Report of Independent Certified Public Accountants

The Administrative Committee
MACTEC, Inc. Salary Savings Plan

We were engaged to audit the financial statements and supplemental schedule of the MACTEC, Inc. Salary Savings Plan (the “Plan”) as of December 31, 2009 and for the year then ended, listed in the accompanying table of contents. These financial statements and supplemental schedule are the responsibility of the Plan’s management. The financial statements of the Plan as of December 31, 2008 were audited by other auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed the other auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by the trustee. Their report, dated September 22, 2009, indicated that (a) because of the significance of the information that they did not audit, they were unable to, and did not, express an opinion on the financial statements taken as a whole and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the trustee were presented in compliance with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under ERISA.

As permitted by 29 CFR 2520.103-8 of the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified by Fidelity Management Trust Company, the trustee of the Plan, except for comparing such information with the related information included in the financial statements and supplemental schedule. We have been informed by the plan administrator that the trustee holds the Plan’s investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2009 and for the year then ended that the information provided to the plan administrator by the trustee is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and do not express an opinion on the accompanying financial statements and supplemental schedule taken as a whole. The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the investment information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States and, in our opinion, are presented in compliance with the Department of Labor’s Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Notes to Financial Statements

1. Description of Plan

The following description of the Plan provides only general information. Participants should refer to the Summary Plan Description for a more complete description of the Plan's provisions.

General

The MACTEC, Inc. Salary Savings Plan (the "Plan") is a defined contribution plan sponsored by MACTEC, Inc. (the "Company"). The trustee of the Plan is Fidelity Management Trust Company (the "Trustee"). The Company has appointed a Committee to manage the operation and administration of the Plan (the "Committee"). The Committee has exclusive authority and responsibility for all matters in connection with the operation and administration of the Plan (excluding the authority and responsibility to invest, manage and control the assets of the Plan specifically allocated to the Trustee). The members of the Committee and the Trustee are named fiduciaries for purposes of Section 402(a) of the Employee Retirement Income Security Act of 1974.

The Plan covers substantially all U.S. employees of the Company and is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). Eligible employees become participants in the Plan immediately upon their date of hire with no minimum age requirement, as defined in the Plan document.

Contributions

Each year, participants may elect to make elective deferral contributions between 1% and 75% of their pretax earnings, up to the annual Internal Revenue Service (IRS) dollar limit. Employees may also contribute between 1% and 10% of their after-tax pay. The Company's matching contribution is equal to 50% of each participant's contribution up to a maximum of 5% of compensation, as defined. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Investment Options

Participants direct the investment of their total contribution, including the Company's matching portion, to be invested into various investment options offered by the Plan. The Plan currently offers investments in common stock, mutual funds, common/collective trust funds, guaranteed investment contracts and Brokerage Link. Brokerage Link balances consist of mutual funds offered by the Plan, as well as mutual funds offered by other registered investment companies, common stock or other investment products.

1. Description of Plan (continued)

Participant Accounts

Each participant's account is credited with the participant's contribution, Company's contributions, rollover contributions, and allocations of the Plan's earnings and losses. Allocations of earnings and losses are based on participants' account balances, as defined.

Vesting

Participants are immediately vested in their contributions plus earnings thereon. Employer contributions accrue to the participant based on the number of years of service with the Company. Company contributions plus earnings thereon vest 20 percent each year and are 100% vested after 5 years of credited service, as defined.

Payment of Benefits

The vested value of benefits are payable to a participant upon termination of employment, retirement, disability, or to the participant's beneficiary upon the participant's death in a lump-sum distribution. In addition, hardship distributions are permitted if certain criteria have been met.

Administrative Expenses

The Company pays certain administrative expenses incurred in the operation of the Plan, while investment management expenses are paid by the Plan.

Loans

A participant may borrow the lesser of \$50,000 or 50% of their vested account balance, with a minimum loan amount of \$1,000. The loans bear interest at a rate commensurate with market rates for similar loans. All loans must be repaid within 5 years, unless the proceeds are used to purchase a principal residence, in which case, the loan can be repaid over a period of 15 years.

1. Description of Plan (continued)

Forfeited Accounts

Forfeitures of nonvested contributions are used to reduce employer contributions. At December 31, 2009 and 2008, forfeited nonvested accounts available to reduce future employer contributions were \$50,021 and \$4,877, respectively. During 2009, the Company used \$77,656 of forfeited nonvested accounts to reduce employer contributions.

Plan Termination

Although it has not expressed any intention to do so, the Company has the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become fully vested in their account balances. The accounts which are non-forfeitable will continue to accrue investment earnings until benefits are paid in accordance with the terms of the Plan.

Suspension of 401(k) Match

During the year, the Company decided to temporarily suspend the employer match effective August 1, 2009. However, the employer match was subsequently reinstated and all Company match amounts were retroactively contributed to the Plan for its plan year ended December 31, 2009.

2. Summary of Significant Accounting Policies

Adoption of the FASB Accounting Standards Codification

In June 2009, the Financial Accounting Standards Board (FASB) issued the FASB Accounting Standards Codification (ASC). The ASC became the single source for all authoritative Generally Accepted Accounting Principles (GAAP) recognized by the FASB and is required to be applied to financial statements issued for interim and annual periods ending after September 15, 2009. The ASC does not change GAAP and did not impact the Plan's financial statements.

2. Summary of Significant Accounting Policies (continued)

Basis of Presentation

The financial statements of the Plan are prepared on the accrual basis of accounting.

As required by the guidance in *ASC 946 – Financial Services – Investment Companies* related to fully benefit-responsive contracts, the accompanying Statements of Net Assets Available for Benefits include fully benefit-responsive investment contracts reported at fair value as well as an adjustment for the fully benefit-responsive investment contracts from fair value to contract value.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States requires management to make estimates that affect the amounts reported in the financial statements and accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investments are stated at fair value. The fair values of the Plan's investments in mutual funds, money market funds, and self-directed brokerage accounts are based on quoted market prices in an active market. Cash and cash equivalents are valued at cost, which approximate fair value. Common/collective trust funds with underlying investments in investment contracts are valued at fair market value of the underlying investments and then adjusted by the issuer to contract value. The guaranteed investment contract is reported at fair value and adjusted to contract value. Fair value of the underlying investments is determined by the issuer of the contract based on quoted market prices. Contract value represents contributions made to the account, plus earnings, less participant withdrawals. Participant loans are valued at their outstanding balances, which approximate fair value.

Investment contracts held by a defined contribution plan are reported at fair value. However, contract value is the relevant measurement attribute for the portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts, because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Plan invests in the Managed Income Portfolio (MIP) collective trust fund and a guaranteed investment account (GIC), both of which are considered fully benefit-responsive investment contracts. The Statements of Net Assets Available for Benefits present the fair values of the MIP and GIC as well as the adjustment of the MIP and GIC from fair value to contract value. The Statement of Changes

2. Summary of Significant Accounting Policies (continued)

Investment Valuation and Income Recognition (continued)

in Net Assets Available for Benefits is prepared on a contract value basis. Interest income is recorded on the accrual basis of accounting. Dividends are recorded on the ex-dividend date. Purchases and sales of investments are recorded on the trade date.

Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the financial statements.

Subsequent Events

The Plan discloses material events that occur after the balance sheet date but before financial statements are issued. In general, these events are recognized if the condition existed at the date of the balance sheet, but are not recognized if the condition did not exist at the balance sheet date. The Plan discloses non-recognized events if required to keep the financial statements from being misleading. Plan management evaluated events occurring subsequent to December 31, 2009 through August 2, 2010, the date the financial statements are available for issuance, and determined that there were no events or transactions that require recognition in the Plan's financial statements.

4. Fair Value Measurements

Effective January 1, 2008, the Plan adopted the provisions of *ASC 820 - Fair Value Measurements and Disclosures*. ASC 820 establishes a single authoritative definition of fair value, sets out a framework for measuring fair value and requires disclosures about fair value measurement. ASC 820 establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1 Unadjusted quoted prices in active markets that are accessible at the measurement date for identical, unrestricted assets or liabilities;
- Level 2 Quoted prices for identical or similar assets or liabilities in markets that are not considered to be active or identical or similar financial instruments for which all significant inputs are observable, either directly or indirectly;
- Level 3 Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

5. Guaranteed Investment Contract with Insurance Company

The Plan invests in a fully benefit-responsive guaranteed annuity contract issued by MassMutual. The contract is supported by underlying investments held in one or more separate accounts owned by MassMutual. The Trustee is the contract holder under the contract. The contract provides that participants execute plan transactions at contract value. MassMutual will guarantee principal and accrued interest, based on crediting interest rates, for participant-initiated withdrawals as long as the contract remains active. The guarantee is provided through the contract which provides market and cash flow risk protection. Interest is credited to the contract at interest rates that reflect the performance of the underlying portfolio.

There are no reserves against contract value for credit risk of the contract issuer. The average effective yield for the year ended December 31, 2009 was 4.13%. The crediting interest rate was 4.05% and 4.35% at December 31, 2009 and 2008 respectively. The crediting interest rate is based on a formula agreed upon by the issuer, but may not be less than 3%. Such interest rates are reviewed on a semi-annual basis for resetting. Participants will receive the principal and accrued earnings credited to their accounts on withdrawals for allowed events. These events include transfer to other Plan investment options, and payments because of retirement, termination of employment, disability, death and in-service withdrawals as permitted by the Plan.

In certain circumstances, the amount withdrawn from the contract would be payable at fair value rather than at contract value. These events include (i) termination of the Plan; (ii) a material adverse change to the provisions of the Plan; and (iii) a decision by the Plan to withdraw from the account option provided through the MassMutual contract. In the plan

administrator's opinion, events described above that could result in the payment of benefits at fair value rather than contract value are not probable of occurring in the foreseeable future.

6. Managed Income Portfolio

The Plan is applying the practical expedient as of December 31, 2009 to its investment in Fidelity's Managed Income Portfolio ("MIP"), a collective trust fund. The MIP's investment objective is to seek the preservation of capital and to provide a competitive level of income over time that is consistent with the preservation of capital. Participants' ownership of the MIP is represented as units. Units are issued and redeemed daily at the MIP's constant NAV of \$1 per unit. The MIP allows for daily liquidity with no additional days notice required for redemption. It is the policy of the MIP to use its best efforts to maintain a stable NAV of \$1 per unit, although there is no guarantee that the MIP will be able to maintain this value.

Participants ordinarily may direct the withdrawal or transfer of all or a portion of their investment in the MIP at contract value. Contract value represents contributions made to the MIP, plus earnings, less participant withdrawals and administrative expenses. The MIP imposes certain restrictions on the Plan, and the MIP itself may be subject to circumstances that impact its ability to transact at contract value, as described in the following paragraphs. Plan management believes the occurrence of events that would cause the MIP to transact at less than contract value is not probable.

The MIP invests in assets (typically fixed income securities or bond funds and may include derivative instruments such as futures contracts and swap agreements) and enters into "wrapper" contracts issued by third parties and invests in cash equivalents represented by shares in a money market fund. A wrap contract is an agreement by another party, such as a bank or insurance company, to make payments to the MIP in certain circumstances. Wrap contracts are designed to allow a stable value portfolio to maintain a constant NAV and protect a portfolio in extreme circumstances. In a typical wrap contract, the wrap issuer agrees to pay a portfolio the difference between the contract value and the market value of the underlying assets once the market value has been totally exhausted.

MACTEC, Inc. Salary Savings Plan

Notes to Financial Statements (continued)

6. Managed Income Portfolio (continued)

The following events may limit the ability of the Plan to transact at contract value:

- The Plan's failure to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA.
- Any communication given to Plan participants designed to influence a participant not to invest in the MIP or to transfer assets out of the MIP.
- Any change in law, regulation or administrative ruling applicable to the Plan that could have a material adverse effect on the MIP's cash flow.
- Any transfer of assets from the MIP directly into a competing investment option.
- The establishment of a defined contribution plan that competes with the Plan for employee contributions.
- Complete or partial termination of the Plan or its merger with another plan.
- Any substantive modifications of the MIP or the administration of the MIP that is not consented to by the wrap issuer.
- Any change in law, regulation or administrative ruling applicable to a plan investing in the MIP that could have a material adverse effect on the MIP's cash flow.

The MIP is unlikely to maintain a stable NAV if, for any reason, it cannot obtain or maintain wrap contracts covering all of its underlying assets that are not otherwise invested in money market funds. For example, this could result from the MIP's inability to promptly find a replacement wrap contract following termination of a wrap contract. The wrap issuer's ability to meet its contractual obligations under the wrap contracts may be affected by future economic and regulatory developments. In the event that wrap contracts fail to perform as intended, the MIP's NAV may decline if the market value of its assets declines.

The MIP is presented in the statement of net assets at fair value with an adjustment to contract value.

Net assets available for benefits, per Form 5500	<u>\$181,566,001</u>	<u>\$146,659,362</u>

The following is a reconciliation of the increase in net assets per the financial statements to net income per the Form 5500:

	Year ended December 31, 2009
Statement of changes in net assets available for benefits:	
Increase in net assets per the financial statements	\$35,549,155
Plus: contributions receivable at December 31, 2008	4,600
Less: contributions receivable at December 31, 2009	(1,135,748)
Plus: corrective distributions payable at December 31, 2009	155,615
Less: corrective distributions payable at December 31, 2008	(72,185)
Plus: adjustment from contract value to fair value for fully benefit-responsive investment contract at December 31, 2008	491,149
Less: adjustment from contract value to fair value for fully benefit-responsive investment contract at December 31, 2009	(85,947) *
Net gain per Form 5500	<u>\$34,906,639</u>

* The reconciling item for 2009 includes only the adjustment related to the MIP, as the GIC is reported in the 2009 Form 5500 at contract value.

8. Income Tax Status

The Plan has received a determination letter from the IRS dated August 28, 2002, stating that the Plan is qualified under Section 401(a) of the Internal Revenue Code (the "Code") and, therefore, the related trust is exempt from taxation. Once qualified, the Plan is required to operate in conformity with the Code to maintain its qualification. The Plan has been amended since receiving the determination letter. However, the plan administrator believes the Plan is being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

During the 2008 audit of the Plan, the Company discovered insignificant operational deficiencies relating to certain employees' elective deferrals and employer match contributions. The Plan's Management corrected these deficiencies under the self-correction program of the Employee Plans Compliance Resolution System (EPCRS), and believes the corrective measure taken is in compliance with the EPCRS.

9. Transactions with Parties-In-Interest

The Plan engaged in transactions involving the Trustee, which is a party-in-interest with respect to the Plan. Participants' loans also qualify as party-in-interest transactions. These transactions are not considered "prohibited transactions" under Section 408(b) of the Code and are not prohibited by ERISA.

10. Corrective Distributions Payable

The Plan is subject to certain compliance requirements of non-discrimination rules under ERISA and IRS guidelines. For the Plan year ended December 31, 2009, the Plan failed certain of these non-discrimination tests due to lower levels of contribution participation by non-highly compensated eligible Plan participants. The Plan has recorded corrective distributions payable of \$155,615 at December 31, 2009 in the statement of net assets available for benefits to reflect the appropriate refund of a portion of the contributions made by highly compensated participants in order to comply with the non-discrimination requirements. The plan administrator believes that this corrective measure will satisfy the non-discrimination requirements of the IRS.
