FLOYDCO, INC. RETIREMENT PLAN
NOTES TO FINANCIAL STATEMENTS
OCTOBER 31, 2014 AND 2013

NOTE A - DESCRIPTION OF PLAN

The following description of Floydco, Inc. (the Company) Retirement Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have one year of service and are age eighteen or older. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participants may elect to defer any percentage of compensation up to the IRS maximum allowable limit. This limit was set at $17,500 for calendar year 2014. Besides this dollar limit, other special IRS rules might limit the amounts of participant contributions that would otherwise be made. When necessary to comply with IRS regulations, any excess participant contributions will be returned to the effected participant. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Investments are selected by the participants.

Participants who have attained age 50 before the end of the plan year may elect to defer additional amounts (called "catch-up contributions") to the Plan. The maximum "catch-up contribution" allowed in 2014 is $5,500.

The Company may make non-elective discretionary contributions and required minimum contributions, under the Top-Heavy rules or other legal requirements. The amount of the Company's contribution is discretionary, not limited by profitability of the Company, and determined by the Company each plan year. The eligibility to receive an allocation of the Company's contribution and the formula used are set forth in the Plan document.

Participant Accounts

Each participant's account is credited with both participant and employer contributions and subsequent earnings on those contributions. Participant accounts are charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE A - DESCRIPTION OF PLAN - Continued

Vesting

Participants are immediately vested in their contributions plus subsequent earnings. Participants are vested in the Company's contribution based on years of service. Participants are 20% vested after two years of service and 20% each year thereafter.

Payment of Benefits

Upon termination of employment, retirement, or disability participants may request the Plan administrator to distribute their benefit as soon as practicable following separation of employment. The normal form of benefit payment shall be in the form of a single lump sum distribution, in an amount equal to the value of the participant's vested interest in his or her account. The spouse or beneficiary of a deceased participant will receive an amount equal to the full value of the deceased participant's account regardless of the percent vested at that time.

Forfeited Accounts

As of October 31, 2014, forfeited and nonvested funds totaled $80. During the year ended October 31, 2014, employer contributions were reduced by $0 from forfeited and nonvested funds.

Administrative Expenses

Certain administrative expenses are payable from the assets of the Plan. However, the Company may choose to pay some of the Plan's administrative costs directly.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Date of Managements' Review of Subsequent Events

Management has evaluated subsequent events through the date of the auditor's report, the date which the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value as determined by the custodian, using quotations and other available information. Mutual funds are valued at quoted market prices which represent the net asset value of shares held by the Plan at year end. Life insurance contracts are valued at net cash value as determined by the custodian. Guaranteed interest accounts are valued at the aggregate of all contributions made to the account plus interest earned on those contributions, less contract asset changes, fees, and any previous withdrawals.

Net appreciation or depreciation is reported in the statement of changes in net assets available for benefits and consists of the realized gains or losses and the unrealized appreciation or depreciation of these investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payments of Benefits

Benefits are recorded when paid.

NOTE C - TAX STATUS

The Plan obtained its latest determination letter on March 31, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan sponsor believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Management is not aware of any tax positions that would have a significant impact on its financial position. The Plan's tax returns for the last four years remain subject to examination.

NOTE D - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will be entitled to their full account balance as of the date of termination, regardless of the percent vested at the time of termination.

Pooled separate accounts	$ 322,260
Guaranteed interest accounts	107
	$ 322,367

NOTE F - LIFE INSURANCE CONTRACTS (UNAUDITED)

Prudential Insurance Company of America (Prudential), the custodian of the life insurance contracts, values each contract based on the contract's policy date, which may or may not correspond to the Plan's fiscal year end. The value of all the contracts, as of each contract's policy date, and prepared and certified as complete and accurate by Prudential, was $470,334. Net cash value of $488,466 as of October 31, 2014, which represents 5% or more of net assets available for benefits and included in the Statement of Net Assets Available For Benefits, is based on each contract's policy statement prepared by Prudential.

NOTE G - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. The three levels of the fair value hierarchy are described as follows:

Level 1: Quoted prices are available in active markets for identical assets or liabilities;

Level 2: Quoted prices in active markets for similar assets or liabilities that are observable for the assets or liability; or

Level 3: Unobservable pricing inputs that are generally less observable from objective sources, such as discounted cash flow models or valuations.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE G - FAIR VALUE MEASUREMENTS - Continued

The following is a description of the valuation methodologies used for investment assets measured at fair value. There have been no changes in the methodologies used at October 31, 2014.

Pooled separate accounts: Valued at quoted market prices which represent the net asset value of shares held by the Plan at year end.

Guaranteed interest accounts: Valued at contract value, which approximates fair value, by discounting the related cash flows based on current rate.

Life Insurance contracts: Valued at net cash value, which approximates fair value, as of the Plan's year end date.

The following table sets forth, by level within the fair value hierarchy, the Plan's investments, at fair value, as of October 31, 2014 and 2013:

	Fair Value Measurements at October 31, 2014 Using		
	Level 1	Level 2	Level 3
Pooled separate accounts	$ 4,692,908	$ -	$ -

NOTE H - PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments are pooled separate accounts and life insurance contracts managed by John Hancock Life Insurance Company and Prudential Insurance Company of America, respectively. These companies are the custodians as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA. Fees incurred by the plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the plan's operations.
