Administrative Committee of
Jack Hilliard Distributing Company, Inc.
401(k) Plan

We were engaged to audit the accompanying financial statements of Jack Hilliard Distributing Company, Inc. 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Nationwide Financial Services, Inc., the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

1. Description of Plan

The following description of the Jack Hilliard Distributing Company, Inc. (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have completed six months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended and/or restated effective January 1, 2010 to comply with the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA).

Contributions

Participants may elect to contribute up to 100% of their compensation to the Plan. Additionally, the Company has the option of making a discretionary match with respect to each plan year's eligible participants as determined by the Company. For 2014, as in the prior year, the Company contributed on behalf of each participant a matching contribution of 50% of the participant's contributions for the year. Contributions are subject to maximum annual dollar contribution restrictions of ERISA and the Internal Revenue Service. Participants direct the investment of the contributions into various investment options offered by the Plan. The Plan currently offers 96 pooled separate investment accounts, a managed individual account, and a money market mutual fund as investment options for participants.

Participant Accounts

Each participant account is credited with the participant's contributions and allocations of (a) Company contributions, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations of earnings are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants' vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service. A participant receives credit for a year of service if they complete at least 1,000 hours of service at any time during the twelve consecutive month computation period.

1. **Description of Plan (Continued)**

Vesting (Continued)

Employees are vested according to the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants reaching retirement age or who die or become disabled will automatically be 100% vested.

Investment Options

Upon enrollment in the Plan, a participant directs contributions in a number of investment options:

Nationwide's The Best of America Group Pension Series ("Nationwide") categorizes the mutual funds available to participants under the plan based on investment volatility. Volatility is the measurement of how widely a mutual fund may swing above or below its expected return. Nationwide has classified the volatility as: Very High, High, Moderate, Low, Very Low, Stable Value and other. A list of investment options is provided to the participants.

All contributions are participant directed. Participants may change their investments options twenty-four hours a day, seven days a week on the internet based retirement investment fund manager's website.

Forfeited Accounts

Forfeited nonvested accounts are to be used first to restore a participant's forfeitures, then to reduce the employer's contribution, if any. There were no employer contributions paid with forfeitures in the current year.

Participants' Loans

Participants may borrow from their fund accounts. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loans fund. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through weekly or biweekly payroll deductions.

1. **Description of Plan (Continued)**

Payments of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in annual installments. Participant consent is required for distributions in excess of $ 1,000. The Plan also allows for in-service withdrawal of vested account balance at age 59.5 and withdrawal of elective deferrals for qualified hardship.

2. **Summary of Significant Accounting Policies**

Date of Management's Review

Subsequent events were evaluated through August 12, 2015, which is the date of the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. If available, quoted market prices are used to value investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. See Note 4 for further discussion of fair value measurements.

Payment of Benefits

Benefits are recorded when paid.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled $ 18,809 and $ 17,178, respectively. These accounts will be used to reduce future employer non-elective contributions.

2. Summary of Significant Accounting Policies (Continued)

Plan Expenses

Administrative expenses other than trustee fees of the Plan were absorbed by the company sponsor of the Plan.

3. Information Prepared and Certified by the Trustee

The financial information included in the Plan financial statements, except for contributions receivable, contributions, benefits paid to participants, and fiduciary fees have been derived from information certified as complete and accurate by the trustee of the Plan in accordance with Section 2520.103-5 of the Department of Labor, Rules and Regulations for Reporting and Disclosure, under the Employee Retirement Income Security Act of 1974.

4. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only used when Level 1 or Level 2 inputs are not available.

The Plan's portfolio investments were classified as follows based on fair values:

	2014 Fair Value	2013 Fair Value
Level 1	$ -	$ -
Level 2	7,434,672	7,213,982
Level 3	-	-
Total portfolio investments	$ 7,434,672	$ 7,213,982

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

4. Fair Value Measurements (Continued)

Pooled Separate Accounts: Valued at the net asset value ("NAV") of its underlying investments which include mutual funds, stocks, bonds and securities in varying proportions. The majority of the underlying investments have observable level 1 or 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. Assigned input level: 2

The methods previously described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2014, are reported in net appreciation in fair value of investments.

5. Investments

All investments are participant directed and held in pooled separate accounts by the trustee. During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) increased in value by $ 220,690.

The following presents investment funds that represent five percent or more of the Plan's net assets available for benefits:

	2014	2013
Nationwide Money Market Instl - Mutual Fund	$ 861,644	$ 977,501
Neuberger Berman Genesis Tr - Mutual Fund	$ 384,723	$ 475,202
Neuberger Berman Guardian Tr - Mutual Fund	$ 379,911	$ 345,427
Vanguard 500 Index Fund AS - Mutual Fund	$ 372,694	$ -

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

7. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated October 1, 1989, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the latest determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. Other Risks and Uncertainties

Certain financial instruments potentially subject the plan to concentrations of credit risk. These financial instruments include mutual funds. The trustees continually perform ongoing evaluations to assess the credit risk associated with these investments. The Plan has not experienced any credit losses associated with these investments.

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Party-in-Interest Transactions

The Plan has not considered company contributions to the plan or benefits paid by the plan to participants as party-in-interest transactions.

The Plan holds investments in pooled separate accounts of the trustee. Some fees incurred by the Plan for investment management services by the trustee of the plan were paid for by the Company.

INDEPENDENT AUDITORS' REPORT

Administrative Committee of
Jack Hilliard Distributing Company, Inc.
401(k) Plan

We were engaged to audit the accompanying financial statements of Jack Hilliard Distributing Company, Inc. 401(k) Plan, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Nationwide Financial Services, Inc., the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplementary schedule of assets held for investment purposes is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplementary schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplementary schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

1. Description of Plan

The following description of the Jack Hilliard Distributing Company, Inc. (the "Company") 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company who have completed six months of service and are age eighteen or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was amended and/or restated effective January 1, 2010 to comply with the Economic Growth and Tax Relief Reconciliation Act of 2001 (EGTRRA).

Contributions

Participants may elect to contribute up to 100% of their compensation to the Plan. Additionally, the Company has the option of making a discretionary match with respect to each plan year's eligible participants as determined by the Company. For 2014, as in the prior year, the Company contributed on behalf of each participant a matching contribution of 50% of the participant's contributions for the year. Contributions are subject to maximum annual dollar contribution restrictions of ERISA and the Internal Revenue Service. Participants direct the investment of the contributions into various investment options offered by the Plan. The Plan currently offers 96 pooled separate investment accounts, a managed individual account, and a money market mutual fund as investment options for participants.

Participant Accounts

Each participant account is credited with the participant's contributions and allocations of (a) Company contributions, (b) Plan earnings, and (c) charged with an allocation of administrative expenses. Allocations of earnings are based on account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participants' vested account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the Company contributions portion of their accounts plus earnings thereon is based on years of continuous service. A participant is 100% vested after six years of credited service. A participant receives credit for a year of service if they complete at least 1,000 hours of service at any time during the twelve consecutive month computation period.

1. **Description of Plan (Continued)**

Vesting (Continued)

Employees are vested according to the following schedule:

Years of Service	Vesting Percentage
Less than 2	0%
2	20%
3	40%
4	60%
5	80%
6	100%

Participants reaching retirement age or who die or become disabled will automatically be 100% vested.

Investment Options

Upon enrollment in the Plan, a participant directs contributions in a number of investment options:

Nationwide's The Best of America Group Pension Series ("Nationwide") categorizes the mutual funds available to participants under the plan based on investment volatility. Volatility is the measurement of how widely a mutual fund may swing above or below its expected return. Nationwide has classified the volatility as: Very High, High, Moderate, Low, Very Low, Stable Value and other. A list of investment options is provided to the participants.

All contributions are participant directed. Participants may change their investments options twenty-four hours a day, seven days a week on the internet based retirement investment fund manager's website.

Forfeited Accounts

Forfeited nonvested accounts are to be used first to restore a participant's forfeitures, then to reduce the employer's contribution, if any. There were no employer contributions paid with forfeitures in the current year.

Participants' Loans

Participants may borrow from their fund accounts. Loan transactions are treated as a transfer to (from) the investment fund from (to) the participant loans fund. The loans are secured by the balance in the participant's account and bear interest at a rate commensurate with local prevailing rates as determined by the Plan administrator. Principal and interest is paid ratably through weekly or biweekly payroll deductions.

1. **Description of Plan (Continued)**

Payments of Benefits

On termination of service due to death, disability, retirement, or other reasons, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum amount or in annual installments. Participant consent is required for distributions in excess of $ 1,000. The Plan also allows for in-service withdrawal of vested account balance at age 59.5 and withdrawal of elective deferrals for qualified hardship.

2. **Summary of Significant Accounting Policies**

Date of Management's Review

Subsequent events were evaluated through August 12, 2015, which is the date of the financial statements were available to be issued.

Basis of Accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Estimates

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Notes Receivable from Participants

Loans to participants are reported at their unpaid principal balances plus any accrued but unpaid interest.

Investment Valuation and Income Recognition

The Plan's investments are reported at fair value. If available, quoted market prices are used to value investments. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year. See Note 4 for further discussion of fair value measurements.

Payment of Benefits

Benefits are recorded when paid.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited nonvested accounts totaled $ 18,809 and $ 17,178, respectively. These accounts will be used to reduce future employer non-elective contributions.

2. Summary of Significant Accounting Policies (Continued)

Plan Expenses

Administrative expenses other than trustee fees of the Plan were absorbed by the company sponsor of the Plan.

3. Information Prepared and Certified by the Trustee

The financial information included in the Plan financial statements, except for contributions receivable, contributions, benefits paid to participants, and fiduciary fees have been derived from information certified as complete and accurate by the trustee of the Plan in accordance with Section 2520.103-5 of the Department of Labor, Rules and Regulations for Reporting and Disclosure, under the Employee Retirement Income Security Act of 1974.

4. Fair Value Measurements

The Plan's investments are reported at fair value in the accompanying statement of net assets available for benefits. The methods used to measure fair value may produce an amount that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of observable inputs other than quoted prices for identical assets, and Level 3 inputs are unobservable and have the lowest priority. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs are only used when Level 1 or Level 2 inputs are not available.

The Plan's portfolio investments were classified as follows based on fair values:

	2014 Fair Value	2013 Fair Value
Level 1	$ -	$ -
Level 2	7,434,672	7,213,982
Level 3	-	-
Total portfolio investments	$ 7,434,672	$ 7,213,982

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

4. Fair Value Measurements (Continued)

Pooled Separate Accounts: Valued at the net asset value ("NAV") of its underlying investments which include mutual funds, stocks, bonds and securities in varying proportions. The majority of the underlying investments have observable level 1 or 2 pricing inputs, including quoted prices for similar assets in active or non-active markets. Assigned input level: 2

The methods previously described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Gains and losses (realized and unrealized) included in changes in net assets available for benefits for the year ended December 31, 2014, are reported in net appreciation in fair value of investments.

5. Investments

All investments are participant directed and held in pooled separate accounts by the trustee. During 2014, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) increased in value by $ 220,690.

The following presents investment funds that represent five percent or more of the Plan's net assets available for benefits:

	2014	2013
Nationwide Money Market Instl - Mutual Fund	$ 861,644	$ 977,501
Neuberger Berman Genesis Tr - Mutual Fund	$ 384,723	$ 475,202
Neuberger Berman Guardian Tr - Mutual Fund	$ 379,911	$ 345,427
Vanguard 500 Index Fund AS - Mutual Fund	$ 372,694	$ -

6. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their employer contributions.

7. Tax Status

The Internal Revenue Service has determined and informed the Company by letter dated October 1, 1989, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). The Plan has been amended since receiving the latest determination letter. However, the Plan administrator and the Plan's tax counsel believe that the Plan is currently designed and is being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

8. Other Risks and Uncertainties

Certain financial instruments potentially subject the plan to concentrations of credit risk. These financial instruments include mutual funds. The trustees continually perform ongoing evaluations to assess the credit risk associated with these investments. The Plan has not experienced any credit losses associated with these investments.

Investment securities are exposed to various risks, such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

9. Party-in-Interest Transactions

The Plan has not considered company contributions to the plan or benefits paid by the plan to participants as party-in-interest transactions.

The Plan holds investments in pooled separate accounts of the trustee. Some fees incurred by the Plan for investment management services by the trustee of the plan were paid for by the Company.
