INDEPENDENT AUDITOR'S REPORT

To the Plan Administrator and Participants of
The DMC 401(K) Benefit Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The DMC 401(K) Benefit Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information described in Note 3, which was certified by Voya Retirement Insurance and Annuity Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the Plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained certification from the custodian as of December 31, 2014 and 2013, and for

the year ended December 31, 2014, that the information provided to the Plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedule of Assets (Held at End of Year) as of December 31, 2014 is required by the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THE DMC 401(K) BENEFIT PLAN

NOTES TO FINANCIAL STATEMENTS

DECEMBER 31, 2014 AND 2013

1 DESCRIPTION OF PLAN

The following description of The DMC 401(k) Benefit Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a complete description of the Plan's provisions.

General

The Plan is a defined contribution plan under Section 401(k) of the Internal Revenue Code and covers substantially all eligible employees of Daniels Manufacturing Corporation and affiliates (the "Company"), located in Orlando, Florida. The Plan was established effective January 1, 1999 and was amended in June and August 2007, May 2008, July 2009 and June 2010. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA") and is administered by a trustee appointed by the Board of Directors of the Company. The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's trustee.

Eligibility

Employees of the Company and its affiliates who have attained age 18 are generally eligible to participate in the Plan after one year of service providing they worked at least 1,000 hours during such year. Participants may enter the Plan on January 1 and July 1 after the eligibility requirements are met.

Contributions

Each year, participants may defer up to 100% of pretax compensation, as defined in the Plan, up to an annual maximum of $17,500 for the plan years 2014 and 2013. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans (rollover). The Company makes matching contributions of 50% of the first 6% of pretax compensation that a participant contributes to the Plan. Participants direct the investment of their contributions into a variety of investment options (see Notes 5 and 6). Participants may change their investment options at their discretion.

Participant accounts

Each participant's account is credited with the participant's contribution and Company matching contributions, as well as Plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings,

account balances, or specific participant transactions, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their own contributions and in the Company's matching contribution plus actual earnings thereon.

Distributions

Distributions of account balances are eligible to be made within a reasonable time after the occurrence of one of the following events:

- Normal retirement (the date on which a participant attains the age of 59½ years);
- Termination of employment;
- Death, disability, hardship; or
- Termination of the Plan.

Amounts allocated to accounts of persons who, as of December 31, 2014, have withdrawn from the Plan but have not been paid are $346,536.

Forfeitures

Since participants are immediately vested, forfeitures would not normally occur. However, employer contributions credited to a participant's account subsequent to a hardship withdrawal would be ineligible and would then be forfeited.

2 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The financial statements of the Plan are prepared on the accrual basis of accounting in conformity with accounting principles generally accepted in the United States of America ("U. S. GAAP"). The following is a summary of the more significant accounting principles and practices used in the preparation of the accompanying financial statements.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-

responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Use of estimates

The preparation of financial statements in conformity with U. S. GAAP requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Excess contributions

Amounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions. The Plan distributed the 2014 excess contributions to the applicable participants prior to December 31, 2014, accordingly, there is no liability as of that date.

Payment of benefits

Benefits are recorded when paid.

Plan expenses

The Company pays substantially all expenses of the administration of the Plan and such expenses are excluded from these financial statements. Any costs associated with the investment of a participant's accounts are charged to that participant. Investment related expenses are included in net appreciation in fair value of investments.

Subsequent events

The Plan administrator has evaluated events and transactions for potential recognition or disclosure through September 10, 2015, the date the financial statements were available to be issued.

3 INFORMATION PREPARED AND CERTIFIED BY CUSTODIAN

The following information included in the accompanying financial statements and supplemental schedules was obtained from data that has been prepared and certified as complete and accurate by the Plan custodian:

	As of December 31,	
	2014	**2013**
Investments at fair value	$ 10,341,432	$ 9,055,027
Employer contributions receivable	-	177
Participant contributions receivable	-	519

The custodian's certification also applies to investment transactions and income for the year ended December 31, 2014 and the supplemental schedule of assets (held at end of year) as of December 31, 2014.

Additions to net assets for 2014 are as follows:

Net appreciation in fair value of investments	$ 560,102
Interest	68,315
Employer contributions	226,850
Participant contributions	667,589

Deductions from net assets for 2014 are as follows:

Benefits paid to participants	$ 281,634
Administrative expenses	2,525

As of December 31, 2014, investments representing 5% or more of the net assets available for benefits include the following: Voya Index Plus MidCap Portfolio - Class 1, Voya T. Rowe Price Growth Equity Portfolio - Initial Class, American Funds New Perspective Funds - Class R-3, American Funds The Income Fund of America - Class R-3, Victory Munder Mid-Cap Core Growth Fund - Class Y Shares, MFS Value Fund - Class R2 and Voya Fixed Account.

As of December 31, 2013, investments representing 5% or more of the net assets available for benefits include the following: ING Index Plus MidCap Portfolio - Class 1, ING T. Rowe Price Growth Equity Portfolio - Initial Class, American Funds New Perspective Funds - Class R-3, American Funds The Income Fund of America - Class R-3, Munder Mid-Cap Core Growth Fund - Class Y Shares, MFS Value Fund - Class R2 and ING Fixed Account.

4 PARTY-IN-INTEREST TRANSACTIONS

As of December 31, 2014 and 2013, $5,146,307 and $4,670,455, respectively, of the Plan's net assets available for benefits were invested in funds and accounts managed by the Plan custodian, Voya Retirement Insurance and Annuity Company (formerly ING Life Insurance & Annuity Company). These transactions qualify as exempt party-in-interest transactions. Fees paid by the Plan to the custodian for cash commissions amounted to $33,130 and fees paid for other services amounted to $6,841 for the year ended December 31, 2014.

5 UNALLOCATED GENERAL ACCOUNT WITH VOYA RETIREMENT INSURANCE AND ANNUITY COMPANY

The Plan offers participants an investment option with Voya Retirement Insurance and Annuity Company ("Voya"). Voya maintains the contributions in an unallocated general account named the Voya Fixed Account. The account is credited with a guaranteed rate of return determined by price breaks specified in the contract and charged for participant withdrawals and administrative expenses.

The Voya Fixed Account is not fully benefit responsive under a strict interpretation of Financial Accounting Standards Board ("FASB") *Accounting Standards Codification* ("ASC") 820, *Fair Value Measurements and Disclosures*, however, the situations in which a participant could be charged a market value adjustment are limited. Accordingly, the Plan administrator has determined that contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the Voya Fixed Account. The Voya Fixed Account is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to the contract value in arriving at net assets available for benefits. The statement of changes in net assets available for benefits is prepared with the Voya Fixed Account valued on a contract value basis. Contract value, as reported to the Plan by Voya, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

Certain events limit the ability of participants to transact at contract value with the issuer, but the Plan administrator does not believe that any events which would limit the participants' ability to transact at contract value are probable of occurring. There are no reserves against contract value for credit risk of the contract issuer or otherwise.

The fair value of the Voya Fixed Account at December 31, 2014 and 2013 was $2,582,646 and $2,281,054, respectively. The weighted average yield on the Voya Fixed Account was 3% for the year ended December 31, 2014.

6 FAIR VALUE MEASUREMENTS

FASB ASC 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

a) quoted prices for similar assets or liabilities in active markets;
b) quoted prices for identical or similar assets or liabilities in inactive markets;
c) inputs other than quoted prices that are observable for the asset or liability;
d) Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies: Valued at the daily closing price as reported by the fund. Registered investment companies held by the Plan are open-end mutual funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The registered investment companies held by the Plan are deemed to be actively traded.

Pooled separate accounts: Valued at the net asset value ("NAV") of units of a collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is

based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchases and sales) may occur daily.

Fixed account: Valued at the approximate amount that would have been paid if the contract had been terminated on December 31, 2014 and potential surrender charges and market value adjustments were applied as of such date. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Fair Value Measurements as of December 31, 2014

Administrative expenses		(1,875)
Change in adjustment from fair value		(105,830)
Balance, end of year	$	2,281,054

7 PLAN TERMINATION

Although it has not expressed any intention to do so, the Company has the right under the Plan to discontinue its contributions and to terminate the Plan subject to the provisions set forth in ERISA.

8 TAX STATUS

The Plan obtained its latest determination letter in September 2001, in which the IRS stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code ("IRC"). The Plan has been amended since receiving the determination letter. However, the plan administrator and the plan's tax counsel believe that the Plan is currently designed and being operated

in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax exempt.

U. S. GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

9 RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.

Various claims arising in the ordinary course of the Plan’s operations may be filed against the Plan. Since the ultimate effect of such litigation cannot be ascertained at this time, no provision for losses has been recorded in these financial statements.
