NOTE 1 - DESCRIPTION OF PLAN

The following description of the Perricone Juices 401(k) Retirement Savings Plan (the Plan) is provided for general information purposes. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution profit sharing plan for the eligible employees of Beaumont Juice, Inc. dba Perricone Juices (the "Company"). It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Plan was established on January 1, 2000.

Participant Eligibility - The Plan covers all employees of the Company who are at least 21 years of age. Eligible employees may enroll in the Plan as soon as the requirement is met.

Contributions - Participants may contribute a percentage of their pretax compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions (rollovers) from other qualified benefit plans. The Company will also match participant contributions at a rate of 100%, up to a maximum contribution amount of 6%. During the years ended December 31, 2014 and 2013, the Company made $146,416 and $132,732 of matching contributions, respectively. Participants direct the investment of all contributions to their account into various investment options offered by the Plan.

Investments - Each participant directs the allocation of his or her contribution and employer matching contributions to one or more of twenty-four investment options.

Forfeitures - Amounts forfeited from terminating participants' non-vested portion of their Company contributions and earnings on Company contributions can be used to pay administrative expenses of the Plan or reduce future employer contributions. At December 31, 2014 and 2013, there were no unallocated forfeitures. During the year ended December 31, 2014 there was $3 used to reduce administrative expenses and $1,669 used to reduce employer contributions. No forfeitures were used to pay plan expenses or reduce future employer contributions during the year ended December 31, 2013.

Participant Accounts - Participant accounts are credited with the participant's contributions and allocations of (a) the Company's matching contributions, and (b) Plan earnings. Allocations are based on participant earnings, participant contributions, or account balances, as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

NOTE 1 - DESCRIPTION OF PLAN (Continued)

Vesting - Participants are immediately vested in their own contributions plus actual earnings thereon. Vesting in the employer contribution portion of their accounts is based on years of continuous service. The employer's contributions vest according to the following schedule:

Years of Services	Vested Percentage
0-1	0
2	20
3	40
4	60
5	80
6 or more	100%

Notes Receivable from Participants - Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of 50% of their vested account balance up to $50,000. The loans are secured by the vested balance in the participant's account, and bear interest at rates that are commensurate with local prevailing rates, as determined by the plan administrator. Principal and interest is paid ratably through payroll deductions.

Benefit Payments - Upon termination of service, death, retirement or early retirement, disability, or in-service withdrawal, as defined by the Plan document, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in his or her account, an annuity, or periodic installments. The Plan also allows for hardship distributions, as defined in the Plan document.

Administrative Expenses - Expenses incurred in the administration of the Plan are paid by both the Plan and the Company.

NOTE 2 - SUMMARY OF ACCOUNTING POLICIES

Basis of Presentation - The financial statements have been prepared in compliance with the Department of Labor Rules and Regulations for reporting and disclosure under ERISA.

Basis of Accounting - The financial statements have been prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties - The Plan provides for various investment options in any combination of investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investments securities, it is possible that changes in risks in the near term could materially affect participants account balances and the amounts reported in the Statements of Net Assets Available for Benefits and the Statement of Changes in Net Assets Available for Benefits.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan document.

Subsequent Events - The Plan evaluated subsequent events through September 10, 2015, the date these financial statements were issued. There were no material subsequent events that required recognition or additional disclosure in these financial statements.

NOTE 4 - FAIR VALUE MEASUREMENTS

FASB ASC 820, *Fair Value Measurements*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: • quoted prices for similar assets or liabilities in active markets; • quoted prices for identical or similar assets or liabilities in inactive markets; • inputs other than quoted prices that are observable for the asset or liability; • inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

RETIREMENT SAVINGS PLAN**

**Notes to Financial Statements
(Continued)
December 31, 2014 and 2013**

NOTE 4 - FAIR VALUE MEASUREMENTS (Continued)

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value.

Pooled separate accounts: Mutual funds or equity securities held in pooled separate accounts are measured using quoted prices in active markets for identical assets. Fixed maturity securities held in pooled separate accounts are measured based on the pricing data provided by outside valuation service providers who in turn generally use the mean of bid and ask prices but may also use alternative observable pricing inputs for certain securities.

Unallocated contracts: Valued at contract value, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

	Assets at Fair Value as of December 31, 2014			
	Level 1	*Level 2*	*Level 3*	*Total*

Fair Value of Investments in Entities that Use NAV

Pooled separate accounts (PSA) are valued at NAV which is based on the fair value of the underlying investments of the PSA, less any liabilities. The underlying investments of the PSA are mainly equity and fixed income securities and short-term investments. The investment strategies of the Plan's PSA vary generally based on the investment objectives of the asset class of which they are a part. Such investment strategies include investments in fixed income securities and investments in equity securities in domestic and international markets for growth and value objectives as well as to replicate market indexes and to invest in emerging markets. The Plan had no unfunded commitments related to PSA. The redemption of PSA is subject to the preference of individual Plan participants and contains no restrictions on the timing of redemption.

NOTE 5 - INFORMATION CERTIFIED BY THE PLAN'S CUSTODIAN

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Transamerica Life Insurance Company (Transamerica), the custodian of the Plan assets, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2014 and 2013.
- Net appreciation in fair value of investments, interest and dividends reflected on the accompanying Statements of Changes in Net Assets Available for Benefits for the years ended December 31, 2014 and 2013.

NOTE 6 - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, so that each participant receives 100% of his or her account balance as of the date of termination.

NOTE 7 - TAX STATUS

The Plan document is a volume submitter profit sharing plan sponsored by Transamerica Financial Life Insurance Company that received a favorable opinion letter on May 30, 2008, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 8 - RELATED PARTY TRANSACTIONS

Certain plan investments are in pooled separate accounts and guaranteed investment contracts managed by Transamerica or its wholly owned subsidiaries. Transamerica is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Additionally, notes receivable from participants are considered party-in-interest transactions.
