1. DESCRIPTION OF PLAN

The following description of the Multi Image Group, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established by Multi Image Group, Inc. (the "Company") under the provision of section 401(a) of the Internal Revenue Code ("IRC"), which includes a qualified cash or deferred arrangement as described in section 401(k) of the IRC, for the benefit of eligible employees of the Company.

All employees of the Company and MIG-NY, Inc. who are at least 18 years of age are eligible to participate for purposes of elective deferrals. Employees are eligible to participate in matching and profit sharing contributions once they are at least 18 years of age and have completed one year of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"), as amended.

The Plan is administered by the Employee Benefits Committee of the Company. The duties of the Employee Benefits Committee are to oversee the operations and administration of the Plan in accordance with the specific terms of the Plan. The Plan's custodian, John Hancock Life Insurance Company (the "Custodian") is responsible for the custody of the Plan's assets.

Contributions

Each year, participants may contribute up to 100 percent of annual compensation, as defined in the Plan, not to exceed the limits of IRC §401(k), §402(g), §404 and §415. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other eligible retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

The Company may make matching contributions equal to a discretionary percentage, to be determined by the Employer, of the participant's elective deferral. In determining the matching contribution, only elective deferrals up to a discretionary percentage of a participant's contribution, or a discretionary dollar amount will be matched, the percentage or dollar amount to be determined by the Employer on a uniform basis to all participants. Additional profit sharing amounts (nonelective contributions) may be contributed at the option of the Company's board of directors. Participants employed on the last day of the plan year are eligible for matching contributions regardless of the amount of service completed. To be eligible for the profit sharing contributions, participants must be employed on the last day of the plan year and have completed at least 1,000 hours of service during the plan year. Contributions are subject to certain limitations.

Participant Accounts

Individual accounts are maintained for each of the Plan's participants to reflect the participant's contributions and related employer matching and discretionary contributions, as well as the participant's share of investment income, appreciation (depreciation) and any related administrative expenses. The participant determines both the amount to be invested and the allocation of the investment to one or more of the investment alternatives. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. DESCRIPTION OF PLAN (Continued)

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion of their accounts is based on years of vesting service, as defined in the Plan. A participant is 100 percent vested after six years of credited service. Full and immediate vesting will also occur upon normal retirement age (age 65), death, or totally disabled, as defined in the Plan. Participants who leave the Company before they are vested in the Company's contributions forfeit their nonvested portion.

Investment Options

Upon enrollment in the Plan, a participant may direct the contributions made to the Plan to any one or more of the investment alternatives maintained by the Custodian, determined at the discretion of the participant and in such multiples as the participant prescribes. A participant may change his or her investment direction with respect to future contributions or redirect the investment of his or her account balances.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to $50,000 or 50% of their vested account balance, whichever is less. A participant can only have two notes receivable outstanding at a time. The loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25 percent to 9.25 percent, which are commensurate with local prevailing rates as determined by the Plan Administrator. Any loan must be repaid within five years, unless such loan is for the purchase of a participant's primary residence in which case the repayment period may exceed five years. Principal and interest is paid ratably through payroll deductions.

Payment of Benefits

On retirement, death, disability, or termination of service, a participant (or participant's beneficiary in the event of death) may elect to receive a lump-sum distribution equal to the participant's vested account balance. In addition, in-service and hardship distributions are permitted if certain criteria are met. Benefits are recorded when paid.

Forfeited Accounts

At December 31, 2014 and 2013, unallocated forfeitures totaled $3,855 and $2,007, respectively. These accounts may be used to pay Plan expenses or reduce future employer contributions. For the years ended December 31, 2014 and 2013, $3,848 and $2,001 of forfeitures were used to reduce employer matching contributions made in 2015 and 2014, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A summary of the significant accounting policies consistently applied in the preparation of the accompanying financial statements follows:

Method of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting. Certain administrative expenses of the Plan are paid by the Plan. The remaining administrative expenses are paid by the Company. The Plan has no obligation to reimburse the Company for the expenses paid by the Company.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable are reclassified as distributions based upon the term of the Plan document and taxable to the participants.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Use of Estimates

In preparing financial statements in conformity with accounting principles generally accepted in the United States of America, management is required to make estimates and assumptions that affect the reported amounts of assets and liabilities, the disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are stated at fair value. Changes in market value are reflected in operations. Pooled separate account funds are valued at the net asset value of units held by the Plan at year end. The net asset value is based on the market value of the underlying investments and as supported by the unit prices of actual purchase and sale transactions occurring as of or close to the financial statement date. Purchases and sales of investments are recorded on the trade-date basis. Dividends are recorded on the ex-dividend date. Interest income is recorded on the accrual basis. The net appreciation (depreciation) of investments, including realized gains and losses on sales during the year and current changes in unrealized appreciation (depreciation) in the market value of investments held at year-end, is presented in the statements of changes in net assets available for benefits.

Risks and Uncertainties

Investments are exposed to various risks, such as interest rate, market and credit risk. Due to the level of risk associated with such investments, it is at least reasonably possible that changes in the values of the investments will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Recent market conditions have resulted in an unusually high degree of volatility and increased the risks and affected the short term liquidity associated with certain investments held by the Plan which could impact the value of investments after the date of these financial statements. Because the values of individual investments fluctuate with market conditions, the amount of gains or losses that will be recognized in subsequent periods, if any, cannot be determined.

3. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The Plan Administrator has elected the method of annual reporting compliance permitted by Section 2520.103-8 of the United States Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Custodian has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate as of and for the years ended December 31, 2014 and 2013:

	2014	2013
Investments at fair value:		
Pooled separate accounts	$ 7,145,338	$ 6,143,664
Guaranteed interest accounts	54,707	87,821
Notes receivable from participants	186,371	218,341
Noninterest-bearing cash	3,855	2,007
	$ 7,390,271	$ 6,451,833
Investment income:		
Interest and dividends	$ 9,351	$ 9,834
Net appreciation in value of investments	264,651	954,495
	$ 274,002	$ 964,329

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

4. INVESTMENTS

The following investments represent 5% or more of the Plan's net assets available for benefits:

	December 31, 2014	December 31, 2013
Lifestyle Fund – Growth Portfolio *	$ 2,820,128	$ 2,542,410
Lifestyle Fund – Balanced Portfolio *	544,033	469,862
Money Market Fund *	741,130	657,267

* - Party-in-interest

The net appreciation in fair value of Plan investments of $264,651 and $954,495 for the years ended December 31, 2014 and 2013, respectively, is attributable to the investments in pooled separate accounts.

5. INVESTMENT CONTRACTS WITH INSURANCE COMPANIES

Pooled Separate Accounts

The Plan has entered into investment contracts with John Hancock Life Insurance Company ("John Hancock"), the custodian. John Hancock maintains certain investments in pooled separate accounts. Assets of this contract are invested in shares of the specific funds elected in the contract application. Each of the pooled separate accounts invests in stocks, fixed securities or in a single mutual fund which is generally identified in the name of the pooled separate account. The investment strategies of these pooled separate accounts are consistent with each of the stocks, fixed securities and single mutual fund identified in the name of the fund. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses. The contract is included in the financial statements at fair value, which approximates contract value as reported to the Plan by the custodians.

There were no valuation reserves recorded associated with the pooled separate accounts in 2014 and 2013. The pooled separate accounts have been categorized based upon the investment composition and strategies of the underlying mutual fund that each account holds. Each pooled separate account provides for daily redemptions by the Plan with no advance notice requirements, and has redemption prices that are determined by the net asset value.

Guaranteed Interest Accounts

John Hancock maintains certain contributions in a general account. The account is credited with earnings on the underlying investments and charged for Plan withdrawals and administrative expenses charged by John Hancock. The contract is included in the financial statements at contract value, which approximates fair value. Guaranteed interest rates are based upon claims paying ability of the issuing company, John Hancock and reflect a number of factors, including interest rate guarantees, the investment income earned on invested assets, and prevailing market conditions. Guaranteed interest accounts are not insured by the Federal Deposit Insurance Corporation ("FDIC"). Interest rates are established on the first day of each calendar month and apply to all regular ongoing contributions made to the account in that month. This is called "new money" regular rate. At the end of each reporting year, a "composite rate" of interest is determined. The composite interest rate is a dollar-weighted average rate of all contributions to that guaranteed interest account during that reporting year. After the end of each reporting year, contributions made will continue to earn that reporting year's composite interest rate until the end of the guaranteed term. The John Hancock guaranteed interest accounts are backed by John Hancock's general accounts. The John Hancock guaranteed interest accounts seek to achieve investment income consistent with the preservation of principal, primarily through investments in federal and other government bonds, corporate bonds, and commercial mortgages. Transfers and withdrawals from the guaranteed interest accounts are subject to certain restrictions and the administrative guidelines of John Hancock.

6. REPORTABLE TRANSACTIONS

During the years ended December 31, 2014 and 2013, there were no reportable transactions, no investments both acquired and disposed of within the Plan year, no loans or leases in default or uncollectible or non-exempt transactions with parties-in-interest which would require presentation under the United States Department of Labor's Rules and Regulations.

7. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are units of pooled separate accounts and guaranteed interest accounts managed by John Hancock. John Hancock is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Purchases and sales of these accounts and the underlying investments comprising these accounts are open market transactions at fair market value. Such transactions are permitted under the provisions of the Plan and are exempt from the prohibition of party-in-interest transactions under ERISA.

8. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board ASC 820, *Fair Value Measurements and Disclosures* provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. For the years ended December 31, 2014 and 2013, there were no significant transfers in or out of levels 1, 2 or 3.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2014 and 2013.

Pooled separate accounts: Valued at the net asset value of units held by the Plan at year end. Each of the pooled separate accounts invests either in multiple securities or in a single mutual fund which is generally identified in the name of the pooled separate account. The net asset value of these accounts is based on the fair value of the underlying assets owned by the fund, minus its liabilities, and then divided by the number of units outstanding. The net asset value of a pooled separate account is calculated based on a compilation of primarily observable market information. The number of units of the fund that are outstanding on the calculation date is derived from observable purchase and redemption activity in the fund.

Guaranteed interest accounts: Valued at contract value, which approximates fair value, as estimated by John Hancock. It is the amount plan participants would receive if they were to withdraw or transfer funds within the Plan.

8. FAIR VALUE MEASUREMENTS (Continued)

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth the level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Level 1	Level 2	Level 3	Total
Pooled separate accounts:				
Asset allocation - Lifecycle portfolios	$ -	$ 418,171	$ -	$ 418,171

9. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA and the IRC. The Plan provides for full and immediate vesting of all participant rights upon termination of the Plan.

10. TAX STATUS

During 2014, the Company adopted the Pension Studio Volume Submitter Defined Contribution Plan and Trust. The Internal Revenue Service has issued an opinion letter dated March 31, 2014 stating that the Plan is acceptable under Section 401(a) of the IRC for use by employers for the benefit of their employees. The Company is relying on the opinion letter (in accordance with Announcement 2008-23) that the Plan meets the qualification requirements of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

10. TAX STATUS (Continued)

Prior to 2014, the Company utilized the Sentinel Benefits Group Volume Submitter Defined Contribution Plan and Trust. The Internal Revenue Service has issued an opinion letter dated March 31, 2008 stating that the Plan is acceptable under Section 401(a) of the IRC for use by employers for the benefit of their employees. The Company is relying on the opinion letter (in accordance with Announcement 2008-23) that the Plan meets the qualification requirements of the IRC. Although the Plan has been amended since receiving the opinion letter, the Plan Administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Effective January 1, 2014, the Plan was amended and restated to incorporate the language and provisions from the Pension Protection Act of 2006 and subsequent legislation and regulations.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013 there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income tax examinations for years prior to 2011.
