NOTE 1. - DESCRIPTION OF PLAN

The following is a brief description of the Apple Rubber Products, Inc. 401(k) Plan (the Plan) and is provided for general information purposes only. Participants should refer to the Plan Document for a more complete description of the Plan's provisions.

General - The Plan is a defined contribution plan with salary reduction features as permitted under Section 401(k) of the Internal Revenue Code. The Plan is funded by employee and employer contributions and covers substantially all eligible employees of Apple Rubber Products, Inc. (the Company). Asset management fees and administrative expenses are paid by the Plan unless paid by the Company. The assets of the Plan are maintained in an investment fund held by ING National Trust (ING). The Plan is subject to the provisions of the Employee Retirement Income Security Act (ERISA).

Eligibility - Employees age 21 and older are eligible to participate in the Plan after completion of one year and 1,000 hours of service, as defined. Employees may elect to become participants on the first day of the month following the completion of the service requirements.

Contributions - Participants may authorize an elective deferred contribution rate of earnings up to the maximum annual limitations as provided by the Internal Revenue Code. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Plan allows Roth 401(k) contributions from participants. Participants who have attained age 50 before the end of the Plan year are eligible to make catch up contributions.

The Company makes a safe harbor matching contribution in the amount of 100% of the employee's elective deferral, not to exceed 5% of the employee's compensation. In addition, the Company may also make a discretionary profit sharing contribution. There were no discretionary profit sharing contributions during the years ended December 31, 2009 and 2008.

Participants direct the investment of all contributions into various investment options offered by the Plan. Participants may change their investment allocation on a daily basis.

Participant Accounts - Each participant's account is credited with the participant's contribution and an allocation of (a) the Company's contribution, (b) Plan earnings, net of asset management fees and (c) charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting - Employees are immediately fully vested in participant contributions. Participants become 20% vested in employer matching contributions after two years of services, with a 20% annual increase in each of the next four years. Effective January 1, 2007, participants are immediately 100% vested in safe harbor matching contributions.

Forfeitures - Forfeitures of the Company contributions that are not vested in participants' account balances because of participant termination are used to reduce future Company contributions. During the year ended December 31, 2009, there was accumulated forfeitures in the amount of $1,186 ($0 - 2008). During the year ended December 31, 2009, forfeited nonvested accounts were not used to reduce employer contributions. During the year ended December 31, 2008, the amount of $22,482 of forfeited nonvested accounts was used to reduce employer contributions.

NOTE 1. - DESCRIPTION OF PLAN (CONTINUED)

Retirement Benefits - Employees are eligible for retirement benefits upon reaching age 65. Benefits are determined by the final vested value of the employee's account at the time of termination, retirement or death. The normal form of payment available upon retirement is a lump sum cash distribution.

Participant Loans - Participants may borrow from their fund accounts up to a maximum amount which is the lesser of $50,000 or 50% of their vested account balance. Loan terms range from 1 - 5 years or up to a reasonable period of time for purchase of a principal residence. The loans are secured by the participant's account and bear interest at a rate commensurate with local prevailing rates. Principal and interest is paid ratably through payroll deductions.

Plan Termination - Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of the Plan's termination, participants would become 100% vested in their accounts.

NOTE 2. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting - The Plan prepares its financial statements on the accrual basis of accounting and presents the fair value of net assets available for benefits and changes in those net assets in conformity with accounting principles generally accepted in the United States of America.

Investments contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in investment contracts owned by a certain stable value fund. The Statements of Net Assets Available for Benefits presents the fair value of the stable value fund investment as well as the adjustment from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Investment and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchase and sale of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation (depreciation) includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and Uncertainties - The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amount reported in the Statements of Net Assets Available for Benefits.

NOTE 2. - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Income Taxes - Effective January 1, 2002, the Plan adopted a non-standardized form of a prototype plan sponsored by ING Life Insurance and Annuity Company. The prototype plan has received an opinion letter from the Internal Revenue Service as to the prototype plan's qualified status. The prototype plan opinion letter has been relied upon by the Plan. The Plan Administrator believes the Plan is designed and is being operated in compliance with the applicable provisions of the Internal Revenue Code.

Use of Estimates - The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the plan administrator to make estimates and assumptions that affect the reported amounts of net assets at the date of the financial statements and the reported amounts of changes in net assets during the reporting period. Actual results could differ from those estimates.

Payment of Benefits - Benefits are recorded when paid.

Subsequent Event - These financial statements have not been updated for subsequent events occurring after September 24, 2010 which is the date these financial statements were available to be issued.

NOTE 3. – INVESTMENTS (CONTINUED)

During the year ended December 31, 2009, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year), appreciated (depreciated) in value as follows:

	December 31, 2009	2008
Mutual funds	$ 2,036,368	$ (3,777,537)
Cash management fund	49,927	42,794
	$ 2,086,295	$ (3,734,743)

NOTE 4. - FAIR VALUE MEASUREMENTS

US GAAP establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy are described as follows:

Level 1: Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2: Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.
- If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3: Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the plan at year end. The NAV is the closing price reported on the active market on which the securities are traded. Mutual funds are classified as level 1 investments.

NOTE 4. - FAIR VALUE MEASUREMENTS (CONTINUED)

Investments in insurance contract: Valued at fair value by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the credit-worthiness of the issuer (See Note 6). Investments in insurance contract are classified as level 3 investments.

Participant loans: Valued at amortized cost, which approximates fair value and are classified as level 3 investments.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	Assets at Fair Value as of December 31, 2009

NOTE 5. - PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by ING. ING is the trustee as defined by the Plan and, therefore, these transactions qualify as party-in-interest. Plan income on assets invested with ING amounted to $863,631 for the year ended December 31, 2009. During the year ended December 31, 2008, Plan losses on assets invested with ING amounted to $1,446,392. Fees paid by the Plan for administrative expenses for the year ended December 31, 2009 amounted to $1,445 ($1,700 - 2008). Participant loans are also party-in-interest transactions. Interest income from these transactions amounted to $30,537 ($23,586 - 2008).

NOTE 6. - FINANCIAL CERTIFICATION

The following financial information relating to the Plan's assets at December 31, 2009 and 2008 as well as investment transactions for the years then ended, has been derived from information provided by ING, the trustee of the Plan and custodian of the Plan's assets, and has been certified by ING as complete and accurate to the best of their knowledge. The incorporation of this financial information in the accompanying financial statements is based solely on their certification and has not been audited by independent accountants.

Investments, at fair value:		
Mutual funds	**$ 9,661,286**	$ 6,998,349
Investment contract with insurance company*	**$ 1,720,510**	$ 1,549,877
Transactions for the year ended:		
Earnings (losses) on investments	**$ 2,086,295**	$ (3,734,743)
Interest income	**$ 30,537**	$ 23,586

* ING Fixed Account is certified at contract value.

NOTE 7. – INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has a benefit-responsive investment contract with ING. ING maintains the contributions in a fixed account. The account is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. ING is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

As described in Note 2, because the guaranteed investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contract. The guaranteed investment contract is presented on the face of the statement of net assets available for benefits at fair value with an adjustment to contract value in arriving at net assets available for benefits. Contract value, as reported to the Plan by ING, represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value.

ING will add interest daily to all amounts held in the Fixed Account. For each calendar year, ING will set a minimum guaranteed annual interest rate which will apply to amounts held in the Fixed Account during the calendar year. This rate will never be less than an annual rate of 3%. This one-year minimum guaranteed interest rate will be established prior to each calendar year and will be made available to the Plan in advance of the calendar year. ING, in its discretion, may credit interest at a rate greater than this one-year rate. ING will make available to the Contract Holder the rate currently being credited to amounts held in the Fixed Account.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The fair value of the investment contract at December 31, 2009 and 2008 was $1,699,616 and $1,659,734, respectively. The crediting interest rate is based on a formula agreed upon with the issuer, but it may not be less than 3 percent. Such interest rates are reviewed on a quarterly basis for resetting.

Certain events limit the ability of the plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

The average yield on investment for this contract is as follows:

	2009	2008
Average yields:		
Based on actual earnings	**3.00%**	3.15%
Based on interest rate credited to participants	**3.00%**	3.15%
