NOTE 1. Description of the Plan

The following description of the Great American Gaming Corporation 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General:

The Plan is a defined contribution plan and was established May 1, 2000 as a single employer defined contribution 401(k) savings plan to provide retirement benefits to eligible employees. All employees who have completed three consecutive months of service (at least 1 hour) and have reached 21 years of age following the date of hire qualify for the Plan. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), and meets ERISA's minimum funding requirements. The provisions of the plan are subject to revision due to changes in laws due to pronouncements by the Internal Revenue Service (IRS) or Department of Labor (DOL).

Contributions:

The participating employer has the discretion to match employee's contributions to the Plan. Until April 17, 2009, an amount equal to 10 percent of the eligible employee's contribution to the plan was being matched. The participants may generally contribute a percentage of their pre-tax compensation up to the maximum dollar limit set by the IRS which is $16,500 per year.

Participants' Accounts:

Investments in participants' accounts are self-directed. Each participant's account is credited with an allocation of (a) the participating employer's matching contribution and (b) Plan earnings (or losses) as defined in the Plan agreement. Unclaimed benefits may be forfeited and held in a suspense account and applied to reduce employers' future contributions to the Plan. Subsequent claim to these benefits will result in the reinstatement of the benefit. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting:

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the employers' contributions portion of their accounts plus earnings thereon is based on years of continuing service as follows:

Years of Service	Percentage
1	20%
2	40%
3	60%
4	80%
5	100%
6	100%

Participant Loans:

Participants may borrow from their fund accounts up to the lessor of $50,000 or 50% of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 4.25% to 9.25%, which are commensurate with local prevailing rates at the time the loan was made. Principal and interest is paid ratably through payroll deductions.

NOTE 1. Description of the Plan (continued)

Payment of Benefits:

Under the terms of the Plan agreement, participants will receive their pension allowance at the normal retirement age of 65, or termination of employment, or if disabled at any age.

Forfeited Accounts:

At December 31, 2009 and 2008 forfeited nonvested accounts totaled $1,579 and $109, respectively. These accounts will be used to reduce future employer contributions.

NOTE 2. Summary of Significant Accounting Policies

Basis of Accounting:

The financial statements of the Plan are prepared under the accrual basis of accounting.

Estimates:

The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation, Income Recognition and Fair Value Measurement:

The Plan's investments are stated at fair value. Quoted market prices are used to value investments where available. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year end. Participant loans are valued at their outstanding balances, which approximate fair value and because the loans are secured by each respective participant's account balance. The guaranteed interest account is based on the estimated liquidation value determined within contract specifications.

The fair value measurement accounting literature establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. This hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, and Level 3 inputs have the lowest priority and are based on significant unobservable inputs. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. No Level 2 inputs were used by the Plan. Level 3 inputs were used to value participant loans and the guaranteed interest account. There was no unrealized appreciation or depreciation on any assets measured utilizing Level 3 inputs during the Plan years ended December 31, 2009 or 2008.

Purchases and sales of securities are recorded on a trade date basis.

Payment of Benefits:

Payments of benefits to participants are deducted from net assets available for benefits when paid.

There are no differences between these financial statements and Schedule H of Form 5500; therefore, the reconciliation required by ERISA is not applicable.

NOTE 8. Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated November 27, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Although the Plan has been amended since receiving the determination letter, the Plan administrator and the Plan's tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

NOTE 9. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10. Subsequent Events

As of September 14, 2010, management has determined there are no subsequent events that are required to be recorded or disclosed in the financial statements under generally accepted accounting principles.
