Plan Administrator
Berlin Foundry Corporation
Collective Bargaining Unit 401(k) Plan
Birmingham, Alabama

We were engaged to audit the financial statements and supplemental schedule of Berlin Foundry Corporation Collective Bargaining Unit 401(k) Plan as of December 31, 2009 and 2008, and for the year ended December 31, 2009, as listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan's management.

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained certifications from the custodian as of December 31, 2009 and 2008, and for the year ended December 31, 2009, that the information provided to the plan administrator by the custodian is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to, and do not, express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

BERLIN FOUNDRY CORPORATION
COLLECTIVE BARGAINING UNIT 401(k) PLAN
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009

NOTE A - DESCRIPTION OF THE PLAN

The following description of Berlin Foundry Corporation Collective Bargaining Unit 401(k) Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of Berlin Foundry Corporation, a division of Citation Corporation, Inc. (the Company), who are members of the Paper, Allied - Industrial, Chemical, and Energy Workers International Union. In February 2010, the Company and Grede, LLC formed a new company, Grede Holdings, LLC. Effective February 5, 2010, sponsorship of the Plan transferred from the Company to Grede Holdings, LLC.

Employees must be 18 years of age and have completed three months of employment with the Company to be eligible to participate in the Plan. Eligible employees can begin participating on the first day of each quarter of the year in which eligibility requirements are met. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Contributions to the Plan may consist of participant elective deferral contributions and Company-matching contributions. Annual participant elective contributions, if any, may not exceed the 402(g) limit, as set forth by the Internal Revenue Code (IRC), of the employees' cumulative compensation during the year. Participants' contributions are subject to limits prescribed by the IRC. Company-matching contributions shall equal the amount required by the Company's collective bargaining agreement. Participants are eligible for Company-matching contributions provided they are employed on the last day of the year and have at least 1,000 hours of service during the year. Unless otherwise specified, the Company-matching contributions shall equal $0.10 for each hour of service worked by the employee during the Plan year to a maximum of 40 hours in any one week. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Investments

Participants may direct the investment of their contributions, as well as the Company-matching contributions into various investment options offered by the Plan.

NOTE A - DESCRIPTION OF THE PLAN - Continued

Participant Accounts

Each participant's account is credited with the participant's contributions and allocations of Company-matching contributions, Plan earnings or losses and administrative expenses. Allocations are based on participant account balances. Distributions, withdrawals and allocated expenses are subtracted from the account balances when paid. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participant contributions, Company-matching contributions and rollover contributions become fully vested upon receipt.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 and a maximum equal to the lesser of $50,000 or 50 percent of their vested account balance. Loan transactions are treated as transfers between the investment fund and the participant loan fund. The loans are secured by the balance in the participant’s account and bear interest at a fixed rate equal to the prime rate plus one percent. Principal and interest are paid ratably through weekly payroll deductions.

Payment of Benefits

On termination of service due to separation, retirement, death or disability, a participant may elect to receive an amount equal to the value of the participant’s vested interest in his or her account in a lump sum or in annual installments.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The financial statements of the Plan have been prepared on the accrual basis of accounting.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

On July 1, 2009, the Financial Accounting Standards Board (FASB) released the Accounting Standards Codification (ASC). The ASC became the single source of authoritative nongovernmental generally accepted accounting principles (GAAP) and is effective for periods ending after September 15, 2009. All existing accounting standards documents were superseded, and any other literature not included in the ASC is considered nonauthoritative. The adoption of the ASC did not have any impact on the Plan's financial condition, as the ASC did not change existing GAAP. The adoption of the ASC changes the approach of referencing authoritative literature by topic rather than by type of standard. Accordingly, references to former FASB positions, statements, interpretations, opinions, bulletins or other pronouncements in the Plan's notes to financial statements are now presented as references to the corresponding topic in the ASC.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in pooled separate accounts that are fully benefit-responsive, of which Principal Life Insurance Company is the custodian. According to the custodian, the fair market value of the pooled separate accounts is equal to contract value.

The Plan also invests in a stable value fund, which holds synthetic investment contracts, that is fully benefit-responsive, of which Principal Life Insurance Company is the custodian. The statements of net assets available for benefits present the fair value of the investment contract, as well as the adjustment of the investment from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

The fair value of the Plan's investment in the Principal Stable Value Fund is primarily based on market values obtained from independent pricing services, quotes by dealers who are market makers in those securities, a pricing service based upon market transactions for normal, institutional-sized trading units of the same or similar securities or the net asset value per share/unit on the valuation date. Accrued interest, if any, on the underlying investments of the synthetic investment contracts is added to the fair value of the investments for presentation purposes. The fair value of the wrap contracts associated with the synthetic investment contracts is determined using the market approach discounting methodology, which incorporates the difference between current market level rates for contract level wrap fees and the wrap fee being charged. The difference is calculated as a dollar value and discounted by the prevailing interpolated yield curve as of year end.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note D for discussion of fair value measurements.

Purchases and sales of investments are reflected on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

Management fees and operating expenses charged to the Plan for investments in the pooled separate accounts and common/collective trust are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and operating expenses are reflected as a reduction of investment return for such investments.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Contributions
Contributions from participants are recorded in the period in which the Company makes the deductions from the employees' payroll. Rollover contributions are recorded as Plan contributions during the period in which the funds are received by the Plan. Company-matching contributions are accrued on the last day of the Plan year based on hours of service completed by eligible employees during the Plan year.

Payment of Benefits
Benefits are recorded when paid.

Administrative Expenses
The Company provides certain administrative and accounting services to the Plan at no cost and also pays certain other administrative expenses on behalf of the Plan and is not reimbursed by the Plan. Certain administrative expenses, including recordkeeping fees, have been paid by the Plan.

Transfers
As employees of the Company move between employment positions within the Company, they may become participants in another Company-sponsored retirement plan. Corresponding transfers of funds between plans are reflected as transfers in the accompanying financial statements.

Uncertain Tax Positions
On January 1, 2009, the Plan adopted the provisions of the ASC relating to uncertainty in income taxes. The guidance requires entities to assess their uncertain tax positions for the likelihood that they would be overturned upon Internal Revenue Service (IRS) examination. In accordance with this guidance, the Plan has determined that it does not have any positions at December 31, 2009, that it would be unable to substantiate. Prior to implementation, disclosure requirements were governed by the guidance for contingencies.

The Plan has filed Form 5500, which is the annual return for employee benefit plans, for all years through December 31, 2008. Form 5500 filed for the years ended December 31, 2006, and thereafter remains subject to audit by taxing authorities.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - Continued

Subsequent Events
Management has evaluated subsequent events and their potential effects on these financial statements through the report date, which is the date the financial statements were available to be issued.

NOTE C - INVESTMENT INFORMATION

All investment information disclosed in the accompanying financial statements and supplemental schedule, including investments held at December 31, 2009 and 2008, and net appreciation in fair value of investments and interest and dividends for the year ended December 31, 2009, was obtained or derived from information provided to the plan administrator and certified as complete and accurate by Principal Life Insurance Company (the custodian).

The following presents investments that represent five percent or more of the Plan's net assets at December 31:

	2009	2008
Principal Stable Value Fund	$ 1,267,019	$ 1,547,739
Principal Large Cap Value III	421,919	389,515
Principal Life Time 2010	135,571	-
Participant loans	-	155,754

During the year ended December 31, 2009, the Plan’s investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated as follows:

Common/collective trust	$ 26,018
Pooled separate accounts	18,372
Mutual funds	223,760
Net appreciation in fair value of investments	$ 268,150

NOTE D - FAIR VALUE MEASUREMENTS

ASC Topic 820 establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

- Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

- Level 2 - Inputs to the valuation methodology include: quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted prices that are observable for the asset or liability; inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Common collective trust: Valued based on the fair value of the underlying investments as described in Note B.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

Pooled separate accounts: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuations methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

NOTE D - FAIR VALUE MEASUREMENTS - Continued

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

Purchases, sales, issuances and settlements (net)	(18,566)	27,839
Ending balance - December 31, 2008	$ 50,066	$ 155,754

NOTE E - PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

NOTE F - TAX STATUS

The Plan obtained its latest determination letter dated March 27, 2003, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the IRC. The Plan has been amended since receiving the determination letter. However, the plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

NOTE G - RELATED PARTY TRANSACTIONS

Certain Plan investments are units of pooled separate accounts and a common/collective trust managed by Principal Life Insurance Company. Principal Life Insurance Company is the custodian (see Note C) as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for the investment management services were included as a reduction of the return earned on each fund. Fees paid by the Plan for other services amounted to $1,589 for the year ended December 31, 2009.

NOTE H - RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

NOTE I - RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements at December 31 to the Form 5500:

	2009	2008
Net assets available for benefits per the financial statements	$ 2,575,744	$ 3,032,434
