Independent Auditor's Report

The Trustee and Administrative Committee
Cactus Feeders, Inc. Employee
Stock Ownership Plan and Trust:

We have audited the accompanying financial statements which are comprised of the statements of net assets available for plan benefits of Cactus Feeders, Inc. Employee Stock Ownership Plan and Trust as of October 31, 2014 and 2013, and the related statement of changes in net assets available for plan benefits for the year ended October 31, 2014 and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

The Plan's management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for plan benefits of Cactus Feeders Inc. Employee Stock Ownership Plan and Trust as of October 31, 2014 and 2013, and the changes in its net assets available for plan benefits for the year ended October 31, 2014 in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets Held for Investment (Schedule 1) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

Notes to Financial Statements

October 31, 2014 and 2013

(1) Summary of Significant Accounting Policies

Basis of Presentation

The accompanying financial statements of Cactus Feeders, Inc. Employee Stock Ownership Plan and Trust (the Plan) have been prepared utilizing the accrual basis of accounting.

Fair Value of Investments

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs. There have been no changes in the methodologies used by the Plan at October 31, 2014 and 2013.

The common stock of Cactus Feeders, Inc. (Cactus) and Spike Box Land & Cattle Company, Inc. (Spike Box), and the membership units of Pablo Energy Texas LLC (Texas) are stated at estimated fair values as determined by annual independent valuations.

(1) Summary of Significant Accounting Policies, Continued

Fair Value of Investments, Continued

These valuations are based upon a combination of the market and income valuation techniques consistent with prior years. The evaluations took into account historical and projected cash flow and net income, return on assets, return on equity, market comparables and estimated fair value of entity assets and liabilities.

All valuations of plan investments fall within level 3 of the fair value hierarchy as described above and may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Pervasiveness of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Subsequent Events

The Trustees have reviewed events occurring subsequent to October 31, 2014 through August 13, 2015 for potential impact on the accompanying financial statements and disclosures herein.

(2) Description of the Plan

General

Cactus Feeders, Inc. established the Plan effective November 1, 1988. The Plan operates as a leveraged employee stock ownership plan (ESOP), and is designed to comply with regulations of the Internal Revenue Code and applicable provisions of the Employee Retirement Income Security Act of 1974. The Plan is administered and assets are managed by appointed trustees.

(2) Description of the Plan, Continued

General, Continued

The Plan purchased Cactus common stock shares using the proceeds of borrowings and holds the stock in a trust established under the Plan. The borrowings are to be repaid over a period of years by employer contributions to the trust fund. As the Plan makes each payment of principal or interest, a calculated percentage of stock is allocated to eligible participants' accounts in accordance with applicable terms of the Plan.

Borrowings are collateralized by unallocated shares of Cactus stock with the lender having no rights against shares once they were allocated to participants under the Plan. Accordingly, the accompanying financial statements present separately the changes in net assets pertaining to:

(a) the accounts of participants with rights in allocated stock (Allocated) and
(b) stock not yet allocated to participants (Unallocated).

Each participant is entitled to exercise voting rights attributable to the allocated shares in the participant's account. Unallocated shares are voted by the Plan trustees.

Employees of Cactus and its participating subsidiaries are generally eligible to participate in the Plan after meeting minimum age (18 years) and service (1,000 hours) requirements.

Contributions of Participating Companies

The trust agreement provides for annual contributions to the Plan to be made at the discretion of the Board of Directors of Cactus.

Distributions

The trust agreement provides for benefits to be payable to participants or their beneficiaries in the event of (1) participant's retirement, (2) participant's death, (3) participant's total disability or (4) termination of employment under all other circumstances. At October 31, 2014, allocated net assets available for plan benefits totaling $13,428,000 are attributable to former participants and will be paid under terms of the Plan.

Vesting

Vesting begins after two years of service and participants become 100% vested after six years of service. Participants also become 100% vested upon (1) normal retirement, reaching the age of sixty, (2) death or (3) total and permanent disability.

(2) Description of the Plan, Continued

Termination of the Plan

The trust agreement provides that the Plan may be terminated at any time by resolution of Cactus. The Plan shall also be terminated in the event of a complete discontinuance of contributions. Upon termination of the Plan, each participant becomes fully vested and the balance of the amounts allocated to each participant shall be distributed to participants or their beneficiaries.

(3) Investments

A summary of the Plan's investments at October 31, 2014 and 2013 follows:

(4) Note Payable

During 2011, the Plan purchased 375,000 shares of Cactus common stock with $100,000,000 proceeds of borrowings from Cactus. The 3.53% note evidencing these borrowings is secured by the unallocated common stock and is due in annual installments of $4,265,643 including interest through 2060. Interest incurred on such note aggregated $3,430,285 during 2014. Principal amounts due on this note for the five years subsequent to October 31, 2014 are; $864,846 in 2015; $895,375 in 2016; $926,981 in 2017; $959,704 in 2018; and $993,581 in 2019.

(5) Income Taxes

The Plan has received a determination letter from the Internal Revenue Service (IRS) stating that the Plan qualifies for tax-exempt status under the Internal Revenue Code

The Plan is subject to income taxes (credits) on "Unrelated Business Taxable Income (loss)" (UBTI) generated by certain activities of investees other than Cactus. Such tax credit on UBTI losses for 2014 aggregated $181,713.

(6) Plan Amendment

During 2010, Cactus Feeders, Inc. on behalf of the Plan, received permission from the IRS to amend the plan retroactively to provide certain additional benefits to participants. The cost of these retroactive benefits was provided by Cactus Feeders, Inc. through additional contributions to the Plan. Such amounts contributed during 2014 aggregated $11,078. Approximately $80,000 of these benefits were yet to be provided at October 31, 2014.

(7) Price Protection Policy

In conjunction with the 2011 purchase of Cactus stock (see note 4), a "price protection policy" was adopted by Cactus. The policy is to be effected outside of the Plan between Cactus and the Plan participants. Cactus common stock which was allocated by the Plan to participants prior to the 2011 purchase will be "price protected" to a certain defined minimum value until October 31, 2017. This policy has no effect on the Plan and has been given no accounting treatment in the accompanying financial statements.
