Independent Auditor's Report

Trustee
Galeana Chrysler Jeep, Inc. NADART Salary Deferral 401(k) Plan
Fort Myers, FL

We were engaged to audit the accompanying Statements of Net Assets Available for Benefits of **Galeana Chrysler Jeep, Inc. NADART Salary Deferral 401(k) Plan** as of December 31, 2009 and 2008, and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2009. We were also engaged to audit the supplemental Schedules of Assets (Held at End of Year) as of December 31, 2009, and Reportable Transactions for the year then ended. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 2, which was certified by Cardinal Bank, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008, and for the year ended December 31, 2009 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the investment information certified by the trustee have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Galeana Chrysler Jeep, Inc.
NADART Salary Deferral 401(k) Plan
Notes to Financial Statements
December 31, 2009

1. Description of Plan

General

The National Automobile Dealers Association (NADA) represents nearly 17,000 new car and truck dealers, both import and domestic, with more than 40,000 separate franchises. NADA membership is open to any new-automobile or new-truck dealership holding a new automobile or truck sales and service franchise. NADA Retirement Administrators Inc. dba NADART, an affiliate of NADA, provides and administers 401(k), pension and profit sharing plans for NADA members, non-members, and their employees. NADART sponsors a Master Plan, consisting of the basic plan document and the adoption agreement, which outlines the rules and provisions of the retirement plan adopted by the Employer. Employers establish the Plan by executing an Adoption Agreement (Plan Agreement).

The following description of the Plan provides only general information. Participants should refer to the plan document and/or the Summary Plan Description for a more complete description of the Plan's provisions.

The Galeana Chrysler Jeep, Inc. NADART Salary Deferral 401(k) Plan (the Plan) was established to provide retirement benefits for employees of Galeana Chrysler Jeep, Inc. (the Employer). Employees become eligible to participate in the Plan following 12 months of service and attainment of age 21, as defined in the Plan Agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participant contributions consist of pre-tax elective deferrals and after-tax contributions. Participants may contribute pre-tax elective deferrals up to the dollar limitation contained in section 402(g) of the Internal Revenue Code in effect at the beginning of the year. Employer contributions include matching contributions and discretionary contributions. Contributions are subject to certain limitations.

The Employer makes a matching contribution equal to 100% of the first 2% of compensation that the participant contributes. Employer discretionary contributions are allocated to participants employed on the last day of the Plan year in the same ratio as each participant's eligible compensation bears to the total eligible compensation of all participants.

Participant Accounts and Vesting

Each participant's account is credited with the participant's contributions, the employer's contributions and an allocation of the Plan's earnings, and charged with an allocation of investment expenses. The Plan's earnings and investment expenses (see also Note 5) are allocated according to participants' relative account balances. Certain participant fees, if applicable, are also charged to participant accounts.

Participants are immediately vested in their contributions plus actual earnings thereon. That portion of the participant's account attributable to employer matching contributions and employer discretionary contributions is fully vested after completion of six years of service. Vesting is accrued as outlined in the Plan Agreement. Participants' accounts become fully vested upon attainment of the normal retirement age of 65, early retirement as defined in the Plan Agreement, or in the event of death or total disability.

Net assets available for benefits include the accounts of active participants, as well as certain separated, vested and retired participants who have elected to receive their benefits in installment payments or elected to defer receipt of their benefit to a later date (Installment/Deferred). These participants share in the earnings of the investments.

Forfeitures

At December 31, 2009 and 2008 forfeited nonvested accounts totaled $0 and $1,689, respectively. These amounts will be used to pay administrative expenses for the plan year in which the forfeitures are generated. Any remaining amounts will be used to reduce future employer contributions. In 2009, $2,189 was used to pay administrative expenses and employer contributions were reduced by $924 from forfeited nonvested accounts.

Distributions to Participants

Benefits are recorded when paid. Amounts credited to an individual participant's account are distributed at termination of employment as a lump sum, in installments, or, if qualified, as an annuity. Distributions may be deferred until the participant reaches the age of 70 ½ if the value of the distribution is not less than $5,000. However, the Plan Agreement stipulates that distributions must commence no later than April 1 of the year following the year in which the participant reaches the age of 70 ½.

In certain hardship situations, as described in the Plan Agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited to pre-tax elective deferrals and may not include any earnings thereon.

Plan Termination

Although it has not expressed any intent to do so, the Employer has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, the respective participant's interest, net of any termination fees, will become fully vested and will be distributed to each participant in accordance with the Master Plan.

2. Basis of Accounting, Investments, and Investment Valuation

The accompanying financial statements are presented on the accrual basis of accounting. Participant contributions are invested in either the NADART Fund or the Income Fund, which are bank common/collective trusts (CCT) maintained by Cardinal Bank, the Trustee of the Plan. Employer contributions and participant pre-tax deferral contributions are invested in the NADART Fund. Employee after-tax voluntary contributions and Installment/Deferred accounts are invested in the Income Fund. In accordance with the qualified default investment alternative requirements of the Pension Protection Act, effective April 1, 2008, all new Installment/Deferred accounts are invested 100% in the NADART Fund. The Plan's investments are stated at fair market value, based upon unit values determined by the Trustee.

The common/collective trusts are valued using the net asset value (NAV) provided by the Trustee. The NAV for most CCTs is quoted on a private market that is not active; however, the unit price is based on quoted market prices of the underlying investments which are traded on an active market.

The Income Fund is the only CCT that contains synthetic guaranteed investment contracts (GIC). The fair value of a synthetic GIC is calculated by valuing each component of the structure separately. The fixed income securities component in the underlying account are valued at quoted market prices. The value of the wrapper contract component is determined by the issuer using a standard discounted replacement cost methodology, using the duration and period end yields of the issuer's comparable sector credit curve as valuation inputs.

In 2009, the Plan received a rebate of plan fees previously charged against investment income. The Trustee has certified as to the completeness and accuracy of all investments reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008, all of the investment activity reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2009, with the exception of the investment fee rebate, and all investment information in the supplemental schedules, which is summarized as follows:

	2009	2008
Investments, at fair value	$ 4,685,612	$ 4,062,399
Adjustment to contract value for Income Fund	(50,982)	171,004
Interest and dividends	181	
Net appreciation in fair value of investments	541,826	

Net Appreciation

For the year ended December 31, 2009, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value as follows:

Fair value as determined by the Trustee:		
Common/collective trusts	$	541,826
Net appreciation in fair value of investments	$	541,826

Significant Investments

The following investments represented more than 5% of the Plan's net assets as of December 31, 2009 and 2008:

	2009	2008
NADART Fund	$ 2,573,072	$ 2,135,716
Income Fund at contract value	2,061,558	2,097,687

Adjustment to Contract Value for Income Fund

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Income Fund investment held by the Plan contains underlying investment contracts. The Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008 present the fair value of the Income Fund as well as the adjustment of the Income Fund from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Fair Value Measurements

A hierarchy that prioritizes the inputs to valuation techniques is used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. All investments as of December 31, 2009 and 2008 are CCTs, the value of which is measured using significant other observable inputs (Level 2).

4. Tax Status

The NADART master prototype documents were amended to comply with the statutory requirements of the Economic Growth and Tax Relief Reconciliation Act (EGTRRA) of 2001 and received favorable opinion letters from the Internal Revenue Service on March 31, 2008. Each plan adopting a NADART master prototype plan document has been restated to reflect the EGTRRA plan changes. The Plan's restated adoption agreement is effective December 31, 2008. In accordance with Revenue Procedure 2002-6, the Plan administrator has chosen to rely on the current opinion letter that has been issued to the prototype. Once qualified, the Plan is required to operate in conformity with the Internal Revenue Code (the Code) to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

5. Investment and Administrative Expenses

The NADART and Income Funds are charged 45 basis points annually. The charge is reflected in a reduction of the daily value of the investments. The charge is returned to NADART for recordkeeping services, and accumulated to $9,484,839 in 2009 for the Trust's entire holdings in these funds.

Certain administrative fees including a base rate per plan, a charge per participant, service fees, and audit fees are paid by the Employer.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

7. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 and 2008 to Form 5500:

	2009	2008
Net assets available for benefits per audited financial statements	$ 4,686,435	$ 4,298,570
Adjustment to fair value for Income Fund	50,982	(171,004)
Net assets per Form 5500	$ 4,737,417	$ 4,127,566

The following is a reconciliation of investment income per the financial statements to the Form 5500:

	2009
Total investment income per the financial statements	$ 549,595
Change in adjustment to fair value for Income Fund	221,986
Total investment income per Form 5500	$ 771,581

8. Subsequent Events

Management has evaluated subsequent events for disclosure in these financial statements through September 14, 2010, which is the date the financial statements are available to be issued.

Galeana Chrysler Jeep, Inc. NADART Salary Deferral 401(k) Plan
Fort Myers, FL

We were engaged to audit the accompanying Statements of Net Assets Available for Benefits of **Galeana Chrysler Jeep, Inc. NADART Salary Deferral 401(k) Plan** as of December 31, 2009 and 2008, and the related Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2009. We were also engaged to audit the supplemental Schedules of Assets (Held at End of Year) as of December 31, 2009, and Reportable Transactions for the year then ended. These financial statements and supplemental schedules are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 2, which was certified by Cardinal Bank, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and 2008, and for the year ended December 31, 2009 that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedules taken as a whole. The form and content of the information included in the financial statements and schedules, other than that derived from the investment information certified by the trustee have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

NADART Salary Deferral 401(k) Plan
Notes to Financial Statements
December 31, 2009

1. Description of Plan

General

The National Automobile Dealers Association (NADA) represents nearly 17,000 new car and truck dealers, both import and domestic, with more than 40,000 separate franchises. NADA membership is open to any new-automobile or new-truck dealership holding a new automobile or truck sales and service franchise. NADA Retirement Administrators Inc. dba NADART, an affiliate of NADA, provides and administers 401(k), pension and profit sharing plans for NADA members, non-members, and their employees. NADART sponsors a Master Plan, consisting of the basic plan document and the adoption agreement, which outlines the rules and provisions of the retirement plan adopted by the Employer. Employers establish the Plan by executing an Adoption Agreement (Plan Agreement).

The following description of the Plan provides only general information. Participants should refer to the plan document and/or the Summary Plan Description for a more complete description of the Plan's provisions.

The Galeana Chrysler Jeep, Inc. NADART Salary Deferral 401(k) Plan (the Plan) was established to provide retirement benefits for employees of Galeana Chrysler Jeep, Inc. (the Employer). Employees become eligible to participate in the Plan following 12 months of service and attainment of age 21, as defined in the Plan Agreement. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Participant contributions consist of pre-tax elective deferrals and after-tax contributions. Participants may contribute pre-tax elective deferrals up to the dollar limitation contained in section 402(g) of the Internal Revenue Code in effect at the beginning of the year. Employer contributions include matching contributions and discretionary contributions. Contributions are subject to certain limitations.

The Employer makes a matching contribution equal to 100% of the first 2% of compensation that the participant contributes. Employer discretionary contributions are allocated to participants employed on the last day of the Plan year in the same ratio as each participant's eligible compensation bears to the total eligible compensation of all participants.

Participant Accounts and Vesting

Each participant's account is credited with the participant's contributions, the employer's contributions and an allocation of the Plan's earnings, and charged with an allocation of investment expenses. The Plan's earnings and investment expenses (see also Note 5) are allocated according to participants' relative account balances. Certain participant fees, if applicable, are also charged to participant accounts.

Participants are immediately vested in their contributions plus actual earnings thereon. That portion of the participant's account attributable to employer matching contributions and employer discretionary contributions is fully vested after completion of six years of service. Vesting is accrued as outlined in the Plan Agreement. Participants' accounts become fully vested upon attainment of the normal retirement age of 65, early retirement as defined in the Plan Agreement, or in the event of death or total disability.

Net assets available for benefits include the accounts of active participants, as well as certain separated, vested and retired participants who have elected to receive their benefits in installment payments or elected to defer receipt of their benefit to a later date (Installment/Deferred). These participants share in the earnings of the investments.

Forfeitures

At December 31, 2009 and 2008 forfeited nonvested accounts totaled $0 and $1,689, respectively. These amounts will be used to pay administrative expenses for the plan year in which the forfeitures are generated. Any remaining amounts will be used to reduce future employer contributions. In 2009, $2,189 was used to pay administrative expenses and employer contributions were reduced by $924 from forfeited nonvested accounts.

Distributions to Participants

Benefits are recorded when paid. Amounts credited to an individual participant's account are distributed at termination of employment as a lump sum, in installments, or, if qualified, as an annuity. Distributions may be deferred until the participant reaches the age of 70 ½ if the value of the distribution is not less than $5,000. However, the Plan Agreement stipulates that distributions must commence no later than April 1 of the year following the year in which the participant reaches the age of 70 ½.

In certain hardship situations, as described in the Plan Agreement, participants may withdraw part of their account balances while actively employed, but such withdrawals are limited to the amount dictated by the hardship. Participants' withdrawals are limited to pre-tax elective deferrals and may not include any earnings thereon.

Plan Termination

Although it has not expressed any intent to do so, the Employer has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of Plan termination, the respective participant's interest, net of any termination fees, will become fully vested and will be distributed to each participant in accordance with the Master Plan.

2. Basis of Accounting, Investments, and Investment Valuation

The accompanying financial statements are presented on the accrual basis of accounting. Participant contributions are invested in either the NADART Fund or the Income Fund, which are bank common/collective trusts (CCT) maintained by Cardinal Bank, the Trustee of the Plan. Employer contributions and participant pre-tax deferral contributions are invested in the NADART Fund. Employee after-tax voluntary contributions and Installment/Deferred accounts are invested in the Income Fund. In accordance with the qualified default investment alternative requirements of the Pension Protection Act, effective April 1, 2008, all new Installment/Deferred accounts are invested 100% in the NADART Fund. The Plan's investments are stated at fair market value, based upon unit values determined by the Trustee.

The common/collective trusts are valued using the net asset value (NAV) provided by the Trustee. The NAV for most CCTs is quoted on a private market that is not active; however, the unit price is based on quoted market prices of the underlying investments which are traded on an active market.

The Income Fund is the only CCT that contains synthetic guaranteed investment contracts (GIC). The fair value of a synthetic GIC is calculated by valuing each component of the structure separately. The fixed income securities component in the underlying account are valued at quoted market prices. The value of the wrapper contract component is determined by the issuer using a standard discounted replacement cost methodology, using the duration and period end yields of the issuer's comparable sector credit curve as valuation inputs.

In 2009, the Plan received a rebate of plan fees previously charged against investment income. The Trustee has certified as to the completeness and accuracy of all investments reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008, all of the investment activity reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2009, with the exception of the investment fee rebate, and all investment information in the supplemental schedules, which is summarized as follows:

	2009	2008
Investments, at fair value	$ 4,685,612	$ 4,062,399
Adjustment to contract value for Income Fund	(50,982)	171,004
Interest and dividends	181	
Net appreciation in fair value of investments	541,826	

Net Appreciation

For the year ended December 31, 2009, the Plan's investments (including investments bought, sold, and held during the year) appreciated in value as follows:

Fair value as determined by the Trustee:		
Common/collective trusts	$	541,826
Net appreciation in fair value of investments	$	541,826

Significant Investments

The following investments represented more than 5% of the Plan's net assets as of December 31, 2009 and 2008:

	2009	2008
NADART Fund	$ 2,573,072	$ 2,135,716
Income Fund at contract value	2,061,558	2,097,687

Adjustment to Contract Value for Income Fund

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Income Fund investment held by the Plan contains underlying investment contracts. The Statements of Net Assets Available for Benefits as of December 31, 2009 and 2008 present the fair value of the Income Fund as well as the adjustment of the Income Fund from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates and assumptions that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

3. Fair Value Measurements

A hierarchy that prioritizes the inputs to valuation techniques is used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets.

Level 2 Inputs to the valuation methodology include quoted prices for similar assets and liabilities in active markets, and inputs that are observable for the asset or liability, either directly or indirectly, for substantially the full term of the financial instrument.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. All investments as of December 31, 2009 and 2008 are CCTs, the value of which is measured using significant other observable inputs (Level 2).

4. Tax Status

The NADART master prototype documents were amended to comply with the statutory requirements of the Economic Growth and Tax Relief Reconciliation Act (EGTRRA) of 2001 and received favorable opinion letters from the Internal Revenue Service on March 31, 2008. Each plan adopting a NADART master prototype plan document has been restated to reflect the EGTRRA plan changes. The Plan's restated adoption agreement is effective December 31, 2008. In accordance with Revenue Procedure 2002-6, the Plan administrator has chosen to rely on the current opinion letter that has been issued to the prototype. Once qualified, the Plan is required to operate in conformity with the Internal Revenue Code (the Code) to maintain its qualification. The Plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

5. Investment and Administrative Expenses

The NADART and Income Funds are charged 45 basis points annually. The charge is reflected in a reduction of the daily value of the investments. The charge is returned to NADART for recordkeeping services, and accumulated to $9,484,839 in 2009 for the Trust's entire holdings in these funds.

Certain administrative fees including a base rate per plan, a charge per participant, service fees, and audit fees are paid by the Employer.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

7. Reconciliation to Form 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31, 2009 and 2008 to Form 5500:

	2009	2008
Net assets available for benefits per audited financial statements	$ 4,686,435	$ 4,298,570
Adjustment to fair value for Income Fund	50,982	(171,004)
Net assets per Form 5500	$ 4,737,417	$ 4,127,566

The following is a reconciliation of investment income per the financial statements to the Form 5500:

	2009
Total investment income per the financial statements	$ 549,595
Change in adjustment to fair value for Income Fund	221,986
Total investment income per Form 5500	$ 771,581

8. Subsequent Events
