Independent Auditor's Report

To the Trustees, Plan Administrator and Participants
A&M Supply Holdings, Inc. & Affiliates Employee
Stock Ownership and Savings Plan
Pinellas Park, Florida

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of A&M Supply Holdings, Inc. & Affiliates Employee Stock Ownership and Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of September 30, 2014 and 2013, the related statement of changes in net assets available for benefits for the year ended September 30, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 2, which was certified or provided by Principal Life Insurance Company, the custodian of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the custodian holds certain Plan assets and executes transactions. The Plan Administrator has obtained certifications from the custodian as of September 30, 2014 and 2013, and for the year ended September 30, 2014, that the information provided to the Plan Administrator by the custodian is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Member of the RSM International network of independent accounting, tax and consulting firms.

Emphasis of Matter – Significant Concentration and Valuation Uncertainty
As disclosed in Notes 6 and 10 to the financial statements, an investment whose fair value has been determined by an independent appraiser in the absence of a readily ascertainable fair value represented approximately 70% of the Plan's assets as of September 30, 2014 and 2013. Because of the inherent uncertainty of valuation, the value may differ significantly from the value that would have been used had a ready market for the investments existed, and the differences could be material. Our opinion is not modified with respect to this matter.

Other Matter
The supplemental schedule of assets (held at end of year) as of September 30, 2014, is required by the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for purposes of additional analysis and is not a required part of the financial statements. This supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance With DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the United States Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Plan Description and Significant Accounting Policies

The following description of A&M Supply Holdings, Inc. (Sponsor Corporation) & Affiliates Employee Stock Ownership and Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General: The Plan, as restated effective October 1, 2010, was originally established October 1, 1976, and covers substantially all employees of the Sponsor Corporation. It is a defined contribution plan with two benefit features: an Employee Stock Ownership Plan and a 401(k) Plan. The Board of Trustees is responsible for oversight of the Plan and determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Sponsor Corporation's Board of Directors. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

The Sponsor Corporation is a holding corporation which owns all of the stock of its subsidiary, A&M Supply Corporation.

Eligibility: After completing 180 days of service, each employee who is expected to work at least 1,000 hours annually and has attained age 18 becomes a participant in the elective deferral portion of the Plan upon the next entry date as defined by the Plan.

However, each participant must be an employee on the last working day of the Plan year in order to share in the allocation of employer contributions for that Plan year and must have completed one qualifying year of service and must have attained age 18. Summer employees, employees who are full-time students, and employees hired for a position in which they will work less than 1,000 hours per year are not eligible to participate.

Voting rights: Each participant is entitled to excise voting rights attributable to the Sponsor Corporation shares allocated to his or her account and is notified by the trustee prior to the time that such rights are to be exercised. The trustee is not permitted to vote any allocated shares for which instructions have not been given by a participant.

Participant accounts: Each Plan participant has a separate Sponsor Corporation stock account and an investment account within the Plan. Allocations to the Sponsor Corporation stock account are made on the last day of each Plan year.

Each participant account is credited with the participant's contribution and the allocations of (a) the Sponsor Corporation's contribution, (b) changes in the stock valuation, and (c) Plan earnings or losses, and is charged with an allocation of administrative expenses. Allocations are based on participant earnings/losses or account balances, as defined.

Contributions: Each year, participants may contribute from 1% to 100% of pretax annual compensation, as defined by the Plan subject to the maximum allowable contributions under the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Note 1. Plan Description and Significant Accounting Policies (Continued)

Employer contributions are discretionary and are determined annually by the Sponsor Corporation's Board of Directors. Employer contributions can be made in the form of a discretionary Employee Stock Option Plan (ESOP) contribution and/or 401(k) matching contributions. Employer ESOP contributions are allocated based on the ratio which the covered compensation of each participant bears to the total covered compensation of all such participants for the Plan year. The Sponsor Corporation made a discretionary ESOP contribution of 1,500 shares of common stock with a fair market value of $200,190 and cash of $406,036 during the year ended September 30, 2014. Employer 401(k) matching contributions are based on a discretionary amount and allocated in accordance with the participant's elective deferral agreement. No 401(k) matching contributions were made to the Plan during the year ended September 30, 2014.

Participant's investment options: Participants direct the investment of the 401(k) participant contributions and Sponsor Corporation 401(k) matching contributions and earnings thereon, among various funds offered by Principal Life Insurance Company. Participants can change their investment allocations daily.

Vesting: Participants are immediately vested in their 401(k) participant contributions plus actual earnings thereon. Employer contributions to participants' accounts plus earnings thereon vest according to the following schedule:

Years of Service	Discretionary Match (Prior to October 1, 2005)	Discretionary Match (After October 1, 2005)	Discretionary ESOP
Less Than 2	0.00%	0.00%	0.00%
2	25.00%	20.00%	20.00%
3	50.00%	40.00%	40.00%
4	75.00%	60.00%	60.00%
5	100.00%	80.00%	80.00%
6		100.00%	100.00%

Participants are 100% vested at retirement, disability or death.

Payment of benefits: In the event of termination of service, death or retirement (due to disability or normal retirement age), distribution of a participant's vested account balance shall commence not later than one year after the close of the Plan year in which the event occurs. Distribution of a participant's vested account balance for elective deferrals and employee rollover contributions shall be made in a lump-sum payment. Upon request of the participant, alternative payment forms may be considered. With respect to the portion of the participant's vested account balance in ESOP discretionary contributions and 401(k) matching contributions, distributions may be paid in lump-sum amounts or substantially equal annual installments over a period not exceeding five years with possible additional extensions. From the 401(k) portion of the participants' account and in accordance with the Plan document, participants may request hardship withdrawals, and upon attaining age 59½, in-service withdrawals. Upon termination of service, the participant's vested account balance in the ESOP discretionary contributions shall be transferred to cash or other liquid assets in exchange for the Sponsor Corporation common stock of equivalent value. Such transfer of stock shall be based upon the fair market value determined as of the most recent independent valuation date coinciding with or immediately preceding such transfer.

Note 1. Plan Description and Significant Accounting Policies (Continued)

Under the provisions of the Plan, the Sponsor Corporation is obligated to repurchase participant shares, which have been distributed under the terms of the Plan as long as the shares are not publicly traded or if the shares are subject to trading limitations. During 2014, the Sponsor Corporation did not purchase any shares from the Plan.

Forfeited accounts: All forfeitures of discretionary ESOP contributions will be reallocated to the accounts of remaining participants as additional ESOP contributions for the Plan year in which the forfeiture occurs. For the year ended September 30, 2014, forfeitures of non-vested discretionary ESOP contributions allocated to remaining participants totaled $303 and 50 shares of Sponsor Corporation common stock.

Forfeitures of discretionary 401(k) matching contributions shall first be used to reduce the 401(k) matching contribution for the current Plan year, if any, with any excess to be used to reduce Plan administrative expenses. During the year ended September 30, 2014, no forfeitures of discretionary 401(k) matching contributions were used. At September 30, 2014 and 2013, forfeited non-vested accounts totaled $8,633 and $7,911, respectively.

Notes receivable from participants: Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The repayment period is 12 to 60 months for a general purpose loan and 12 to 120 months for a principal residence loan. Loans are collateralized by the vested balance in the participants' accounts and bear interest at reasonable rates that are charged by representative commercial banks for similar loans. The interest rate on outstanding loans at September 30, 2014, was 5.25%, and the outstanding loans mature through 2019. Interest and principal payments are made ratably through bi-weekly payroll deductions.

Put option: Under federal income tax regulations, the employer stock that is held by the Plan and its participants and is not readily tradable on an established market, or is subject to trading limitations includes a put option. The put option is a right to demand that the Sponsor Corporation buy any shares of its stock distributed to participants for which there is no market. The put price is representative of the fair market value of the stock. The Sponsor Corporation can pay for the purchase with interest over a five-year period. The purpose of the put option is to ensure that the participant has the ability to ultimately obtain cash.

Diversification: Diversification is offered to participants close to retirement so they may have the opportunity to move part of the value of their investment in corporation stock into investments which are more diversified. Participants who are at least age 55 with at least ten years of participation in the Plan may elect to diversify a portion of their account. Diversification is offered to each eligible participant over a six-year period. Within a five-year period, a participant may diversify up to a maximum of 25% of the number of post-1986 shares allocated to his or her account, less any shares previously diversified. In the sixth year, the participant can elect to diversify an additional 25% of their account.

A summary of the Plan's significant accounting policies is as follows:

Basis of presentation: The Plan's financial statements are prepared on the accrual basis of accounting.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires the Plan's management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Note 1. Plan Description and Significant Accounting Policies (Continued)

Investment valuation and income recognition: Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Board of Trustees determines the Plan's valuation policies. See Note 6 for discussion of fair value measurements.

The Plan has funds invested in the Principal Stable Value Fund, a common collective trust fund, which is invested in investment contracts. Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as any material adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded as the accrual basis. Related fees are recorded as administrative expenses are incurred. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Contributions: Contributions from Plan participants and the matching contributions from the Plan sponsor, if any, are recorded in the year in which the participant contributions are withheld from amounts paid. Employer ESOP contributions are recognized upon authorization as the underlying compensation is recognized. All participant deferral and Sponsor Corporation matching contributions are participant directed.

Payment of benefits: Benefits are recorded when paid.

Administrative expenses: Certain expenses of maintaining the Plan are paid directly by the Sponsor Corporation and are excluded from these financial statements. Administrative expenses include fees related to the administration of notes receivable that are charged directly to the participant's account and certain recordkeeping fees paid by the Plan. Investment related expenses are included in net appreciation of fair value of investments.

Accounting pronouncement adopted: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this update cover a wide range of topics in the Accounting Standards Codification, including plan accounting. These amendments include technical corrections and improvements to the Accounting Standards Codification and conforming amendments related to fair value measurements. The adoption of this Update was not significant to these financial statements.

Note 1. Plan Description and Significant Accounting Policies (Continued)

Accounting pronouncement pending: In May 2015, the FASB issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)*. The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statement of financial position. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

Subsequent events: The Plan has evaluated subsequent events through June 26, 2015, the date the financial statements were available to be issued.

Note 2. Information Certified and Provided by Principal Life Insurance Company (Custodian)

The following is a summary of the information as of September 30, 2014 and 2013, and for the year ended September 30, 2014, included throughout the Plan's financial statements and supplemental schedule that was prepared by or derived from information provided by the custodian of certain Plan assets, and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the custodian that information provided to the Plan Administrator by the custodian related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the United States Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to the information that appears throughout the financial statements and supplemental schedule related to the following assets:

	2014	2013
Pooled separate accounts	$ 2,323,302	$ 2,346,821
Common collective trust fund	$ 91,623	$ -
Notes receivable from participants	$ 99,519	$ 102,017

Principal Life Insurance Company also certified to the completeness and accuracy of investment income for the year ended September 30, 2014, as follows:

Net appreciation in fair value of pooled separate accounts	$ 226,013
Net appreciation in fair value of common collective trust fund	1,179
Interest income	5,563
	$ 232,755

Note 3. Investments

The following table presents investments, at fair value, that represent 5% or more of the Plan's net assets available for benefits as of September 30, 2014 and 2013:

	2014	2013
Common Stock		
A&M Supply Holdings, Inc. common stock, 45,264 and 43,764 shares, respectively	$ 6,040,933	$ 5,687,132

Note 4. Plan Administration

Certain Plan's assets, which consist of the Sponsor Corporation's common stock, are held by the trustee of the Plan. Sponsor Corporation contributions are held and managed by the trustee, who invests cash received, interest and dividend income and makes distributions to participants. The Plan is administered by the Committee composed of individuals appointed by the Board of Directors of the Sponsor Corporation. No such individual receives compensation from the Plan. Substantially all administrative expenses are currently being paid directly by the Sponsor Corporation and are not considered contributions to the Plan.

Note 5. Nonparticipant-Directed Investments

The discretionary ESOP contributions made to the Plan will be held primarily in Sponsor Corporation common stock in accordance with directions from the Committee. The trustee shall invest any discretionary ESOP contributions that are not invested in Sponsor Corporation common stock in such prudent investments as the Committee deems to be desirable for the Plan, or such assets may be held temporarily as cash.

The Plan's nonparticipant-directed investments at September 30, 2014 and 2013, are as follows:

	2014	2013
Interest-bearing cash	$ 126,483	$ 26,532
A&M Supply Holdings, Inc. common stock		
Number of shares	45,264	43,764
Cost	$ 8,619,508	$ 8,419,192
Estimated fair value	$ 6,040,933	$ 5,687,132

Note 5. Nonparticipant-Directed Investments (Continued)

The significant components of the changes in net assets relating to the nonparticipant-directed investments for the year ended September 30, 2014, are as follows:

Changes in net assets		
Net appreciation in fair value	$	153,612
Contributions – Sponsor Corporation common stock		200,190
Contributions – cash		406,036
Administrative fees		(65)
Interest		15
Benefits paid to participants		(306,036)
	$	453,752

Note 6. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets
- Quoted prices for identical or similar assets or liabilities in inactive markets
- Inputs other than quoted prices that are observable for the asset or liability
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used at September 30, 2014 and 2013.

Note 6. Fair Value Measurements (Continued)

The following is a description of the valuation methodologies used for investments measured at fair value:

Sponsor Corporation common stock: Valued at fair value based upon an independent appraisal. This appraisal was based upon the income valuation technique consistent with prior years. The appraiser took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of Sponsor Corporation assets and liabilities.

The valuation process involves the trustee's selection of an independent appraiser, as described in the trustee agreement. Plan management accumulates the data for the appraiser from the audited financial statements of the Sponsor Corporation. The appraiser prepares a preliminary report which Plan management, along with the Plan's trustee, reviews in detail and discusses. The Plan's Trustee approves the valuation.

Pooled separate accounts (PSAs): Valued at the net asset value (NAV) per unit based on quoted market prices of underlying investments.

Common collective trust fund: Valued based on the NAV of units of the common collective trust. The NAV, as provided by the custodian, is used as a practical expedient to estimating fair value. The NAV is based upon the fair value of the underlying investments comprising the trust less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV.

Interest-bearing cash: Valued at cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 6. Fair Value Measurements (Continued)

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of September 30, 2014 and 2013:

Note 6. Fair Value Measurements (Continued)

The PSAs in the fixed income investment class invests primarily in intermediate-term, fixed-income investments such as public and private corporate bonds, commercial and residential mortgages, asset-backed securities, and U.S. government and agency-backed securities.

The PSAs in the small/mid U.S. equity investment class seek to invest a majority of assets in common stocks of companies with medium or small market capitalizations at the time of purchase.

The PSAs in the balanced/asset allocation investment class seek a total return consisting of long-term growth of capital and current income. The fund invests in underlying domestic and foreign equity, real estate investments and fixed-income funds according to an asset allocation strategy designed for investors having various investment time horizons.

The PSAs in the large U.S. equity investment class seek to invest a majority of assets in common stocks of companies with large market capitalizations (those with market capitalizations similar to a Russell 1000 Index or S&P 500 Index) at the time of purchase.

The PSAs in the international equity investment class seek to invest a majority of assets in companies (1) with their principal place of business or principal office outside of the United States, (2) for which the principal securities trade on a foreign exchange, (3) with small to medium market capitalizations and (4) that derive 50% or more of their total revenue from goods or services produced or sold outside of the United States.

To assess the appropriate classification of investments within the fair value hierarchy, the availability of market data is monitored. Changes in economic conditions or valuation techniques may require the transfer of investments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period. The Plan evaluates the significance of transfers between levels based upon the nature of the investment and size of the transfer relative to total net assets available for benefits. For the year ended September 30, 2014, there were no significant transfers into or out of Levels 1, 2, or 3.

The table below sets forth a summary of changes in the fair value of the Plan's Level 3 asset during the year ended September 30, 2014:

	Sponsor Corporation Common Stock
Balance, beginning of year	$ 5,687,132
Contribution of common stock	200,190
Unrealized gain relating to instruments still held at the reporting date	153,612
Withdrawals and distributions	
Rounding	(1)
Balance, end of year	$ 6,040,933

Note 6. Fair Value Measurements (Continued)

The following table presents the Plan's Level 3 financial instrument, the valuation techniques used to measure the fair value of that financial instrument, and the significant unobservable inputs.

Instrument	2014	2013	Principal Valuation Technique	Unobservable Inputs
A&M Supply Holdings, Inc. common stock	$ 6,040,933	$ 5,687,132	Discounted Cash Flow	Weighted average cost of capital Long-term revenue growth rate Long-term pretax operating margin Discount for lack of marketability

In estimating fair value of the Level 3 investment, the Plan's trustee uses a third-party appraiser. In substantiating the reasonableness of the pricing data provided by the appraiser, the Plan's trustee evaluates a variety of factors including review of the methods and assumptions used and the economic condition and outlook of A&M Supply Holdings, Inc. and the industry in which it operates.

Note 7. Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated September 13, 2013, stating that the Plan is qualified under the Internal Revenue Code (the Code), and therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

GAAP requires Plan management to evaluate tax positions taken by the Plan, and recognize a tax liability (or asset) if the Plan has taken any uncertain tax positions that more likely than not would not be sustained upon examination by a tax authority. The Plan is subject to routine audits by taxing jurisdiction; however, there are currently no audits for any tax periods in progress. With few exceptions, the Plan Administrator believes the Plan is no longer subject to income tax examinations by the U.S. federal, state, or local tax authorities for years before 2011.

Note 8. Related Party Transactions

The Plan purchases or receives and holds shares of Sponsor Corporation common stock. As such, these are exempt party-in-interest transactions. As of September 30, 2014 and 2013, the Plan held 45,264 and 43,764 shares, respectively, of Sponsor Corporation common stock with a fair market value of $6,040,933 and $5,687,132, respectively. On September 30, 2014, the Sponsor Corporation contributed 1,500 shares of common stock to the Plan for $200,190, which was the fair market value at the time of the contribution.

Also, Principal Life Insurance Company is the custodian of certain assets of the Plan; therefore, transactions with the custodian qualify as party-in-interest transactions. Fees paid by the Plan to the custodian totaled $3,046 for the year ended September 30, 2014.

Note 9. Plan Termination

Although it has not expressed any intent to do so, the Sponsor Corporation has the right under the Plan to discontinue its contributions at any time and to terminate this Plan and the trust agreement subject to the provisions of ERISA, by action of its Board of Directors. In the event of Plan termination, all participants who are currently employed will become fully vested in their accounts.

Note 10. Risk and Uncertainties

The Plan invests in various investment securities. Investments securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Additionally, as of September 30, 2014 and 2013, the Plan's investment in Sponsor Corporation common stock was 70% of net assets available for benefits. This represents a concentration of credit risk.

Note 11. Reconciliation of Financial Statements to Form 5500
