Independent Auditor's Report

To the Plan Administrator
Eileen Fisher, Inc. 401(k) Employee Savings Plan
Irvington, New York

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of the Eileen Fisher, Inc. 401(k) Employee Savings Plan (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 3, which was certified or provided by State Street Bank and Trust Company (the Trustee), the trustee of the Plan, except for comparing this information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustee holds the Plan's assets and executes transactions. The Plan Administrator has obtained certifications from the Trustee as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the Plan Administrator by the Trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Member of the RSM International network of independent accounting, tax and consulting firms.

Other Matter
The supplemental schedule, Schedule H, Line 4(i) - schedule of assets (held at end of year) as of the year ended December 31, 2014, is required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and is presented for the purposes of additional analysis and is not a required part of the financial statements. The supplemental schedule is the responsibility of the Plan's management. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations
The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified or provided by the Trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Note 1. Description of the Plan

The following description of the Eileen Fisher, Inc. 401(k) Employee Savings Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General: The Plan is a tax deferred savings plan covering all eligible employees of Eileen Fisher, Inc. and EF Ninth Street, Inc. (collectively referred to as the Company). The Plan was established effective January 1, 1996, as amended, and is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Eligibility: Employees are eligible to become participants in the Plan on the first day of the following payroll period, provided they have attained the age of 21 and are not covered by a collective bargaining agreement.

Contributions: Each year, participants may contribute up to a dollar limit, which is set by law, as stated in the Internal Revenue Code (the IRC). The maximum amount participants were allowed to contribute for the year ended December 31, 2014 was $17,500. Employees 50 years of age and older are also allowed to contribute an additional $5,500 to the Plan for 2014.

The Company may also make discretionary matching contributions. At December 31, 2014, the Company accrued $1,291,213 for 2014 employer match contributions based on a match of 30% of participants' contributions up to 10% of employees' compensation.

An additional discretionary amount may be contributed as determined each year by the Company. There was no additional discretionary contribution made in 2014.

Participant accounts: Each participant's account is credited and debited with the participant's contributions and withdrawals, as applicable, and an allocation of (a) the Company's matching contribution and (b) Plan earnings. Plan earnings are allocated based on participant account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting: A participant in the Plan always has a fully vested interest in the value of his or her contributions and rollover accounts and any earnings on those contributions. He or she also has a nonforfeitable right to the value of his or her Company match account upon the latter of the attainment of age 60 or the fourth anniversary of the first day of the Plan year in which he or she became eligible. Upon termination of employment, a participant vests in the funds held in his or her Company match account in accordance with the following vesting schedule:

Years of Service	Vested Percentage
Less than 1	0%
At least 1, but less than 2	25%
At least 2, but less than 3	50%
At least 3, but less than 4	75%
4 or more	100%

Upon termination of employment for reasons other than disability or death of a participant who was not fully vested in his or her Company match account, the nonvested portion of the participant's Company match account shall be forfeited. Any account forfeited shall be used to reduce the Plan's future employer contributions and then to reduce expenses.

Note 1. Description of the Plan (Continued)

Promissory notes receivable from participants: Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent loans are treated as distributions based upon the terms of the Plan document. Participants may borrow from their funded account the lesser of: (a) $50,000 (reduced by the highest outstanding balance of loans from the Plan during the one-year period ending on the day before such loan was made) or (b) up to 50% of their vested account balance. The minimum amount of any loan is $1,000. Loans are secured by the balance in the participant's account and must be repaid in no more than five years, unless the loan is to purchase a primary residence. If a loan is for a primary residence, then the repayment date may be extended up to twenty years. Interest is charged by the Plan at the rate a bank or other professional lender would charge for making a loan in a similar circumstance. Interest rates on notes receivable from participants at December 31, 2014 range between 4.25% and 9.67%.

Payment of benefits: Upon termination of employment, for reason of disability or death, the participant or his or her beneficiary shall receive the value of his or her account. However, if the termination of employment is for reasons other than disability or death, the participant shall receive only the value of the vested funds in his or her account.

In accordance with the procedures established by the Administrative Committee and the terms of the Plan, terminated employees may elect to defer final distribution from the Plan. Upon such election, the amount of such participants' vested interest in the Plan is entitled to continue to receive investment income and losses until the date of distribution as elected by the participants. Prior to termination of employment, the participant may withdraw amounts from the participant's accounts in accordance with the provisions of the Plan.

Forfeited accounts: Forfeitures are applied as a reduction of future Employer contributions. Forfeitures of $6,409 were used during 2014 to offset Employer contributions. At December 31, 2014 and 2013, the forfeited nonvested account was approximately $4,629 and $2,813 respectively, based on the forfeitures that occurred in 2014 and 2013.

Note 2. Summary of Significant Accounting Policies

The Plan's significant accounting policies are as follows:

Basis of accounting: The financial statements of the Plan are prepared on the accrual basis of accounting.

Valuation of investments and income recognition: The Plan's investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for a discussion of fair value measurements.

Guaranteed investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The statements of net assets available for benefits present the fair value of the common collective trust and the investment contract as well as the adjustment of the fully benefit-responsive investment from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis for the fully benefit-responsive investment.

Note 2. Summary of Significant Accounting Policies (Continued)

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation in fair value of investments includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of benefits: Benefits are recorded when paid.

Use of estimates: The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Subsequent events: The Plan Administrator has evaluated subsequent events through October 8, 2015, the date the financial statements were available to be issued.

Recently adopted accounting pronouncement: In October 2012, the Financial Accounting Standards Board (FASB) issued Accounting Standards Update (ASU) 2012-04, *Technical Corrections and Improvements*. The amendments in this Update cover a wide range of Topics in the Accounting Standards Codification (ASC), including plan accounting. These amendments include technical corrections and improvements to the ASC and conforming amendments related to fair value measurements. The amendments in this Update will generally be effective for fiscal periods beginning after December 15, 2013 for nonpublic entities, except for amendments in this update where there was no transition guidance and which were immediately effective upon issuance. The adoption did not have a material impact on the Plan's financial statements.

Recently issued accounting pronouncements: In May 2015, the FASB issued ASU 2015-07, *Fair Value Measurement (Topic 820): Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent).* The amendments in this update remove the requirement to categorize within the fair value hierarchy all investments for which fair value is measured using the net asset value per share practical expedient. The amendments also remove the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. However, sufficient information must be provided to permit reconciliation of the fair value of assets categorized within the fair value hierarchy to the amounts presented in the statements of net assets available for benefits. The amendments in this update are effective for public business entities for fiscal years beginning after December 15, 2015. For all other entities, the amendments in this update are effective for fiscal years beginning after December 15, 2016. Early adoption is permitted. Upon adoption, the amendments shall be applied retrospectively to all periods presented. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

Note 2. Summary of Significant Accounting Policies (Continued)

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting: Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962), Health and Welfare Benefit Plans (Topic 965) – (I) Fully Benefit-Responsive Investment Contracts, (II) Plan Investment Disclosures, and (III) Measurement Date Practical Expedient (a consensus of the FASB Emerging Issues Task Force)*. The purpose of this update is to simplify plan accounting.

- The amendments in Part I of this update designate contract value as the only required measure for direct investments in fully benefit-responsive investment contracts. Fully benefit-responsive investment contracts will be presented at contract value; accordingly there will no longer be an adjustment from fair value to contract value on the face of the financial statements.

- The amendments in Part II of this update will eliminate the requirements for plans to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type for both participant-directed investments and nonparticipant-directed investments. The net appreciation or depreciation in investments for the period will still be required to be presented in the aggregate. In addition, if an investment is measured using the net asset value per share (or its equivalent) practical expedient in Topic 820 and that investment is in a fund that files a U.S. Department of Labor Form 5500, *Annual Return/Report of Employee Benefit Plan*, as a direct filing entity, disclosure of that investment's strategy will no longer be required.

- The amendments in Part III of this update reduce complexity in employee benefit plan accounting by providing a practical expedient that permits plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with month-end.

The update may be adopted in whole or by part (I, II, and III), as applicable. The amendments in this update are effective for fiscal years beginning after December 15, 2015. Early adoption is permitted. Upon adoption, the amendments in Parts I and II shall be applied retrospectively to all periods presented; the amendments in Part III shall be applied prospectively. Plan management is currently evaluating the impact this update will have on the Plan's financial statements.

Note 3. Information Certified and Provided by the Trustee and the Paying Agent

The following is a summary of the Plan's asset information as of December 31, 2014 and 2013, and for the year ended December 31, 2014, included throughout the Plan's financial statements and supplemental schedule, that was prepared by or derived from information provided by the Trustee and the Paying Agent and furnished to the Plan Administrator. The Plan Administrator has obtained certifications from the Trustee and the Paying Agent that information provided to the Plan Administrator by the Trustee and the Paying Agent related to the following assets is complete and accurate. Accordingly, as permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under ERISA, the Plan Administrator instructed the Plan's independent auditors not to perform any auditing procedures with respect to information which appears throughout the financial statements and supplemental schedule related to the following assets.

Diversified Stable Pooled Fund	$ 6,595,582	$ 6,443,325
Promissory notes receivable from participants	$ 1,355,256	$ 1,237,297

The Trustee also certified to the completeness and accuracy of $2,556,344 of net appreciation in fair value of investments, $946,623 of interest and dividends on investments and $51,438 of interest on notes receivable from participants for the year ended December 31, 2014.

Note 4. Guaranteed Investment Contracts

The Plan invested in the Diversified Stable Pooled Fund, a common collective trust fund that contains investments in guaranteed investment contracts. The investment is included in the financial statements at fair value and adjusted to contract value because it is fully benefit-responsive.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. The average yield generated by this investment and interest income credited to the account for the year ended December 31, 2014 approximated 1.40% and 1.36%, respectively.

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (a) amendments to the Plan documents (including complete or partial Plan termination or merger with another plan), (b) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (c) bankruptcy of the Plan sponsor or other plan sponsor events (for example, divestitures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (d) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

Note 4. Guaranteed Investment Contracts (Continued)

The following table sets forth additional disclosures of the Plan's investment in the common collective trust as of December 31, 2014:

	Fair Value	Unfunded Commitment	Redemption Frequency	Redemption Notice Period
Common collective trust	$ 6,684,757	$ -	Immediately	N/A

Note 5. Fair Value Measurements

FASB ASC 820, *Fair Value Measurements and Disclosures,* provides the framework for measuring fair value. The framework for measuring fair value provides a hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to unobservable inputs (Level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

Level 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

Level 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets.
- Quoted prices for identical or similar assets or liabilities in inactive markets.
- Inputs other than quoted prices that are observable for the asset or liability.
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value, including the general classification of such instruments pursuant to the valuation hierarchy:

Cash reserve accounts: The carrying amount approximates fair value because the instruments are liquid in nature.

Mutual funds (registered investment companies): Fair values are based on unadjusted quoted prices in active markets for identical assets or liabilities.

Note 5. Fair Value Measurements (Continued)

Common collective trust: The underlying investment of the common collective trust is primarily in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by high-quality bonds, bond trusts and bond mutual funds. The fair value is the amount Plan participants would receive currently if they were to withdraw or transfer funds within the Plan prior to their maturity for an event other than death, disability, termination or retirement. The fair value has been estimated using the net asset value per share of the underlying investments, valued by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes that its valuation methods are appropriate and consistent with those of other market participants, the use of different methodologies or assumptions to determine fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's investments at fair value as of December 31, 2014 and 2013:

Note 6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note 7. Tax Status

The Internal Revenue Service issued a determination letter on July 8, 2010 stating that the Plan is qualified under Section 401(a) of the Code and, therefore, the related trust is exempt from taxation. Although the Plan has been amended since receiving the determination letter, it is the opinion of the Plan Administrator and Plan counsel that the Plan remains qualified and is currently being operated in compliance with the applicable requirements of the Code.

The Plan's management evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustments to the financial statements as of December 31, 2014 and 2013 and for the year ended December 31, 2014. Therefore, no provision or liability for income taxes has been included in the financial statements. The Plan's management also believes that the Plan is no longer subject to income tax examinations by U.S. federal, state, or local tax authorities for years before 2011.

Note 8. Plan Termination

Although it has not expressed any intent to do so, the board of directors of the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

Note 9. Exempt Party-in-Interest Transactions

Some of the Plan's expenses, including trustee, custodial, and certain record-keeping fees, are paid by the Plan. Personnel and facilities of the Company are used by the Plan at no charge. Certain Plan investments are shares of various funds managed by the Trustee or the record-keepers of the Plan and, therefore, any transactions between the Plan and the Trustee or record-keepers are considered exempt party-in-interest transactions.
