## MEGTEC SYSTEMS, INC. 401(K) PLAN

### NOTES TO FINANCIAL STATEMENTS

December 31, 2009

#### Note 1 - Description of Plan

The following brief description of the MEGTEC Systems, Inc. 401(k) Plan (Plan) is provided for general information purposes only. Participants should refer to the Summary Plan Description for more complete information.

##### A. General

The Plan is a defined contribution plan covering substantially all non-union employees of MEGTEC Systems, Inc. (Company), who have 3 months of service and are age twenty-one or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA).

##### B. Contributions

Participants may contribute an amount of their pretax compensation up to the Internal Revenue Service limit. The Company may make discretionary matching and nonelective contributions to eligible participants. For the year ended December 31, 2009 the Company did not make any matching or nonelective contributions.

##### C. Transfers from qualified plans (rollovers)

At the discretion of the Plan Administrator, participants may be permitted to deposit distributions received from other qualified plans into the Plan. Such a deposit is referred to as a "rollover". Participants are always 100% vested in their "rollover" account.

##### D. Participant accounts

Each participant's account is credited with the participant's contribution and the Company's matching and nonelective contributions, Plan earnings and charged with an allocation of administrative expenses. Allocations are based on account balances. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

##### E. Vesting

Participants are vested immediately in their contributions plus actual earnings thereon. Vesting in the Company's matching and nonelective contribution portion of their accounts is based on years of continuous service. Participants become 20% vested after completing 1 year of service and are additionally vested 20% each year of additional service up to five years of service, at which time participants are fully vested. However, upon the participant's death, disability, or attainment of normal retirement age, all amounts are immediately vested.

##### F. Payment of benefits

Upon a participant's retirement, death, total disability or termination, the account balance shall be distributed to the participant or beneficiary using one of several available benefit distribution methods.

Note 1 - Description of Plan, continued

G. Forfeited accounts

Forfeited accounts from Company matching contributions will be allocated as an additional discretionary matching contribution. Forfeited accounts from Company nonelective contributions will be used to reduce future Company nonelective contributions. There were no forfeited accounts for the year ended December 31, 2009.

H. Participant loans

The Plan allows eligible participants to borrow funds from the Plan. Under the terms of this provision, borrowings are subject to certain limitations, including a maximum aggregate borrowing. The period of repayment for any loan is generally determined by the amount of the loan. Interest rates are fixed at approximate market rates at the loan inception date.

I. Plan termination

Although they have not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

Note 2 - Summary of significant accounting policies

A. Basis of accounting

The financial statements of the Plan are prepared under the accrual method of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts through a common trust fund. The statement of net assets available for benefits present the fair value of the investment in the common trust fund as well as the adjustment of the investment in the common trust fund from fair value to contract value relating to the investment contracts. Since contract value approximates fair value at December 31, 2009, no adjustment was needed. The statement of changes in net assets available for benefits is prepared on a contract value basis.

B. Investment valuation

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 3 for a discussion of fair value measurements.

NOTES TO FINANCIAL STATEMENTS, CONTINUED

Note 2 - Summary of significant accounting policies, continued

C. Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

D. Payment of benefits

Benefit payments to participants are recorded upon distribution.

E. Subsequent events

Plan management has evaluated events and transactions for potential recognition or disclosure in the financial statements through July 16, 2010, the date on which the financial statements were available to be issued.

Note 3 - Fair value measurements

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 consists of unadjusted quoted prices in active markets for identical assets, Level 2 consists of inputs observable in the marketplace other than quoted prices in active markets for identical assets, and Level 3 consists of significant inputs unobservable in the marketplace. The major categories of Plan investments reported at fair value as of December 31, 2009:

Note 3 - Fair value measurements, continued

More specific information on the valuation techniques used for Level 2 and Level 3 category Plan investment is as follows:

Level 2 Fair Value Measurements

The fair value of the common trust fund is based on the fair value of its underlying assets. These underlying assets are primarily composed of investments that have quoted market prices in active markets or are valued based on yields currently available on comparable securities of issuers with similar credit ratings.

Level 3 Fair Value Measurements

The fair value of participant loans is equal to the amortized cost of the loans because the loans are secured by each respective participant's account balance.

The following table provides further details of the Level 3 fair value measurements for the year ended December 31, 2009:

|                                                      | Participant<br><u>Loans</u> |

Note 5 - Transactions with party-in-interest

Substantially all administrative expenses relating to the Plan are paid by the Company.

Note 6 - Tax status

The Plan is a prototype plan adopted from the prototype plan sponsor. The prototype plan sponsor has received a notification letter from the Internal Revenue Service which indicates that the form of the prototype plan is acceptable under the Internal Revenue Code. The Plan has not obtained their own determination letter from the Internal Revenue Service on the current Plan document. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, the plan administrator believes that the Plan was qualified and the related trust was tax-exempt as of the financial statement date.

Note 7 - Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the statement of net assets available for benefits.
