RETIREMENT PLAN & TRUST

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

1. DESCRIPTION OF PLAN

The following description of the Cain, Watters & Associates, P.L.L.C. (the "Company") Retirement Plan & Trust (the "Plan") provides only general information. Participants should refer to the plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees of the Company who have completed one hour of service and are age 21 or older. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Investment Options

The Plan's investments are nonparticipant directed and, therefore, participants do not have the option to elect investments. The Plan's investment strategy is to pursue an allocation of five percent to a money market account, 85 percent to the T Bank Trust ("T Bank"), and ten percent to the Family Legacy Trust Company ("FLTC"). The Plan's management made a one-time investment with FLTC as an alternative to the investment platform with T Bank to offset the volatility of the stock and bond market. The following table is the allocation of funds as of December 31, 2014 and 2013:

	2014	2013
Common collective trusts - T Bank	90%	88%
Joint venture - FLTC	8%	10%
Interest bearing cash	2%	2%

Plan management has chosen a platform with a moderate investment strategy with T Bank. The investment platform models range from one to seven, with one being the most conservative

and seven being the most aggressive. T Bank's investment platform is a model five for the years ended December 31, 2014 and 2013. The following table represents the investment allocations of the platform that the plan management has selected as of December 31, 2014 and 2013.

	2014	2013
Flexible	22.2%	22.4%
Large Cap Value	13.5%	12.9%
Large Cap Growth	13.1%	8.4%
Small Mid Cap	11.4%	9.2%
International Fund	10.3%	8.1%
Core Fixed	9.9%	18.9%
Strategic Alternative	9.8%	9.3%
High Yield Fund	9.7%	8.8%
Cash	0.1%	2.0%

Contributions

Each year, participants may contribute up to 100 percent of eligible compensation as defined in the plan document. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans. The Company makes a safe harbor non-elective contribution equal to three percent of eligible compensation for non-highly compensated employees. Additional discretionary matching contributions may be contributed at the option of the Company's Board of Directors. All contributions made to the Plan are invested in a portfolio of investments as directed by the Company. Contributions are subject to certain Internal Revenue Service ("IRS") limitations.

Participant Accounts

Each participant's account is credited with the participant's contributions and Company contributions, as well as plan earnings. Participant accounts are charged with an allocation of administrative expenses that are paid by the Plan. Allocations are based on participant earnings, account balances, or specific participant transactions as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are vested immediately in their contributions and the Company's safe harbor contribution plus actual earnings thereon. Vesting in the Company's discretionary match contribution portion of their accounts is based on years of continuous service. A participant is 100 percent vested after six years of credited service.

Notes Receivable from Participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50 percent of their account balance. The loans are secured by the balance in the participant's account and bear interest at rates that range from 3.25 percent to 8.25 percent. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, an annuity, or installment payments. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeited Accounts

At December 31, 2014 and 2013, forfeited non-vested accounts total $23 and $213, respectively. These accounts will be used to reduce future employer contributions. Also, in 2014, employer contributions were reduced by $213 from forfeited non-vested accounts.

2. SUMMARY OF ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Uses of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation and depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Interest income is recorded on the accrual basis. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and plan management deems the participant loan to be in default, the participant loan balance is reduced and a benefit payment is recorded.

Payment of Benefits

Benefits are recorded when paid.

Expenses

Certain expenses of maintaining the Plan are paid by the Plan, unless otherwise paid by the Company. Expenses that are paid by the Company on behalf of the Plan are excluded from these financial statements. Custodial and annual audit expenses are included in administrative expenses. Investment related expenses are included in net appreciation and depreciation in fair value of investments.

Subsequent Events

In accordance with FASB ASC 855, *Subsequent Events*, the Plan has evaluated subsequent events through October 9, 2015, the date the financial statements were available to be issued and determined there were no other items to disclose.

3. INVESTMENTS

The following presents investments that represent five percent or more of the Plan's net assets as of December 31, 2014 and 2013.

	2014	2013
Flexible Allocation Fund QP	$ 2,191,491	$ 1,916,973
Large Cap Value QP	$ 1,336,152	$ 1,098,133

FLTC Fund 1	$ 743,998	$ 904,763

4. FAIR VALUE MEASUREMENTS

The fair value measurements framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level l) and the lowest priority to unobservable inputs (level 3). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1 – Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 – Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;

  Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 – Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for investment assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Equity Fund QP: Valued at the last sales price on the date of determination on the largest securities exchange, or at the closing "bid" price if held long and at the closing "asked" price if held short.

High Yield Fund QP: Valued at the most recent published bid as of the balance sheet date from one or more recognized dealers regularly dealing in such securities, at the unpaid principal balance, at the last price on the date of determination of the largest securities exchange or at the closing "bid" price if held long and at the closing "asked" price if held short.

International Fund QP: Valued at the last sales price on the date of determination on the largest securities exchange, or at the closing "bid" price if held long and at the closing "asked" price if held short.

FLTC Fund I: Valued at the net asset value ("NAV") of the shares. Each share has its own NAV, which is based on annual third party appraisals of the underlying assets and liabilities; the NAV of the shares is not publicly quoted.

Small/Mid Cap Fund QP: Valued at the last sales price on the date of determination on the largest securities exchange, or at the closing "bid" price if held long and at the closing "asked" price if held short.

Large Cap Value Fund QP: Valued at the last sales price on the date of determination on the largest securities exchange, or at the closing "bid" price if held long and at the closing "asked" price if held short.

Core Fixed Income Fund QP: Valued at the most recent published bid as of the balance sheet date from one or more recognized dealers regularly dealing in such securities, at the unpaid principal balance, or at the quoted market prices as of the measurement date.

Strategic Income QP: Valued at the last price on the date of determination on the largest securities exchange, at the closing "bid" price if held long and at the closing "asked" price if held short, at the NAV of the shares, or based on the change in quoted market price on the primary exchange between the purchase date and the measurement date.

Flexible Allocation Fund QP: Valued at the last sales price on the date of determination on the largest securities exchange, or at the closing "bid" price if held long and at the closing "asked" price if held short.

Blackrock Institutional Tempfund: Valued daily based on the face value and the stated rate disclosed in the contract.

Blackrock Liquidity Tempfund: Valued daily based on the face value and the stated rate disclosed in the contract.

Interest bearing cash: Valued daily based on the face value and the stated rate disclosed in the contract.

Balance, end of year	$ 743,998	$ 904,763

5. RELATED PARTY TRANSACTIONS AND PARTY-IN-INTEREST TRANSACTIONS

Plan investments are managed by T Bank and FLTC, who are the custodians as defined by the plan document and, therefore, these transactions qualify as party-in-interest transactions. Fees incurred by the Plan for the investment management services are included in net appreciation and depreciation in fair value of investments. Fees incurred by the Plan for custodial services are included in administrative expenses.

Plan transactions and records are administered by the Nolan Company ("Nolan"). Nolan is the recordkeeper as defined by the Plan and, therefore, these transactions qualify as party-in-interest transactions. As stated previously, the Company absorbs the recordkeeping expenses of the Plan.

The Plan is subject to an annual audit in order to remain in compliance with ERISA regulations. Huselton, Morgan & Maultsby is the plan auditor and, therefore, this transaction qualifies as a party-in-interest transaction. Fees incurred by the Plan for the audit are included in administrative expenses.

6. INFORMATION CERTIFIED BY THE PLAN'S CUSTODIANS

Plan management has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. The custodians have certified that the following data included in the accompanying financial statements and supplemental information is complete and accurate at December 31, 2014 and 2013 and for the year ended December 31, 2014.

	2014	2013
Common collective trusts - T Bank	$ 9,883,806	$ 8,542,292
Joint venture - FLTC	$ 815,036	$ 966,526
Interest bearing cash	$ 235,507	$ 224,350
Notes receivable from particpants	$ 325,602	$ 362,352
Net appreciation in fair value of common collective trusts - T Bank	$ 376,246	
Net depreciation in fair value of joint venture - FLTC	$ 151,490	
Interest, interest bearing cash	$ 604	
Interest income on notes receivable from participants	$ 15,822	

7. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to provisions of ERISA. In the event of plan termination, participants would become 100 percent vested in their employer contributions.

8. TAX STATUS

The IRS has determined and informed the Company by a letter dated June 17, 2010, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code ("IRC"). Although the Plan has been amended since receiving the determination

letter, plan management and the Plan's tax counsel believe that the Plan is designed, and is currently being operated, in compliance with the applicable requirements of the IRC and, therefore, believe that the Plan is qualified, and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability at the Company level if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by taxing jurisdictions. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan management believes it is no longer subject to income tax examinations for years prior to 2011.

9. INACTIVE PARTICIPANTS WITH ACCOUNT BALANCES

At December 31, 2014 and 2013, the value of the accounts held by participants who have separated from employment with the Company and have decided to continue to invest with the Plan totals $1,096,615 and $1,065,671, respectively. For the year ended December 31, 2014, there were no distributions requested but not paid to participants who have elected to withdraw from the Plan.

10. RISK AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
