Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL's) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal Trust Company), the trustee of the Plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. NOTE 1 – PLAN DESCRIPTION

The following description of the Raley's 401(k) Retirement Savings Plan (the Plan) provides only general information. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General – The Plan, which became effective July 1, 1990, is a defined contribution plan covering all eligible employees of Raley's (the Company) and its subsidiaries. The Administrative Committee of the Company is responsible for administration and management of the Plan. All investments in the Plan are participant-directed. Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company (Principal) is the trustee of the Plan. The Plan is intended to satisfy all of the requirements for a qualified retirement plan under the appropriate provisions of the Internal Revenue Code (IRC) and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility – Each employee who is not otherwise excluded from participation in the Plan is eligible to participate in the Plan after completing the eligibility requirements as stated in the Plan Document. The Plan excludes the following:

- Employees whose employment is covered by the terms of a collective bargaining agreement, unless eligibility for that specific bargaining group has been provided for in the Plan Document.
- Other various exclusions as defined by the Plan.

Vesting – Participants are immediately vested in their voluntary contributions plus actual earnings thereon.

Employer contributions are vested for each employee group in accordance with the Plan Document. The value of a participant's account becomes fully vested when the participant's normal retirement age is attained while an employee of the Company. A participant will also become 100% vested upon termination of employment due to death or disability.

Contributions – Each year, participants may make salary deferral contributions in any whole percentage up to 75% of pretax annual compensation as defined in the Plan. The Company may make an annual discretionary non-elective contribution, as determined each year by the Company's Board of Directors. There were no discretionary non-elective contributions for the year ended December 31, 2014. In addition, the Company will make mandatory matching contributions for each eligible group of employees as stated in the Plan Document. Contributions are subject to certain IRC limitations.

Participants may also contribute amounts representing pre-tax distributions from other qualified plans.

NOTE 1 – PLAN DESCRIPTION (CONTINUED)

Participant accounts – Individual accounts are maintained for each Plan participant. Each participant's account is credited with the participant's contribution, allocation of the Company's matching and discretionary contributions, allocation of Plan earnings, and charged with withdrawals, allocation of Plan losses and administrative expenses. Allocations are based on participant earnings or account balances, as defined. Employer discretionary contributions are allocated to the account of each participant in ratio of the participant's eligible compensation to the total eligible compensation for all Plan participants.

The benefit to which a participant is entitled is the value of the participant's vested account.

Participants' investment options – Participants direct the investment of their contributions into various options offered by the Plan. Participants may change their investment options at any time throughout the year directly with the trustee.

Notes receivable from participants – Participants may borrow up to 50% of their vested accounts in the form of a hardship loan with a minimum amount of $1,000 and a maximum amount of $50,000. Loans are secured by the balance in the participant's account and bear interest at rates that range from 4.25% to 10.25%. For the years ending December 31, 2014 and 2013, the interest rate is calculated as prime interest rate plus 2%, as published by the Wall Street Journal on the first business day of the month. Loan terms range from one to five years, or up to fifteen years for the purchase of a primary residence. Principal and interest are paid ratably through payroll deductions.

Payment of benefits – On termination of service due to retirement, death, disability or other reasons, a participant shall receive a distribution equal to the value of the participant's vested interest in his or her account in one of the following forms: (a) a cash-out for vested account balances of $1,000 or less, or (b) upon request, a participant may receive the value of the vested interest in his or her account as a lump-sum cash distribution, a roll over into an eligible retirement plan, or a combination thereof. Participants may also receive in-service distributions on account of hardship or after attaining age 59½. As of December 31, 2014 there were no benefits payable to participants that have elected to withdraw from the Plan but have not yet been paid.

Forfeitures – Matching and discretionary forfeitures from the non-vested portion of terminated employees' account balances are used to reduce employer mandatory matching contributions or discretionary contributions and to pay for eligible administrative expenses. For the year ending December 31, 2014, there was approximately $72,823 of forfeitures used to reduce the employer's matching contribution.

Plan termination – The Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their accounts.

Administrative and investment expenses – The Company provides bookkeeping and other administrative services for the Plan at no charge. Administrative and investment expenses are paid by the Plan.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of accounting – The financial statements of the Plan have been prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Recent accounting pronouncement - In April 2015, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or its Equivalent)*. The ASU is effective for fiscal years beginning after December 15, 2016, with earlier application permitted. The amendments remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient (NAV). The ASU has been adopted for the December 31, 2014 plan year end. Since the ASU requires retrospective application, the investment disclosures as of December 31, 2013 in Note 5 were modified to be consistent with the 2014 presentation.

In July 2015 FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960) I. Fully Benefit-Responsive Investment Contracts; II. Plan Investment Disclosures, and III. Measurement Date Practical Expedient*. The Plan is currently evaluating the impact of ASU 2015-12. The amendments remove the requirement to:

- Disclose individual investments held which exceed 5% of net assets available for benefits.
- Disclose net appreciation in fair value of investments by type of investment held.
- Disaggregate investments reported in the fair value hierarchy table by class of investment. They may be presented by general type only.

Use of estimates – The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment valuation and income recognition – Investments are reported at fair value. The Plan's trustee, Principal Trust Company, certifies the fair market value of all investments. If available, quoted market prices are used to value investments.

Fair value is the price that would be received to sell an asset or paid to transfer a liability (the "exit price") in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment valuation and income recognition (continued) – Investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statement of net assets available for benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. The Plan has an indirect investment in such contracts through the stable value fund.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) in fair value of investments includes net unrealized market appreciation and depreciation of investments and net realized gains and losses on the sale of investments during the period.

Management fees and operating expenses charged to the Plan for investments in shares of registered investment companies (mutual funds), pooled separate accounts, and collective trusts are deducted from income earned on a daily basis and are not separately reflected. Consequently, management fees and investment expenses are reflected as a reduction of investment return for such investments.

Notes receivable from participants – Notes receivable from participants are measured at their unpaid balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based upon the terms of the Plan Document.

Payment of benefits – Benefit payments to participants are recorded when paid.

Risks and uncertainties – The Plan utilizes various investment instruments, including mutual funds, pooled separate accounts, and collective trusts. Investment securities, in general, are exposed to various risks, such as interest rate, credit, and overall market volatility. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent events – Subsequent events are events or transactions that occur after the statement of net assets available for benefits date but before the financial statements are issued. The Plan recognizes in the financial statements the effects of all subsequent events that provide additional evidence about conditions that existed at the date of the statement of net assets available for benefits, including the estimates inherent in the process of preparing the financial statements. The Plan's financial statements do not recognize subsequent events that provide evidence about conditions that did not exist at the date of the statement of net assets available for benefits but arose after the statement of net assets available for benefits date and before the financial statements are issued. The Plan has evaluated subsequent events through October 8, 2015, which is the date the financial statements were issued.

NOTE 3 – INFORMATION CERTIFIED BY THE TRUSTEE

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Delaware Charter Guarantee and Trust Company d/b/a Principal Trust Company, the trustee of the Plan, has certified to the completeness and accuracy of:

- Investments and notes receivable from participants reflected on the accompanying statements of net assets available for benefits as of December 31, 2014 and 2013.
- Net appreciation in fair value of investments, dividends, and interest income from notes receivable from participants reflected on the accompanying statement of changes in net assets available for benefits for the year ended December 31, 2014.
- Investments reflected on the schedule of assets (held at end of year).

NOTE 4 – INVESTMENTS

The following presents the fair values of investments that represent 5% or more of the Plan's net assets available for benefits:

	DECEMBER 31	
	2014	2013
Principal Large Cap S&P 500 Index Separate Account-i5	$ 66,379,266	$ 60,637,858

Vanguard Total Bond Market Index Signature Fund	23,276,036	21,892,034

During 2014, the Plan's investments appreciated in fair value as follows:

Mutual funds	$ 9,944,133
Pooled separate accounts	10,784,858
Collective trusts	148,605
	$ 20,877,596

NOTE 5 – FAIR VALUE MEASUREMENTS

The framework for measuring fair value provides a hierarchy that prioritizes the inputs to the valuation techniques used to measure fair value. The hierarchy places the highest priority on unadjusted quoted market prices in active markets for identical assets or liabilities (level 1) and gives the lowest priority to unobservable inputs (level 3).

The three levels of inputs within the fair value hierarchy are defined as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted market prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include quoted prices for similar assets or liabilities in active markets; quoted prices for identical or similar assets or liabilities in inactive markets; inputs other than quoted market prices that are observable for the asset or liability; and inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

In some cases, a valuation technique used to measure fair value may include inputs from multiple levels of the fair value hierarchy. The lowest level of significant input determines the placement of the entire fair value measurement in the hierarchy.

The asset or liabilities fair value within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques maximize the use of relevant observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Registered investment companies (mutual funds) – Shares of registered investment company funds (or mutual funds) are valued at the net asset value (NAV) of shares held by the Plan and are valued at the closing price reported on the active market on which the individual securities are traded.

Pooled separate accounts – Units held in pooled separate accounts (PSAs) are valued using the net asset value (NAV) of the PSA as reported by the account managers. The NAV is based on the fair value of the underlying assets owned by the PSA, minus its liabilities, and then divided by the number of units outstanding. The NAV of a PSA is calculated based on a compilation of primarily observable market information. The Plan invests solely in target date funds.

NOTE 5 – FAIR VALUE MEASUREMENTS (CONTINUED)

Collective trust – Units held in collective trusts (CT) are valued using the net asset value (NAV) of the CT as reported by the CT managers. The NAV is based on the fair value of the underlying assets owned by the CT, minus its liabilities, and then divided by the number of units outstanding. The NAV of a CT is calculated based on a compilation of primarily observable market information. This category includes a broadly pooled fund of guaranteed investment contracts, alternative investment contracts, and short-term money market instruments and seeks to obtain competitive returns in different interest rate environments without principal market fluctuations. There are currently no restrictions on redemption rights for these accounts.

The following tables disclose the fair value hierarchy of the Plan's assets by level as of December 31, 2014 and 2013:

	DECEMBER 31, 2014

Investments measured at net asset value				157,732,181
Investments at fair value				$ 290,005,141

NOTE 5 – FAIR VALUE MEASUREMENTS (CONTINUED)

Certain of the investments above report at fair value using a calculated net asset value per share (NAV) or its equivalent. The following tables and explanations identify attributes relating to the nature and risk of such investments:

	As of December 31, 2014			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Period
Pooled separate accounts	$ 129,897,868	$ -	30 Days	1 Day
Collective trusts	33,472,930	-	Daily	1 Day
	$ 163,370,798	$ -		

	As of December 31, 2013			
	Fair Value	Unfunded Commitments	Redemption Frequency	Redemption Period
Pooled separate accounts	$ 122,986,336	$ -	30 Days	1 Day
Collective trusts	34,745,845	-	Daily	1 Day
	$ 157,732,181	$ -		

Pooled separate accounts – This category includes pooled separate accounts (PSA) that invest primarily in domestic or foreign international equity securities and bonds and attempt to match the returns of specific indices. There are currently no restrictions on redemption rights for these accounts.

Collective trusts – This category includes a broadly pooled fund of guaranteed investment contracts, alternative investment contracts and short-term money market instruments and seeks to obtain competitive returns in different interest rate environments without principal market fluctuations. There are currently no restrictions on redemption rights for these accounts.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Administrative Committee believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

There were no liabilities measured at fair value on a recurring basis at December 31, 2014 and 2013.

The Plan did not have any assets or liabilities measured at fair value on a non-recurring basis at December 31, 2014 and 2013.

NOTE 6 – FEDERAL INCOME TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated November 21, 2013, which includes amendments executed through October 20, 2011, that the Plan was designed in accordance with the applicable regulations of the IRC. Although the Plan has been amended since receiving the determination letter, the plan administrator believes that the Plan is designed and currently being operated in compliance with the applicable requirements of the IRC, and the Plan continues to be tax exempt.

In accordance with guidance on accounting for uncertainty in income taxes, the plan administrator have evaluated the Plan's tax positions and does not believe the Plan has any uncertain tax positions that require disclosure or adjustment to the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

NOTE 7 – PARTY-IN-INTEREST TRANSACTIONS

Parties-in-interest are defined under DOL regulations as any fiduciary of the Plan, any party rendering service to the Plan, the employer, and certain others.

Certain Plan investments are shares of pooled separate accounts managed by affiliates of Principal, the trustee. Further, there are investment management fees that are paid to Principal. Principal acts as the investment advisor and trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. Notes receivable from participants also reflect party-in-interest transactions.

NOTE 8 – RECONCILIATION FROM THE FINANCIAL STATEMENTS TO FORM 5500
