Report of Independent Auditors

Plan Administrator
CMS Savings Plan and Trust

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of CMS Savings Plan and Trust (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by The Charles Schwab Trust Company, the custodian of the plan, except for comparing such information with the related information included in the financial statements.

We have been informed by the Plan administrator that the custodian holds the Plan's investments and notes receivable from participants and executes the related transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to the Plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2014, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of CMS Savings Plan and Trust (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by The Charles Schwab Trust Company, the custodian of the plan, except for comparing such information with the related information included in the financial statements.

We have been informed by the Plan administrator that the custodian holds the Plan's investments and notes receivable from participants and executes the related transactions. The Plan administrator has obtained a certification from the custodian as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to the Plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2014, is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

CMS Savings Plan and Trust

Notes to Financial Statements

As of December 31, 2014 and 2013
and for the Year Ended December 31, 2014

1. Description of the Plan

The CMS Savings Plan and Trust (the "Plan") is a defined contribution plan covering eligible employees of Covenant Management Systems L.P. and Austin Regional Clinic, P.A. (collectively, the "Company" or "Plan Sponsor"). The Plan was established January 1, 1986, restated February 16, 2011, and most recently amended January 1, 2014. Pan assets are held by The Charles Schwab Trust Company, the custodian. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). Complete information regarding the Plan is included in the Plan document, a copy of which is available from the Company. Significant Plan provisions are summarized below.

Eligibility

Employees, who have attained age 18, are eligible to participate in the plan except part-time, temporary, or seasonal employees that earn less than 1,000 hours of service. Immediate participation is allowed for elective deferral contributions. Participants are eligible for safe harbor matching contributions on the first day of the quarter following completion of 90 days of service. For profit sharing contributions, participation is allowed on the first day of the next quarter for employees who have completed one year of service and attained age 18.

Contributions

Participants may elect to contribute elective deferral or Roth contributions up to a maximum of 75% of their eligible compensation each year, subject to Internal Revenue Service ("IRS") limitations. Catch-up contributions are allowed for participants who have attained age 50. Participants may also contribute amounts representing rollovers from other qualified retirement plans or individual retirement accounts. Eligible compensation excludes reimbursements or other expense allowances, fringe benefits, deferred compensation and welfare benefits.

1. Description of the Plan (continued)

Contributions (continued)

For 2014, the Company made a safe-harbor matching contribution of 100% on the first 3% of a participant's eligible compensation and 50% on the next 2% of eligible compensation. The Company may, at its discretion, also contribute an additional profit-sharing amount at the end of the Plan year. In 2014, the Company did not make any additional profit-sharing contributions. When made, the profit sharing contribution is allocated to eligible participants who completed a year of service (1,000 hours) and were employed on the last day of the Plan year using an integrated allocation formula. Contributions are subject to certain limitations.

Participant Accounts

Participants direct the investment of their accounts among various investment options offered by the Plan. Participants may change their investment options daily.

Each participant's account is credited with (a) participant's contributions, (b) an allocation of employer contributions and (c) an allocation of investment earnings, and is charged with (a) withdrawals, (b) an allocation of investment losses and (c) certain administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of the Plan (continued)

Vesting

Participants are immediately 100% vested in their own contributions, including rollover contributions, plus actual earnings thereon, and in employer safe-harbor matching contributions. Vesting in the forfeitable employer profit-sharing contributions is based on years of service as follows:

Years of Service	Vested Benefits
1 year	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Participants also become 100% vested in their entire accounts (including employer profit-sharing contributions) at retirement (age 65) or in the event of death, disability or complete or partial plan termination.

Notes Receivable from Participants

Participants are allowed to borrow a maximum amount of the lesser of 50% of the participant's vested amount or $50,000. Principal and interest are paid ratably through payroll deductions over a period generally not to exceed five years, unless the funds are used for purchase of a principal residence in which repayment terms may be extended. Notes receivable from participants are secured by the vested balance in the participant's account and bear interest at market rates. The amount of the notes receivable is deducted from the participant's investment account; thus, the interest paid is earnings to the participant and the principal paid is returned to the investment account of the participant.

1. Description of the Plan (continued)

Payment of Benefits

On termination of service due to death, disability, normal retirement, early retirement after reaching age 59 ½, or termination of employment, a participant is entitled to receive an amount equal to the vested interest in his or her account, payable in a single lump-sum, in periodic installments, or in certain other manners as defined by the Plan document. Distributions are subject to the applicable provisions of the Plan document.

In-service withdrawals are available in certain limited circumstances, as defined by the Plan. In-service withdrawals are allowed after attainment of age 59-1/2. Hardship withdrawals are allowed for participants incurring an immediate and heavy financial need, subject to a $500 minimum, as defined by the Plan. Hardship withdrawals are strictly regulated by the IRS and a participant must exhaust all available loan options and available distributions prior to requesting a hardship withdrawal.

Distributions from the Plan will normally be subject to income taxes and in certain circumstances may also be subject to IRS penalties, unless the distribution is transferred to another qualified plan or individual retirement account.

Forfeitures

Non-vested balances of participants' accounts may be subject to forfeiture upon termination of their employment with the Company. A forfeiture occurs in the Plan year in which the participant terminates service with the Plan Sponsor, as defined by the Plan. At December 31, 2014 and 2013, forfeited nonvested accounts totaled $769 and $13,670 respectively. For the year ended December 31, 2014, forfeitures totaling $14,815 were utilized to reduce the Plan's 2014 employer contributions. Amounts are retained in the Plan and used to pay Plan administrative expenses or to reduce future employer contributions.

Cash and Cash Equivalents

Cash and cash equivalents may include cash, funds received prior to year-end awaiting allocation to the appropriate investment option, if any, and short-term common collective trust funds sponsored by custodial banks.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America ("US GAAP").

Risks and Uncertainties

The Plan provides for investments in various investment securities, which in general, are exposed to various risks, such as interest rate, credit, and overall market volatility risks. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect the amounts reported in the financial statements and supplemental schedule.

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires Plan management to make estimates and assumptions that affect reported amounts of net assets available for benefits and changes therein. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Pension Committee determines the Plan's valuation policies utilizing information provided by the investment advisers, custodians and insurance company. See Note 3 for discussion of fair value measurements.

2. Significant Accounting Policies (continued)

Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared using the contract value basis for fully benefit-responsive investment contracts.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Management fees and expenses charged to the Plan for investments in mutual fund accounts are deducted from income earned in a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administrative expenses and are expensed when they are incurred. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the Plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits to participants are recorded by the Plan when actual payment is made.

2. Significant Accounting Policies (continued)

Expenses

Certain expenses of maintaining the Plan are paid directly by the Company and are excluded from these financial statements. Fees related to the administration of notes receivable from participants and benefit payment transactions are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification ("ASC") 820. ASU 2015-07 is effective for the Plan retrospectively for the year ending December 31, 2016, with early adoption permitted. The Plan's Pension Committee is currently evaluating the impact of the pending adoption of ASU 2015-07 on the Plan's financial statements.

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Plans (Topic 965)*, in three different parts as follows:

> *Part I: Fully Benefit-Responsive Investment Contracts*, requires fully benefit-responsive investment contracts to be measured, presented, and disclosed only at contract value and eliminates the previous requirement to present these investments at fair value with an adjustment to contract value for purposes of determining total net assets available for benefits.

2. Significant Accounting Policies (continued)

Part II: Plan Investment Disclosures, simplifies the required investment disclosures under Topics 820, 960, 962 and 965 by eliminating the requirements to disclose the following in the notes to the Plan's financial statements: (1) individual investments that represent 5% or more of net assets available for benefits; (2) the net appreciation or depreciation for investments by general type; and (3) the classification of investments on the basis of their nature, characteristics, and risks. Instead, net appreciation or depreciation will only be required to be presented in the aggregate and investments will only be required to be grouped by general type. Additionally, if an investment is measured using the NAV per share practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor ("DOL") Form 5500 as a direct filing entity, disclosure of investment strategy will no longer be required.

Part III: Measurement Date Practical Expedient, provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end.

ASU No. 2015-12, and all related parts, is effective for the Plan retrospectively for fiscal years beginning after December 15, 2015, with early adoption permitted. The Pension Committee is currently evaluating the impact of the pending adoption of ASU No. 2015-12 on the Plan's financial statements.

Subsequent Events

The Company evaluated events occurring between the end of the most recent fiscal year and September 30, 2015, the date the financial statements and supplemental schedule were available to be issued. No events have occurred through that date that would impact the financial statements.

3. Fair Value Measurements

The guidance for fair value measurement establishes the authoritative definition of fair value, sets out a framework for measuring fair value, and outlines the required disclosures regarding fair value measurements. Fair value is the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants at the measurement date. The Plan uses a three-tier fair value hierarchy based upon observable and non-observable inputs as follows:

- Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly.
- Level 3: Unobservable inputs developed using the Plan's estimates and assumptions which reflect those that market participants would use.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

- *Self-directed brokerage account:* Valued at the net asset value ('NAV") of shares of common stocks and bonds held by the Personal Choice Retirement Account ("PCRA") at year end.
- *Mutual funds*: Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily NAV and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

3. Fair Value Measurements

- *Common/collective trust (Morley Stable Value Fund)*: The Morley Stable Value Fund is a Collective Investment Trust (CIT) for which Union Bank and Trust acts as trustee. A CIT's NAV is based on the market value of its underlying investments. The NAV is not a publicly-quoted price in an active market. ASC 820 information on the Morley Stable Value Fund's underlying assets and their assigned fair value hierarchy was obtained from the audited financial statements that are made available to applicable plan sponsors.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Fair Value of Investments in Entities that Use Net Asset Value

The objective of the Morley Stable Value Fund is to provide preservation of capital, relatively stable returns consistent with its comparatively low risk profile and liquidity for benefit-responsive payments by investing primarily in a variety of high quality stable value investment contracts and cash and cash equivalents. Redemption is generally permitted daily. Individual participant redemptions for benefit payments and redemptions by participants to reinvest in options that do not compete with the Fund are generally permitted without restriction. A twelve-month advance written notice is required should the Plan initiate a full redemption of the Fund. There are no unfunded commitments and no changes in the valuation methodology used at December 31, 2014 or 2013.

3. Fair Value Measurements (continued)

Changes in Fair Value Levels

The availability of observable market data is monitored to assess the appropriate classification of financial instruments within the fair value hierarchy. Changes in economic conditions or model-based valuation techniques may require the transfer of financial instruments from one fair value level to another. In such instances, the transfer is reported at the beginning of the reporting period.

The Plan evaluated the significance of transfers between levels based upon the nature of the financial instrument and size of the transfer relative to total net assets available for benefits. For the year ended December 31, 2014, there were no significant transfers in or out of Levels 1, 2 or 3.

4. Investments

Individual investments that represent 5% or more of the Plan's net assets at either December 31, 2014 or 2013 are as follows:

	December 31	
	2014	**2013**
Morley Stable Value Fund – Class VI	**$ 28,316,774**	$ 28,448,066
American Funds Europacific R6 Fund	*	8,782,184
T. Rowe Price Growth Stock Fund	**21,589,802**	20,254,590
Templeton Institutional Foreign Equity Fund	*	8,828,351
Vanguard Institutional Index Fund	**22,020,016**	20,506,809
MFS Value R4 Fund	**13,072,267**	11,610,171
Pimco Total Return Fund Institutional Class	**11,811,914**	13,599,144

* Investment is less than 5%.

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in fair value as follows:

Registered investment company funds	**$ 492,849**
Self-directed brokerage account	**403,989**
Common/collective trust fund	**295,112**
Total	**$ 1,191,950**

5. Investment Contract

The Plan invests in a fully benefit-responsive stable fund under a group annuity contract. The Plan invests in the Morley Stable Value Fund Class VI (the "Fund") offered by Union Bond & Trust Company, trustee of the Fund. Union maintains the contributions in a general account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The trust issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the fund is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefit attributable to the investment contract. Contract value, as reported to the Plan by Union represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The crediting interest rate is based upon fixed rates or monthly and quarterly valuation of the contract investments.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (i) Fund administration is amended or changed; (ii) merger or consolidation of investors; (iii) group terminations or layoffs; (iv) implementation of an early retirement program; (v) termination or partial termination of the Fund; (vi) failure to meet certain tax qualifications; (vii) participant communication that is designed to influence participants not to invest in the Fund; (viii) transfers to competing options without meeting the equity wash provisions of the fund; and (ix) plan sponsor withdrawals with the appropriate notice to the Fund and/or issuer. In the normal course of business, such events or conditions would not limit the ability of the Fund to transact at contract value with the participants in the Fund. The Fund is managed to maintain a certain amount of liquidity to provide for the day-to-day liquidity needs of participants as well as the occasional market value event.

5. Investment Contract (continued)

An issuer can terminate an investment contract upon the event of default by the contract holder, adviser or trustee if the issuer determines in its reasonable discretion, such event has had, or is likely to have a material adverse effect on the issuer's interest with respect to the contract. Such events may include but are not limited to: management of the portfolio not in accordance with investment guidelines, breach of any material obligation under the wrap agreement, any representation or warranty made by the contract holder becomes untrue in any material way, replacement of the adviser without prior consent of the issuer, Fund is terminated or ceases to qualify as a group trust or plans cease to meet the appropriate tax qualifications, or the wrap becomes a prohibited transaction within the meaning of Section 406 of ERISA.

The net crediting rate is equal to the gross crediting rate minus the wrap fee due the contract issuer. Crediting rates reflect the amortization of realized and unrealized gains and losses in the underlying portfolio over the duration of the portfolio and, in consequence, may not reflect the actual returns achieved in the portfolio. From time to time the crediting rate may be significantly greater or less than current market interest rates.

For the Plan's investment in the common/collective trust, the weighted average gross crediting interest rate to the Plan was 1.800% and 1.386% for the year ended December 31, 2014 and 2013, respectively, net of asset charges.

A number of factors can influence future crediting rates, which may include but are not limited to: portfolio cash flows, underlying portfolio performance, current market interest rates for reinvestment, duration posture, credit downgrades, the unexpected receipt of principal and interest payments, extraordinary withdrawals and certain wrap contract terms.

6. Information Certified by the Custodian

The Plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the Charles Schwab Trust Company, the custodian of the Plan, has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments at fair value and notes receivable from participants, as shown in the statements of net assets available for benefits as of December 31, 2014 and 2013, with the exception of the common/collective trust which is certified at contract value.
- Total investment income and interest income on notes receivable from participants, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2014.
- Schedule H, line 4i – schedule of assets (held at end of year) as of December 31, 2014, with the exception of the common/collective trust which is certified at contract value.

7. Related-Party and Party-in-Interest Transactions

Plan assets include investment in funds managed by The Charles Schwab Trust Company and notes receivable from participants. The Charles Schwab Trust Company serves as the Plan's custodian and as such, these transactions qualify as party-in-interest transactions under ERISA. Fees incurred by the Plan for the investment management services are included in net appreciation in fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. The Plan Sponsor pays directly any other fees related to the Plan's operations.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the termination of the Plan, the individual accounts of all members shall become fully vested. After deducting all charges and expenses, the balances of all individual accounts will be adjusted and the remaining assets distributed.

9. Income Tax Status

The Plan adopted the Sungard Corbel Volume Submitter 401(k) Profit Sharing Plan, through Milliman, Inc., which has received an opinion letter from the IRS dated March 31, 2008 stating the form of the plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code"), and therefore, the related trust is tax exempt. In accordance with Revenue Procedures 2013-6 and 2011-49, the Plan administrator has determined that it is eligible to and has chosen to rely on the current IRS prototype plan opinion letter. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan, as amended, is qualified and the related trust is tax-exempt.

US GAAP requires Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS or other applicable taxing authority. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, and for the year ended December 31, 2014,there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or an asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.
