NOTE 1. DESCRIPTION OF PLAN

The following description of the Levenfeld Pearlstein ("Company") Retirement Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all full-time employees of the Company who have completed three months of service and have attained 21 years of age, excluding union and seasonal employees and non-resident aliens. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Each year, participants may contribute a certain percentage of pretax annual compensation, as defined in the Plan. Participants may also contribute amounts representing distributions from other qualified defined benefit or defined contribution plans.

Discretionary matching contributions may be made on behalf of all active and terminated participants who made a pretax compensation contribution to the Plan during the year. The Company's board of directors has elected to match up to 2% of eligible compensation. Additional profit sharing amounts may be contributed at the option of the Company's board of directors for participants who complete more than 1,000 hours of service during the Plan year and are employed on the last day of the Plan year. For the year ended December 31, 2009, the Company made matching contributions totaling $221,496 and no discretionary profit sharing contributions.

The Plan currently offers twenty-two registered investment companies as investment options for participants. The investment of participant and Company matching and profit sharing contributions into these investment options is determined by each participant. Contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's matching and profit sharing contributions, (b) Plan earnings, and charged with an allocation of applicable administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting in the Company's discretionary matching and profit sharing portions of their accounts plus actual earnings thereon is based on years of continuous service. A participant is 100% vested after three years of credited service.

As is more completely described in the Plan document, a participant also becomes 100% vested in the Company's discretionary matching and profit sharing portions of their account plus earnings thereon through attaining their normal retirement date, permanent disability or death.

Participant Loans

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans generally must be repaid within five years. Loans used to purchase a participant's principal residence may be repaid within twenty years. The loan interest rate is fixed and equal to one quarter of one percent over the prime rate in effect at the time the loan is made. All Plan loans are repaid through automatic payroll deduction. A participant can prepay all of the unpaid principal balance without penalty.

Payment of Benefits

On termination of service, a participant may elect to receive an amount equal to the value of the participant's vested interest in his or her account in either a lump-sum payment or in the form of a direct rollover of all or a portion of the distribution to another employer plan or individual retirement account.

The Plan provides for hardship withdrawals from a participant's contribution account. The IRS safe harbor definition of a hardship will apply.

The Plan also provides for in-service distributions from participant's accounts in which the participant is 100% vested. The participant must have attained the age of 59 1/2.

Forfeited Accounts

At December 31, 2009, forfeited nonvested accounts totaled $4,709. These accounts will be used first to reduce administrative expenses of the Plan and then to reduce Company contributions. Also, in 2009, $43,878 was used to pay plan expenses and $4,865 was allocated as additional employer contributions.

NOTE 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Subsequent events

The plan administrator has evaluated subsequent events through August 4, 2010, which is the date the financial statements were available to be issued.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosures of contingent assets and liabilities. Actual results could differ from those estimates.

Basis of Accounting

The financial statements of the Plan are prepared on the accrual basis of accounting.

Investment Valuation and Income Recognition

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date. Interest on participant loans is recorded on the accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits

Benefits are recorded when paid.

Administrative Expenses

Expenses incurred in the investment of assets of the trust are deducted from trust assets. The Company pays the general administrative expenses of the Plan to the extent that such expenses are not paid by the Plan.

NOTE 3. FAIR VALUE MEASUREMENTS

Financial Accounting Standards Board (FASB) *Accounting Standards Codification* (ASC) 820*, Fair Value Measurements and Disclosures*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

Level 1

Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2

Inputs to the valuation methodology include

- quoted prices for similar assets or liabilities in active markets;
- quoted prices for identical or similar assets or liabilities in inactive markets;
- inputs other than quoted prices that are observable for the asset or liability;
- inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3

Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Registered investment companies: Valued at the net asset value (NAV) of shares held by the Plan at year end.

Participant loans: Valued at amortized cost, which approximates fair value.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

	December 31, 2009

NOTE 5. INFORMATION PREPARED AND CERTIFIED BY TRUSTEE

The following information included in the accompanying financial statements and supplemental schedule was obtained from data that has been prepared and certified to as complete and accurate by the trustee:

Investments
Total Investment Income
Schedule of Assets Held for Investment Purposes

NOTE 6. PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100 percent vested in their employer contribution accounts.

NOTE 7. TAX STATUS

The Plan as adopted is a prototype non-standardized profit sharing plan and is sponsored by DailyAccess Corporation. The sponsoring organization has received a determination letter, dated March 31, 2008, covering the prototype plan. A separate determination providing that Levenfeld Pearlstein Retirement Plan, as adopted, is designed in accordance with applicable sections of the Internal Revenue Code has not been sought from the Internal Revenue Service.

NOTE 8. PARTY-IN-INTEREST TRANSACTIONS

The Plan holds party-in-interest investments in the form of participant loans. These investments qualify as party-in-interest investments which are exempt from prohibited transaction rules.

NOTE 9. RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 10. RECLASSIFICATIONS

Certain amounts as previously reported for 2008 have been reclassified to conform to the 2009 presentation.
