Note 1: Description of the Plan and summary of significant accounting policies

The following description of the Executive Health Resources, Inc. (the Company) 401(k) Profit Sharing Plan (the Plan) is provided for general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan was established on January 1, 2001 as a defined contribution plan that covers substantially all eligible employees. The Plan contains no age or service requirements. Each employee becomes eligible to participate in the Plan on the first day of employment. The Plan is subject to the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions

Plan contributions are made in the form of elective contributions. Participating employees contribute to the Plan through deferral of salary on pretax basis. Participants may defer from 1% to 100% of their eligible compensation. Contributions may not exceed the annual maximum dollar limitation as determined by government regulations and prescribed by the Internal Revenue Code.

The Company may elect to make discretionary profit sharing contributions. No discretionary contributions were made during the 2009 and 2008 plan years.

The Company may make qualified non-elective contributions for certain non-highly compensated employees, as required. Contributions in the amount of $-0- and $32,938 were made for the years ended December 31, 2009 and 2008, respectively. Contributions were received by the Plan during the subsequent period.

Participant accounts

Each participant's account is credited with the participant's contribution and allocation of Plan earnings. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting

Participants are immediately vested in their contributions plus actual earnings thereon. Vesting of the Company's discretionary contributions, if any, is based on years of service. Participants are fully vested after six years of credited service. If a participant's employment terminates by reason of death or permanent disability, all amounts credited to the participant's account become 100% vested regardless of length of service.

Note 1: Description of the Plan and summary of significant accounting policies (continued)

Investment options

Participants direct the investment of their contributions into various investment options offered by the Plan. The Plan currently offers several mutual funds as investment options for participants, who may change their investment options at any time throughout the year via direct phone or internet access.

Payment of benefits

Benefit distributions are payable upon participants' retirement, death, permanent disability, or other termination of employment in the form of a lump sum or installment payment. Benefits payable to retired participants are based on the participant's account balance as of the valuation date coincident with or next following the retirement date and are distributed as soon as reasonably possible after that valuation date. Disabled participants and beneficiaries may receive benefits as soon as reasonably possible, or they may elect to delay distribution subject to certain of the Plan's provisions.

At its discretion, the Plan administrator may grant requests for hardship withdrawals, as permitted under the Plan and the Internal Revenue Code.

Forfeitures

Forfeitures of any discretionary contributions made by the Company may be used to reduce future discretionary contributions or to reduce non-elective contributions. Forfeitures will occur in the year in which a termination of employment occurs, regardless of when a distribution occurs.

Plan administration

Plan administrative expenses may be paid by the Plan or the Company. During 2009 and 2008, the Company paid certain of the Plan's administrative expenses.

Plan termination

Although the Company has not expressed any intention to do so, it has a right to terminate the Plan at any time, subject to the provisions of ERISA. Upon termination of the Plan, all interests of the participants would be distributed based upon each participant's equity in the Plan's assets.

Note 1: Description of the Plan and summary of significant accounting policies (continued)

Use of estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires Plan management to make estimates and assumptions that affect the reported amounts of Plan assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

Investment valuation and income recognition

The Plan's investments in shares of registered investment company funds (mutual funds) are reported at fair value based on quoted market prices, which represent the net asset values of shares held by the funds at year end.

Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and amounts reported in the statement of net assets available for benefits.

Benefits

Benefits are recorded when paid.

Note 3: Fair value measurements

Financial Accounting Standards Board (FASB) *Accounting Standards Codification (ASC) 820, Fair Value Measurements and Disclosure*, provides the framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are:

Level 1: Securities traded on an active market.

Level 2: Securities not traded on an active market but observable market inputs are readily available.

Level 3: Securities not traded on an active market and observable market inputs are not readily available.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual funds: Valued at the net asset value (NAV) of shares held by the Plan at year end.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following sets forth by level, within the fair value hierarchy, the Plan's investments at fair value at December 31:

		2009	2008
Level 1:	Mutual funds	***$ 5,516,451***	$ 2,431,961

Note 4: Tax status

The Plan, as part of a Master Prototype Plan, obtained its latest determination letter on September 4, 2001, in which the Internal Revenue Service stated that the Plan, as then designed, was in compliance with the applicable requirements of the Internal Revenue Code. Although the Plan has been amended since receiving the determination letter, the Plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

Note 5: Subsequent events

The Plan has evaluated events and transactions that occurred after December 31. 2009 through August 25. 2010. which is the date the financial statements were available to be issued.
