1. **DESCRIPTION OF PLAN** (Continued)

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and plan earnings, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Employer contributions are allocated to each participant's account based upon the relation of the participant's compensation to total eligible participant compensation for the Plan year. In 2003, plan earnings were allocated to each participant's account based on the ratio of the participant's beginning of the year account balance to all participants' beginning of the year account balances. As of July 1, 2004, the Plan was modified and all participant accounts became self-directed for investment and earnings purposes.

Forfeited Accounts

At December 31, 2014, and 2013, forfeited nonvested accounts totaled $6,333 and $3,760, respectively. These forfeited nonvested accounts will be used to reduce future employer discretionary contributions. During 2014 and 2013, $0 of forfeitures was distributed to participants as an employer discretionary contribution.

Vesting

Vesting is determined under the following schedule:

Years of Service	Percentage
Less than 1	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Regardless of the vesting schedule above, the participants are always 100% vested in the salary reduction amounts and the Company's special contributions contributed to the Plan.

1. DESCRIPTION OF PLAN (Continued)

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive a lump-sum amount equal to the value of the participant's interest in his or her account. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Notes Receivable From Participants

Participants may borrow from their fund account a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25% to 9%, which are commensurate with the local prevailing rates as determined by the Plan administrator at the time of the loan. All loans provide for payments to be made not less frequently than quarterly and be amortized over a period not to exceed five (5) years, unless the loan is used to acquire a participant's principal residence, in which case the loan may be amortized over a longer period. Principal and interest is paid ratably through monthly payroll deductions.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates

The preparation of financial statements, in conformity with U.S. generally accepted accounting principles, requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold, as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Payments of Benefits

Benefits are recorded when paid.

Administrative Expenses

All expenses of maintaining the Plan are paid by the Company.

Subsequent Events

The Plan has evaluated subsequent events through September 30, 2015, the date the financial statements were available to be issued.

	2014	2013
Mutual Funds/Money Market/Stocks	$ (50,362)	$ 1,996,836

4. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) Accounting Standards Codification (ASC) 820, *Fair Value Measurement and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB (ASC) 820 are described as follows:

Level 1 Fair Value Measurements – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Fair Value Measurements – Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Fair Value Measurements – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

4. FAIR VALUE MEASUREMENTS (Continued)

There have been no changes in the valuation methodologies used at December 31, 2014, and 2013. The following is a description of the valuation methodologies used for assets measured at fair value:

Mutual funds – Valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end funds that are registered with the SEC. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Collective trust fund – Valued at the NAV of units of a bank collective trust. The NAV, as provided by the trustee, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment adviser reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

Pooled separate accounts – Valued at the net asset value of shares held by the Plan at year end.

The Plan's investments, reported at fair value in the accompanying Statements of Net Assets Available for Benefits, at December 31, are as follows:

	2014	2013
Level 1:		
Mutual funds:		
Large Cap Value	$ 4,046,871	$ 3,635,279
Balanced	3,547,341	3,245,324
Global/International	3,124,594	2,937,529
Small/Mid/Specialty	2,119,317	1,913,353
Large Cap Growth	1,665,402	1,526,347

4. FAIR VALUE MEASUREMENTS (Continued)

Level 1 (Continued):

Bonds	145,020	117,463
	15,359,416	13,988,768
Money market	3,586,103	3,649,829
	18,945,519	17,638,597
Level 2:

Other		
Pooled separate accounts	281,043	242,264
	$ 19,381,049	$ 18,016,976

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to terminate the Plan at any time. Upon termination, all amounts credited to participant accounts will be 100% vested. Benefits provided by the Plan are not insured by the Pension Benefit Guaranty Corporation (PBGC) under Title IV of the Employee Retirement Income Security Act of 1974 because the insurance provisions under ERISA are not applicable to this type of plan.

6. TAX STATUS

The prototype plan obtained its latest determination letter on August 7, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. TAX STATUS (Continued)

U.S. GAAP require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the organization has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for the years prior to 2010.

7. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to Form 5500 at December 31:

	2014	2013
Net assets available for benefits per the financial statements	$ 20,363,139	$ 19,113,802
Accrual to cash adjustment: Employer contributions receivable	(53,459)	(82,125)
Net assets available for benefits per Form 5500	$ 20,309,680	$ 19,031,677

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

9. PRIOR PERIOD ADJUSTMENT

The 2013 balance for notes receivable from participants was overstated by $150,111, which consequently overstated net assets available for benefits as of the beginning of the year.

The following summarizes the prior period adjustment referred to above:

	2013
Net assets available for benefits as previously reported	$ 19,263,913
Prior period adjustment for overstatement in notes receivable from participants	(150,111)
Net assets available for benefits at December 31, 2013, as restated	$ 19,113,802
Net income for 2013, as previously reported	$ 3,689,263
Prior period adjustment	(150,111)
Net income for 2013, as restated	$ 3,539,152
