Mirror Lake Inn 401K Profit Sharing Plan
NOTES TO FINANCIAL STATEMENTS
For the year ended December 31, 2009 and 2008

NOTE 1 – DESCRIPTION OF THE PLAN

The following description of the Mirror Lake Inn 401K Profit Sharing Plan ("Plan") provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General. The Plan is a defined contribution plan covering all full-time employees of the Company who have one year of service and are age twenty-one or older. It is subject to the provisions of the Employee Retirement Income Security act of 1974 (ERISA).

Contributions. Each year, participants may contribute up to the lesser of 100% or $16,500 of pre-tax annual compensation, as defined in the Plan. Participants who have attained age 50 before the end of the Plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. The Company will make safe harbor contributions automatically to participant accounts in the amount equal to 3% of participant's compensation regardless of whether or not the participant makes elective deferrals. In addition, the Company makes matching contributions of an additional 1% of the participant's base compensation if the participant contributes at least 3% of their base compensation. If the employee does not contribute 3% of their compensation, the Company match will be .5% for the first 1% of compensation that the employee contributes, or .75% if they contribute 2% of their compensation. Additional profit sharing amounts may be contributed at the option of the Company's shareholder. Participants direct the investment of all participant and Company contributions into various investment options offered by the Plan. The Plan currently offers fourteen mutual funds as investment options for participants. Contributions are subject to certain limitations.

Participant accounts. Each participant's account is credited with the participant's contribution and allocations of the Company's contribution and Plan earnings. Allocations are based on participant earnings and account balances as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately vested in their contributions and safe harbor contributions plus actual earnings thereon. Vesting in the matching and profit sharing contributions is based on years of continuous service. A participant is 100% vested after six years of credited service. A year of service is achieved by plan participants if they have 1000 hours of service.

Vesting Schedule	
1 year or less	0%
2 years	20%
3 years	40%
4 years	60%
5 years	80%
6 years	100%

Payment of Benefits. On termination of service due to death, disability, retirement or termination, a participant will receive a lump-sum amount equal to the value of the participant's vested interest in his or her account.

Forfeited Accounts. At December 31, 2009 and 2008, forfeited non-vested accounts totaled $2,059.60 and $2,547.81, respectively. Any forfeited accounts will be used to reduce future employer contributions.

NOTE 2 – SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Estimates
The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment Valuation and Income Recognition
The Plan's investments are stated at fair market value. Quoted market prices are used to value investments. Shares of mutual funds are valued at the net asset value of shares held by the Plan at year-end. Purchases and sales of securities are recorded on a trade-date basis. Dividends are recorded on the ex-dividend date.

Payment of Benefits
Benefits are recorded when paid.

NOTE 3 – PLAN TERMINATION

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants would become 100% vested in their employer contributions.

NOTE 4 – RISKS AND UNCERTAINTIES

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

NOTE 5 – TAX STATUS

The Internal Revenue Service has determined and informed the Company by a letter dated November 11, 2001, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC).

NOTE 6 – INVESTMENTS

The Plan's investments are held in a bank-administered trust fund. The following table presents investments. Investments that represent 5% or more of the Plan's net assets are separately identified.

Note 7 - Information Certified by the Plan's Custodian (Unaudited):

The plan administrator has elected the method of annual reporting compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, the custodian, John Hancock has certified that the following data included in the accompanying financial statements and supplemental schedule is complete and accurate:

- Investments, as shown in the statements of net assets available for benefits as of December 31, 2009 and 2008.
- Investment activity, as shown in the statement of changes in net assets available for benefits for the year ended December 31, 2009.
- The schedule of assets held for investment purposes at end of year excluding participant loans, as shown in Schedule H, Line4(i).

The Plan's independent accountants did not perform auditing procedures with respect to this information, except for comparing such information to the related information included in the financial statements and supplemental schedule.

Note 8 – Fair Value Measurements:

FASB ASC 820, *Fair Value Measurements and Disclosures*, establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of fair value hierarchy under FASB ASC 820 are described as below:

Level 1- Inputs to the valuation methodology are unadjusted quoted prices in active markets that the Plan has the ability to access.

Level 2- Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

  If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3- Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Note 8 – Fair Value Measurements (Continued):

Following is a brief description of the valuation methodology used for assets measured at fair value. There have been no changes in the methodology used for the Mirror Lake Inn 401K Profit Sharing Plan. All Mutual funds are at the net asset value ('NAV") of shares held by the plan at year end.

The method described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note 9 – Events Occurring After The Reporting Date

The Company has evaluated subsequent events through September 21, 2010, the date which the financial statements were available to be issued.
