INDEPENDENT AUDITORS' REPORT

To the 401(k) Committee of
The California Commerce Club, Inc.
Retirement Savings Plan
Commerce, California

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of The California Commerce Club, Inc. Retirement Savings Plan, which comprise the statement of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the years then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on the financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 5, which was certified by Principal Life Insurance Company, the custodian of the Plan, except for comparing the information with the related information included in the financial statements. We have been informed by the plan administrator that the custodian holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the custodian as of and for the years ended December 31, 2014 and 2013, that the information provided to the plan administrator by the custodian is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matters described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedules of assets held at end of year as of December 31, 2014 and 2013 and delinquent participant contributions for the year ended December 31, 2014, are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule referred to above.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedules, other than that derived from the information certified by the custodian, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

THE CALIFORNIA COMMERCE CLUB, INC. RETIREMENT SAVINGS PLAN

NOTES TO FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2014 AND 2013

1. Description of plan:

The following description of The California Commerce Club, Inc. Retirement Savings Plan (the "Plan") provides only general information. Participants should refer to the Plan agreement for a more comprehensive description of the Plan's provisions.

General:

The Plan is a voluntary savings and retirement (defined contribution) plan that covers all employees of The California Commerce Club, Inc. (the "Company" or the "Plan Sponsor"), who have completed 90 days of eligible service and are at least 21 years of age. The Company also acts as Plan Administrator. The Plan is designed to qualify under Section 401(k) of the Internal Revenue Code (the "Code"), as amended, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA"). The Custodian and Record Keeper of the Plan is Principal Life Insurance Company.

Contributions:

Each participant is eligible to contribute up to 40% of their compensation annually subject to certain limits established by the Internal Revenue Service. The amount of matching contributions made by the Company on behalf of participants is determined annually at the discretion of the Company.

For the years ended December 31, 2014 and 2013, the Company matched 50% of each eligible employee's contributions, up to a maximum of 5% of the participant's wages.

The Company's contribution is funded on an annual basis, after the close of the Plan year. The allocation of the Company's matching contribution by investment option is at the discretion of the participant.

Participant accounts:

Each participant's account is credited with the participant's contributions, contributions by the Company and an allocation of net earnings or losses of the selected investment, less transaction processing and investment management expenses. Allocations of net earnings or losses are based on the participant's account balance to the total of account balances of all participants within the selected investment.

1. Description of plan (continued):

Vesting policy:

Participants are immediately fully vested in their contributions plus actual earnings thereon. Participants become fully vested in employer contributions over six years of service with the Company, as follows:

Years of Service	Percent Vested
Less than 2	0%
More than 2, less than 3	20%
More than 3, less than 4	40%
More than 4, less than 5	60%
More than 5, less than 6	80%
6 or more	100%

Payment of benefits:

On termination of service, participants with a vested account value in the Plan of more than $5,000 may elect to receive either a lump-sum amount equal to the value of their account or periodic installments, or may defer distribution until retirement, as defined in the Agreement. Employees choosing to defer their distribution continue to participate in investment gains and losses, but are no longer eligible for matching contributions by the Company. Terminated employees with a vested account value in the Plan between $1,000 and $5,000 may receive benefits in a lump sum distribution or may roll over benefits to an individual Retirement Account with an affiliate of Principal Life Insurance Company. Terminated employees with a vested account value in the Plan of $1,000 or less may receive benefits only in a lump-sum distribution.

Forfeitures:

Upon termination of service, a participant forfeits any non-vested employer matching contributions and earnings thereon. Such forfeitures are used to reduce future contributions by the Company. At December 31, 2014 and 2013 forfeited non-vested accounts totaled $12,571 and $4,864, respectively. During 2014 and 2013, the employer contributions were reduced by $5,468 and $16,171, respectively from forfeited non-vested accounts.

Investment options:

The Plan's investments consist of various investment funds. Plan assets are invested in a guaranteed interest account, various pooled separate accounts, and mutual funds as directed by the Plan participants.

Participants may change their investment options daily.

1. Description of plan (continued):

Guaranteed interest account:

The guaranteed interest account consists of seven underlying investment contracts each of which has an initial term of seven years with one contract maturing each year and its proceeds being reinvested in a new seven year contract. The guaranteed interest account will pay contract value for a "benefit event" (e.g. termination, death, disability and retirement). However, there is a possible market value adjustment when transfers to other investment options from the guaranteed account are made. Thus, the guaranteed account is not considered to be fully benefit responsive. Contract value for the guaranteed interest account represents the amount payable to plan participants at maturity or upon a benefit event. The contract value of the guaranteed interest account was $10,694,931 and $10,589,099 as of December 31, 2014 and 2013, respectively. The interest rates earned on the contracts at December 31, 2014 and 2013 ranged from 0.69% to 4.70%.

Pooled separate accounts:

Pooled separate accounts are comprised of a wide variety of underlying investments such as equities, preferred stock, bonds, real estate and mutual funds. The Net Asset Value (NAV) of a pooled separate account is based on the market value of the underlying investments, but the pooled separate account NAV is not a publicly quoted price in an active market.

Mutual funds:

Mutual funds are comprised of a wide variety of underlying investments such as equities, preferred stock, and bonds. Mutual funds are valued at the net asset value of the underlying investments and reported at publicly available quoted market prices.

Notes receivable from participants:

After one year of participation in the Plan, participants may borrow from their fund accounts up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. The minimum amount of any loan is $1,000. Loan transactions are treated as a transfer to (from) the investment fund and from (to) the participant notes fund. Loan repayments are generally made over a maximum five-year period and bear interest at prevailing rates as determined by the Plan Administrator. Interest rates on outstanding loans range from 3.75% to 10.0%. Loans made for the purchase, major repair, or renovation of a primary residence may exceed the five-year repayment terms. All loans immediately become due and payable upon default, death, or termination of employment by the participant.

1. Description of plan (continued):

Subsequent events:

Management has evaluated subsequent events through September 29, 2015, the date the financials were available to be issued.

2. Summary of significant accounting policies:

Basis of accounting:

The financial statements of the Plan are prepared on the accrual method of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of estimates in the preparation of financial statements:

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of changes in net assets during the reporting periods. Actual results could differ from those estimates.

Investment valuation and income recognition:

Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The 401(k) Committee determines the Plan's valuation policies utilizing information provided by the Custodian. See Note 4 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis.

Cost basis of investments:

As permitted by Department of Labor Regulation 2520.103-11(d), Principal Life Insurance Company does not track the cost basis of investments

Net appreciation (depreciation) in fair value:

The Plan presents in the Statement of Changes in Net Assets Available for Benefits the net appreciation (depreciation) in the fair value of its investments which consists of the realized gains or losses and the unrealized appreciation or depreciation on those investments.

2. Summary of significant accounting policies (continued):

Interest and dividend income:

Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date.

Payment of benefits:

Benefits are recorded when paid.

Notes receivable from participants:

Notes receivable from participants are measured at their unpaid principal balance plus accrued but unpaid interest. No allowance for credit losses has been recorded as of December 31, 2014 or 2013. If a participant ceases to make loan repayments or if any amount remains unpaid for more than 90 days after it is due, and the Plan Administrator deems the loan to be in default, the participant loan balance is reduced and a benefit payment is recorded. Delinquent loans are reclassified as distributions based upon the terms of the Plan.

Operating expenses:

Certain expenses of maintaining the Plan are paid by the Company. See Note 6 for a description of the expenses paid by the Plan.

Concentration of credit risk:

Each investment fund is diversified through a portfolio containing a wide variety of investments that fit the particular investment strategy and targeted composition. Further diversification is available to participants through participation in more than one fund. The quality of investments held in the fund portfolio reflects the expertise of the fund sponsor and fund managers.

The Guaranteed Interest Account consists of a series of group annuity contracts negotiated with the Custodian. The ultimate performance of the contracts is dependent upon the ability of the issuer to honor them.

Reclassifications:

Certain balances in the prior year financial statements have been reclassified to conform to the current year presentation.

3. Investments:

The following are individual investments that represent 5% or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013.

	2014	2013
Guaranteed interest account:		
Principal Guaranteed Interest Account	$ 10,448,311	$ 10,297,820
Pooled separate accounts:

Mutual funds:		
PIMCO Total Return A Fund	7,074,469	5,341,066
T Rowe Price New Horizons Fund	*	5,890,870

* *Less than 5% of the Plan's net assets for the respective year.*

During 2014 and 2013, the Plan's investments (including gains and losses on investments bought and sold, as well as held during the year) appreciated by value by $4,407,713 and $13,130,222 as follows:

	2014	2013
Guaranteed interest account	$ 44,660	$ (249,718)
Pooled separate accounts	2,857,455	9,095,847
Mutual funds	1,505,598	4,284,093
	$ 4,407,713	$ 13,130,222

4. Fair value measurements:

The framework for measuring fair value provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described as follows:

- Level 1 inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

4. Fair value measurements (continued):

- Level 2 inputs to the valuation methodology include the following:
  - Quoted prices for similar assets or liabilities in active markets
  - Quoted prices for identical or similar assets or liabilities in inactive markets
  - Inputs other than quoted prices that are observable for the asset or liability
  - Inputs that are derived principally from, or corroborated by, observable market data by correlation or other means

  If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

- Level 3 inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes to the methodologies used at December 31, 2014 and 2013.

- *Guaranteed interest contract:* Valued at fair value based on the amount participants would receive at year end if they were to withdraw or transfer funds prior to their maturity. This represents contract value adjusted to reflect current market interest rates by discounting the related cash flows based on current yields of similar instruments. The participant and the Plan Sponsor could potentially be assessed an early withdrawal penalty if the funds are withdrawn before maturity. In determining the reasonableness of the methodology, the Plan Administrator evaluates a variety of factors including the review of existing contracts, economic conditions, industry and market developments, and overall credit ratings. Certain unobservable inputs are assessed through review of contract terms (for example, duration or payout date). For the years ended December 31, 2014 and 2013, the significant unobservable (Level 3) inputs used to determine fair value ranged from 0.72% to 2.31% and .61% to 2.59%, respectively, with a weighted average of 1.57% and 1.54%, respectively. The account pays a fixed rate of interest per the contract which changes periodically at the discretion of the Custodian. The interest rates paid on the Guaranteed Interest Accounts ranged from 0.69% to 4.70% as of December 31, 2014 and 2013. The Plan earned an average yield on these accounts of 2.04% and 2.30% for the years ended December 31, 2014 and 2013, respectively.

4. Fair value measurements (continued):

- *Pooled separate accounts.* Valued at the net asset value per unit of participation as determined by Principal Life Insurance Company, which represents an undivided interest in the underlying assets of the Funds. The purchase or redemption price of the units is determined based on the current market values of the underlying assets of the Funds. Net asset value is the fair value based on quoted market prices in an active market for the underlying assets, plus accrued dividend income and interest income. The value per unit is determined by dividing the net asset value by the number of units outstanding. There are no unfunded commitments, participants can redeem their units daily and there is no redemption notice period.
- *Mutual funds.* Valued at the net asset value of shares held by the plan at year end. Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The guaranteed interest contract, pooled separate accounts, and mutual funds are eligible for redemption on a daily basis, pending market conditions with trade settlement occurring within 1 to 3 days of the initiation of the trade. There are no other trading restrictions or commitments to purchase specific investments in the future.

4. Fair value measurements (continued):

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

Pooled separate accounts	52,288,697	53,206,642
Mutual funds	30,923,574	26,604,633
Notes receivable from participants	3,646,223	4,336,611
Additions and deductions during the year ended December 31:		
Net increase in the fair value of investments	4,407,713	13,130,222
Interest and dividends	569,873	531,008
Interest - notes receivable from participants	88,850	169,223

6. Administrative expenses:

Most plan costs and expenses, excluding brokerage fees, adjust an investment's net asset value used to value participant accounts. Member initiated expenses, including those that relate to withdrawal charges/fees, loan expenses, and member requested services are paid directly by plan participants and amounted to $70,956 and $80,695 for the years ended December 31, 2014 and 2013, respectively. The Company pays the annual audit, investment advisory fees, and other administrative costs.

7. Party-in-interest transactions:

Certain investments of the Plan are unallocated insurance contracts (guaranteed interest accounts) and shares of pooled separate accounts managed by Principal Life Insurance Company ("Principal"). Principal is the Custodian and Record Keeper, as defined by the Plan, and therefore, transactions involving such investments are considered exempt party-in-interest transactions.

8. Tax status:

The Plan Sponsor has not filed for a determination letter from the Internal Revenue Service, but is utilizing a non-standardized prototype plan developed by Principal Life Insurance Company that received a determination letter dated March 31, 2008. Although the Plan has been amended since, the Plan Sponsor and its legal counsel believe that the Plan, as currently designed, is being operated in compliance with the requirements of the Internal Revenue Code. Additionally, in June 2015 the Plan adopted a new Principal Life Insurance Company prototype plan, which received a determination letter dated March 31, 2014.

Accounting principles generally accepted in the United States of America require Plan management to evaluate tax positions taken by the Plan. Management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax exempt status and had taken no uncertain tax positions that require recognition or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

The Plan Sponsor believes the Plan is no longer subject to U.S. federal income tax examinations for years prior to 2011.

9. Plan termination:

Although the Company has not expressed any intent to do so, it has the right, under the Agreement, to terminate the Plan, subject to the provisions of ERISA. In the event of the Plan's termination, participants will become fully vested in their individual account, including the employer contributions.

10. Unpaid benefits to participants:

There were no unpaid benefits to participants as of December 31, 2014 and 2013. In order to satisfy the relevant nondiscrimination provisions of the Plan certain active participants were refunded excess contributions of $6,087 in 2014 relating to the Plan year ended December 31, 2013.

11. Delinquent participant contributions:

During the year ended December 31, 2014, certain payments on notes receivable from participants were not remitted timely. To make the participant whole, the Company will pay the Plan interest pursuant to guidance by the Department of Labor.

12. Risks and uncertainties:

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits. Market values of investments may decline for a number of reasons, including changes in prevailing market and interest rates, increases in defaults and credit rating downgrades.
