Virchow Krause, LLP, effective October 1, 2014. The Baker Tilly plan was amended as of September 30, 2014 to exclude the heritage ParenteBeard employees from participating in the Baker Tilly plan. The Baker Tilly plan was subsequently amended on December 31, 2014 to allow heritage ParentBeard employees to participate. The ParenteBeard, LLC 401(k) Retirement Plan was merged into the Baker Tilly Virchow Krause, LLP 401(k) Savings Plan on December 31, 2014.

On January 1, 2015, the self-directed brokerage account option was expanded to all plan participants.

INDEPENDENT AUDITORS' REPORT ON SUPPLEMENTAL SCHEDULES

To the Advisory Committee of
Baker Tilly Virchow Krause, LLP 401(k) Savings Plan

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) and the supplemental schedule of nonexempt transactions, referred to as "supplemental information," are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

INDEPENDENT AUDITORS' REPORT

To the Advisory Committee of
Baker Tilly Virchow Krause, LLP 401(k) Savings Plan

We have audited the accompanying financial statements of Baker Tilly Virchow Krause, LLP 401(k) Savings Plan, which comprise the statements of net assets available for benefits as of May 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended May 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Baker Tilly Virchow Krause, LLP 401(k) Savings Plan as of May 31, 2014 and 2013, and the changes in its net assets available for benefits for the year then ended May 31, 2014 in accordance with accounting principles generally accepted in the United States of America.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Baker Tilly Virchow Krause, LLP (the Company) 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit-sharing plan covering any employee of the Company. Employees may begin participating in the Plan immediately upon their employment commencement date. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

The Plan offers a pre-tax (Regular) deferred arrangement and an after-tax (Roth) deferred arrangement both described in Internal Revenue Code Section 401(k). Both options are part of a qualified defined contribution plan that provides for an election by employees to defer part of their compensation. Regular 401(k) deferrals reduce current year taxable income but upon distribution, the deferrals and earnings thereon are taxed. Roth 401(k) deferrals are subject to income tax in the year they are made but upon distribution, the deferrals and, in most cases, the earnings on the deferrals are not subject to tax. Each year, participants may contribute up to 100% of annual compensation, as defined by the Plan, but cannot exceed the 402(g) limit. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions in accordance with, and subject to the limitations of, Section 414(v) of the Code.

Under the Safe Harbor Election, the Employer will contribute 3% of annual compensation to the Plan for all eligible Employees. Employees are eligible to receive this contribution after they have completed six months of service and work at least 500 hours by May 31 (the Plan year end).

In addition to making any safe harbor contribution, the Company may contribute a discretionary profit sharing or qualified nonelective contribution to Employees and/or Partners which will be determined each year by the Employer. Employees and/or Partners are eligible to receive these discretionary contributions if they are actively employed on the last day of the Plan year and work at least 500 hours by May 31 (the Plan year end).

The Plan includes an auto-enrollment provision whereby all new eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default deferral rate set at 6% of eligible compensation. Participants who are automatically enrolled into the Plan will have their deferral rates increased by 1% per year (to a maximum of 10%) unless they elect otherwise.

Participants may also contribute amounts representing distributions from other qualified plans and certain IRAs at the discretion of the administrator.

NOTE 1 - DESCRIPTION OF PLAN (cont.)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Benefits

On termination of service due to death, disability, retirement or any other reason, a participant or beneficiary may elect, from several optional forms of distribution, to receive an amount equal to the value of the vested account balance.

Vesting

A participant has a 100% vested interest at all times in his/her deferral contributions, qualified nonelective contributions, safe harbor contributions and profit sharing contributions.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any of several investment options. Participants may change their investment options at any time.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Participants may have up to two loans outstanding. Loans must be repaid within a five-year period unless the loan qualifies as a home loan. The loans are secured by the balance in the participant's account and are charged an interest rate determined by the Plan Administrator. Principal and interest payments must be made at least quarterly under a level amortization schedule. A loan initiation fee is applicable.

Forfeited Accounts

As of May 31, 2014 and May 31, 2013, forfeited nonvested accounts totaled $93,997 and $39,941 respectively, from participants of the former Beers & Cutler Retirement Savings Plan who terminated employment before May 31, 2010, Baker Tilly Virchow Krause, LLP employees who terminated employment before June 1, 2007, as well as revenue sharing from the former plan administrator, Milliman. These accounts will be used to reduce future employer contributions.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are reported at estimated fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (cont.)

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through the date of the independent auditors' report, which is the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

All contributions under the Plan are paid to the duly appointed Trustee, and shall be held, managed and administered, together with all income from such funds, as a trust fund. Participants allocate their contributions to various investment options provided by the Trustee. Participants are also permitted to borrow funds from the Plan in accordance with the appropriate provisions as described in Note 1.

The following presents investments that represent 5% or more of the Plan's net assets:

	5/31/2014	5/31/2013
Wells Fargo Stable Value	28,077,399	26,481,499
PIMCO Total Return Institutional	10,428,024	10,659,156
PIMCO All Asset Institutional	12,092,996	11,088,281
Dodge & Cox Stock	22,702,539	17,325,064
Vanguard Institutional Index	16,085,556	15,136,697
Harbor Capital Appreciation	20,363,275	16,322,303
American Funds Euro Pacific Growth	13,965,533	11,637,558

During the year ended May 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $17,640,874 as follows:

	5/31/2014
Mutual funds	$16,741,353
Self directed brokerage accounts	246,493
Collective trust fund	653,028
Net appreciation in fair value	$17,640,874

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

- Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 inputs to the valuation methodology include the following:

  — Quoted prices for similar assets or liabilities in active markets
  — Quoted prices for identical or similar assets or liabilities in inactive markets
  — Inputs other than quoted prices that are observable for the asset or liability
  — Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- *Mutual funds.* Valued at the net asset value of shares held by the Plan at year-end.
- *Collective trust fund.* Valued at the net asset value based on the underlying assets of the trust. The fair value of the underlying assets is obtained from information provided by the trustee using the audited financial statements of the collective trust fund at the respective year end.

The Wells Fargo Stable Return Fund is a fully benefit-responsive investment contract, with underlying investments in traditional guaranteed investment contracts ("GICs") and security-backed contracts issued by insurance companies and other financial institutions. Fair value of GICs is based on present value of future cash flows using the current discount rate. The fair value of a security-backed contract includes the value of the underlying securities and the value of the wrapper contract. Common collective trust funds are classified as having used Level 2

NOTE 4 - FAIR VALUE MEASUREMENTS (cont.)

inputs. Accordingly, the fair value measurement is classified as having used Level 2 inputs.

The plan sponsor is responsible for the determination of fair value. Accordingly, the plan sponsor performs periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services. The investments that calculate fair value based on net asset value have no unfunded commitment, daily redemption frequency and no redemption notice period.

For those assets with fair value measured using Level 3 inputs, the Plan Administrator determines the fair value measurement policies and procedures in consultation with the Plan trustee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy the Plan's assets at fair value as of May 31, 2014 and 2013:

	Assets at Fair Value as of May 31, 2014			
	Level 1	Level 2	Level 3	Total

Gains and losses (realized and unrealized) included in the statement of changes in net assets available for benefits for the year ended May 31, 2014 are reported in net appreciation in fair value of investments.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 6 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements, to Schedule H of Form 5500:

	5/31/2014	5/31/2013
Net assets available for benefits per the financial statements	$212,178,603	$171,447,786
Adjustments from contract value to fair value for fully benefit-responsive investment contract	477,316	503,148
Net assets available for benefits per Form 5500	$212,655,919	$171,950,934

NOTE 6 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 (cont.)

The following is a reconciliation of the changes in net assets available for benefits per the financial statements for the year ended May 31, 2014 to the Form 5500:

Increase in net assets per the financial statements	$40,730,817
Adjustment from contract value to fair value for fully benefit-responsive stable value fund – May 31, 2014	477,316
Adjustment from contract value to fair value for fully benefit-responsive stable value fund – May 31, 2013	(503,148)
Net income per Form 5500	$40,704,985

NOTE 7 - INCOME TAX STATUS

U.S. generally accepted accounting principles require management to evaluate income tax positions taken by the Plan and recognize an income tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would be sustained upon examination by taxing authorities. The Plan Administrator analyzed the tax positions taken by the Plan and concluded that as of May 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions for tax years for which the applicable statutes of limitations have not expired; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 – Transactions With Parties In Interest

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest. Fees paid by the plan for custodial and recordkeeping services amounted to $165,974 for the year ended May 31, 2014.

Certain accounting and administrative fees are paid for by the Company.

Investment management services are performed by an affiliate of the Company. Fees for these services amounted to $87,297 for the year ended May 31, 2014. The Company is the Plan sponsor and, therefore, these transactions qualify as party-in-interest.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 – SUBSEQUENT EVENTS

ParenteBeard, LLC merged into Baker Tilly Virchow Krause, LLP, effective October 1, 2014. The Baker Tilly plan was amended as of September 30, 2014 to exclude the heritage ParenteBeard employees from participating in the Baker Tilly plan. The Baker Tilly plan was subsequently amended on December 31, 2014 to allow heritage ParentBeard employees to participate. The ParenteBeard, LLC 401(k) Retirement Plan was merged into the Baker Tilly Virchow Krause, LLP 401(k) Savings Plan on December 31, 2014.

On January 1, 2015, the self-directed brokerage account option was expanded to all plan participants.

INDEPENDENT AUDITORS' REPORT ON SUPPLEMENTAL SCHEDULES

To the Advisory Committee of
Baker Tilly Virchow Krause, LLP 401(k) Savings Plan

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) and the supplemental schedule of nonexempt transactions, referred to as "supplemental information," are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

INDEPENDENT AUDITORS' REPORT

To the Advisory Committee of
Baker Tilly Virchow Krause, LLP 401(k) Savings Plan

We have audited the accompanying financial statements of Baker Tilly Virchow Krause, LLP 401(k) Savings Plan, which comprise the statements of net assets available for benefits as of May 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended May 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Baker Tilly Virchow Krause, LLP 401(k) Savings Plan as of May 31, 2014 and 2013, and the changes in its net assets available for benefits for the year then ended May 31, 2014 in accordance with accounting principles generally accepted in the United States of America.

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Baker Tilly Virchow Krause, LLP (the Company) 401(k) Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution profit-sharing plan covering any employee of the Company. Employees may begin participating in the Plan immediately upon their employment commencement date. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Contributions

The Plan offers a pre-tax (Regular) deferred arrangement and an after-tax (Roth) deferred arrangement both described in Internal Revenue Code Section 401(k). Both options are part of a qualified defined contribution plan that provides for an election by employees to defer part of their compensation. Regular 401(k) deferrals reduce current year taxable income but upon distribution, the deferrals and earnings thereon are taxed. Roth 401(k) deferrals are subject to income tax in the year they are made but upon distribution, the deferrals and, in most cases, the earnings on the deferrals are not subject to tax. Each year, participants may contribute up to 100% of annual compensation, as defined by the Plan, but cannot exceed the 402(g) limit. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions in accordance with, and subject to the limitations of, Section 414(v) of the Code.

Under the Safe Harbor Election, the Employer will contribute 3% of annual compensation to the Plan for all eligible Employees. Employees are eligible to receive this contribution after they have completed six months of service and work at least 500 hours by May 31 (the Plan year end).

In addition to making any safe harbor contribution, the Company may contribute a discretionary profit sharing or qualified nonelective contribution to Employees and/or Partners which will be determined each year by the Employer. Employees and/or Partners are eligible to receive these discretionary contributions if they are actively employed on the last day of the Plan year and work at least 500 hours by May 31 (the Plan year end).

The Plan includes an auto-enrollment provision whereby all new eligible employees are automatically enrolled in the Plan, unless they affirmatively elect not to participate, with a default deferral rate set at 6% of eligible compensation. Participants who are automatically enrolled into the Plan will have their deferral rates increased by 1% per year (to a maximum of 10%) unless they elect otherwise.

Participants may also contribute amounts representing distributions from other qualified plans and certain IRAs at the discretion of the administrator.

NOTE 1 - DESCRIPTION OF PLAN (cont.)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution, and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Benefits

On termination of service due to death, disability, retirement or any other reason, a participant or beneficiary may elect, from several optional forms of distribution, to receive an amount equal to the value of the vested account balance.

Vesting

A participant has a 100% vested interest at all times in his/her deferral contributions, qualified nonelective contributions, safe harbor contributions and profit sharing contributions.

Investment Options

Upon enrollment in the Plan, a participant may direct contributions in any of several investment options. Participants may change their investment options at any time.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Participants may have up to two loans outstanding. Loans must be repaid within a five-year period unless the loan qualifies as a home loan. The loans are secured by the balance in the participant's account and are charged an interest rate determined by the Plan Administrator. Principal and interest payments must be made at least quarterly under a level amortization schedule. A loan initiation fee is applicable.

Forfeited Accounts

As of May 31, 2014 and May 31, 2013, forfeited nonvested accounts totaled $93,997 and $39,941 respectively, from participants of the former Beers & Cutler Retirement Savings Plan who terminated employment before May 31, 2010, Baker Tilly Virchow Krause, LLP employees who terminated employment before June 1, 2007, as well as revenue sharing from the former plan administrator, Milliman. These accounts will be used to reduce future employer contributions.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are reported at estimated fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan.

The Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan Administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES (cont.)

Subsequent Events

Management evaluates events occurring subsequent to the date of the financial statements in determining the accounting for and disclosure of transactions and events that affect the financial statements. Subsequent events have been evaluated through the date of the independent auditors' report, which is the date the financial statements were available to be issued.

NOTE 3 - INVESTMENTS

All contributions under the Plan are paid to the duly appointed Trustee, and shall be held, managed and administered, together with all income from such funds, as a trust fund. Participants allocate their contributions to various investment options provided by the Trustee. Participants are also permitted to borrow funds from the Plan in accordance with the appropriate provisions as described in Note 1.

The following presents investments that represent 5% or more of the Plan's net assets:

	5/31/2014	5/31/2013
Wells Fargo Stable Value	28,077,399	26,481,499
PIMCO Total Return Institutional	10,428,024	10,659,156
PIMCO All Asset Institutional	12,092,996	11,088,281
Dodge & Cox Stock	22,702,539	17,325,064
Vanguard Institutional Index	16,085,556	15,136,697
Harbor Capital Appreciation	20,363,275	16,322,303
American Funds Euro Pacific Growth	13,965,533	11,637,558

During the year ended May 31, 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $17,640,874 as follows:

	5/31/2014
Mutual funds	$16,741,353
Self directed brokerage accounts	246,493
Collective trust fund	653,028
Net appreciation in fair value	$17,640,874

NOTE 4 - FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820-10 are described as follows:

- Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 inputs to the valuation methodology include the following:

  — Quoted prices for similar assets or liabilities in active markets
  — Quoted prices for identical or similar assets or liabilities in inactive markets
  — Inputs other than quoted prices that are observable for the asset or liability
  — Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- *Mutual funds.* Valued at the net asset value of shares held by the Plan at year-end.
- *Collective trust fund.* Valued at the net asset value based on the underlying assets of the trust. The fair value of the underlying assets is obtained from information provided by the trustee using the audited financial statements of the collective trust fund at the respective year end.

The Wells Fargo Stable Return Fund is a fully benefit-responsive investment contract, with underlying investments in traditional guaranteed investment contracts ("GICs") and security-backed contracts issued by insurance companies and other financial institutions. Fair value of GICs is based on present value of future cash flows using the current discount rate. The fair value of a security-backed contract includes the value of the underlying securities and the value of the wrapper contract. Common collective trust funds are classified as having used Level 2

NOTE 4 - FAIR VALUE MEASUREMENTS (cont.)

inputs. Accordingly, the fair value measurement is classified as having used Level 2 inputs.

The plan sponsor is responsible for the determination of fair value. Accordingly, the plan sponsor performs periodic analysis on the prices received from the pricing services used to determine whether the prices are reasonable estimates of fair value. As a result of these reviews, the plan sponsor has not historically adjusted the prices obtained from the pricing services. The investments that calculate fair value based on net asset value have no unfunded commitment, daily redemption frequency and no redemption notice period.

For those assets with fair value measured using Level 3 inputs, the Plan Administrator determines the fair value measurement policies and procedures in consultation with the Plan trustee. Those policies and procedures are reassessed at least annually to determine if the current valuation techniques are still appropriate. At that time, the unobservable inputs used in the fair value measurements are evaluated and adjusted, as necessary, based on current market conditions and other third-party information.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level within the fair value hierarchy the Plan's assets at fair value as of May 31, 2014 and 2013:

	Assets at Fair Value as of May 31, 2014			
	Level 1	Level 2	Level 3	Total

Gains and losses (realized and unrealized) included in the statement of changes in net assets available for benefits for the year ended May 31, 2014 are reported in net appreciation in fair value of investments.

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE 6 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements, to Schedule H of Form 5500:

	5/31/2014	5/31/2013
Net assets available for benefits per the financial statements	$212,178,603	$171,447,786
Adjustments from contract value to fair value for fully benefit-responsive investment contract	477,316	503,148
Net assets available for benefits per Form 5500	$212,655,919	$171,950,934

NOTE 6 - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500 (cont.)

The following is a reconciliation of the changes in net assets available for benefits per the financial statements for the year ended May 31, 2014 to the Form 5500:

Increase in net assets per the financial statements	$40,730,817
Adjustment from contract value to fair value for fully benefit-responsive stable value fund – May 31, 2014	477,316
Adjustment from contract value to fair value for fully benefit-responsive stable value fund – May 31, 2013	(503,148)
Net income per Form 5500	$40,704,985

NOTE 7 - INCOME TAX STATUS

U.S. generally accepted accounting principles require management to evaluate income tax positions taken by the Plan and recognize an income tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would be sustained upon examination by taxing authorities. The Plan Administrator analyzed the tax positions taken by the Plan and concluded that as of May 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions for tax years for which the applicable statutes of limitations have not expired; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes the Plan is no longer subject to income tax examinations for years prior to 2010.

NOTE 8 – Transactions With Parties In Interest

Certain Plan investments are shares of mutual funds managed by Fidelity Management Trust Company. Fidelity Management Trust Company is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest. Fees paid by the plan for custodial and recordkeeping services amounted to $165,974 for the year ended May 31, 2014.

Certain accounting and administrative fees are paid for by the Company.

Investment management services are performed by an affiliate of the Company. Fees for these services amounted to $87,297 for the year ended May 31, 2014. The Company is the Plan sponsor and, therefore, these transactions qualify as party-in-interest.

NOTE 9 - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10 – SUBSEQUENT EVENTS

ParenteBeard, LLC merged into Baker Tilly Virchow Krause, LLP, effective October 1, 2014. The Baker Tilly plan was amended as of September 30, 2014 to exclude the heritage ParenteBeard employees from participating in the Baker Tilly plan. The Baker Tilly plan was subsequently amended on December 31, 2014 to allow heritage ParentBeard employees to participate. The ParenteBeard, LLC 401(k) Retirement Plan was merged into the Baker Tilly Virchow Krause, LLP 401(k) Savings Plan on December 31, 2014.

On January 1, 2015, the self-directed brokerage account option was expanded to all plan participants.

INDEPENDENT AUDITORS' REPORT ON SUPPLEMENTAL SCHEDULES

To the Advisory Committee of
Baker Tilly Virchow Krause, LLP 401(k) Savings Plan

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) and the supplemental schedule of nonexempt transactions, referred to as "supplemental information," are presented for the purpose of additional analysis and are not a required part of the financial statements but are supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.
