INDEPENDENT AUDITORS' REPORT

To the Plan Administrator
Patio Enclosures, Inc. 401(k) Plan
Macedonia, Ohio

We were engaged to audit the statements of net assets available for benefits of the Patio Enclosures, Inc. 401(k) Plan (the "Plan") as of December 31, 2009 and 2008, the statements of changes of net assets available for benefits for the years then ended, and the supplemental schedule of assets (held at end of year) as of December 31, 2009. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Standard Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of and for the years ended December 31, 2009 and 2008, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

PATIO ENCLOSURES, INC. 401(K) PLAN

NOTES TO FINANCIAL STATEMENTS

(1) Description of plan

The following description of the Patio Enclosures, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document or Summary Plan Description, which are available from the Plan Administrator, for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan sponsored by Patio Enclosures, Inc. (the "Company") for the benefit of all full-time employees except union, leased, non-resident alien and individually contracted employees, who have at least 1,000 hours of service during a consecutive twelve month period and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions - Participants may contribute pretax annual compensation up to the maximum allowed by the Internal Revenue Code, as defined in the Plan. Rollover contributions to the Plan are permitted. The Plan also permits the Company to make discretionary profit-sharing contributions at the option of the board of directors; however, the Company made no discretionary contributions in 2009 and 2008.

Participant investment account options - Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers pooled separate accounts and a group annuity contract offering a stable value fund as investment options for participants.

Participant accounts - Each participant's account is credited with the participant's contribution and allocations of plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - A participant has a 100% non-forfeitable vested interest in their contributions plus actual earnings thereon.

Payment of benefits - On termination of service due to death, disability or retirement, a participant may elect to receive either a lump sum amount equal to the value of the participant's vested interest in his or her account, or periodic installments. Additionally, the Plan has provisions for an active participant to take a distribution upon reaching age 59 ½ or to make hardship withdrawals from his voluntary contribution account, subject to limitations and restrictions.

(2) Summary of significant accounting policies

Basis of accounting - The financial statements of the Plan are prepared under the accrual method of accounting.

Use of estimates - The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires management to make estimates and assumptions that affect reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Accordingly, actual results may differ from those estimates.

NOTES TO FINANCIAL STATEMENTS

(2) Summary of significant accounting policies (continued)

Investment valuation and income recognition - The Plan's investments have been reported to the Plan by Standard Insurance Company ("The Standard"), the custodian of the Plan, as having been determined at their fair market values as of the close of business on December 31, 2009 and 2008. See Note 5 for discussions of fair value measurements.

Investment contracts held by defined contribution plans are required to be reported at fair value, except for fully-benefit responsive investment contracts, which are reflected at contract value, since it represents the amount at which participants can execute transactions in the Plan. The Statement of Net Assets Available for Benefits presents the contract value of the investment in the group annuity contract. No adjustment of the investment in the group annuity contract from fair value to contract value was made, as contract value approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Administrative expenses - Certain expenses of the Plan are paid by the Company and are not included in the statement of changes in net assets available for benefits.

Subsequent events - Management has evaluated subsequent events through September 8, 2010, the date the financial statements were available to be issued.

(3) Investments

The following table presents investments that represent 5% or more of the Plan's net assets:

(4) **Information prepared and certified by the custodian**

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, The Standard has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate with respect to investments:

- Investments at fair value
- Net appreciation (depreciation) in fair value of investments
- Interest
- Schedule of assets (held at end of year)

The Plan's independent public accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

(5) **Fair value measurements**

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, (formerly SFAS No. 157, *Fair Value Measurements and Disclosures*) provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.
- Level 2 – Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets; quoted prices for identical or similar assets and liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

(5) Fair value measurements (continued)

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Pooled separate accounts: Value based on the quoted market values of the underlying investments.

Group annuity contract: Valuation technique described in Note 6.

The preceding methods described may produce a fair value calculation that may not be indicative of the net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's investments at fair value:

Investments at Fair Value at December 31, 2009				
	Level 1	Level 2	Level 3	Total
Pooled separate accounts				
Index funds	\$ -	\$ 56,242	\$ -	\$ 56,242

(6) Investment contract with insurance company

The Plan has entered into a group annuity contract with The Standard which includes a benefit-responsive investment. The account is credited with contributions and earnings, and charged for participant withdrawals and administrative expenses. The contract is included in the statements of net assets available for benefits at contract value. The Standard believes that the contract value approximates fair value because participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. Therefore no adjustment from fair value to contract value is included in the accompanying statements of net assets available for benefits.

NOTES TO FINANCIAL STATEMENTS

(6) Investment contract with insurance company (continued)

The crediting interest rate is reset at the beginning of each month. These interest rates are combined quarterly to establish the quarterly nominal crediting rate. The quarterly nominal crediting rate at December 31, 2009 and 2008 was 1.90% and 2.04%, respectively. The effective rate of interest for the years ended December 31, 2009 and 2008 was 1.96% and 2.12%, respectively. Certain events, such as partial or total plan termination may limit the ability of the Plan to transact at contract value with The Standard. The plan administrator believes the occurrence of such events is not probable.

(7) Related party transactions

Certain plan investments are units of a stable value fund and pooled separate accounts managed by the custodian of the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan to the custodian amounted to \$962 and \$732 for the years ended December 31, 2009 and 2008, respectively.

(8) Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, the amounts allocated to the individual participant accounts would be paid to participants.

(9) Excess deferral contributions payable

Distributions to participants for 2009 and 2008 include payments of \$4,759 made in March of 2010 and \$13,395 made in March of 2009 to certain active participants to return to them excess deferral contributions as required to satisfy the relevant nondiscrimination provisions of the Plan.

(10) Tax status

The Internal Revenue Service has determined that the prototype 401(k) profit sharing plan is designed in accordance with applicable sections of the Internal Revenue Code (the "IRC") and informed The Standard of such in a letter dated July 5, 2005. Although the prototype plan has been amended since receiving the determination letter, the Plan Administrative Committee believes that the Plan and related trust are currently designed and being operated in compliance with the applicable requirements of the IRC.

(11) Risks and uncertainties

The Plan provides for various investments fund options. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in risks in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statement of changes in net assets available for benefits.
