NOTE A - GENERAL DESCRIPTION OF THE PLAN

Plan Summary

The Westwood Advisory Services, Inc. 401(k) Plan is a defined contribution plan established for the benefit of the employees of Westwood Advisory Service, Inc. ("the Company"). All full time employees who have reached the age of 21 become eligible to participate in the Plan on the first day of the quarter following completion of one year of service during which the participant has been credited with 1000 hours of service. The following is a brief general description of the Plan. For more detailed Plan information, see the Plan document.

Contributions

Participants may elect to make deferral contributions to the Plan from pretax annual compensation, as defined in the Plan, subject certain limitations of the Internal Revenue Code (IRC). Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also make after-tax ROTH deferral contributions. Rollover contributions from other qualified retirement plans are allowed by the Plan. Participants direct the investment of their contributions into various investment options offered by the Plan. The Company may make a discretionary matching contribution equal to a uniform percentage or dollar amount of the participant's elective deferrals. The Company did elect to make a matching contribution for 2014 equal to the employee's total contributions for the year limited to a maximum of $1,000.

Participant Accounts

Each participant's account is credited with the participant's contributions and an allocation of Company contributions, if any, and Plan earnings or losses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account balance.

Vesting

Upon entering the Plan, participants are fully vested with respect to their contributions and related earnings thereon as well as in employer matching contributions.

Investments

Participants direct contributions, including employer matching contributions, into any of the investment options offered by Voya Institutional Trust Company (Voya), the trustee of the Plan. Prior to April 7, 2014, Voya was known as ING U.S., Inc.

NOTE A - GENERAL DESCRIPTION OF THE PLAN- continued

Investments - continued

In August 2014, the Plan changed the investment options that were available to the participants to a different portfolio of mutual funds and a fixed account offered and managed by Voya. The previous investment funds were transferred to the new funds based on comparable investment objectives and fund categories.

Notes Receivable from Participants

Participants may borrow up to 50% of their vested benefits, subject to a minimum of $500 and a maximum of $50,000. Notes are repaid through regular payroll deductions over a period not to exceed 5 years. However, if the loan is for the purchase of your principal residence, a longer repayment term may be permitted by the Administrator. Payments include interest which ranged from 4.25% to 7.25% at December 31, 2014. Participant notes receivable are secured by the vested account balance of the corresponding plan participant.

Distributions

On retirement, disability, or other termination of service, a participant may elect to receive a lump-sum distribution in the amount of the participant's vested account. The Plan does allow hardship distributions.

Corrective Distributions

The Plan is required to return contributions received in excess of IRC limits. Corrective distributions of $42,191 for 2013 were made in 2014. Corrective distributions of $35,516 for 2014 will be made in 2015.

Plan Termination

Although it has not expressed any intent to do so, the Company reserves the right to terminate the Plan. In this event, the accounts of all participants and beneficiaries would become fully vested and all benefits non-forfeitable.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICES

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICES – continued

Investment Valuation and Income Recognition

The Plan's investments are reported at fair market value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Plan's management determines the Plan's valuation policies utilizing information provided by the investment advisor and trustee.

Investment transactions are recorded on a trade-date basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Notes Receivable from Participants

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. Delinquent participant loans are reclassified as distributions based on the terms of the Plan document.

Payment of Benefits

Benefits are recorded when paid.

Plan Expenses

Operating expenses of the Plan are absorbed by the plan sponsor and are excluded from these financial statements.

NOTE B - SUMMARY OF SIGNIFICANT ACCOUNTING POLICES – continued

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reported period. Actual results could differ from these estimates.

NOTE C – INCOME TAX STATUS

The Internal Revenue Service has ruled that the Plan qualifies under Section 401(a) of the Internal Revenue Code (IRC) and is, therefore, not subject to tax under present income tax law. Once qualified, the Plan is required to operate in conformity with the IRC to maintain its qualifications.

The Plan obtained its latest determination letter on March 31, 2008 in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. The Plan has been amended since receiving the determination letter. However, the Plan administrator believes that the Plan is currently designed and being operated in compliance with the applicable requirements of the Internal Revenue Code.

Accounting principles generally accepted in the United States of America require the plan administrator to evaluate tax positions taken by the Plan and recognize a tax liability for any uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. Plan administrators believe the Plan is no longer subject to income tax examinations for years prior to 2011.

NOTE D - INFORMATION CERTIFIED BY THE PLAN TRUSTEE (UNAUDITED)

The Statement of Net Assets Available for Benefits as of December 31, 2014, the investment activities included in the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014, and the accompanying notes to the financial statements were prepared in part or entirely from information certified by the Trustee, Voya Institutional Trust Company, in accordance with 29 CFR 2520.103-8 of the Department of

Labor's Rule and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. The information certified includes total cash and investments of $2,991,972 at December 31, 2014 and the related investment income of $208,912 for the year ended December 31, 2014.

NOTE E – PLAN TERMINATION

The Company, at its discretion, may discontinue the contributions and terminate the Plan without liability. Upon termination, all participants' account balances become fully vested in amounts credited to their accounts after payment of any expenses, allocation of profit or loss, adjustments as a result of a determination of the fair market value of Plan assets at the termination date, and reallocation of Plan assets to the date of termination.

NOTE F – INVESTMENTS

The fair values of individual investments that represent 5% or more of the Plan's net assets are as follows at December 31,

NOTE G - FAIR VALUE MEASUREMENTS

The Plan's investments are reported at fair value in the accompanying statements of net assets available for benefits. The methods used to measure fair value may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy consists of three broad levels: Level 1 inputs consist of unadjusted quoted prices in active markets for identical assets and have the highest priority, Level 2 inputs consist of quoted prices for identical or similar assets or liabilities in active or inactive markets, observable inputs other than quoted prices or inputs derived from or corroborated by observable market data by correlation or other means and Level 3 inputs are unobservable. The Plan uses appropriate valuation techniques based on the available inputs to measure the fair value of its investments. When available, the Plan measures fair value using Level 1 inputs because they generally provide the most reliable evidence of fair value. Level 3 inputs were used only when Level 1 or Level 2 inputs were not available. The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

NOTE G - FAIR VALUE MEASUREMENTS - Continued

The following is a description of the valuation methodologies used for assets measured at fair value.

Level 2 Fair Value Measurements

The Pooled Separate Accounts (PSA) are made up of a wide variety of underlying mutual funds and they are valued at their accumulated unit value (AUV). The AUV is established when a fund starts and then is determined daily based on the NAV of the underlying fund, the fund's dividends and the contract's separate account charges.

The Fixed Account is determined based upon observable inputs, including balance of general account, the credited interest rate and any market value adjustment or contract surrender charge based on a specified formula.

NOTE H – FIXED ACCOUNT

As of December 31, 2014, the Plan maintained an investment option in the Voya Fixed Account. The Fixed Account is an obligation of the general account of Voya. The account is credited with earnings on the underlying investment and charged for participant withdrawals and administrative expenses. The account is included in the accompanying financial statements at fair value which is equal to contract value at December 31, 2014.

The Voya Fixed Account guarantees minimum rates of interest and may credit interest that exceeds the minimum guaranteed rate. The rate is subject to change at any time but will never fall below the guaranteed minimum rate. The crediting interest rates to participants under the contract as of December 31, 2014 was 1.25%. The guaranteed minimum crediting interest rates for the contract for 2014 was 1.25%. Voya's determination of credited interest rates reflects a number of factors, including mortality and expense risks, interest rate guarantees, the investment income earned on invested assets and the amortization of any capital gains and or losses realized on the sale of invested assets.

A market value adjustment and surrender charge may apply to amounts withdrawn at the request of the contract holder. Voya may impose restrictions on the ability to move funds into or out of this investment option.

NOTE I – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonable possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE J – RELATED PARTY TRANSACTIONS

During 2014 and 2013, the Plan's investments were managed by Voya Institutional Trust Company, the trustee of the Plan. Accordingly, these transactions qualify as party-in-interest transactions which are exempt from the prohibited transaction rule under ERISA.

NOTE K – RECONCILIATION OF FINANCIAL STATEMENTS TO FORM 5500
