1. Description of Plan

The following description of the Slomin's, Inc. 401(k) Retirement Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a "salary reduction" or 401(k) retirement savings plan covering all full-time employees of Slomin's, Inc. (the "Company") who have at least one year of service (at least 1000 hours of service) and have attained the age of twenty one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

In 2009 and 2008, participants may contribute up to a maximum of $16,500 and $15,500, respectively, of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are also eligible to make catch-up contributions of up to $5,500 and $5,000 for 2009 and 2008, respectively. The Plan provides for discretionary matching employer contributions at the option of the Company's management. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with (a) the participant's contribution, (b) an allocation of Plan earnings, and (c) the Employer's discretionary matching contribution. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. A participant is 100% vested after three years of credited service in employer contributions to the Plan.

Participant Loans

Participants may borrow from their fund accounts, a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 5.00%, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits
On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or payments under various installment options. The Plan also permits distributions to participants upon disability or death, or upon attaining the age of 59½ while still in service. Withdrawals from the Plan may also be made upon the circumstances of financial hardship.

2. Summary of Significant Accounting Policies

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits
Benefits are recorded when paid.

Forfeitures
Forfeitures of terminated participants' non-vested balances are applied to reduce employer contributions. There was no forfeiture as of December 31, 2009 and 2008.

Risks and Uncertainties
The Plan's investments are concentrated in funds that invest in marketable equity securities. Such securities are subject to various risks that determine the value of the funds. Due to the level of risk associated with certain equity securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

3. Investment Information Certified by the Plan's Trustee

The following is a summary of the investment information regarding the Plan as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included in the Plan's financial statements and supplemental schedule, which was prepared or derived by Fidelity Management Trust Company, the trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained a certification from the trustee that such information is complete and accurate.

Investments which represent 5% or more of the Plan's net assets available for benefits in December 31, 2009 and 2008 are separately identified.

For the year ended December 31, 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) increased in value as follows:

Mutual funds	$1,281,952
Interest and dividends	$ 94,435

4. Fair Value Measurement

In 2008, the Plan adopted the authoritative guidance on Fair Value Measurement accounting, which establishes a framework for measuring fair value under U.S. generally accepted accounting principles and expands disclosure about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under the guidance are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the plan has the ability to access.

- Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- Money market funds: Valued at cost plus accrued interest, which approximates fair value.
- Mutual funds: Valued at quoted market prices at active markets which represent the net asset value of the shares held by the Plan at year-end.
- Participant loans: Valued at the amortized balances which approximates fair value.

The following is a summary of the fair value measurement of the investments as of December 31, 2009 and 2008, as required by the Standard:

1. Description of Plan

The following description of the Slomin's, Inc. 401(k) Retirement Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a "salary reduction" or 401(k) retirement savings plan covering all full-time employees of Slomin's, Inc. (the "Company") who have at least one year of service (at least 1000 hours of service) and have attained the age of twenty one. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

In 2009 and 2008, participants may contribute up to a maximum of $16,500 and $15,500, respectively, of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are also eligible to make catch-up contributions of up to $5,500 and $5,000 for 2009 and 2008, respectively. The Plan provides for discretionary matching employer contributions at the option of the Company's management. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts

Each participant's account is credited with (a) the participant's contribution, (b) an allocation of Plan earnings, and (c) the Employer's discretionary matching contribution. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. A participant is 100% vested after three years of credited service in employer contributions to the Plan.

Participant Loans

Participants may borrow from their fund accounts, a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at 5.00%, which is commensurate with local prevailing rates as determined by the plan administrator. Principal and interest is paid ratably through monthly payroll deductions.

Payment of Benefits
On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of his or her account, or payments under various installment options. The Plan also permits distributions to participants upon disability or death, or upon attaining the age of 59½ while still in service. Withdrawals from the Plan may also be made upon the circumstances of financial hardship.

2. Summary of Significant Accounting Policies

Investment Valuation and Income Recognition
Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurement. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis and dividends are recorded on the ex-dividend date.

Use of Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect certain reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits
Benefits are recorded when paid.

Forfeitures
Forfeitures of terminated participants' non-vested balances are applied to reduce employer contributions. There was no forfeiture as of December 31, 2009 and 2008.

Risks and Uncertainties
The Plan's investments are concentrated in funds that invest in marketable equity securities. Such securities are subject to various risks that determine the value of the funds. Due to the level of risk associated with certain equity securities and the level of uncertainty related to changes in the value of these securities, it is at least reasonably possible that changes in market conditions in the near term could materially affect participants' account balances and the value of investments reported in the financial statements.

3. Investment Information Certified by the Plan's Trustee

The following is a summary of the investment information regarding the Plan as of December 31, 2009 and 2008, and for the year ended December 31, 2009, included in the Plan's financial statements and supplemental schedule, which was prepared or derived by Fidelity Management Trust Company, the trustee of the Plan, and furnished to the plan administrator. The plan administrator has obtained a certification from the trustee that such information is complete and accurate.

Investments which represent 5% or more of the Plan's net assets available for benefits in December 31, 2009 and 2008 are separately identified.

Mutual funds	$1,281,952
Interest and dividends	$ 94,435

4. Fair Value Measurement

In 2008, the Plan adopted the authoritative guidance on Fair Value Measurement accounting, which establishes a framework for measuring fair value under U.S. generally accepted accounting principles and expands disclosure about fair value measurements. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under the guidance are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices in active markets for identical assets or liabilities that the plan has the ability to access.

- Level 2 - Inputs to the valuation methodology include: (a) quoted prices for similar assets or liabilities in active markets; (b) quoted prices for identical or similar assets or liabilities in inactive markets; (c) inputs other than quoted prices that are observable for the asset or liability; and (d) inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value:

- Money market funds: Valued at cost plus accrued interest, which approximates fair value.
- Mutual funds: Valued at quoted market prices at active markets which represent the net asset value of the shares held by the Plan at year-end.
- Participant loans: Valued at the amortized balances which approximates fair value.

The following is a summary of the fair value measurement of the investments as of December 31, 2009 and 2008, as required by the Standard:

As of December 31, 2009:

	Level 1	Level 2	Level 3	Total

Balance, beginning of year	$ 200,639
Loans, interest income, payments and settlements, net	(10,935)
Balance, end of year	$ 189,704

5. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants would become 100% vested in their employer contributions.

6. Income Tax Status

The Plan obtained its latest determination letter dated October 9, 2003, in which the Internal Revenue Service states that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. The plan administrator believes that the plan sponsor has operated the Plan in a manner that did not jeopardize this tax status.

7. Plan Administrative Expenses

The Company has paid certain administrative expenses of the Plan.

8. Party-In-Interest Transactions
