INDEPENDENT AUDITOR'S REPORT

To the Participants and Administrative Committee of
Southwest Florida Enterprises 401(k) Plan

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Southwest Florida Enterprises 401(k) Plan (the "Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statements of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Plan management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's ("DOL's") Rules and Regulations for reporting and Disclosure under the Employee Retirement Income Security Act of 1974 ("ERISA"), the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the investment information summarized in Note 7, which was certified by Principal Life Insurance Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan administrator has obtained a certification from the trustee, as of and for the years ended December 31, 2014 and 2013, that the information provided to the Plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we did not obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental Schedules of Assets (Held at End of Year) as of December 31, 2014 and 2013 are required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on these supplemental schedules.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. DESCRIPTION OF PLAN

The following description of the Southwest Florida Enterprises 401(k) Plan (the "Plan") is provided for general information purposes only. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering substantially all employees of Southwest Florida Enterprises, Inc., (the "Company"), who have one year and 1,000 hours of service and are age 21 or older, and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended ("ERISA"). The effective date of the Plan is September 1, 1999.

Plan Administration

The Plan is administered by the Company. The Plan's assets are maintained and administered by Principal Life Insurance Company (the "Trustee" or "Principal"). The Plan's recordkeeping services and maintenance of participant account records are managed by Principal Financial Group, as agent for the Trustee.

Contributions

Each year, participants may contribute up to the annual dollar deferral limit as defined in the Plan. For 2014 and 2013, those employees who are fifty (50) years of age or older may also make a "catch up" contribution in addition to the maximum salary deferral. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. For the years ended December 31, 2014 and 2013, the Company elected to match 50% of the participant's elective deferral contributions, up to 3% of the participant's compensation.

Participant Accounts

Each participant's account is credited with the participant's contributions, allocations of the Company's contributions and the participant's account earnings. The benefit to which a participant is entitled is the participant's vested account balance. Participants may change their investment options at any time.

Administrative Expenses

Administrative expenses in connection with the Plan may be paid out of the Plan unless paid by the Company. The Company may also reimburse the Plan for administrative expenses incurred. Administrative expenses paid by the Plan for the years ended December 31, 2014 and 2013 were $11,255 and $8,497, respectively.

Vesting

Participants are immediately vested in their elective deferral contributions, as well as any rollover contributions, plus or minus any earnings or losses thereon. Participants are also immediately vested in the Company's matching portion of their accounts and the earnings and losses thereon. As participants are immediately vested in all amounts in their account, there are no forfeitures.

Investment Options

Contributions to the Plan may be invested at the participant's discretion in various investment options maintained by the Trustee. Participants may choose from a money market fund, a guaranteed interest account and pooled separate accounts.

1. DESCRIPTION OF PLAN (CONTINUED)

Notes Receivable from Participants

Participants may borrow from the Plan a minimum of $1,000 up to a maximum amount not to exceed the lesser of $50,000 or 50% of the vested portion of their account balance. Loan terms range from 1 to 5 years. The loans are secured by the balance in the participant's account and bear interest at a reasonable rate. Interest rates range from approximately 5.25% to 10.75%. Principal and interest are paid ratably through monthly payroll deductions. Notes receivable from participants totaled $420,469 and $293,199 as of December 31, 2014 and 2013, respectively.

Hardship Distribution

Participants may receive advance distributions from employee contributions and rollover accounts for financial hardships. These hardship withdrawals are subject to certain conditions.

Payment of Benefits

On termination of service due to termination of employment, death, disability, or retirement, a participant or his or her beneficiary may elect to receive the vested portion in the participant's account in a lump sum distribution or in installment payments. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump sum distribution.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Accounting

The financial statements of the Plan are prepared under the accrual basis of accounting.

Investment contracts held by a defined-contribution plan are required to be reported at fair value. The Plan's group annuity contract with Principal is not "fully benefit-responsive." Therefore, for financial statement purposes, this contract must be carried at fair value. Fair value also means market value. Principal pooled separate accounts are reported at fair value. Principal guaranteed interest account is reported at contract value. The 2014 and 2013 Principal guaranteed interest account's contract value approximates the fair value. Due to the immateriality of the difference, Principal's guaranteed interest account portion of the contract is included in the financial statements at contract value, (which represents contributions made under the contract, plus earnings, less withdrawals and administrative expenses).

Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 9 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

Investment Management Fees and Operating Expenses

Investment management fees and operating expenses charged to the Plan for investments in the various funds are deducted from income earned on a daily basis and are reflected as a component of net appreciation in fair value of investments.

Notes Receivable From Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent notes receivable from participants are reclassified as distributions based upon the terms of the plan document.

Payment of Benefits

Benefits are recorded when paid.

Subsequent Events

The Plan has evaluated subsequent events through October 8, 2015, which is the date the financial statements were available to be issued.

Recent Accounting Pronouncement

Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent) in ASU 2015-05

In May 2015, the Financial Accounting Standards Board ("FASB") issued an accounting standard update which removes the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The update also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. Rather, those disclosures are limited to investments for which the entity has elected to measure the fair value using that practical expedient. The update is effective for fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. A reporting entity should apply the update retrospectively to all periods presented. Early adoption is permitted. The Plan is currently evaluating the effect the update will have on its financial statements.

3. TAX STATUS

The Plan adopted its latest Prototype Non-standardized Profit Sharing Plan with a cash or deferral arrangement developed by Principal, effective January 31, 2006, which obtained a favorable Internal Revenue Service ("IRS") determination letter on March 31, 2009 in which the IRS stated that the form of the underlying prototype plan was acceptable under provisions of the Internal Revenue Code ("Code") and that any employer adopting this form of the plan will be considered to have a plan qualified under the Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax-exempt.

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014 and 2013, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or asset) or disclosure in the accompanying financial statements. The Plan is subject to routine audits by taxing jurisdictions, however, there are currently no audits for any tax periods in progress. The Plan administrator believes it is no longer subject to income tax examinations for years prior to 2011.

4. INVESTMENTS

The following presents investments that represent 5% or more of the Plan's Net Assets at December 31,

** Investments do not exist or represent five percent or more of the Plan's net assets as of respective date.

In connection with the demutualization of the Trustee, the Plan received 2,534 shares of stock having a fair market value of $46,879 on November 23, 2001, date of grant. The Principal Financial Group, Inc. common stock is non-participant directed and is not available for benefits to individual participants. Dividends paid on these shares of stock are allocated among participants. On February 4, 2014, the Plan sold all shares of the common stock and the Trustee allocated the net proceeds to participant accounts.

During 2014 and 2013, the Plan's investments in pooled separate accounts (including gains and losses on investments bought and sold, as well as held during the years) appreciated in value by $384,694 and $1,038,482, respectively.

4. INVESTMENTS (CONTINUED)

The Plan uses the Unit Value to determine the fair value of all the underlying investments which (a) do not have a readily determinable fair value and (b) prepare their financial statements consistent with the measurement principles of an investment company or have the attributes of an investment company. The following table lists all such investments:

Investment Strategies

a - The investment seeks long-term growth of capital. The fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies with large market capitalizations at the time of each purchase. It also invests in securities of foreign issuers. Employing a "blend" strategy, the fund's assets are invested in equity securities with both growth and/or value characteristics.
b - The investment seeks long-term growth of capital. The fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies with large market capitalizations at the time of each purchase. It invests in growth equity securities; growth orientation emphasizes buying securities of companies whose potential for growth of capital and earnings is expected to be above average.
c - The investment option normally invests the majority of assets in companies with large market capitalizations at the time of purchase. Fund management selects investments primarily on the basis of fundamental security analysis, focusing on the company's financial stability, sales, earnings, dividend trends, return on equity and industry trends. It may invest up to 25% of assets in foreign securities.
d - The investment seeks long-term growth of capital. The fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in companies with large market capitalizations at the time of each purchase. It invests in value equity securities, an investment strategy that emphasizes buying equity securities that appear to be undervalued.
e - The investment option primarily invests in common stocks of large capitalization companies with strong earnings growth potential. It normally invests the majority of assets in companies with large market capitalizations at the time of purchase. Fund management places strong emphasis on companies it believes are guided by high quality management teams. It also attempts to identify those companies that are market leaders possessing the ability to control pricing and margins in their respective industries. It may invest up to 25% of assets in foreign securities.
f - The investment option normally invests the majority of assets in common stocks of companies that compose the S&P 500 Index. Fund management attempts to mirror the investment performance of the index by allocating assets in approximately the same weightings as the S&P 500 Index. Over the long-term, fund management seeks a very close correlation between the performance of the Separate Account before expenses and that of the S&P 500 Index.
g - The investment seeks long-term growth of capital. Under normal circumstances, the fund invests at least 80% of its net assets, plus any borrowings for investment purposes, in equity securities of companies with medium market capitalizations at the time of each purchase. It invests in growth equity securities; growth orientation emphasizes buying equity securities of companies whose potential for growth of capital and earnings is expected to be above average. The fund actively trades portfolio securities.
h - The investment option primarily invests in common stocks of medium capitalization companies with strong earnings growth potential. It normally invests the majority of assets in companies with market capitalizations similar to those companies in the Russell MidCap Growth Index. Fund management uses a bottom-up approach in selection of individual securities that it believes have an above average potential for earnings growth. It may invest up to 25% of assets in foreign securities.
i - The investment seeks long-term growth of capital. The fund normally invests at least 80% of net assets in common stocks of companies that compose the S&P MidCap 400 Index. It employs a passive investment approach designed to attempt to track the performance of the index. The fund invests in index futures and options and exchange-traded funds (ETFs) on a daily basis to gain exposure to the index in an effort to minimize tracking error relative to the benchmark.
j - The investment seeks long-term growth of capital. The fund invests at least 80% of net assets in equity securities of companies with medium market capitalizations (those with market capitalizations similar to companies in the Russell MidCap Value Index) at the time of purchase. It invests in value equity securities; the value orientation selection emphasizes buying equity securities that appear to be undervalued.

Investment Strategies (continued)

k - The investment seeks long-term growth of capital and primarily invests in common stocks of small capitalization companies. It normally invests the majority of assets in companies with market capitalizations similar to those of companies in the Russell 2000 Index. Management looks at stocks with value and/or growth characteristics and constructs an investment portfolio that has a blend of stocks with these characteristics. Fund management does not have a policy of preferring one of these styles to the other. The Separate Account may invest up to 25% of assets in foreign securities.

m - The investment seeks long-term growth of capital. The fund invests at least 80% of net assets in equity securities of companies that compose the Standard & Poor's (S&P) SmallCap 600 Index at the time of purchase. It employs a passive investment approach designed to attempt to track the performance of the index. The fund invests in index futures and options and exchange-traded funds (ETFs) on a daily basis to gain exposure to the index in an effort to minimize tracking error relative to the benchmark.

n - The investment seeks long-term growth of capital. The fund invests at least 80% of net assets in equity securities of companies with small market capitalizations (those with market capitalizations similar to companies in the Russell 2000 Value Index) or in securities with market capitalizations of $3.5 billion or less at the time of purchase. It invests in value equity securities; the value orientation selection emphasizes buying equity securities that appear to be undervalued. The fund also invests in real estate investment trusts.

o - The investment seeks long-term growth of capital. The fund invests primarily in equity securities of companies domiciled in any of the nations of the world, including those in countries with emerging markets. It has no limitation on the percentage of assets that are invested in any one country or denominated in any one currency, but the fund typically invests in at least 30 countries.

p - The investment seeks long-term growth of capital. The fund invests primarily in equity securities of foreign companies. The fund's investments will normally be diversified across many different countries and regions, including countries with emerging markets. The fund invests in equity securities of small, medium, and large capitalization companies. It invests in value equity securities; the value orientation selection emphasizes buying equity securities that appear to be undervalued.

q - The investment seeks to provide as high a level of total return (consisting of reinvested income and capital appreciation) as is consistent with reasonable risk. The fund operates as a fund of funds. It: (1) Generally invests between 20% and 60% of its assets in fixed-income funds, and less than 40% in any one fixed-income fund; (2) Generally invests between 40% and 80% of its assets in equity funds, and less than 30% in any one equity fund; (3) Generally invests less than 20% of its assets in specialty funds, and less than 20% in any one specialty fund. The fund may temporarily exceed the applicable percentage ranges for short periods.

r - The investment seeks to provide a high level of total return (consisting of reinvestment of income and capital appreciation), consistent with a moderate degree of principal risk. The fund operates as a fund of funds. It: (1) Generally invests between 40% and 80% of its assets in fixed-income funds, and less than 40% in any one fixed-income fund; (2) Generally invests between 20% and 60% of its assets in equity funds, and less than 30% in any one equity fund; (3) Generally invests less than 20% of its assets in specialty funds, and less than 20% in any one specialty fund. The fund may temporarily exceed these percentage ranges for short periods.

s - The investment seeks to provide long-term capital appreciation. The fund operates as a fund of funds. It: (1) Generally invests between 0% and 40% of its assets in fixed-income funds, and less than 30% in any one fixed-income fund; (2) Generally invests between 60% and 100% of its assets in equity funds, and less than 40% in any one equity fund; (3) Generally invests less than 20% of its assets in specialty funds, and less than 20% in any one specialty fund. The fund may temporarily exceed the applicable percentage ranges for short periods.

t - The investment seeks to provide a high level of total return (consisting of reinvestment of income with some capital appreciation). The fund operates as a fund of funds. It: (1) Generally invests between 55% and 95% of its assets in fixed-income funds, and less than 40% in any one fixed-income fund; (2) Generally invests between 5% and 45% of its assets in equity funds, and less than 30% in any one equity fund; (3) Generally invests less than 20% of its assets in specialty funds, and less than 20% in any one specialty fund. The fund may temporarily exceed these percentage ranges for short periods.

4. INVESTMENTS (CONTINUED)

Investment Strategies (continued)

u - The investment seeks to provide long-term capital appreciation. The fund operates as a fund of funds. It: (1) Could invest between 0% and 25% of its assets in fixed-income funds (most likely between 0% and 10%), and generally less than 25% in any one fixed-income fund; (2) Generally invests between 75% and 100% of its assets in equity funds, and less than 50% in any one equity fund; (3) Generally invests less than 20% of its assets in specialty funds, and less than 20% in any one specialty fund. The fund may temporarily exceed the applicable percentage ranges for short periods.
v - The investment seeks as high a level of current income as is considered consistent with preservation of principal and maintenance of liquidity. It invests in a portfolio of high quality, short-term money market instruments. The investments are U.S. dollar denominated securities which the sub-advisor believes present minimal credit risks. The sub-advisor maintains a dollar weighted average portfolio maturity of 60 days or less.
w - The investment seeks to provide current income. The fund normally invests at least 80% of its net assets, plus any borrowings for investment purposes, in debt securities held by the Barclays U.S. Aggregate Bond Index at the time of purchase. The index is composed of investment grade, fixed rate debt issues, including government, corporate, asset-backed, and mortgage-backed securities, with maturities of one year or more. It employs a passive investment approach designed to attempt to track the performance of the index.
x - The investment seeks to provide a high level of current income consistent with safety and liquidity. The fund invests primarily (at least 80% of net assets) in securities issued by the U.S. government, its agencies or instrumentalities or securities that are rated AAA by S&P, AAA by Fitch, or AAA by Moody's. It may also invest in mortgage-backed securities that are not issued by the U.S. government, its agencies or instrumentalities or rated AAA by S&P, AAA by Fitch, or AAA by Moody's, including collateralized mortgage obligations, and in other obligation

5. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right, under the Plan, to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

6. INVESTMENT CONTRACT WITH INSURANCE COMPANY

The Plan has entered into a group annuity investment contract with Principal, which receives the contributions and deposits them into either a guaranteed interest account or into pooled separate accounts according to the participant's election. Principal pooled separate accounts are reported at fair value. Principal guaranteed interest accounts are reported at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. As the contract is not fully benefit-responsive, the contract is included in the financial statements at fair market value, which approximates contract value, at December 31, 2014 and 2013, as reported to the Plan by Principal. The fair market value of the contract is the value paid when funds are withdrawn prior to their maturity. Participants may ordinarily direct the withdrawal or transfer all or a portion of their investment at contract value; however, a surrender charge may be applied to transfers or withdrawals from an unmatured guaranteed interest account.

7. INFORMATION CERTIFIED BY TRUSTEE

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the DOL's Rules and Regulations for Reporting and Disclosure under ERISA. The Plan investments at December 31, 2014 and 2013 were held by the Trustee. The investment balances and related investment information included in these financial statements as of December 31, 2014 and 2013 and for the years then ended, have been compiled from statements certified as accurate and complete by the Trustee in accordance with DOL regulations.

	Year ended December 31, 2014	Year ended December 31, 2013
Investments, at fair value:		
Pooled separate accounts	$ 6,024,336	$ 5,421,376
Guaranteed interest account	125,316	214,585
Total investments	**$ 6,149,652**	**$ 5,635,961**

	Year ended December 31, 2014	Year ended December 31, 2013
Investment income:		
Net appreciation in fair value of investments	$ 384,694	$ 1,038,482
Other (loss) income	(9,083)	9
Total investment income	**$ 375,611**	**$ 1,038,491**

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedules.

8. PARTY-IN-INTEREST TRANSACTIONS

Certain Plan investments and the related transactions as of and for the years ended December 31, 2014 and 2013, are in shares of mutual/money funds managed by the Trustee. Therefore, these investments and transactions qualify as party-in-interest transactions. All administrative costs of the Plan were paid by the Plan during 2014 and 2013. All professional fees of the Plan were paid by the Company during 2014 and 2013.

9. FAIR VALUE MEASUREMENTS

FASB Accounting Standards Codification ("ASC") 820 provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2 Inputs to the valuation methodology include:
  - quoted prices for similar assets or liabilities in active markets;
  - quoted prices for identical or similar assets or liabilities in inactive markets;
  - inputs other than quoted prices that are observable for the asset or liability;
  - inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
- Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Guaranteed Interest Account: Valued at contract value, which approximates fair value. Fair value represents the amount Plan sponsors would receive if they terminated the contract at the reporting date, which is book value less an early withdrawal charge (Note 6).

Pooled Separate Accounts: Valued at fair value. Pooled separate accounts are made up of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The net asset value of pooled separate accounts is based on the market value of its underlying investments. The pooled separate accounts net asset value is not a publicly-quoted price in an active market.

Common stock: Common stock is valued at the closing price reported in the active market in which the individual securities are traded.

9. FAIR VALUE MEASUREMENTS (CONTINUED)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

The amount of total gains or losses for the period included in changes in net assets attributable to the change in unrealized gains or losses relating to assets still held at the reporting date	**$ (2,837)**

9. FAIR VALUE MEASUREMENTS (CONTINUED)

Except for the Plan's guaranteed interest account, gains and losses (realized and unrealized) included in changes in net assets for the years ended December 31, 2014 and 2013 are reported in net appreciation in fair value of investments in the Statements of Changes in Net Assets Available for Benefits.

10. RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500

The following is a reconciliation of net assets available for benefits per the financial statements to the Form 5500:

	December 31, 2014	December 31, 2013
Net assets available for benefits per the financial statements:	$ 6,570,121	$ 6,057,987

Total investment income per the financial statements	$ 375,611	$ 1,091,833
Less net appreciation in fair value of common stock	-	(52,683)
Plus deposit of previously earned dividend income	-	532
Less dividends from investment in common stock	-	(659)
Plus other income from sale of common stock	125,611	-
Total investment income per the Form 5500	**$ 501,222**	**$ 1,039,023**

11. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
