Independent Auditor's Report

The Trustees
Urology San Antonio, P.A. 401(k) Profit Sharing Plan
San Antonio, Texas

We were engaged to audit the accompanying financial statements of Urology San Antonio, P.A. 401(k) Profit Sharing Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free of material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of Urology San Antonio, P.A. 401(k) Profit Sharing Plan as of December 31, 2014 and 2013, and the changes in its net assets available for benefits for the year ended December 31, 2014, in accordance with accounting principles generally accepted in the United States of America.

Report on Supplemental Information

Our audit was conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year), referred to as "supplemental information," is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplemental information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audit of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

401(k) Profit Sharing Plan

Notes to Financial Statements

December 31, 2014 and 2013

1. Description of Plan

The following brief description of the Urology San Antonio, P.A. 401(k) Profit Sharing Plan is provided for general information purposes only. Participants should refer to the Plan agreement for more complete description of the Plan's provisions.

General

The Plan is a new comparability defined contribution plan covering all employees of Urology San Antonio, P.A. (the Company), except employees who are members of a collective bargaining unit and nonresident aliens, who have attained age 21 or older and completed 1 year of service, as allowed by the Plan. Entry dates are the January 1st, April 1st, July 1st, or October 1st that coincides with or next follows the date the participant satisfies both the age and the service requirements described above. A year of service for eligibility purposes is a 12 consecutive month computation period in which a participant is credited with 1,000 hours of service. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

The Company may make discretionary matching and profit sharing contributions. For the year ended December 31, 2014 the Company made monthly matching contributions. The Company matched participant elective deferrals up to 4% of eligible participant compensation. Participants are eligible to receive the matching contributions provided they are employed on the last day of the month and making pre-tax salary deferral contributions. Matching contributions totaling $173,083 were made for the year ended December 31, 2014.

The Company may make profit sharing contributions on behalf of each allocation group as defined in the plan document. Participants are eligible to receive non-elective profit sharing contributions if employed on the last day of a plan year quarter. A participant is also eligible to receive a profit sharing contribution if the participant dies, retires, or becomes disabled during a plan year quarter. The Company made quarterly profit sharing contributions totaling $1,671,226 for the year ended December 31, 2014.

Each year, participants may contribute up to a maximum amount determined by the Federal Government, which for the years 2014 and 2013 was $17,500. Also participants who have obtained the age of 50 before the close of the Plan year are eligible to make catch-up contributions, which for the years 2014 and 2013 was up to an additional $5,500. Participant elective deferral contributions totaled $343,552 for the year ended December 31, 2014.

1. Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's discretionary matching contributions, profit sharing contributions, and Plan earnings. Each participant's account is charged with an allocation of administrative expenses based upon their account balance. The benefit to which a participant is entitled is the benefit that can be derived from the participant's vested account. Participants may direct contributions in whole percentage increments among various investment alternatives with varying levels of risk.

Payment of Benefits

On termination of service for any reason and if the vested interest in a participant's account is $1,000 or less, it will be distributed in a lump-sum amount or it can be rolled over to another qualified plan or to an individual retirement account. If the vested interest in a participant's account is more than $1,000 the vested interest may be distributed in a lump-sum, rolled over into another qualified plan or to an individual retirement account. Additionally, the a participant may elect to receive either (a) substantially equal installment payments over a specified period of time; or (b) monthly annuity payments from an insurance company.

Vesting

Participants are 100% vested at all times in the accrued benefits from their elective contributions. Participants become 20% vested after two years of service and increasing 20% per year until 100% vested after the completion of six years of service in all contributions made by the Company and the earnings thereon.

Forfeited Accounts

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. Forfeitures may be used to reduce, at the Plan Administrators' discretion, the Company's matching and/or profit sharing contributions. Additionally, the Plan Administrator may elect to use all or a portion of the forfeitures to pay administrative expenses of the plan. Forfeited non-vested accounts were $0 at December 31, 2014 and 2013. Forfeitures totaling $34,884 were used to reduce 2014 profit sharing contributions.

1. Description of Plan (continued)

Notes Receivable from Participants

Loans are available to all participants. The amount that may be borrowed is the lesser of $50,000 or 50% of the participant's vested interest in the Plan. The interest rate charged will be a reasonable rate of interest as determined by the Plan Administrator. Until otherwise determined by the Plan Administrator, the interest rate will be the prime rate of interest plus one (1) percent. The interest rate remains constant throughout the term of the loan. The loans are secured by the balance in the participant's account. All loans must be repaid within five years. Principal and interest are paid ratably through payroll deductions.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared under the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Investment Valuation and Income Recognition

Investments are reported at fair value reported. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's Retirement Investment Committee determines the Plan's valuation policies utilizing information provided by investment advisors. See note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. Related fees are recorded as administration expenses and are expensed as incurred. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

2. Summary of Significant Accounting Policies (continued)

Excess Contributions Payable

Accounts payable to participants for contributions in excess of amounts allowed by the IRS are recorded as a liability with a corresponding reduction to contributions.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan management to make estimates and assumptions that affect the reported amounts assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results may differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Expenses

The Plan document allows for all expenses to be paid from Plan assets and they are shared either by all participants or directly charged to the account of an individual participant on whose sole behalf the expenses is incurred. Participant accounts are assessed separate fees for the administration of loans. Certain expenses of maintaining the Plan, such as third party administrator fees and audit fees, are paid directly by the Company and are excluded from these financial statements. Several of the investment fund options are subject to investment fees based on a percentage of invested assets, as disclosed in the fund's prospectus. All such fees are charged directly against the fund's investment performance and thus are not separately disclosed in the accompanying financial statements. Total expenses paid by the Plan during the year 2014 were $226,616.

Subsequent Events

Subsequent events were evaluated through September 18, 2015, the date the financial statements were available to be issued.

3. Investments

The following table presents investments that represent 5% or more of the Plan's net assets as of December 31, 2014:

Vanguard Growth ETF	**$ 2,284,158**
Vanguard Short-Term Bond	**1,725,881**
Vanguard Value ETF Index	**1,516,004**
Other investments individually less than 5% of net assets	**16,404,680**
	$ 21,930,723

The following table presents investments that represent 5% or more of the Plan's net assets as of December 31, 2013:

Goldman Sachs Strategic Inc.	$ 1,812,161
Metropolitan West Total Return Bond I	2,076,831
Vanguard Short-Term Bond	1,363,846
Other investments individually less than 5% of net assets	17,959,660
	$ 23,212,498

During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated (depreciated) in value by $151,604 as follows:

Common stocks	$ 561,458
Corporate Bonds	(11,876)
Mutual Funds & ETFs	(358,388)
Preferred stocks	(7,718)
U.S. government securities	(31,872)
	$ 151,604

4. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a framework for measuring fair value in accordance with accounting principles generally accepted in the United States of America. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described below:

Level 1 — Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 — Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 — Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. Fair Value Measurements (continued)

Following is a description of the valuation methodologies used for major categories of investments measured at fair value:

Common and Preferred Stocks

Valued at the closing price reported on the active market on which the individual securities are traded.

Corporate bonds

Valued using pricing models maximizing the use of observable inputs for similar securities. This includes basing value on yields currently available on comparable securities of issuers with similar credit ratings.

Mutual Funds and ETFs

Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-ended mutual funds that are registered by the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds and ETFs held by the Plan are deemed to be actively traded.

U.S. Government Securities

Valued using pricing models maximizing the use of observable inputs for similar securities.

4. Fair Value Measurements (continued)

The Plan's investments, measured at fair value by the three levels of the fair value hierarchy as described above are as follows at December 31, 2014:

5. Administrative Expenses

All administrative expenses for the year ended December 31, 2014 were transactions with parties-in-interest and consisted of the following:

Administration & Loan fees	17,647
Investment consulting fees	208,969
	$ 226,616

6. Benefit Obligations

Included in net assets available for benefits are amounts allocated to individuals who have elected to withdraw from the plan but who have not been paid. Plan assets allocated to these participants were $159,311 and $33,359 at December 31, 2014 and 2013, respectively.

7. Tax Status

The IRS has determined and informed the Company by letter dated March 31, 2008, that the Plan and the related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan Administrator and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC, and therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, no uncertain positions taken or expected to be taken would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by the IRS; however, there are currently no audits for any tax years in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

8. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and those changes could materially affect

8. Risks and Uncertainties (continued)

participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. Plan Termination

Although it has not expressed intent to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. Upon termination, all participants would become fully vested in their account balances.
