LIAISON RESOURCES, LP 401(K) SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

1. DESCRIPTION OF THE PLAN

The following brief description of the Liaison Resources, LP 401(k) Savings Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Summary Plan Description for more complete information.

General

The Plan is a defined contribution plan covering substantially all employees of Liaison Resources, LP (the "Company") who are not covered by a collective bargaining agreement or are nonresident aliens. To be eligible to enroll in the salary reduction portion of the Plan, employees must have attained the age of 21, and have completed three months of service. Participation begins at the beginning of the first quarterly period following the date in which the employee attains eligibility. For matching contributions, employees must be making 401(k) contributions to the Plan, attained the age of 21 and completed three months of service. To be eligible for the discretionary employer contributions, employees must be over the age of 21 and have completed one year of service. One year of service is defined as a twelve month period in which 500 hours of employment with the Company have been completed. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may make basic pre-tax and post-tax contributions, as defined in the Plan. The Company makes non-elective discretionary matching contributions of up to 25% of the participants' first 7% of contributions made through salary deferral. In addition, the Company may make a non-elective discretionary profit sharing contribution at the end of the Plan year. No discretionary profit sharing contribution was made for the years ending December 31, 2014 and 2013. Participants direct the investment of both their contributions and the Company's contributions into various investment options offered by the Plan. Contributions are subject to certain limitations.

Participant accounts

Each participant's account is credited with (a) the participant's contributions, (b) the Company's matching and discretionary contributions, and (c) Plan earnings and appreciation. Each participant's account is charged with (a) any withdrawals or distributions, (b) Plan losses and depreciation, and (c) an allocation of administrative and investment expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

LIAISON RESOURCES, LP 401(K) SAVINGS PLAN

1. DESCRIPTION OF THE PLAN - CONTINUED

Investment options

During the year ended December 31, 2013, participants were able to allocate their contributions among a variety of managed funds available through Wilmington Trust Company. During the year ended December 31, 2014, participants were able to allocate their contributions among a variety of funds available through MG Trust Company, LLC.

Vesting

Participants are always 100 percent vested in their contributions.

Participants' vested interest in employer contributions is determined under the following schedule and is based on vesting years of service:

Years of Service	Percentage
Less than 1	0%
1	33%
2	66%
3 or more	100%

Participants are also fully vested in employer contributions upon the attainment of normal retirement age, retirement due to disability, death or the termination of the Plan.

Forfeitures

If a participant forfeits any unvested balances in their account, the forfeited amount is used to offset Plan expenses and employer contributions to the Plan. Forfeited, non-vested accounts used to reduce employer contributions for 2014 were immaterial.

Participant loans

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rate of 5.25 percent, which is commensurate with local prevailing rates as determined quarterly by the Plan administrator. Principal and interest is paid ratably through payroll deductions.

Payment of benefits

On termination of service due to death, disability, early retirement, normal retirement or other termination of employment a participant may elect to receive a lump-sum amount equal to the value of the participant's account. The Plan allows for hardship withdrawals, as defined.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Payment of administrative expenses

Administrative expenses pertaining to the Plan are paid by the Plan. Loan and distribution processing charges are paid by the respective participants.

Basis of accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Fully benefit-responsive investment contracts

As described in FASB ASC 946-210-45 (the Standard), *Reporting of Fully Benefit-Responsive Investment Contracts*, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the Standard, the Statement of Net Assets Available for Plan Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statement of Changes in Net Assets Available for Plan Benefits is prepared on a contract value basis.

Use of estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investments valuation and recognition

The Plan's investments are stated at fair value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Participant loans are valued at their outstanding balances, which approximate fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Net appreciation or depreciation in the fair value of investments includes both realized and unrealized appreciation, including those investments bought and sold during the year.

Payment of benefits

Benefits are recorded when paid.

3. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefit.

3. FAIR VALUE MEASUREMENTS - CONTINUED

FASB ASC 820-10, *Fair Value Measurements*, establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only used when Level 1 or Level 2 inputs are not available.

Level 1 Fair Value Measurements

Level 1 inputs are quoted prices in active markets on the actual asset being valued. An active market has sufficient transaction activity to provide pricing information on an ongoing basis.

Level 2 Fair Value Measurements

Level 2 inputs are those other than quoted prices in Level 1 that are observable and include the following: quoted prices on similar assets in active markets; quoted prices for identical or similar assets in markets that are not active; observable inputs other than quoted prices such as yield curves, volatilities, prepayment speeds; or inputs derived principally or corroborated by observable market data by correlation or other means.

Level 3 Fair Value Measurements

Level 3 inputs are unobservable inputs for the asset reflecting internal assumptions used to arrive at an estimate or exit price. Those inputs are based on the best information available in the circumstances.

4. TAX STATUS

The Internal Revenue Service has determined that the Plan meets the requirements of Section 401(a) of the Internal Revenue Code and is exempt from federal tax under Section 501(a) of the Code.

The Plan continually evaluates expiring statutes of limitations, audits, changes in tax laws and new authoritative rulings. The Plan files an annual return in the U.S. federal jurisdiction. U.S. federal returns prior to 2011 are closed.

7. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT

The Plan has an investment in a benefit-responsive investment contract with MG Trust Company, LLC (MG Trust). MG Trust maintains the contributions in general accounts. The accounts are credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at contract value as reported to the Plan by MG Trust. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

The guaranteed investment contract is fully benefit-responsive. The contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

7. FULLY BENEFIT-RESPONSIVE INVESTMENT CONTRACT - CONTINUED

There are no reserves against the contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was $476,068 and $355,943, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rates are reviewed on a quarterly basis for resetting.

The existence of certain conditions can limit the Plan's ability to transact at contract value with the issuer of its investment contracts. Such conditions include events outside the normal operation of the Plan that cause a withdrawal from an investment contract and may result in a negative market value adjustment with respect to the withdrawal. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

	2014	2013
Average yields:		
Based on actual earnings	**5.17%**	1.94%
Based on interest rate credited to participants	**2.49%**	2.21%

8. RELATED PARTY TRANSACTIONS

Certain Plan investments are sponsored by MG Trust Company, LLC. MG Trust Company, LLC is the custodian as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Account fees were paid by the Plan for services provided by The Retirement Plan Company, the third party administrators as defined by the Plan. Diversified Financial Advisors, LLC provided services such as participant enrollment and financial advisor for the Plan.

9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for plan benefits.

10. PLAN TERMINATION

While it is the Company's intention to continue the Plan indefinitely, it has the right to terminate or amend the Plan at any time. No amendment, however, may permit any part of the assets of the Plan, other than those required to pay taxes and administrative expenses, to be used for any purpose other than for the exclusive benefit of the participants.

11. SUBSEQUENT EVENTS

Management has evaluated subsequent events through September 10, 2015, the date on which the financial statements were available to be issued.
