REPORT OF INDEPENDENT AUDITORS

To the Board of Trustees of
the Blackhawk Management Corporation Retirement Salary Savings Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Blackhawk Management Corporation Retirement Salary Savings Plan, which comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 4 and 5, which was certified by Transamerica Financial Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year), which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. SIGNIFICANT ACCOUNTING POLICIES

The following is a description of significant accounting policies followed by the Blackhawk Management Corporation Retirement Salary Savings Plan (the "Plan") in the preparation of its financial statements:

Basis of Accounting

The financial statements of the Plan have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Accordingly, contribution income is recorded when received, and expenses are recorded when paid. Investment transactions are recorded as of the trade-date and are stated at fair value.

Estimates

The preparation of financial statements on a modified cash basis of accounting, requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

The Plan has entered into a traditional group annuity contract primarily with an insurance carrier. This contract, the Transamerica Stable Value Compass Account, is fully benefit-responsive and has no stated maturity date. A fully benefit-responsive contract provides for a stated return on principal invested over a specified period and permits withdrawals at contract value for benefit payments, loans, or transfers. Contract value represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses. As described in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 962-325, *Plan Accounting -- Defined Contribution Pension Plans -- Investments - Other*, investment contracts held by a defined contribution plan are required to be reported at fair value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Accordingly, the fully benefit-responsive group annuity contract is included in the financial statements at contract value, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

1. SIGNIFICANT ACCOUNTING POLICIES - continued

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments are recorded when distributed.

Administrative Fees

All expenses of maintaining the Plan are paid by the Employer. The participant is responsible for certain transaction fees, including but not limited to, withdrawal and loan fees.

Date of Management's Review

The Plan has evaluated subsequent events through September 23, 2015, the date the financial statements were available to be issued.

2. DESCRIPTION OF PLAN

The following description of the Blackhawk Management Corporation Retirement Salary Savings Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Blackhawk Management Corporation Retirement Salary Savings Plan was established May 1, 1997. The Plan is a defined-contribution plan covering all eligible employees of Blackhawk Management Corporation (the "Employer"). The Plan was amended and restated effective January 1, 2009. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Trustees have the responsibility of supervising and directing the administrative activities of the Plan and are the plan fiduciaries.

All employees are eligible to participate in the Plan upon attaining the age of twenty-one years. An employee may begin contributing to the Plan on the first day of each quarter after the eligibility requirements have been met.

Participant Accounts

Each participant is credited with his or her respective employee and employer contributions and an allocation of the Plan earnings. Allocations are based on individual account balances. The benefit to which a participant is entitled is the benefit that can be provided from vested Employee and Employer Contributions Accounts.

2. DESCRIPTION OF PLAN - continued

Participants have the option to direct the investment of their accounts into any combination of funds which are available within the plan.

Contributions

Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan. In addition, participants may separately elect to defer up to 100% of any bonuses paid to them during the year. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers multiple funds as investment options for participants. Contributions are subject to certain limitations.

The Employer may make a discretionary pretax matching contribution to each participant's account. The discretionary matching contribution is determined annually by the Trustees, and participants must be employed on the last day of the pay year to receive this discretionary contribution. The Employer did not make a discretionary matching contribution for the year ended December 31, 2014. Additionally, the Employer may make discretionary profit sharing contributions on behalf of each participant in an amount to be determined by the Trustees at the end of the Plan Year. No profit sharing contribution was made for 2014.

Vesting

Each participant's contributions and allocated earnings thereon are fully vested and non-forfeitable. Participants acquire a vested interest in their employer contribution accounts based upon completed years of service as follows:

Years of Service for Vesting	Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Regardless of the vesting schedule, the Employer contribution account of an active participant shall become fully vested upon the attainment of normal retirement age (65), total or permanent disability, or death.

2. DESCRIPTION OF PLAN - continued

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest determined by the Plan Administrator based on prevailing interest rates. The interest rate remains fixed throughout the duration of the loan. Principal and interest is paid ratably through after-tax payroll deduction.

Payment of Benefits

On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over a period of time.

Forfeited Accounts

As of December 31, 2014 and 2013, forfeited nonvested accounts totaled $72,989 and $63,539, respectively. These accounts can be used to pay administrative expenses of the Plan or to reduce future Employer contributions. Forfeitures of $4,953 were used to pay Plan expenses in 2014.

3. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Employer by a letter dated October 5, 2001, that the Plan and related trust as amended are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

4. INVESTMENTS (UNAUDITED)

During 2014, the Plan's pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $413,864.

4. INVESTMENTS (UNAUDITED) - continued

The following presents investments that represent five percent or more of the Plan's net assets as of December 31:

	2014	2013
American Funds Wash Mutual Investors	$ 629,759	$ 639,475
American Funds Growth Fund of America	526,370	497,191
Blackrock Health Sciences Ops	412,835	275,436
American Funds New Perspective	378,597	426,767
Vanguard REIT Index	356,803	291,097
Invesco Small Cap Growth	355,466	335,803
Blackrock Global Allocation	327,719	414,530
Transamerica Stable Value Compass	*	475,562
Pimco Total Return	*	334,786

* Represents less than 5% of the Plan's assets as of December 31

As of December 31, 2014 and 2013, net assets available for benefits include $2,368,351 and $2,965,629, respectively, due to terminated participants.

5. INFORMATION CERTIFIED BY CUSTODIAN (UNAUDITED)

Pooled separate accounts and the group annuity contract amounts included in the accompanying 2014 and 2013 Statements of Net Assets Available for Benefits and the earnings from these investments included in the Statement of Changes in Net Assets Available for Benefits have been certified as complete and accurate by Transamerica Financial Life Insurance Company ("TFLIC"). In addition, the information contained in the Schedule of Assets (Held at End of Year) has also been certified as complete and accurate by Transamerica Financial Life Insurance Company.

6. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds, held in pooled separate accounts, and cash equivalents, held in the group annuity contract, managed by Transamerica Financial Life Insurance Company. TFLIC is the custodian and recordkeeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for administrative fees to the custodian totaled $5,498 for 2014.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Employer

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying financial statements. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity can access at the measurement date; Level 2 inputs consist of inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and Level 3 inputs consist of unobservable inputs for the asset or liability. Level 1 is given the highest priority while Level 3 is given the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure fair value of its investments. All investments as of December 31, 2014 and 2013 are deemed to be Level 1 or 2 assets.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2014 and 2013.

9. FAIR VALUE MEASUREMENTS - continued

Pooled separate accounts: Valued based on the market value of the underlying investments of their related funds and are credited with the actual earnings on the underlying investments and charged for distribution and fund transfer expenses. Units are purchased and sold at their unit value on the transaction date. TFLIC specifies the source(s) to use for underlying investment asset prices. A portion of the pooled separate accounts is not quoted on any market; however, the unit price is based on the underlying investments which are traded in an active market.

Group annuity contract: As described in ASC Topic 962-325, *Plan Accounting -- Defined Contribution Pension Plans -- Investments - Other*, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Accordingly, the fully benefit-responsive group annuity contract is valued at contract value, which approximates fair value (see Note 10).

TFLIC investment managers generally utilize an investment strategy that gains exposure to fixed income securities, overall equity markets, and funds that balance between fixed income securities and overall equity markets. Participants can redeem investments daily and no funds restrict liquidity.

The following tables present the Plan's assets and liabilities measured at fair value on a recurring basis as of December 31, 2014 and 2013:

Total assets at fair value	3,905,836	982,414	0	4,888,250

9. FAIR VALUE MEASUREMENTS - continued

[1] This category includes the Plan's investment in a traditional group annuity contract. This contract, the Transamerica Stable Value Compass Account, is fully benefit-responsive and has no stated maturity date. A fully benefit-responsive contract provides for a stated return on principal invested over a specified period and permits withdrawals at contract value for benefit payments, loans, or transfers. Contract value represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses. Participant-directed redemptions have no restrictions, however, the Plan is required to provide a minimum of 30-days notice to discontinue the contract.

As previously discussed in Note 1, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Accordingly, the fully benefit-responsive group annuity contract is included in the financial statements at contract value, which approximates fair value.

10. INVESTMENTS IN GROUP ANNUITY CONTRACT

The contract value of the group annuity contract (the "Contract"), approximating the fair value, was $237,186 and $475,562 as of December 31, 2014 and 2013, respectively. There are no reserves against contract value for credit risk of the contract issuer.

The average yield on the Contract was .50% for the year ended December 31, 2014. Crediting interest rates are generally reset monthly on the first day of the month with the reset based on formulas that may use market value, book value, duration and yield. There is no minimum crediting rate.

The Contract does not specify any events that would limit the ability of the Plan to transact at contract value with the issuer or any events that would allow the issuer to terminate the contract and settle for an amount different from contract value. The Contract provides various payment options for surrendering the Contract at contract value, however, the Plan Sponsor does not intend to surrender the Contract.

REPORT OF INDEPENDENT AUDITORS

To the Board of Trustees of
the Blackhawk Management Corporation Retirement Salary Savings Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Blackhawk Management Corporation Retirement Salary Savings Plan, which comprise the statements of net assets available for benefits (modified cash basis) as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits (modified cash basis) for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audits in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Notes 4 and 5, which was certified by Transamerica Financial Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

3231 FM 528 Friendswood, Texas 77546 • Phone (281) 338-1120 • Fax (281) 338-1098

Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. The supplemental Schedule of Assets (Held at End of Year), which is the responsibility of plan management, is presented for the purpose of additional analysis and is not a required part of the financial statements but is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, it is inappropriate to and we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. SIGNIFICANT ACCOUNTING POLICIES

The following is a description of significant accounting policies followed by the Blackhawk Management Corporation Retirement Salary Savings Plan (the "Plan") in the preparation of its financial statements:

Basis of Accounting

The financial statements of the Plan have been prepared on the modified cash basis of accounting, which is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America. Accordingly, contribution income is recorded when received, and expenses are recorded when paid. Investment transactions are recorded as of the trade-date and are stated at fair value.

Estimates

The preparation of financial statements on a modified cash basis of accounting, requires management to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

The Plan has entered into a traditional group annuity contract primarily with an insurance carrier. This contract, the Transamerica Stable Value Compass Account, is fully benefit-responsive and has no stated maturity date. A fully benefit-responsive contract provides for a stated return on principal invested over a specified period and permits withdrawals at contract value for benefit payments, loans, or transfers. Contract value represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses. As described in Financial Accounting Standards Board ("FASB") Accounting Standards Codification ("ASC") Topic 962-325, *Plan Accounting -- Defined Contribution Pension Plans -- Investments - Other*, investment contracts held by a defined contribution plan are required to be reported at fair value. Contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Accordingly, the fully benefit-responsive group annuity contract is included in the financial statements at contract value, which approximates fair value.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

1. SIGNIFICANT ACCOUNTING POLICIES - continued

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefit payments are recorded when distributed.

Administrative Fees

All expenses of maintaining the Plan are paid by the Employer. The participant is responsible for certain transaction fees, including but not limited to, withdrawal and loan fees.

Date of Management's Review

The Plan has evaluated subsequent events through September 23, 2015, the date the financial statements were available to be issued.

2. DESCRIPTION OF PLAN

The following description of the Blackhawk Management Corporation Retirement Salary Savings Plan provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Blackhawk Management Corporation Retirement Salary Savings Plan was established May 1, 1997. The Plan is a defined-contribution plan covering all eligible employees of Blackhawk Management Corporation (the "Employer"). The Plan was amended and restated effective January 1, 2009. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Trustees have the responsibility of supervising and directing the administrative activities of the Plan and are the plan fiduciaries.

All employees are eligible to participate in the Plan upon attaining the age of twenty-one years. An employee may begin contributing to the Plan on the first day of each quarter after the eligibility requirements have been met.

Participant Accounts

Each participant is credited with his or her respective employee and employer contributions and an allocation of the Plan earnings. Allocations are based on individual account balances. The benefit to which a participant is entitled is the benefit that can be provided from vested Employee and Employer Contributions Accounts.

2. DESCRIPTION OF PLAN - continued

Participants have the option to direct the investment of their accounts into any combination of funds which are available within the plan.

Contributions

Each year, participants may contribute up to 90% of pretax annual compensation, as defined in the Plan. In addition, participants may separately elect to defer up to 100% of any bonuses paid to them during the year. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers multiple funds as investment options for participants. Contributions are subject to certain limitations.

The Employer may make a discretionary pretax matching contribution to each participant's account. The discretionary matching contribution is determined annually by the Trustees, and participants must be employed on the last day of the pay year to receive this discretionary contribution. The Employer did not make a discretionary matching contribution for the year ended December 31, 2014. Additionally, the Employer may make discretionary profit sharing contributions on behalf of each participant in an amount to be determined by the Trustees at the end of the Plan Year. No profit sharing contribution was made for 2014.

Vesting

Each participant's contributions and allocated earnings thereon are fully vested and non-forfeitable. Participants acquire a vested interest in their employer contribution accounts based upon completed years of service as follows:

Years of Service for Vesting	Percentage
Less than 1	0%
1	20%
2	40%
3	60%
4	80%
5	100%

Regardless of the vesting schedule, the Employer contribution account of an active participant shall become fully vested upon the attainment of normal retirement age (65), total or permanent disability, or death.

2. DESCRIPTION OF PLAN - continued

Notes Receivable From Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the balance in the participant's account and bear a reasonable rate of interest determined by the Plan Administrator based on prevailing interest rates. The interest rate remains fixed throughout the duration of the loan. Principal and interest is paid ratably through after-tax payroll deduction.

Payment of Benefits

On termination of service, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or installments over a period of time.

Forfeited Accounts

As of December 31, 2014 and 2013, forfeited nonvested accounts totaled $72,989 and $63,539, respectively. These accounts can be used to pay administrative expenses of the Plan or to reduce future Employer contributions. Forfeitures of $4,953 were used to pay Plan expenses in 2014.

3. INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Employer by a letter dated October 5, 2001, that the Plan and related trust as amended are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain tax position that more likely than not would not be sustained upon examination by the Internal Revenue Service. The plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain tax positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

4. INVESTMENTS (UNAUDITED)

During 2014, the Plan's pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $413,864.

4. INVESTMENTS (UNAUDITED) - continued

The following presents investments that represent five percent or more of the Plan's net assets as of December 31:

	2014	2013
American Funds Wash Mutual Investors	$ 629,759	$ 639,475
American Funds Growth Fund of America	526,370	497,191
Blackrock Health Sciences Ops	412,835	275,436
American Funds New Perspective	378,597	426,767
Vanguard REIT Index	356,803	291,097
Invesco Small Cap Growth	355,466	335,803
Blackrock Global Allocation	327,719	414,530
Transamerica Stable Value Compass	*	475,562
Pimco Total Return	*	334,786

* Represents less than 5% of the Plan's assets as of December 31

As of December 31, 2014 and 2013, net assets available for benefits include $2,368,351 and $2,965,629, respectively, due to terminated participants.

5. INFORMATION CERTIFIED BY CUSTODIAN (UNAUDITED)

Pooled separate accounts and the group annuity contract amounts included in the accompanying 2014 and 2013 Statements of Net Assets Available for Benefits and the earnings from these investments included in the Statement of Changes in Net Assets Available for Benefits have been certified as complete and accurate by Transamerica Financial Life Insurance Company ("TFLIC"). In addition, the information contained in the Schedule of Assets (Held at End of Year) has also been certified as complete and accurate by Transamerica Financial Life Insurance Company.

6. RELATED PARTY TRANSACTIONS

Certain Plan investments are shares of mutual funds, held in pooled separate accounts, and cash equivalents, held in the group annuity contract, managed by Transamerica Financial Life Insurance Company. TFLIC is the custodian and recordkeeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Fees paid by the Plan for administrative fees to the custodian totaled $5,498 for 2014.

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Employer has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their Employer

8. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.

9. FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying financial statements. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to measure the fair value of certain financial instruments could result in a different fair value at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets or liabilities that the reporting entity can access at the measurement date; Level 2 inputs consist of inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly; and Level 3 inputs consist of unobservable inputs for the asset or liability. Level 1 is given the highest priority while Level 3 is given the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure fair value of its investments. All investments as of December 31, 2014 and 2013 are deemed to be Level 1 or 2 assets.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used as of December 31, 2014 and 2013.

9. FAIR VALUE MEASUREMENTS - continued

Pooled separate accounts: Valued based on the market value of the underlying investments of their related funds and are credited with the actual earnings on the underlying investments and charged for distribution and fund transfer expenses. Units are purchased and sold at their unit value on the transaction date. TFLIC specifies the source(s) to use for underlying investment asset prices. A portion of the pooled separate accounts is not quoted on any market; however, the unit price is based on the underlying investments which are traded in an active market.

Group annuity contract: As described in ASC Topic 962-325, *Plan Accounting -- Defined Contribution Pension Plans -- Investments - Other*, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Accordingly, the fully benefit-responsive group annuity contract is valued at contract value, which approximates fair value (see Note 10).

TFLIC investment managers generally utilize an investment strategy that gains exposure to fixed income securities, overall equity markets, and funds that balance between fixed income securities and overall equity markets. Participants can redeem investments daily and no funds restrict liquidity.

The following tables present the Plan's assets and liabilities measured at fair value on a recurring basis as of December 31, 2014 and 2013:

[1] This category includes the Plan's investment in a traditional group annuity contract. This contract, the Transamerica Stable Value Compass Account, is fully benefit-responsive and has no stated maturity date. A fully benefit-responsive contract provides for a stated return on principal invested over a specified period and permits withdrawals at contract value for benefit payments, loans, or transfers. Contract value represents contributions made under the contract, plus earnings, less Plan withdrawals and administrative expenses. Participant-directed redemptions have no restrictions, however, the Plan is required to provide a minimum of 30-days notice to discontinue the contract.

As previously discussed in Note 1, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Accordingly, the fully benefit-responsive group annuity contract is included in the financial statements at contract value, which approximates fair value.

10. INVESTMENTS IN GROUP ANNUITY CONTRACT

The contract value of the group annuity contract (the "Contract"), approximating the fair value, was $237,186 and $475,562 as of December 31, 2014 and 2013, respectively. There are no reserves against contract value for credit risk of the contract issuer.

The average yield on the Contract was .50% for the year ended December 31, 2014. Crediting interest rates are generally reset monthly on the first day of the month with the reset based on formulas that may use market value, book value, duration and yield. There is no minimum crediting rate.

The Contract does not specify any events that would limit the ability of the Plan to transact at contract value with the issuer or any events that would allow the issuer to terminate the contract and settle for an amount different from contract value. The Contract provides various payment options for surrendering the Contract at contract value, however, the Plan Sponsor does not intend to surrender the Contract.
