Independent Auditors' Report

Participants and Plan Administrator
Schott Corporation 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Schott Corporation 401(k) Plan (the "Plan"), which comprise the statement of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL") Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the plan administrator instructed us not to perform and we did not perform, any auditing procedures with respect to the information summarized in Note 7, which was certified by Mass Mutual Life Insurance Company, the custodian of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2014 and 2013 and for the years then ended, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of Schedule H, Line 4(a) - Schedule of Delinquent Participant Contributions and Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2014 are required by the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, has been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, is presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under the ERISA.

1. Description of the Plan

The following description of the Schott Corporation 401(k) Plan (the "Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan established on January 1, 1987 which was amended and restated effective January 1, 2011. Employees of Schott Corporation and its participating affiliates (collectively, the "Company" or "Employer") become eligible to participate upon completing three months of service. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Contributions

Each year, participants may contribute an amount on a pre-tax basis not to exceed 50% of their compensation for the contribution period. Participants may also elect to make voluntary after-tax contributions of up to 15% of their salary. Contributions are subject to the maximum limits of the Internal Revenue Code ("IRC"). Elected contribution percentages may be changed each payroll period. Participants may transfer their funds between investment account options daily. Participants that attain the age of fifty (50) before the end of the year may make catch-up contributions. New employees will receive automatic deferrals of 4% from their eligible salary. The employee will be alerted of the automatic deduction before a deferral is made. A participant may elect to make a different deferral or no deferral at any time before or after the automatic deduction occurs.

The Company will make a matching contribution on an annual basis up to a maximum of 6% of the participant's compensation. In 2014 and 2013, the Company made matching contributions of 100% of the participant's first 1% plus 50% of the participant's next 5% for each $1.00 contributed by a participant, up to the maximum allowed.

The Company contributes an additional 2% ("Fixed Company Contribution") of certain participants' compensation (participants that entered the Plan after January 1, 2004 and after July 22, 2008) as an additional benefit since these participants can no longer be enrolled in other plans of the Company. The Company may also make a profit-sharing contribution in its discretion in any amount up to a maximum of 3% ("Variable Company Contribution") of these participants' compensation. The Company did not make any Variable Company Contributions during 2014 and 2013.

Participant contributions are recorded in the period during which the Company makes payroll deductions from the participants' earnings. Matching Company contributions are recorded in the same period.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) the Plan's earnings, and charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions, as defined in the plan document. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. The balance of vested employer contributions in the participant's accounts is based on years of service. A participant becomes 20% vested after one year of service, and 100% vested after two or more years of service in all employer contributions. Participants will automatically become 100% vested in all employer contributions if the participant becomes disabled, reaches age 65 while employed, retires or dies.

Payment of Benefits

Upon termination of service for any reason, participants may elect to have their vested interest remain in the appropriate investment funds, have their vested account balances directly rolled over, receive a lump-sum cash distribution or convert their account to an annuity and receive monthly installments over their lifetime. Distributions are subject to the applicable provisions of the plan document. In addition, the Plan allows for hardship distributions if certain criteria are met.

Notes Receivable from Participants

Participants may borrow a minimum of $1,000 up to the lesser of $50,000 or 50% of the vested portion of their account balance. The notes are secured by the balance in the participant's account and bear interest at rates that range from 5.25% to 11.50% as of December 31, 2014, which are commensurate with local prevailing rates as determined by the plan administrator. Principal and interest are paid ratably through monthly payroll deductions. The terms of the notes are between one and five years or no greater than 20 years if used to acquire a principal residence.

Plan Transfers

During 2013, $220,612 was transferred from an affiliated plan, the Schott Solar CSP, Inc. 401(k) Plan, to the Plan due to the termination of the Schott Solar CSP, Inc. 401(k) Plan.

Forfeitures

Forfeitures result from non-vested benefits remaining in the Plan for all terminated employees. Upon reaching the break-in-service requirement, as defined in the plan document, forfeitures generated are added to the forfeiture holding account balance. The forfeiture account balance at December 31, 2014 and 2013 was $58,016 and $67,561, respectively. Forfeitures are available to reduce matching Company contributions or pay plan expenses, which would be otherwise payable by the Company, in accordance with the plan document. During 2014 and 2013, $57,544 and $60,355, respectively, were used to reduce company contributions and or plan expenses.

2. Summary of Significant Accounting Policies

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in an investment contract through a collective trust fund. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract held in the collective trust fund as well as the adjustment of the fully benefit-responsive contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis for fully benefit-responsive investment contracts.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the custodian. See Note 3 for a discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Related fees are recorded as administrative expenses and are expensed when they are incurred. Interest income is recorded on the accrual basis. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. No allowance for credit losses has been recorded as of December 31, 2014 and 2013.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company are excluded from these financial statements. Fees related to the administration of notes receivable from participants are charged directly to the participant's account and are included in administrative expenses. Investment related expenses are included in net appreciation of fair value of investments.

Payment of Benefits

Benefits are recorded when paid.

Recent Accounting Pronouncements

In May 2015, the Financial Accounting Standards Board ("FASB") issued Accounting Standards Update No. 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent)* ("ASU 2015-07"). ASU 2015-07 removes the requirement to include investments in the fair value hierarchy for which fair value is measured using the net asset value per share practical expedient under Accounting Standards Codification 820. ASU 2015-07 is effective for the Plan for years beginning after December 15, 2016 with early adoption permitted. Management is currently evaluating the impact of the pending adoption of ASU 2015-07 on the Plan's financial statements.

In July 2015, the FASB issued Accounting Standards Update No. 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), and Health and Welfare Benefit Plans (Topic 965) - I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient* ("ASU 2015-12"). Part I of the accounting standards update requires fully-benefit responsive investment contracts to be measured, presented, and disclosed only at contract value. Part II of this update requires that investments (both participant-directed and nonparticipant-directed investments) be grouped only by general type, eliminating the need to disaggregate the investments in multiple ways. Part II also eliminates the disclosure of individual investments that represent 5% or more of net assets available for benefits and the disclosure of net appreciation or depreciation for investments by general type, requiring only presentation of net appreciation (depreciation) in investments in the aggregate. Additionally, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is a fund that files a U.S. Department of Labor Form 5500, as a direct filing entity, disclosure of that investment's strategy is no longer required. Part III of the update permits plans to measure investments and investment-related accounts (e.g., a liability for a pending trade with a broker) as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end. The amendments in ASU 2015-12 are effective for fiscal years beginning after December 15, 2015, with early application permitted. The amendments within Parts I and II require retrospective application; whereas, the amendments within Part III should be applied prospectively. Management is currently evaluating the impact of the pending adoption of ASU 2015-12 on the Plan's financial statements.

Subsequent Events

The Plan has evaluated subsequent events for recognition or disclosure through October 8, 2015, the date the financial statements were available to be issued.

3. Fair Value Measurements

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under authoritative guidance are described as follows:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observables and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Pooled accounts are valued based upon the unit values of such pooled accounts held by the Plan at year end. Unit values are based on the fair value of the underlying assets of the fund derived from inputs principally from or corroborated by observable market data by correlation or other means, although are not based upon quoted market prices in an active market. The underlying investments of the pooled accounts consist of mutual funds, each of which follows a separate investment strategy as described in the following paragraphs:

Large Cap Growth Funds - Contributions to these funds will be invested in equity securities. The investment objective of these portfolios is to seek capital appreciation.

Large Cap Blended Funds - Contributions to these funds will be invested in equity, fixed income and money market securities based on the target retirement date desired. The investment objective of these portfolios is to seek a high total rate of return.

Large Cap Value Fund - Contributions to this fund will be invested primarily in equity securities. The investment objective of the portfolio is to seek long-term total return.

Bond Funds - Contributions to these funds will be invested primarily in U.S. debt securities and fixed income securities. The investment objective of these portfolios is to seek a high level of total return with an emphasis on current income.

Mid Cap Growth Fund - Contributions to this fund will be invested primarily in equity securities of mid-capitalization companies. The investment objective of the fund is to seek growth of capital over the long-term.

Small Cap Growth Funds - Contributions to these funds will be invested in equity securities of smaller companies that are believed to offer potential for long-term growth. The investment objective of these portfolios is to seek long-term capital appreciation.

Small Cap Blended Fund - Contributions to this fund will be invested primarily in equity securities of smaller companies which are deemed undervalued. The investment objective of the portfolio is to achieve long-term growth of capital.

Medium Cap Blended Funds - Contributions to these funds will be invested primarily in equity securities of mid-sized companies which are deemed undervalued or foreign companies. The investment objective of these portfolios is to seek capital appreciation.

Index Fund - Contributions to this fund will be invested in short term investments. The investment objective is to preserve the value of the investment.

Guaranteed investment contract is valued at fair value by the insurance company by discounting the related cash flows based on current yields of similar instrument with comparable durations considering the creditworthiness of the issuer (see Note 5). Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only. In determining the reasonableness of the methodology, plan management evaluates a variety of factors including review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date) while others are substantiated utilizing available market data (for example, swap curve rate).

The preceding methods may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

4. Investments

The following presents individual investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013.

	2014	2013
Guaranteed Interest Account	$ 56,931,384	$ 55,884,813
MM S&P 500	8,125,798	6,779,180
Select Fundamental Value	6,305,070	5,511,842

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows:

	2014	2013
Pooled separate accounts	$ 3,757,960	$ 10,718,004
Guaranteed interest account	-	2,762
Total	$ 3,757,960	$ 10,720,766

5. Investment Contract with Insurance Company

The Plan has entered into a benefit-responsive investment contract with Mass Mutual Life Insurance Company ("Mass Mutual"). Mass Mutual maintains the contributions in a general account. The contract is presented on the face of the Statement of Net Assets Available for Benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value represents contributions made under the contract, plus earnings (losses), less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. The guaranteed investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the plan.

The guaranteed investment contract is fully benefit-responsive, therefore contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract.

There were no reserves against contact value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2014 and 2013 was $56,931,384 and $55,884,813, respectively. The crediting interest rate is based on a formula agreed upon with the issuer. Such interest rate is reviewed on a quarterly basis for resetting. The corresponding contract value, based on the underlying contract value of the Guaranteed Investment Contract as provided by the fund, is $49,424,324 and $49,584,594 resulting in an adjustment from fair value to contract value on the Statement of Net Assets Available for Benefits of ($7,507,060) and ($6,300,219) at December 31, 2014 and 2013, respectively. The principal is guaranteed at interest rates set a year in advance by Mass Mutual, summarized as follows:

	Average Yield Based on Actual	Average Interest Rate Credited to Participants
January 1, 2014 to December 31, 2014	3.05%	3.05%
January 1, 2013 to December 31, 2013	3.05%	3.05%

Certain events may limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the plan prohibition on competing investments options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

6. Tax Status

The Internal Revenue Service ("IRS") has determined and informed the Company by a letter dated February 20, 2015, that the Plan and related trust are designed in accordance with applicable sections of the IRC.

Accounting principles generally accepted in the United States of America require management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more-likely-than-not would not be sustained upon examination by the IRS. The plan administrator has analyzed the tax positions taken by the Plan and has concluded that as of December 31, 2014, there are no uncertain positions taken, or expected to be taken, that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

7. Information Certified by Custodian

The plan administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Mass Mutual, the custodian of the Plan, has certified to the completeness and accuracy of all investments reported in the accompanying Statement of Net Assets Available for Benefits as of December 31, 2014 and 2013 and the supplemental Schedule H, Line 4(i) - Schedule of Assets (Held at End of Year) as of December 31, 2014, and the related investment activity reported in the Statement of Changes in Net Assets Available for Benefits for the years ended December 31, 2014 and 2013.

8. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at anytime and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, participants will become 100% vested in their accounts.

9. Related Party and Party In Interest Transactions

The Plan's investments are managed by the custodian, and therefore, these transactions qualify as party in interest transactions. Fees incurred by the Plan for the investment manager services are included in net appreciation in the fair value of the investment, as they are paid through revenue sharing, rather than a direct payment. Additionally, the Plan issues loans to participants, which are secured by the participant's account balances. These loan transactions also qualify as party in interest transactions.

Certain administrative functions of the Plan are performed by officers or employees of the Company. No such officer or employee receives compensation from the Plan.

10. Administration of Plan Assets

The Plan's assets are administered under a contract with Mass Mutual, the custodian of the Plan. The custodian invests funds received from contributions, investment sales, interest, and dividend income and makes distribution payments to participants.

11. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statement of Net Assets Available for Benefits.

12. Reconciliation of Financial Statements to Form 5500

The following is a reconciliation of the net increase in net assets available for benefits, per the financial statements, to Form 5500 for the year ended December 31, 2013:

Net increase in net assets available for benefits per the financial statements	$ 11,731,136
Less: Plan transfers per the financial statements (Note 1)	(220,612)
Net income per Form 5500	$ 11,510,524

The following is a reconciliation of the transfers out of the plan to the Form 5500 for the year ended December 31, 2013:

Plan transfers per the financial statements	$ 220,612
Amount transferred in connection with the plan merger discussed in Note 1 to the financial statements	(220,612)
Plan transfers per the Form 5500	$ -

13. Delinquent Participant Contributions

For the year ended December 31, 2014, the Company did not remit certain participant contributions to the Plan on a timely basis as defined by the Department of Labor's Rules and Regulations for Reporting and Delinquent Participant Contributions Disclosure under ERISA. Untimely remittances identified on the Schedule of Delinquent Participant Contributions, which totaled $2,666, were corrected during 2015. Additionally, the Company will compensate participants for lost earnings resulting from the delay in contributions.

Schedule C Soft Dollar Compensation
Eligible Indirect Compensation Statement

Mutual fund investments of the plan (whether direct or indirect through a separate investment account) may have soft dollar arrangements pursuant to which the investment advisor or sub-advisor to the mutual fund (and/or its affiliates) may direct trades to certain brokers in exchange for research and other services, other than just trade execution. For plans investing directly or indirectly in the MassMutual Premier or Select Funds, MassMutual provided the required written disclosure regarding soft dollar compensation on the Schedule C Formula Description and/or EIC Statement Description Attachment. For all other mutual funds, MassMutual provided the required written disclosure in the Statement of Additional Information ("SAI").

For additional information on soft dollar compensation, refer to the section of the mutual fund's SAI that discusses brokerage allocation and other practices.
