REPORT OF INDEPENDENT AUDITORS

**To the Participants and
Plan Administrator of the
Megger Savings Plan**

We have audited the financial statements of the Megger Savings Plan (the Plan) as of December 31, 2009 and 2008, and for the years then ended, as listed in the accompanying table of contents. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Plan's management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule, as listed in the accompanying table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MEGGER SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

NOTE 1 - THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General - The following description of the Megger Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The assets of the Plan were combined with the assets of the Megger Retirement Plan (the Retirement Plan), which was also sponsored by AVO International (the Company). The Board of Directors of the Company resolved to terminate the Retirement Plan effective February 1, 2007. All remaining Retirement Plan assets were liquidated and distributed as of October 31, 2009. As a result, the Master Trust was also dissolved as of October 31, 2009. Such assets were collectively referred to as the AVO International Master Trust (the Master Trust). The investments included in the 2008 statement of net assets available for benefits represents the Plan's share of the investment in the Master Trust. Participant loans were held outside of the Master Trust.

The Plan is a defined contribution plan that was established in 1979 by the Company to provide benefits to eligible employees, as defined in the Plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code), as amended, and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration - The Company's Board of Directors has appointed the Megger Savings Plan Committee (the Committee) to manage the operation and administration of the Plan. The Company has contracted with a third party administrator to process and maintain the records of participant data and Charles Schwab Trust Company (Charles Schwab) to act as the trustee. Substantially all expenses incurred for administering the Plan are paid by the Plan.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of accounting - The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Forfeited accounts - Forfeited nonvested accounts at December 31, 2009 and 2008 totaling approximately $11,000 and $13,000, respectively, will be used to reduce future Plan administrative expenses and future employer matching contributions. Forfeitures utilized to reduce the Plan administrative expenses and the employer's matching contribution for the years ended December 31, 2009 and 2008 amounted to approximately $45,000 and $92,000, respectively.

Investment valuation and income recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Certain investments in a common/collective trust valued at contract value as reported by Charles Schwab approximate and are reported in the financial statements at fair value.

Income taxes - The Plan has adopted a prototype plan that has received an opinion letter from the Internal Revenue Service. The Company believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

Risks and uncertainties - The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates or other factors in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Recent accounting pronouncements - In January 2010, the Financial Accounting Standards Board issued Accounting Standards Update 2010-06 which expanded the required disclosures about fair value measurements. In particular, this guidance requires: 1) separate disclosure of the amounts of significant transfers in and out of level 1 and level 2 fair value measurements along with the reasons for such transfers, 2) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for level 3 fair value measurements, 3) fair value measurement disclosures for each class of assets and liabilities and 4) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either level 2 or level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for 2) above which is effective for fiscal years beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

Subsequent events - The Plan has evaluated subsequent events through September 8, 2010, which is the date the financial statements were available to be issued.

NOTE 2 - FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

- Inputs other than quoted prices that are observable for the asset or liability;

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end. It is not probable that the mutual funds will be sold at amounts that differ materially from the NAV of shares held.

Fully benefit-responsive common/collective trust fund: Valued at fair value based on the underlying investments as reported by the trustee.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at fair value as of December 31, 2009

Balance, end of year	$ 4,511,992	$ 665,464

The table below sets forth a summary of changes in the fair value of the Master Trust's level 3 assets for the year ended December 31, 2008.

	Common/ collective trust	Participant loans
Balance, beginning of year	$ 4,102,761	$ 689,616
Realized gains	202,831	
Unrealized gains relating to instruments still held at the reporting date	530,472	
Purchases, sales, issuances and settlements (net)	1,499,306	(96,378)
Balance, end of year	$ 6,335,370	$ 593,238

The Plan invests in the Institutional Investors Stable Asset Fund (the Fund). The Fund's primary objective is to protect principal while providing a higher rate of return than shorter maturity investments. To achieve this, the Fund invests in instruments that are not expected to experience price fluctuations in most economic or interest rate environments. The Fund invests primarily in guaranteed investment contracts (GICs), synthetic guaranteed investment contracts (SGICs) and a stable asset fund.

GICs are valued at invested principal plus accrued interest and assume a constant accretion of interest to maturity at the contractual interest rate. SGICs are valued at cost on the date of purchase and assume a constant accretion of interest at the current variable interest rate. The stable asset fund is reported at contract value. The fair value is based on the contract value to fair value ratio as provided by a third party and validated by the issuer.

The Fund's trustee reserves the right to delay plan sponsor-initiated redemptions and participant-directed transfers to competing funds for up to 365 days. All redemptions from the Fund are based on the unit price of the respective class of the Fund on the date the redemption payment is made.

NOTE 3 - RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Charles Schwab, the trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 4 - PARTICIPATION AND BENEFITS

Participant contributions - Participants may elect to have the Company contribute their eligible pre-tax compensation to the Plan up to the amount allowable under the Plan document and current income tax regulations. The Plan also permits the automatic enrollment of eligible employees in the Plan with a contribution of 3% of eligible compensation, unless the employee affirmatively elects otherwise. Participants who elect to have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation. Contributions withheld are invested in accordance with the participant's direction.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions - The Company is allowed to make contributions to the Plan, as defined in the Plan and as approved by the Board of Directors. In 2009 and 2008, the Company matched 50% of each eligible participant's contribution up to a maximum of 6% of the participant's eligible compensation.

Vesting - Participants are immediately vested in their contributions. Participants vest 20% per year in the employer's matching contributions allocated to their account and become fully vested after five years of credited service.

Participant accounts - Each participant's account is credited with the participant's contribution, Plan earnings or losses and an allocation of the Company's contribution, if any. Allocation of the Company's matching contribution is based on participant contributions or eligible employee compensation, as defined in the Plan.

Payment of benefits - Upon termination, the participants or beneficiaries may elect to leave their account balance in the Plan, or receive their total benefits in a lump sum amount or an annuity equal to the value of the participant's vested interest in their account. The Plan allows for the automatic distribution of participant vested account balances that do not exceed $1,000.

Loans to participants - The Plan allows participants to borrow not less than $1,000 and up to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the participant's vested balance. Such loans bear interest at the available market financing rates and must be repaid to the Plan within a five-year period, unless the loan is used for the purchase of a principal residence in which case the maximum repayment period may be longer. The specific terms and conditions of such loans are established by the Committee. Outstanding loans at December 31, 2009 carry interest rates ranging from 4.25% to 9.25%.

NOTE 5 - INVESTMENTS

The following table presents the fair values of investments and investment funds that include 5% or more of the Plan's net assets at December 31, 2009:

Institutional Investors Stable Asset Fund	$ 4,511,992
Janus Balanced Fund	3,160,736
Dodge & Cox Income Fund	2,571,928
Schwab S&P 500 Fund	2,502,434

Assets held for investment purposes	$22,833,235

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows for the year ended December 31, 2009:

Mutual funds	$ 3,484,727
Common/collective trust	115,743
	$ 3,600,470

NOTE 6 - INTEREST IN THE AVO INTERNATIONAL MASTER TRUST

The Plan and the Retirement Plan had an undivided interest in the Master Trust and assets were held by Charles Schwab through October 31, 2009. The investments and related earnings were allocated to the respective Plan based on aggregate participant accounts, which were allocated based on unit value. At December 31, 2008, the Plan's interest in the net assets of the Master Trust was approximately 83%. The following table presents the fair value of investments and investment funds of the Master Trust net assets (excluding participant loans) as of December 31, 2008:

Institutional Investors Stable Asset Fund	$ 6,335,370
Janus Balanced Fund	2,515,178
Dodge & Cox Income Fund	2,001,645
Schwab S&P 500 Fund	1,805,689

REPORT OF INDEPENDENT AUDITORS

**To the Participants and
Plan Administrator of the
Megger Savings Plan**

We have audited the financial statements of the Megger Savings Plan (the Plan) as of December 31, 2009 and 2008, and for the years then ended, as listed in the accompanying table of contents. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by the Plan's management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2009 and 2008, and the changes in net assets available for benefits for the years then ended, in conformity with accounting principles generally accepted in the United States of America.

Our audits were performed for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental schedule, as listed in the accompanying table of contents, is presented for the purpose of additional analysis and is not a required part of the basic financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, as amended. This supplemental schedule is the responsibility of the Plan's management. The supplemental schedule has been subjected to the auditing procedures applied in the audits of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

MEGGER SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2009 AND 2008

NOTE 1 - THE PLAN AND ITS SIGNIFICANT ACCOUNTING POLICIES

General - The following description of the Megger Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

The assets of the Plan were combined with the assets of the Megger Retirement Plan (the Retirement Plan), which was also sponsored by AVO International (the Company). The Board of Directors of the Company resolved to terminate the Retirement Plan effective February 1, 2007. All remaining Retirement Plan assets were liquidated and distributed as of October 31, 2009. As a result, the Master Trust was also dissolved as of October 31, 2009. Such assets were collectively referred to as the AVO International Master Trust (the Master Trust). The investments included in the 2008 statement of net assets available for benefits represents the Plan's share of the investment in the Master Trust. Participant loans were held outside of the Master Trust.

The Plan is a defined contribution plan that was established in 1979 by the Company to provide benefits to eligible employees, as defined in the Plan document. The Plan is currently designed to be qualified under the applicable requirements of the Internal Revenue Code (the Code), as amended, and the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Administration - The Company's Board of Directors has appointed the Megger Savings Plan Committee (the Committee) to manage the operation and administration of the Plan. The Company has contracted with a third party administrator to process and maintain the records of participant data and Charles Schwab Trust Company (Charles Schwab) to act as the trustee. Substantially all expenses incurred for administering the Plan are paid by the Plan.

Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of accounting - The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Forfeited accounts - Forfeited nonvested accounts at December 31, 2009 and 2008 totaling approximately $11,000 and $13,000, respectively, will be used to reduce future Plan administrative expenses and future employer matching contributions. Forfeitures utilized to reduce the Plan administrative expenses and the employer's matching contribution for the years ended December 31, 2009 and 2008 amounted to approximately $45,000 and $92,000, respectively.

Investment valuation and income recognition - The Plan's investments are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 2 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought or sold as well as held during the year.

Certain investments in a common/collective trust valued at contract value as reported by Charles Schwab approximate and are reported in the financial statements at fair value.

Income taxes - The Plan has adopted a prototype plan that has received an opinion letter from the Internal Revenue Service. The Company believes that the Plan is operated in accordance with, and qualifies under, the applicable requirements of the Code and related state statutes, and that the trust, which forms a part of the Plan, is exempt from federal income and state franchise taxes.

Risks and uncertainties - The Plan provides for various investment options in any combination of investment securities offered by the Plan. Investment securities are exposed to various risks, such as interest rate, market fluctuations and credit risks. Due to the risk associated with certain investment securities, it is at least reasonably possible that changes in market values, interest rates or other factors in the near term would materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits and the statements of changes in net assets available for benefits.

Recent accounting pronouncements - In January 2010, the Financial Accounting Standards Board issued Accounting Standards Update 2010-06 which expanded the required disclosures about fair value measurements. In particular, this guidance requires: 1) separate disclosure of the amounts of significant transfers in and out of level 1 and level 2 fair value measurements along with the reasons for such transfers, 2) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for level 3 fair value measurements, 3) fair value measurement disclosures for each class of assets and liabilities and 4) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either level 2 or level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for 2) above which is effective for fiscal years beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

Subsequent events - The Plan has evaluated subsequent events through September 8, 2010, which is the date the financial statements were available to be issued.

NOTE 2 - FAIR VALUE MEASUREMENTS

The fair value measurements standard establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under the standard are described below:

Level 1 - Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 - Inputs to the valuation methodology include:

- Quoted market prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;

- Inputs other than quoted prices that are observable for the asset or liability;

- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 - Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end. It is not probable that the mutual funds will be sold at amounts that differ materially from the NAV of shares held.

Fully benefit-responsive common/collective trust fund: Valued at fair value based on the underlying investments as reported by the trustee.

Participant loans: Valued at amortized cost, which approximates fair value.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at fair value as of December 31, 2009

Balance, end of year	$ 4,511,992	$ 665,464

The table below sets forth a summary of changes in the fair value of the Master Trust's level 3 assets for the year ended December 31, 2008.

	Common/ collective trust	Participant loans
Balance, beginning of year	$ 4,102,761	$ 689,616
Realized gains	202,831	
Unrealized gains relating to instruments still held at the reporting date	530,472	
Purchases, sales, issuances and settlements (net)	1,499,306	(96,378)
Balance, end of year	$ 6,335,370	$ 593,238

The Plan invests in the Institutional Investors Stable Asset Fund (the Fund). The Fund's primary objective is to protect principal while providing a higher rate of return than shorter maturity investments. To achieve this, the Fund invests in instruments that are not expected to experience price fluctuations in most economic or interest rate environments. The Fund invests primarily in guaranteed investment contracts (GICs), synthetic guaranteed investment contracts (SGICs) and a stable asset fund.

GICs are valued at invested principal plus accrued interest and assume a constant accretion of interest to maturity at the contractual interest rate. SGICs are valued at cost on the date of purchase and assume a constant accretion of interest at the current variable interest rate. The stable asset fund is reported at contract value. The fair value is based on the contract value to fair value ratio as provided by a third party and validated by the issuer.

The Fund's trustee reserves the right to delay plan sponsor-initiated redemptions and participant-directed transfers to competing funds for up to 365 days. All redemptions from the Fund are based on the unit price of the respective class of the Fund on the date the redemption payment is made.

NOTE 3 - RELATED PARTY TRANSACTIONS

Certain Plan investments are managed by Charles Schwab, the trustee of the Plan. Any purchases and sales of these funds are performed in the open market at fair value. Such transactions, while considered party-in-interest transactions under ERISA regulations, are permitted under the provisions of the Plan and are specifically exempt from the prohibition of party-in-interest transactions under ERISA.

NOTE 4 - PARTICIPATION AND BENEFITS

Participant contributions - Participants may elect to have the Company contribute their eligible pre-tax compensation to the Plan up to the amount allowable under the Plan document and current income tax regulations. The Plan also permits the automatic enrollment of eligible employees in the Plan with a contribution of 3% of eligible compensation, unless the employee affirmatively elects otherwise. Participants who elect to have the Company contribute a portion of their compensation to the Plan agree to accept an equivalent reduction in taxable compensation. Contributions withheld are invested in accordance with the participant's direction.

Participants are also allowed to make rollover contributions of amounts received from other tax-qualified employer-sponsored retirement plans. Such contributions are deposited in the appropriate investment funds in accordance with the participant's direction and the Plan's provisions.

Employer contributions - The Company is allowed to make contributions to the Plan, as defined in the Plan and as approved by the Board of Directors. In 2009 and 2008, the Company matched 50% of each eligible participant's contribution up to a maximum of 6% of the participant's eligible compensation.

Vesting - Participants are immediately vested in their contributions. Participants vest 20% per year in the employer's matching contributions allocated to their account and become fully vested after five years of credited service.

Participant accounts - Each participant's account is credited with the participant's contribution, Plan earnings or losses and an allocation of the Company's contribution, if any. Allocation of the Company's matching contribution is based on participant contributions or eligible employee compensation, as defined in the Plan.

Payment of benefits - Upon termination, the participants or beneficiaries may elect to leave their account balance in the Plan, or receive their total benefits in a lump sum amount or an annuity equal to the value of the participant's vested interest in their account. The Plan allows for the automatic distribution of participant vested account balances that do not exceed $1,000.

Loans to participants - The Plan allows participants to borrow not less than $1,000 and up to the lesser of $50,000 or 50% of their vested account balance. The loans are secured by the participant's vested balance. Such loans bear interest at the available market financing rates and must be repaid to the Plan within a five-year period, unless the loan is used for the purchase of a principal residence in which case the maximum repayment period may be longer. The specific terms and conditions of such loans are established by the Committee. Outstanding loans at December 31, 2009 carry interest rates ranging from 4.25% to 9.25%.

NOTE 5 - INVESTMENTS

The following table presents the fair values of investments and investment funds that include 5% or more of the Plan's net assets at December 31, 2009:

Institutional Investors Stable Asset Fund	$ 4,511,992

The Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value as follows for the year ended December 31, 2009:

Mutual funds	$ 3,484,727
Common/collective trust	115,743
	$ 3,600,470

NOTE 6 - INTEREST IN THE AVO INTERNATIONAL MASTER TRUST

The Plan and the Retirement Plan had an undivided interest in the Master Trust and assets were held by Charles Schwab through October 31, 2009. The investments and related earnings were allocated to the respective Plan based on aggregate participant accounts, which were allocated based on unit value. At December 31, 2008, the Plan's interest in the net assets of the Master Trust was approximately 83%. The following table presents the fair value of investments and investment funds of the Master Trust net assets (excluding participant loans) as of December 31, 2008:

Institutional Investors Stable Asset Fund	$ 6,335,370
Janus Balanced Fund	2,515,178

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500 at December 31:

	2009	2008
Net assets available for benefits per the financial statements	$22,833,235	$16,400,537
Adjustment for accrued liabilities		13,668
Net assets available for benefits per the Form 5500	$22,833,235	$16,414,205

The following is a reconciliation of the affected components of the changes in net assets available for benefits per the financial statements to the Form 5500 for the year ended December 31, 2009:

	Amount per the financial statements	Adjustment	Amount per the Form 5500
Administrative expenses	$76,243	$13,668	$89,911

NOTE 8 - PLAN TERMINATION OR MODIFICATION

The Company intends to continue the Plan indefinitely for the benefit of its participants; however, it reserves the right to terminate or modify the Plan at any time by resolution of its Board of Directors and subject to the provisions of ERISA. In the event the Plan is terminated in the future, participants would become fully vested in their accounts.
