Report of Independent Auditors

To the Finance and Pension Committee
of the Board of Directors
Stanley Black & Decker, Inc.

We were engaged to audit the financial statements of Best Lock Corporation Employees' Pension Plan (the Plan) as of December 31, 2009 and 2008, and for the years then ended as listed in the table of contents. These financial statements are the responsibility of the Plan's management.

As permitted by 29 CFR § 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by The Bank of New York Mellon, the trustee of the Plan as of December 31, 2009 and 2008 and for the year ended December 31, 2009 and for the period from July 1, 2008 through December 31, 2008, and Citibank, N.A., the trustee of the Plan for the period from January 1, 2008 through June 30, 2008, except for comparing such information to the related information included in the Plan's financial statements. We have been informed by the Plan administrator that the trustees hold the Plan's investment assets and execute investment transactions. The Plan administrator has obtained certifications from the trustees as of and for the year ended December 31, 2009 and as of December 31, 2008 and for the period from July 1, 2008 through December 31, 2008 from The Bank of New York Mellon, and as of and for the period from January 1, 2008 through June 30, 2008 from Citibank, N.A., that the information provided to the Plan administrator by the applicable trustees is complete and accurate.

Because of the significance of the information that we did not audit, we are unable to express, and do not express, an opinion on the accompanying financial statements taken as a whole. The form and content of the information included in the financial statements, other than that derived from the information certified by the trustees, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

Best Lock Corporation Employees' Pension Plan

Notes to Financial Statements

Years Ended December 31, 2009 and 2008

1. Background and Description of the Plan

The following description of the Best Lock Corporation Employees' Pension Plan (the Plan) provides only general information. Additional information about the vesting and benefit provisions and the Pension Benefit Guaranty Corporation's (PBGC) benefit guarantee is contained in the *Plan Document* and *Summary Plan Description*, which are available from the Plan administrator.

General

The Plan is a noncontributory defined-benefit plan established effective September 1, 1989 and is available to substantially all active and retired U. S. employees of Best Access Systems (Best), a subsidiary of Stanley Black & Decker, Inc. (the Company), as of September 1, 1989, who had performed service prior to that date. The Plan is subject to provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

The Plan sponsor froze the accrued benefits of all participants under the Plan as of September 1, 1989. The accrued benefit of any participant shall not exceed the amount of his or her accrued benefit (if any) under the Plan as of September 1, 1989 and no participants shall receive benefit service and no additional benefits shall accrue for any period after September 1, 1989. Participants may earn credit for service after September 1, 1989 for purposes of any minimum credited service requirement imposed under the Plan.

Contributions

The plan participants are not required or permitted to make contributions to the Plan. The Company's funding policy is to make periodic contributions to the Plan in amounts not less than the amounts necessary to meet minimum funding requirements under the Employee Retirement Securities Acts of 1974 (ERISA) and not more than the amounts permitted under the Internal Revenue Code (IRC). There was no minimum funding required for 2009 and 2008. During 2009 and 2008, the Company made no contributions to the Plan. The Plan has met the ERISA minimum funding requirement.

1. Background and Description of the Plan (continued)

Participation and Vesting

Generally, any U.S. employee of Best who was employed on September 1, 1989, and had completed one hour of service before September 1, 1989 is eligible to participate in the Plan. In addition, substantially all living retirees of Best as of September 1, 1989 are eligible to participate. Participation commenced on the later of September 1, 1989, completion of one year of employment which includes at least 1,000 hours of service, or attainment of age 21. Employees with no service hours prior to September 1, 1989 are not eligible to participate. Employees are fully vested in the Plan upon entry in the Plan (such employees are hereafter referred to as participants).

Pension Benefits

Participants generally receive benefits upon retirement at the normal retirement age (65). Retirement benefits are payable as a qualified joint and one-half survivor annuity. The monthly retirement benefit payable under the Plan is equal to 1% of a participant's base pay, as defined in the Plan, multiplied by the greater of the number of years and partial years of service completed by the participants as of September 1, 1989, or two years. A reduction of benefits is made for a participant who elects early retirement between the ages of 55 and 65 and elects to receive benefits immediately upon retirement. The reduction is equal to 5/12ths of 1% for each month a participant's early retirement date precedes his or her normal retirement date.

Termination Benefits

Participants whose employment with Best is terminated prior to retirement are eligible to receive retirement benefits at the normal retirement age (65). Participants terminated after attainment of age 55 and completion of five years of service may elect to receive retirement benefits immediately upon termination. Such benefits are subject to reduction as if the participant had elected early retirement. Termination benefits are payable as a joint and one-half survivor annuity.

Death Benefits

The spouse of a participant will receive a 50% survivor annuity, as defined in the Plan, upon the death of the participant. This benefit is immediately payable to the spouse if the participant was already receiving benefits. If the participant was not already receiving benefits, payments to the spouse commence as of the earliest age the participant would have received benefits.

1. Background and Description of the Plan (continued)

Retirement Benefits

Effective March 28, 2005, terminated participants and retirees will be paid in a single lump sum payment if the actuarial equivalent of their retirement benefits payable is less than \$1,000 (previously \$5,000). This amount is paid following a participant's termination of employment, but before the initial benefit commencement date as defined in the Plan agreement.

2. Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts reported in the financial statements accompanying notes. Actual results could differ from those estimates.

Investment Valuation and Income Recognition

The Plan's investment consists of an interest in The Stanley Works Retirement Plan Master Trust (Master Trust) (Note 9). Effective July 1, 2008, the Master Trust was restated and renamed "The Stanley Works Pension Plan Master Trust." The fair value of the Plan's interest in the Master Trust is based on the Plan assets held in the Master Trust as adjusted for contributions, investment earnings and losses and actual benefit distributions.

Marketable securities are stated at fair value. Securities traded on a national securities exchange are valued at the last reported sales price on the last business day of the plan year; investments traded in the over-the-counter market and listed securities for which no sale was reported on that date are valued at the average of the last reported bid and ask prices.

Fair Value of Investments

The Plan follows FASB ASC 820, *Fair Value Measurement and Disclosures* (ASC 820), for all financial assets and liabilities and nonfinancial assets and liabilities that are recognized or disclosed at fair value in the financial statements on a recurring basis. ASC 820 defines fair value, establishes a fair value hierarchy, and expands disclosures about fair value measurements.

Notes to Financial Statements (continued)

2. Significant Accounting Policies (continued)

Fair Value of Investments (continued)

ASC 820 defines fair value as the price that would be received upon sale of an asset or paid upon the transfer of a liability in an orderly transaction between market participants at the measurement date and in the principal or most advantageous market for that asset or liability.

The fair value should be calculated based on assumptions that market participants would use in pricing the asset or liability, not on assumptions specific to the entity. In addition, the fair value of liabilities should include consideration of non-performance risk including the Plan's own credit risk.

In addition to defining fair value, ASC 820 expands the disclosure requirements around fair value and establishes a fair value hierarchy for valuation inputs. The hierarchy prioritizes the inputs into three levels based on the extent to which inputs used in measuring fair value are observable in the market. Each fair value measurement is reported in one of three levels which is determined by the lowest level input that is significant to the fair value measurement in its entirety.

These levels are:

Level 1 – inputs are based upon unadjusted quoted prices for identical instruments traded in active markets.

Level 2 – inputs are based upon quoted prices for similar instruments in active markets, quoted prices for identical or similar instruments in markets that are not active, and model-based valuation techniques for which all significant assumptions are observable in the market or can be corroborated by observable market data for substantially the full term of the assets or liabilities.

Level 3 – inputs are generally unobservable and typically reflect management's estimates of assumptions that market participants would use in pricing the asset or liability. The fair values are therefore determined using model-based techniques that include option pricing models, discounted cash flow models, and similar techniques.

Benefits

Benefit claims are recorded as expenses when they have been approved for payment and paid by the Plan.

2. Significant Accounting Policies (continued)

Administrative Expenses

To the extent permitted under ERISA, fees for actuarial and auditing expenses and other specified expenses of administration of the Plan are paid from the Master Trust, unless paid by the Company.

Adoption of New Accounting Pronouncements

In June 2009, the Financial Accounting Standards Board ("FASB") issued Statement of Financial Accounting Standards 168, "The FASB Accounting Standards Codification and the Hierarchy of Generally Accepted Accounting Principles," ("SFAS 168") codified in ASC 105, "Generally Accepted Accounting Principles" ("ASC 105"), which establishes the FASB Accounting Standards Codification ("ASC") as the single source of authoritative generally accepted accounting principles. The Codification superseded all then-existing non-SEC accounting and reporting standards. The issuance of this statement does not change generally accepted accounting principles; it has, however, changed the applicable citations and naming conventions used when referencing generally accepted accounting principles.

During 2009, the Plan adopted ASC 855, "Subsequent Events", which modified the subsequent event guidance. The three modifications to the subsequent events guidance are: (1) to name the two types of subsequent events either as recognized or non-recognized subsequent events, (2) to modify the definition of subsequent events to refer to events or transactions that occur after the balance sheet date, but before the financial statements are issued or available to be issued and (3) to require entities to disclose the date through which an entity has evaluated subsequent events and the basis for that date, i.e. whether that date represents the date the financial statements were issued or were available to be issued. This guidance became effective for interim or annual financial periods ending after June 15, 2009 and is applied prospectively. The adoption did not have an effect on the Plan's financial statements.

Subsequent Events

The Plan has evaluated events occurring between December 31, 2009 and September 22, 2010, the date the financial statements were available to be issued. There were no subsequent events identified.

3. Accumulated Plan Benefits

Accumulated plan benefits are those estimated future periodic payments, including lump-sum distributions, that are attributable under the Plan's provisions to the service employees have rendered. Accumulated plan benefits include benefits expected to be paid to (a) retired or terminated employees or their beneficiaries, (b) beneficiaries of employees who have died, and (c) present employees or their beneficiaries.

Benefits under the Plan are based on employees' compensation as outlined in Note 1. Benefits payable under all circumstances (i.e. retirement, death, disability and termination of employment) are included to the extent they are deemed attributable to employee service rendered to the valuation date. Benefits to be provided via annuity contracts excluded from plan assets are excluded from accumulated plan benefits.

An actuary from Towers Watson estimates the actuarial present value of accumulated plan benefits, which is the amount that results from applying actuarial assumptions to adjust the accumulated plan benefits earned by the participants to reflect the time value of money (through discounts for interest) and the probability of payment (by means of decrements such as death, disability, withdrawal or retirement) between the valuation date and the expected date of payment.

Accumulated plan benefit information as the beginning of the plan year follows:

	January 1,	
	2009	2008
Actuarial present value of accumulated plan benefits:		
Vested benefits:		
Participants currently receiving payments	\$ 5,421,552	\$ 5,411,472
Other participants	4,433,671	3,930,541
Total actuarial present value of accumulated plan benefits	\$ 9,855,223	\$ 9,342,013

Best Lock Corporation Employees' Pension Plan

Notes to Financial Statements (continued)

3. Accumulated Plan Benefits (continued)

The following is a reconciliation of present value of accumulated benefits as of January 1, 2009:

Present value of accumulated plan benefits as of January 1, 2008	\$ 9,342,013
Changes during the year due to:	
Decrease in the discount period	713,809
Actuarial gains	(3,736)
Actual benefits paid	(681,276)
Change of assumptions	484,413
Net increase	513,210
Present value of accumulated plan benefits as of January 1, 2009	<u>\$ 9,855,223</u>

Significant assumptions underlying the actuarial computations are as follows:

	2009	2008
Effective interest rate *	6.48%	6.11%
Mortality basis	Static tables under Section 430(h)(3)(a) of the IRC	Static tables under Section 430(h)(3)(a) of the IRC

* The effective interest rate is based on new rates mandated by the Pension Protection Act in 2008.

The rates at which participants are assumed to retire by age are:

	2009		2008
Age 55-59:	2%	Age 55-59:	2%
Age 60:	5%	Age 60:	5%
Age 61:	10%	Age 61:	10%
Age 62:	20%	Age 62:	20%
Age 63:	10%	Age 63:	10%
Age 64:	20%	Age 64:	20%
Age 65-66:	50%	Age 65-66:	50%
Age 67:	100%	Age 67:	100%

These actuarial assumptions are based on the presumption that the Plan will continue. Were the Plan to terminate, different actuarial assumptions and other factors might be applicable in determining the actuarial present value of accumulated plan benefits.

Notes to Financial Statements (continued)

4. Investments

The Company maintains The Stanley Works Pension Plan Master Trust Agreement for the Master Trust. Pursuant to the trust agreement, the assets of the Master Trust are held and administered by The Bank of New York Mellon (Trustee) as of December 31, 2009 and 2008. The Trustee holds cash, short-term investments and mutual funds, which are stated at fair market value. In accordance with the trust agreement, the Trustee holds the Plan's assets and executes investment transactions. All investment information disclosed in the accompanying financial statements, including investments held at December 31, 2009 and 2008, net appreciation (depreciation) of assets, interest income and expenses for the year ended December 31, 2009 and for the period from July 1, 2008 through December 31, 2008 were obtained or derived from information supplied to the plan administrator and certified as complete and accurate by the Trustee. Net appreciation (depreciation) of assets, interest income and expenses for the period from January 1, 2008 through June 30, 2008 was obtained or derived from information supplied to the plan administrator and certified as complete and accurate by Citibank, N.A.

The change in the difference between current value and the cost of investments is reflected as unrealized appreciation or depreciation in the aggregate current value of investments. The realized gain or loss on investments is the difference between the proceeds received and the average cost of investments sold. The total unrealized appreciation or depreciation and the realized gain or loss is reflected as net appreciation or depreciation in fair value of investments within the operating results of the Master Trust.

The fair values of individual investments that represent 5% or more of the Plan's assets available for benefits are as follows (refer to Note 9 – Investment in Master Trust for additional information):

	December 31,	
	2009	2008
Plan's interest in Master Trust	\$ 9,895,298	\$ 8,740,870

Best Lock Corporation Employees' Pension Plan

Notes to Financial Statements (continued)

5. Income Tax Status

The Internal Revenue Service has ruled that the Plan and the trust qualify under Sections 401(a) and 401(k) of the IRC and are therefore not subject to tax under present income tax law. Once qualified, the Plan is required to operate in accordance with the IRC to maintain its qualification. The Finance and Pension Committee is not aware of any course of action or series of events that have occurred that might adversely affect the Plan's qualified status. An updated determination letter regarding the Plan was issued by the IRS on July 26, 2002. The Plan has been amended since receiving the determination letter. However, the Plan administrator, which consults regularly with counsel regarding Plan matters, believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC. Therefore, no provision for income taxes has been included in the Plan's financial statements.

6. Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such change could materially affect the amounts reported in the statements of net assets available for benefits.

Plan contributions are made and the actuarial present value of accumulated plan benefits are reported based on certain assumptions pertaining to interest rates, inflation rates and employee demographics, all of which are subject to change. Due to uncertainties inherent in the estimation and assumption processes, it is at least reasonably possible that changes in these estimates and assumptions in the near term could materially affect the amounts reported and disclosed in the financial statements.

Best Lock Corporation Employees' Pension Plan

Notes to Financial Statements (continued)

7. Plan Termination

In the event the Plan terminates, the net assets of the Plan will be allocated, as prescribed by ERISA and its related regulations, generally to provide the following benefits in the order indicated:

- a. That portion of a participant's benefit derived from his or her own contributions.
- b. Benefits that former employees or their beneficiaries have been receiving for at least three years as of the date of the Plan termination, or that employees who were eligible to retire at least three years prior to the date of the Plan termination would have been receiving if they had retired and received benefits in the normal form of annuity under the Plan. The priority amount is limited to the lowest amount that was payable (or would have been payable) during those three years. The amount is further limited to the lowest benefit that would be payable under the Plan provisions in effect at any time during the five years preceding Plan termination.
- c. Other vested benefits insured by the Pension Benefit Guaranty Corporation (PBGC) up to the applicable limitations (discussed below).
- d. All other vested benefits not insured by the PBGC.
- e. All non-vested benefits.

Certain benefits under the Plan are insured by the PBGC if the Plan terminates. Generally, the PBGC guarantees most vested normal age retirement benefits, early retirement benefits and certain disability and survivor's pensions. However, the PBGC does not guarantee all types of benefits under the Plan, and the amount of benefit protection is subject to certain limitations. Vested benefits under the Plan are guaranteed at the level in effect on the date of the Plan's termination. However, there is a statutory ceiling, which is adjusted periodically, on the amount of an individual's monthly benefit that the PBGC guarantees. For plan terminations occurring during 2009 and 2008, the monthly ceiling was \$4,500 and \$4,313, respectively. That ceiling applies to those pensioners who elect to receive their benefits in the form of a single-life annuity and are at least 65 years old at the time of retirement or plan termination, whichever comes later. For younger annuitants or for those who elect to receive their benefits in some form more valuable than a single-life annuity, the corresponding ceiling is actuarially adjusted downward.

Whether all participants receive their benefits should the Plan terminate at some future time will depend on the sufficiency, at that time, of the Plan's net assets to provide for accumulated benefit obligations, the financial condition of the Company and the level of benefits guaranteed by the PBGC.

Best Lock Corporation Employees' Pension Plan

Notes to Financial Statements (continued)

7. Plan Termination (continued)

If participants receive all of their benefits pursuant to the termination of the Plan, any assets remaining after the benefits are provided will be returned to the Company.

8. Related Parties

Plan assets include an investment in a fund managed by The Bank of New York Mellon as of July 1, 2008, which also serves as the Plan's Trustee and performs certain administrative services for the Plan and as such, these transactions qualify as party-in-interest transactions under ERISA. Prior to this date, Plan assets were managed by Citibank, N.A. These party-in-interest transactions are deemed not to be prohibited because they are covered by statutory and administrative exemptions pursuant to the IRC and the rules under ERISA regarding prohibited transactions.

9. Investment in Master Trust

The Plan's investment consists of an interest in the Master Trust. The Master Trust was created and is maintained for certain employee pension benefit plans sponsored by Stanley Black & Decker, Inc. or a U.S. subsidiary of Stanley Black & Decker, Inc., including the Plan. The Plan's interest in the assets of the Master Trust was 9.1%, amounting to \$9,895,298 and 24.8%, amounting to \$8,740,870 as of December 31, 2009 and 2008, respectively. At January 2, 2009, the National Manufacturing Co. Pension Plan and the HSM Electronic Protection Services, Inc. Pension Plan assets were transferred into the Master Trust. Investment income and administrative expenses related to the Master Trust are allocated to the individual pension benefit plans based upon average monthly balances invested by each such plan.

The following is a summary of the financial information and data for the Master Trust certified by the Trustee, as complete and accurate in accordance with Section 2520.103-5 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA:

Summary of Plan Provisions

Plan Sponsor

Stanley Security Solutions, Inc.

Plan

Best Lock Corporations Employees' Pension Plan

Effective Date and Most Recent Amendment

The plan was originally effective September 1, 1989. The last amendment reflected herein is effective January 1, 2004.

Plan Year

The twelve-month period ending December 31.

Eligibility

Employees include persons actively employed by the Company on September 1, 1989 who completed at least one hour of service before September 1, 1989 or persons on an authorized leave of absence on September 1, 1989 or totally disabled on September 1, 1989. Employees are eligible to participate in the plan at the later of the attainment of age twenty-one, completion of one year of service, or September 1, 1989.

Normal Retirement Benefit

Eligibility: A participant is eligible for normal retirement on his 65th birthday.

Benefit Formula: The normal retirement benefit for a participant is the product of:

- (i) 1% of participant's base pay
- (ii) The greater of:
 - (a) 2
 - (b) Elapsed time from date of hire to August 31, 1989, measured in years and complete months

Commencement Date: The first day of the month immediately following the date the participant reaches age 65.

Normal Form of Benefit: Single employees – Life annuity
Married employees – Unreduced 50% Joint and survivor annuity

Plan Name: Best Lock Corporation Employees' Pension Plan
EIN / PN: 35-1842918 / 002
Plan Sponsor: Stanley Security Solutions, Inc.
Valuation Date: January 1, 2009

Late Retirement

Payment of normal retirement benefits may be deferred beyond the normal retirement date, provided that the participant completes 40 hours of service per month.

Early Retirement Benefit

Eligibility: After attaining age 55 and 5 more or years of service, an employee is eligible for early retirement.

Benefit: The early retirement benefit is equal to the normal retirement benefit, reduced by 5/12 of 1% for each full calendar month by which benefit commencement precedes the normal retirement date.

Normal Form of Benefit: Single employees – Life annuity
Married employees – 50% joint and survivor annuity

Disability Benefit

None.

Vested Benefits Upon Termination of Service

Eligibility: A participant whose employment is terminated before death or retirement is eligible for a vested deferred retirement benefit.

Termination Benefit: The participant's accrued benefit under the normal retirement benefit formula is provided. Payments commence on the first day of the month coinciding with, or following the participant's normal retirement date. Vested benefits are payable as early as age 55, if the participant had five years of service at termination. Benefits payable prior to normal retirement date are reduced as for early retirement.

Death Benefits for Participants Not Receiving Benefits

If a vested participant dies after becoming eligible for early retirement, a benefit equal to half of the participant's early retirement benefit is payable to the surviving spouse.

If an active vested participant dies prior to becoming eligible for early retirement, the above benefit is deferred to the date the participant would have become eligible for early retirement.

Asset Method

Under this method, the valuation assets are equal to the average of three values (all determined without regard to receivable contributions), the result increased by the discounted present value of contributions expected to be made after the valuation date based on the prior plan year PPA effective interest rate. This amount is then subject to a 10% corridor around the market value of assets (including the discounted present value of receivable contributions) as of the valuation date. The three values used to develop the average value are: the market value of assets as of the current valuation date, the adjusted market value of assets as of the prior valuation date and the adjusted market value of assets as of the second prior valuation date. The adjusted market value as of a relevant valuation date is equal to the market value of assets as of the prior valuation date increased by actual plan contributions and assumed return on plan assets and decreased by actual plan disbursements after that date until the current valuation date. The assumed rate of return on plan assets for the prior plan year (pursuant to IRS Notice 2009-22) was 6.43%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.00%, and the applicable limitation for the plan year, equal to 6.43%. The assumed rate of return on plan assets for the second prior plan year (pursuant to IRS Notice 2009-22) was 6.09%, which is the lesser of the anticipated rate of return on assets for the plan year, equal to 8.00%, and the applicable limitation for the plan year, equal to 6.09%. The algebraically equivalent development of this method (pursuant to IRS Notice 2009-22) is shown in Section 2.4. Because expected investment returns under this method are limited under WRERA, over time it is more likely to produce an actuarial value that is expected to be less than the market value of assets.

Participant Data

Participant data was supplied by The Stanley Works as of the valuation date.

Tax Policy

The actuarial valuation performed for the plan year ending December 31, 2009 is used to determine the maximum deductible contribution for the tax year ending December 31, 2009.

Benefits not Included in Valuation

None.

PBGC Premium Funding Target

For purposes of determining the PBGC Premium Funding Target in Section 2.2.D, the Standard Premium Funding Target was determined using the assumptions described above, except the three-segment interest rates for December 2008 were used instead of the above interest assumption.

Nature of Actuarial Calculations

The results documented in this report are estimates based on data that may be imperfect and on assumptions about future events. Certain plan provisions may be approximated or deemed insignificant and therefore are not valued. Assumptions may be made about participant data or other factors. Reasonable efforts were made in this valuation to ensure that items that are significant in the context of the actuarial liabilities or costs are treated appropriately, and not excluded or included inappropriately.

A range of results, different from those presented in this report could be considered reasonable. The numbers are not rounded, but this is for convenience only and should not imply precision, which is not inherent in actuarial calculations. Certain percentages determined in this report, such as the Funding Target Attainment Percentage, are rounded to the nearest .01% (e.g., 81.58%) to be consistent with the rounding specified for Schedule SB of the Form 5500.

The assumptions selected for this valuation other than those prescribed by law, generally reflect long-term average expectations. If overall future plan experience is less favorable than assumed, the relative level of plan costs or contribution requirements determined in this valuation will likely increase in future valuations. Future actuarial measurements may differ significantly from the current measurements presented in this report due to such factors as the following: plan experience differing from that anticipated by the economic or demographic assumptions; increases or decreases expected as part of the natural operation of the methodology used for the measurements (such as the end of an amortization period); and changes in plan provisions or applicable law. It is beyond the scope of this actuarial valuation to analyze the potential range of future pension contributions, but we can do so upon request.

Schedule SB, Line 25 Change in Method

The asset valuation method was updated pursuant to changes in the permitted asset valuation method made by the Worker, Retiree, and Employer Recovery Act of 2008 (WRERA). As described in IRS Notice 2009-22, expected earnings are taken into account when averaging. Changes in the asset method for plan years beginning in 2009 to any permissible asset method are deemed to be automatically approved by the IRS.

The amount included this year for plan-related expenses is \$106,431. WRERA includes a technical corrections provision requiring target normal cost to include the amount of plan-related expenses expected to be paid from plan assets during the year.

The valuation software used to produce the actuarial information submitted on this schedule has been refined to reflect evolving understanding of PPA requirements, and such modifications may be considered to be a method change. The percentage changes in funding target, target normal cost and plan assets due to the refinements in the software are each less than 2% (disregarding the effects of any changes that are automatically approved under final IRC 430 regulations), and the modifications to the software were designed to produce results no less accurate than the results produced by the software prior to the change. Therefore the change in funding method due to a change in valuation software receives automatic approval under IRS Announcement 2010-3.

Statement by Enrolled Actuary

To the best of my knowledge, the information supplied in this schedule and accompanying schedules, statements and attachments, if any, is complete and accurate. Each prescribed assumption was applied in accordance with applicable law and regulations. In my opinion, each other assumption is reasonable (taking into account the experience of the plan and reasonable expectations) and such other assumptions, in combination, offer my best estimate of anticipated experience under the plan.
