Note 1 - Plan Description (Continued)

* Wildfire Restaurant of Georgia, LLC closed its restaurant during 2011 but the entity has not been dissolved.

** Make it Special, LLC closed its restaurant on December 31, 2014 but the entity has not been dissolved. Subsequent to year end, the entity opened a new concept, Intro.

Effective December 31, 2014, the KremeWorks Employee Savings Plan was merged into the Plan. Stone Dozen, LLC, the sponsor of the KremeWorks Employee Savings Plan, is an entity affiliated through common ownership with the Company. As a result of the merger, KremeWorks Employee Savings Plan participants and participant account balances totaling $263,305 were transferred to the Plan.

General - The Plan is a defined contribution plan covering all eligible employees of the Company. Any employee who has completed 500 hours of service within a six-month period and is age 21 or older is eligible to participate in the Plan. Participation is voluntary and effective at any time during the year, following the date the eligibility requirements are met. The Plan was established on May 1, 1987 and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Employee Contributions - The Plan provides for employee salary 401(k) contributions subject to maximum tax-deferred limitations established by the Internal Revenue Code. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also make contributions to the Plan in the form of a rollover of funds from another qualified plan.

Employer Contributions - The Company is required to make matching contributions equal to 25 percent of each eligible employee's contribution not in excess of $200 annually.

Participant Accounts - Each participant's account is credited with the participant's contributions and allocations of the Company's contributions, and plan earnings and charged with an allocation of administrative expenses. Allocations are based on participants' compensation or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants may direct the investments of their account balances into various investment options offered by the Plan.

Vesting - Participants' contributions, the employer match contributions, and related earnings are fully vested at all times and are not subject to forfeiture for any reason.

Payment of Benefits - Distributions are payable upon retirement, death, disability, or termination of employment in the form of a lump-sum amount or annual installments over a 10-year period. In-service distributions may be made from a participant's vested account at any time after the attainment of age 59½.

Note 1 - Plan Description (Continued)

Hardship Withdrawals - Participants may request that all or a portion of their account be distributed in the case of severe financial hardship, as defined in the plan document. The Company must approve any such hardship withdrawals.

Party-in-interest Transactions - Certain plan assets are in investment funds managed by Putnam Fiduciary Trust Company or its affiliates. Putnam Fiduciary Trust Company is the trustee of the Plan and, therefore, these transactions qualify as party-in-interest transactions as defined under ERISA guidelines. Certain employees of the Company provide administrative services to the Plan and the Company is not reimbursed by the Plan for their services.

Termination - While it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, the Trustee shall distribute all assets remaining in the Plan, after payment of any expenses properly chargeable against the Plan, to the participants in accordance with the value of the units credited to such participants as of the date of such termination.

Note 2 - Summary of Significant Accounting Policies

Investment Valuation and Income Recognition - Investments held by the Plan are stated at fair value. Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for further discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded as earned. Dividends are recorded on the ex-dividend date.

Benefit Payments - Benefits are recorded when paid.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions and deductions during the reporting period. Actual results could differ from those estimates.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

Note 2 - Summary of Significant Accounting Policies (Continued)

Subsequent Events - The financial statements and related disclosures include evaluation of events up through and including September 11, 2015, which is the date the financial statements were available to be issued.

Note 3 - Unaudited Information

Putnam Fiduciary Trust Company (the "Trustee") holds the Plan's investments and executes all investment transactions. The investment balances and related investment income and losses included in the accompanying financial statements and supplemental schedule of assets held at end of year are based solely on information provided by Great-West Trust Company, LLC on behalf of the Trustee.

Investments that comprise a significant portion of end of year net assets are as follows:

	2014	2013
Common collective trust fund - At contract value -		
Putnam Stable Value Fund (fair value of $1,535,444 and $1,513,595, respectively)	$ 1,490,351	$ 1,429,754

Note 4 - Fair Value Measurements

Accounting standards require certain assets and liabilities be reported at fair value in the financial statements and provide a framework for establishing that fair value. The framework for determining fair value is based on a hierarchy that prioritizes the inputs and valuation techniques used to measure fair value.

The following tables present information about the Plan's assets measured at fair value on a recurring basis at December 31, 2014 and 2013.

Note 4 - Fair Value Measurements (Continued)

Level 1 - Fair values determined by Level 1 inputs use quoted prices in active markets for identical assets that the Plan has the ability to access.

Level 2 - Fair values determined by Level 2 inputs use other inputs that are observable, either directly or indirectly. These Level 2 inputs include quoted prices for similar assets in active markets, quoted prices for identical or similar assets in markets that are not active, and inputs other than quoted prices that are observable for the asset.

Level 3 - Level 3 inputs are unobservable inputs, including inputs that are available in situations where there is little, if any, market activity for the related asset. These Level 3 fair value measurements are based primarily on management's own estimates using pricing models, discounted cash flow methodologies, or similar techniques taking into account the characteristics of the asset.

In instances whereby inputs used to measure fair value fall into different levels in the above fair value hierarchy, fair value measurements in their entirety are categorized based on the lowest level input that is significant to the valuation. The Plan's assessment of the significance of particular inputs to these fair value measurements requires judgment and considers factors specific to each asset.

The following valuation methodologies have been used to value the Plan's investments:

Mutual Funds - Mutual funds are valued at closing quoted prices reported in active markets.

Common Collective Trust Fund - The Putnam Stable Value Fund, a common collective trust fund investment, is stated at fair value with an adjustment to contract value. Contract value represents investments at cost plus accrued interest income less amounts withdrawn to pay benefits. The fair value of the common collective trust fund is based on the fair value of the underlying net assets at the measurement date by the issuer of the fund. The Plan's interest in the common collective trust fund is based on its proportionate ownership interest in the fair value of the common collective trust fund.

The Putnam Stable Value Fund primarily holds guaranteed investment contracts. The fair value of the guaranteed investment contracts is based on current yields of similar instruments with comparable durations taking into account the contract terms including interest reset intervals and the credit rating of the issuer. A separate line item in the Plan's financial statements reconciles the difference between fair value and contract value of the Putnam Stable Value Fund. Participants may transfer in and out of this fund on a daily basis without prohibitive restrictions. There are no unfunded commitments to this fund.

Note 4 - Fair Value Measurements (Continued)

The Putnam S&P 500 Index Fund is valued at net asset value (NAV) per unit (or its equivalent) of the fund, which is based on the fair value of the fund's underlying net assets. The underlying investments of this common collective trust primarily consist of publicly traded equity securities that are valued based on quoted market prices. Participants may transfer in and out of this fund on a daily basis without prohibitive restrictions. There are no unfunded commitments to this fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

* The investment objective of the stable value common collective trust fund is to preserve principal and provide a stable return over the life of the investment. The investment objective of the equity index common collective trust is to provide total return performance similar to the S&P 500 by investing in common stocks of publicly traded U.S. companies.

The Plan's policy is to recognize transfers between levels of the fair value hierarchy as of the end of the reporting period.

Note 5 - Tax Status

The Plan has adopted a prototype plan offered by Orchard Trust Company, an affiliate of Putnam Fiduciary Trust Company. Orchard Trust Company has received an opinion letter from the Internal Revenue Service (IRS) and has represented to the Plan that, as designed, the Plan is in compliance with the applicable requirements of the Internal Revenue Code. The Plan has not individually sought its own determination letter.

In accordance with guidance on accounting for uncertainty in income taxes, management evaluated the Plan's tax position and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The plan administrator believes the Plan is no longer subject to tax examinations for years prior to 2011.

Note 6 - Refund of Excess Contributions

For each of the years ended December 31, 2014 and 2013, the Plan failed the average deferred percentage and average contribution percentage nondiscrimination tests. As a result, a portion of 2014 and 2013 contributions had to be refunded to highly compensated employees in order for the Plan to maintain its qualified status with the Internal Revenue Service. Earnings on the excess contributions were also refunded.

Note 7 - Reconciliation to Form 5500

The lost earnings related to the late remittances were also remitted to the Plan.
