INDEPENDENT AUDITOR'S REPORT

To the Board of Directors
Personal Touch 401(K) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Personal Touch 401(K) Plan which comprise the statement of net assets available for plan benefits as of December 31, 2014 and the related statement of changes in net assets available for benefits for the year then ended, the related notes to the financial statements, and the supplemental schedules of assets held at end of year, and disposed of within the plan year, and reportable transactions as of, or for the year ended December 31, 2014.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investments summarized in Note 8, which was certified by Principal Financial Group, the trustee for the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that Principal Financial Group held the Plan's investment assets and Principal Trust Company serves as a third party administrator for 2014. The plan administrator has obtained certification from the trustee as of and for the year ended December 31, 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter - Report on the 2013 Financial Statements

The financial statements of the plan as of December 31, 2013, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the predecessor auditors not to perform and they did not perform, any auditing procedures with respect to the information certified by the trustee. Their report, dated July 24, 2014, indicated that (a) because of the significance of the information that they did not audit, they were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Other Matter - Supplementary Information

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedules, which are the responsibility of plan management, are presented for the purpose of additional analysis and are not a required part of the financial statements but are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedules referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1 - DESCRIPTION OF PLAN

The following brief description of the Personal Touch 401(K) Plan is provided for general information purposes. Participants should refer to the *Summary Plan Description,* which is available from Personal Touch Home Care and Affiliates, Inc. (the "Company") for more complete information.

General

The Plan is a defined contribution plan covering all employees of the Company who are 21 and older. The Audit Committee of the Company controls and manages the operation and administration of the Plan. Principal Financial Group ("Principal") serves as the trustee of the Plan. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

i The Plan excludes employees included in a unit of employees covered by a collective bargaining agreement between the employer and employee representatives, if retirement benefits were the subject of good faith bargaining and if two percent or less of the employees who are pursuant to that agreement are professionals as defined in Regulations Section 1.410(b)-9. For this purpose, the term "Employee Representative" does not include any organization more than half of whose members are employees who are owners, officers, or executives of the employer.

ii The Plan excludes employees who are nonresident aliens and who receive no earned income, as defined in the Plan agreement.

iii The Plan excludes from participation any nondiscriminatory classification of employees determined as follows:

Highly compensated employee - Any employee who during the current or prior plan year (1) was a more than 5% owner or (2) received more than $115,000 in compensation as adjusted for inflation. Family members of a 5% owner, or highly compensated employee in the group of the ten employees with the greatest compensation, will be combined as if they were one person for purposes of compensation and contributions.

Contributions

Participants may make elective contributions from 1% up to 90% of their annual compensation, subject to statutory limitations, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contributions plans. The employer does not match contributions made by the employee. Contributions are subject to statutory limitations.

Participant Accounts

Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution and allocations of Company discretionary contributions plus Plan earnings and is charged with allocations of certain administrative expenses. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested amount.

Note 1 - DESCRIPTION OF PLAN (CONTINUED)

Vesting

Participants are vested immediately in their contributions plus actual earnings thereon.

Investment Options

The money contributed to the Plan may be invested in a variety of investment vehicles considered prudent for a retirement plan. The Trustee who is responsible for the safekeeping of plan assets holds the Plan's assets. Participants may direct the investments among alternative investment funds provided under the Plan. Information regarding the investment funds and the procedures for making an election can be obtained from the Plan Administrator. Changes in investment selection and the movement of monies from one fund to another are permitted in accordance with the rules established by the Plan Administrator.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of the current value of their account balance. The loans are secured by the balance in the participant's account and bear a reasonable interest rate equal to the prime rate plus 1% at the time the loan was made. All loans must be repaid over a period not extending beyond five years, unless the loan is used to acquire a dwelling unit as defined in the Plan document. Loans must be approved by the Plan Administrator and are subject to a strict set of rules established by law.

Payments of Benefits

Normal retirement age to withdraw money is 59-1/2. On termination due to death, disability, or retirement, a participant, or their beneficiary, will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Administrative Expenses

The Company pays the administrative expenses of the Plan. All participant charges are deducted from participant contributions and accounts.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared using the accrual method of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires that the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Note 2 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (continued)

Estimates (continued)

As described in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 962, "Reporting of Investment Contracts Held by Health and Welfare Pension Plans and Defined Contribution Plans", investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. No adjustment is reflected in the statement of net assets available for plan benefits as of December 31, 2014 and the statement of changes in net assets available for benefits for the year ended December 31, 2014, as contract value approximates fair value.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Note 3 - RISKS AND UNCERTAINTIES

The plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 4 - TAX STATUS OF PLAN

The Internal Revenue Service has determined and informed the Company by a letter dated April 17, 2002 that the Plan and related trust are designed in accordance with applicable regulations of the Internal Revenue Code. Plan management and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code and the Plan and related trust continue to be tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not, wouldn't be sustained upon examination by the applicable authorities. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset), or disclosures in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan Administrator believes it is no longer subject to income examination for years prior to 2010.

Note 5 - FAIR VALUE MEASUREMENT

The Financial Accounting Standards Board's Accounting Standards Codification ("FASB ASC") defines fair value as the price that would be received upon sale of an asset or paid upon transfer of liability in orderly transaction between market participants at the measurement date and in the principal or most advantageous market for the asset or liability. The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity.

The FASB ASC specifies a hierarchy of valuation techniques based upon whether the inputs to those valuation techniques reflect assumptions other market participants would use based upon market data obtained from independent sources (observable inputs). In accordance with the codification under GAAP, the following summarizes the fair value hierarchy:

Level 1 Inputs - Unadjusted quoted market prices for identical assets and liabilities in an active market that the Plan has the ability to access.

Level 2 Inputs - Inputs to the valuation methodology include:

* quoted prices for similar assets or liabilities in active markets;
* quoted prices for identical of similar assets or liabilities in inactive markets;
* inputs other than quoted prices that are observable for the asset of liability;
* inputs that are derived principally from and corroborated by observable market data by correlation or other means.

If the asset of liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 5 - FAIR VALUE MEASUREMENT (continued)

The FASB ASC requires the use of observable market data, when available, in making fair value measurements. When inputs used to measure fair value fall within different levels of the hierarchy, the level within which the fair value, measurement is categorized is based on the lowest level input that is significant to the fair value measurement.

Note 6 - RELATED PARTY TRANSACTIONS

Certain plan investments are shares of mutual funds managed by Principal Trust Company. Principal Trust Company is the third party administrator and custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions.

Note 7 - PLAN TERMINATION

In the event the Plan terminates, the net assets of the Plan will be allocated as prescribed by ERISA and its related regulations. Whether all participants receive their benefits should the Plan terminate at some future time will depend on both the priority of those benefits and the sufficiency of the Plan's net assets as that time to provide for accumulated benefit obligations and may also depend on the financial condition of the Firm and the level of benefits guaranteed by the Pension Benefit Guaranty Corporation ("PBGC").

Note 8 - INFORMATION CERTIFIED BY THE TRUSTEE

The following is a summary of the unaudited information regarding the Plan as of December 31, 2014, and for the year ended December 31, 2013, included in the Plan's financial statements and supplemental schedule, that was prepared by or derived from information prepared by Fidelity and furnished to the plan administrator. The Plan administrator has obtained certifications from the trustee that such information is complete and accurate.
