Independent Auditors' Report

To the Plan Administrator of the
KIND Inc. Retirement Savings Plan
New York, NY

Report on the Financial Statements

We have audited the accompanying financial statements of the KIND Inc. Retirement Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditors consider internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

Auditors' Responsibility (continued)

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in its net assets available for benefits for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule of assets (held at end of year) as of December 31, 2014, is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

KIND Inc. Retirement Savings Plan

Notes to Financial Statements

December 31, 2014 and 2013

1. Description of the Plan

The KIND Inc. Retirement Savings Plan (the Plan) is a defined contribution plan of KIND Inc. (the Plan Administrator, or, the Company). The following description of the Plan provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General

The Plan, effective March 1, 2012, is a defined contribution plan covering all eligible employees of the Company. Participation in the Plan is available to eligible employees who have reached age 21 and have completed one year of eligible service, which is at least 1,000 hours in 12 consecutive months. Employees may participate in the Plan on the first day of the calendar quarter following the date on which the eligibility requirements are met.

The Plan's eligibility requirements were waived for all employees of the Company as of the Plan's effective date, and these employees for whom the eligibility requirements were waived were immediately eligible to participate in the Plan. Any employees hired after the Plan's effective date must satisfy the Plan's adopted eligibility requirements.

Effective June 1, 2013, the Plan's eligibility requirements were amended from one year of eligible service, which is at least 1,000 hours in 12 consecutive months, to 3 months of service, with entry into the Plan occurring on the first day of the month after satisfying the eligibility requirements.

The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Plan participants can contribute an amount between 1% and 80% of eligible compensation, as defined by the Plan, limited by the requirements of the Internal Revenue Code (IRC), which were $17,500 ($23,000 for certain eligible employees) during 2014 and 2013. Participants may also make Roth 401(k) after-tax contributions to the Plan. The Plan Administrator submits all withheld employee contributions to the Plan for all pay cycles at a reasonable time after the employee contributions have been calculated.

1. Description of Plan (continued)

Contributions (continued)

The Plan was adopted as a safe harbor plan, where the Company provides a safe harbor match of 100% of the first 3% of compensation contributed as elective deferrals, and 50% of the next 2% of compensation contributed as elective deferrals for a maximum match of 4% of eligible compensation.

In addition, the Company may make a Qualified Non-Elective Contribution (QNEC) discretionary profit sharing contribution on behalf of each non-highly compensated participant. These discretionary profit sharing contributions are to be determined by management annually, are to be distributed on a pro-rata basis, and cannot exceed 6% of a participant's compensation. No QNEC contributions were made during the years ended December 31, 2014 and 2013.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans under the rollover provisions of the Plan. Participants may change their salary deferral percentage at any time during the year. Participants may also change their investment options or cease contributing to the Plan at any time. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant Accounts

All employer and participant contributions to the Plan are invested in accordance with investment elections specified by each participant. Each participant's account is credited or charged with the participant's contribution and allocations of the Company's contribution, Plan earnings or losses, and Plan expenses. Allocations are based on participant earnings or account balances, as defined.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Participants are 100% vested in all Company safe harbor matching contributions and earnings thereon. Vesting in the Company's QNEC contributions within their accounts plus actual earnings thereon is based on years of continuous service, as defined. Participants become 34% vested after one year of credited service, 67% vested after two years of credited service, and 100% vested after three years of credited service.

1. Description of Plan (continued)

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance minus their highest outstanding loan balance from the Plan during the year. One loan may be outstanding for each participant at any time. Loan terms range from one to five years or up to a participant's normal retirement date. Loans for the purchase of a primary residence may be repaid over a reasonable period which may exceed five years, provided that such repayment does not extend beyond the participant's retirement date. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined quarterly by the Plan Administrator. At December 31, 2014 and 2013, the interest rate on all outstanding loans was 4.25%. Principal and interest is paid ratably through payroll deductions.

Payments of Benefits

The normal retirement age used is age 65. In-service distributions are permitted after age 59 ½. Hardship distributions are also allowed for Plan participants.

Upon termination of service due to death, disability or retirement, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution. If terminated vested participants with account balances valued between $1,000 and $5,000 fail to make a distribution election, their balance will automatically be transferred into an Individual Retirement Account (IRA). The IRA provider will invest such funds in a type of investment designed to preserve principal and provide a reasonable rate of return and liquidity (e.g., an interest bearing account, a certificate of deposit or a money market fund). If terminated vested participants with account balances less than $1,000 fail to make a distribution election, such accounts will be distributed in a lump-sum.

Forfeitures

If a participant terminates employment with the Company at a time when the participant does not have a fully vested interest, the non-vested employer contributions and actual earnings thereon are forfeited. There were no forfeited non-vested amounts for the years ended December 31, 2014 and 2013. Forfeited balances of terminated participants' non-vested accounts are used to reduce future Company contributions and offset administrative expenses of the Plan. No forfeitures were used during the years ended December 31, 2014 and 2013, and there were no unallocated forfeitures at December 31, 2014 and 2013. Forfeitures resulting from 2014 excess contributions were subsequently deposited during 2015 (see Note 7).

1. Description of Plan (continued)

Plan Termination

Although it has not expressed any intent to do so, the Plan Administrator has the right under the Plan to discontinue its contributions at any time or to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on an accrual basis in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of the Plan's financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits at the date of the financial statements and the changes in net assets available for benefits during the reporting periods and, when applicable, disclosure of contingent assets and liabilities at the dates of the financial statements. Actual results could differ from those estimates.

Risks and Uncertainties

The Plan provides for various investment options in any combination of shares of mutual funds and a money market fund with various investment objectives. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Shares of mutual funds and the money market fund are valued at quoted market prices, which represent the net asset value of shares held by the Plan at year-end.

The Plan presents in the statement of changes in net assets available for benefits the net appreciation in fair value of investments, which consists of undistributed realized gains and losses and unrealized appreciation (depreciation) on these investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Administrative Expenses

The Plan is responsible for the payment of all fees associated with the maintenance of the Plan. Administrative fees and investment related expenses are paid out of Plan assets and are allocated to participant accounts.

Payments of Benefits

Benefits are recorded by the Plan when approved for payment.

Notes Receivable from Participants

Notes receivable from participants represent participant loans that are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the Plan Administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

3. Investments

The Plan has investments in mutual funds and a money market fund.

As of December 31, 2014 and 2013, investments representing 5% or more of the Plan's net assets available for benefits were as follows:

	2014	2013
Vanguard Total Stock Market Index Admiral	**$ 910,847**	$ *
Vanguard Target Retirement 2020	**278,935**	199,174
Vanguard Short-Term Federal Admiral	**268,324**	*
Vanguard Target Retirement 2050	**251,968**	*
Vanguard Total Stock Market Index Signal	*	351,220
MFS Utilities A	*	145,184
PIMCO Total Return Inst	*	109,915

* Investment did not meet 5% threshold.

For the years ended December 31, 2014 and 2013, the Plan's investments, including gains and losses on investments bought and sold, as well as held during the year, had total appreciation of $86,248 and $143,778, respectively.

4. Fair Value Measurements

The Plan follows Accounting Standards Codification (ASC) 820, *Fair Value Measurements and Disclosures* (ASC 820), for all financial assets and liabilities and nonfinancial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. ASC 820 defines fair value, establishes a fair value hierarchy, and expands disclosures about fair value measurements.

ASC 820 defines fair value as the price that would be received upon sale of an asset or paid upon transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability.
The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities should include consideration of non-performance risk including the Plan's own credit risk.

4. Fair Value Measurements (continued)

In addition to defining fair value, ASC 820 expands the disclosure requirements around fair value and establishes a fair value hierarchy for valuation inputs. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of three levels which is determined by the lowest level input that is significant to the fair value measurement in its entirety.

These levels are:

Level 1 - Inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level 2 - Inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 - Inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

The following table summarizes the fair values and levels within the fair value hierarchy in which the fair value measurements fall for assets measured on a recurring basis as of December 31:

2014: **Description**	**Level 1**	**Level 2**	**Level 3**	**Total**
Investments:				
Mutual funds	**$ 3,298,892**	**$ -**	**$ -**	**$ 3,298,892**

5. Party-in-Interest Transactions

During 2014 and 2013, certain Plan investments were held and managed by Fidelity Investments, the custodian of the Plan's assets, and therefore, purchases and sales of these securities qualify as party-in-interest transactions.

6. Tax Status

The Plan has not obtained a tax determination letter from the Internal Revenue Service (IRS). The Plan adopted a Planright prototype plan, which received an IRS opinion letter on March 31, 2008, in which the IRS stated that the prototype plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has adopted amendments since this date, and the Plan Administrator believes that the Plan and related trust are designed and are currently being operated in accordance with the applicable sections of the IRC.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Discrimination Testing

The Plan is a safe harbor plan, and thus is exempt from the discrimination provisions of the IRC.

During 2014, the Plan violated the IRS limit on maximum allowable employer contributions for one employee. As such, Plan management elected to authorize the Custodian to refund contributions totaling $5,399 to the forfeiture account. The return of excess contributions was performed by the Plan in 2015.

8. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31, 2014:

Net assets available for benefits per the financial statements	**$ 3,428,279**
Return of excess contributions	**5,399**
Net assets available for benefits per Form 5500	**$ 3,433,678**
