We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Security Act of 1974.

RETIREMENT PLAN

Notes to Financial Statements
December 31, 2009 and 2008

NOTE 1 - DESCRIPTION OF PLAN

The following description of the Win-Dor, Inc. Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for more detailed information of the Plan's provisions.

General - The Plan is a defined contribution 401(k) profit sharing plan. The Plan covers all employees of Win-Dor, Inc. who are at least age 18 and have completed three months of continued service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants' contributions are made to the Plan by means of salary deferral by which the participant is entitled to defer the lesser of 100 percent of eligible compensation, or a fixed amount determined annually by the Internal Revenue Service. The Company may also voluntarily match participant contributions. In addition, the Company, at its option, may contribute a portion of its current profits. For the years ended December 31, 2009 and 2008, no discretionary profit sharing contributions or matching contributions were allocated to the Plan.

Participant Accounts - Each participant's account is credited with the participant's contributions and an allocation of (a) the Company's discretionary matching and profit sharing contributions, and (b) Plan earnings. Allocations of Plan earnings or losses are based on individual participant account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested interest in their account.

Vesting - Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the remainder of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Payment of Benefits - On termination of service, a participant may elect to receive a lump-sum payment equal to the vested value of his or her account. Other distributable events include death, disability, retirement and minimum required distributions.

Forfeitures - Participants terminating employment with the Company will forfeit any nonvested employer contributions. The forfeited nonvested contributions are available to reduce future contributions of the employer and administrative expenses of the Plan. There were no forfeited nonvested contributions used to reduce employer contributions or Plan expenses during the years ending December 31, 2009 and 2008. There were no forfeited nonvested contributions available for future use at December 31, 2009 and 2008.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Administrative Expenses - Certain administrative expenses are paid out of the Plan except to the extent paid by the Plan sponsor. Certain loan and benefit payment administrative expenses are charged against each participant's account.

Participant Loans - Participants may borrow from their fund accounts a minimum of $1,000 or up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan transactions are treated as a transfer to (from) the investment fund from (to) the Participant Loan fund. Loan terms are for up to five years unless it is for the purchase of a primary residence, in which case the loan term cannot exceed 10 years. The loans are secured by the vested balance in the participant's account and bear interest at a rate established by the employer based on prevailing rates.

Investments - Each participant directs the allocation of his or her contribution, and employer matching and discretionary profit sharing contributions to one or more of 17 investment options.

Risk and Uncertainties - The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is at least reasonably possible that changes in risks in the near-term would materially affect participants account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statements of Changes in Net Assets Available for Benefits.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation - The financial statements have been prepared in compliance with the Department of Labor Rules and Regulations for reporting and disclosure under ERISA.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

NOTE 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Basis of Accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

FASB Codification - The Financial Accounting Standards Board (FASB) sets generally accepted accounting principles (GAAP) that the Plan follows to ensure consistent reporting of financial condition, results of operations, and cash flows. In June 2009, the FASB established the FASB Accounting Standards Codification (Codification) as the sole source of authoritative GAAP.

The Codification does not change how the Plan accounts for its transactions or the nature of the related disclosures made. The change was made effective by the FASB for periods ending on or after September 15, 2009. The adoption of the Codification did not impact the Plan's financial position and results of operations. The Plan has updated these financial statements to reflect the guidance in the Codification.

Subsequent Events - The Plan evaluated subsequent events through August 31, 2010, the date these financial statements were issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 4 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts (Mutual funds): Valued at the net asset value (NAV) of shares held by the plan at year end.

Guaranteed interest accounts: Valued at contract value, which approximates fair value.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009			
	Level 1	*Level 2*	*Level 3*	*Total*

NOTE 5 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, so that each participant receives 100 percent of his or her account balance as of the date of termination.

NOTE 6 - TAX STATUS

The Plan uses a prototype plan document sponsored by the trustee. The trustee received an opinion letter from the Internal Revenue Service ("IRS"), dated July 5, 2005, which states that the prototype document satisfies the applicable provisions of the Internal Revenue Code ("IRC"). Since receiving the opinion letter, the Plan has been amended. The Plan's management and trustee believe the amendments to the original Plan document will not adversely impact the Plan's compliance with the applicable requirements of the IRC. Therefore, no provision for income tax has been included in the Plan's financial statements.

NOTE 7 - RELATED PARTY AND PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are shares of mutual funds managed by The Standard Insurance Company. The Standard Insurance Company is the trustee as defined by the Plan, and therefore, these transactions qualify as party-in-interest transactions. The Plan Sponsor is also a party-in-interest with respect to the Plan. Participant loans receivable and the related interest income are also considered related party transactions.

NOTE 8 - PROHIBITED TRANSACTION

In accordance with the Department of Labor regulations, the Plan sponsor is required to remit employee contributions as soon as they can be reasonably segregated from the Plan sponsor's general assets, but no later than the 15th business day of the month following the month in which the participant contributions were withheld by the Plan sponsor. Untimely remittance may constitute a prohibited transaction as it is deemed to be a use of the plan assets for the benefit of the sponsor or a prohibited extension of credit. During the year ended December 31, 2009, there were instances in which remittances were filed late totaling $9,050. The Company is in the process of rectifying the matter by paying lost earnings on the late remittances for the year ended December 31, 2009. There were no late remittances for the year ended December 31, 2008.
