Other Matter

We were engaged for the purpose of forming an opinion on the financial statements as a whole. NOTES TO FINANCIAL STATEMENTS

Note 1 Description of the Plan

The following brief description of Day-Mont West Tax Deferred Annuity Plan (the Plan) is provided for general information purposes only. Participants should refer to the Plan agreement for more complete information.

General. The Plan is a 403(b) plan. The Plan is available to all employees of Day-Mont Behavioral Health Care, Inc. (the Organization), a 501(c)(3) tax-exempt organization, who normally work 20 hours or more per week. Employees are eligible to participate immediately upon employment. Participants are eligible for matching employer contributions on the first day of each plan quarter coincident with or next following the date they attain age 18. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

Administration. Day-Mont Behavioral Health Care, Inc. is responsible for the administration of the Plan and is the plan sponsor. Hileman Associates serves as the third party administrator of the Plan. Plan assets are invested in insurance contracts and/or custodial accounts created under the terms of the plan.

Contributions. Participants may voluntarily contribute amounts up to certain limitations as stipulated by applicable IRS Code Sections. Pre-tax elective deferrals and after-tax Roth contributions are available. Participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified retirement plans. Participants direct the investment of their contributions into various investment options offered by the Plan. The organization offers matching contributions in an amount equal to 50% of the participant's contributions that are not in excess of 3% of their compensation. In addition, the Organization, at its discretion, may make additional contributions to the Plan. The Organization made $20,909 of matching contributions and no discretionary contributions in 2014.

Participant Accounts. Each participant's account is credited with the participant's contribution, organizational matching contributions, allocations of the Organization's discretionary contribution, and plan earnings. Each participant's account is charged with certain administrative expenses. Allocations of Organization discretionary contributions, if any, are based on participant earnings as defined in the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting. Participants are immediately 100% vested in their voluntary contributions and are fully vested in employer contributions after three years of service.

Payment of Benefits. Payments of benefits for any reason, other than death, of a vested account may start as soon as administratively feasible with a final payment made consisting of any allocations occurring after termination of employment. Distributions because of death must be completed by December 31 of the calendar year containing the fifth anniversary of death.

Plan Termination. Although it has not expressed any intent to do so, the Organization has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. If the Plan is terminated, all amounts become 100% vested.

NOTES TO FINANCIAL STATEMENTS

Note 1 **Description of the Plan (continued)**

Forfeitures. Employer contribution amounts that are forfeited by terminated employees remain in the Plan for the benefit of Plan participants. The total amount of forfeited contributions as of December 31, 2014 was $1,670.

Note 2 **Summary of Significant Accounting Policies**

Basis of Accounting. The financial statements of the Plan are prepared on the accrual basis of accounting.

Use of Estimates. The preparation of financial statements in conformity with generally accepted accounting principles requires the plan administrator to make certain estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results could differ from those estimates.

Valuation of Investments. The Plan's investments are stated at fair value based on quoted market prices as of the last day of the Plan year.

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Insurance contract investments held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the plan. The Statements of Net Assets Available for Benefits present the fair value of the investment contracts. The Statement of Changes in Net Assets Available for Benefits is prepared on the fair value basis.

Income Recognition. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Investment income includes interest and dividends plus realized and unrealized gains and losses on investments bought, sold and held during the year.

Payments of Benefits. Benefits are recorded when paid.

Subsequent Events. Subsequent events were evaluated through October 13, 2015, which is the date the financial statements were available to be issued. Management has concluded no events have occurred that should be disclosed.

Income Taxes. Although the Plan's federal Form 5500 Annual Return/Report of Employee Benefit Plan for the years ended 2011 – 2013 are subject to examination by the Internal Revenue Service, it has not indicated any intent to do so.

NOTES TO FINANCIAL STATEMENTS

Note 3 Information Certified by the Plan's Trustee

The plan administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, Voya Financial, trustee of the Plan, has certified to the completeness and accuracy of all investments reflected on the accompanying statement of net assets available for benefits as of December 31, 2014, the statement of changes in net assets available for benefits for the year then ended, and the supplemental Schedule H, Line 4i-Schedule of Assets Held at End of Year.

Note 4 Investments

Investments that represent 5% or more of the Plan's net assets as of December 31, 2014, are as follows:

Voya Fixed Account	$	728,761
Voya TRowePrice Capital Appreciation Pt Srv		143,398

Note 5 Fair Value Measurements

FASB ASC 820-10, *Fair Value Measurements,* establishes a framework for measuring fair value. The framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements).

Level 1; Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the plan has the ability to access.

Level 2; Inputs other than quoted prices that are observable for the asset or liability and inputs that are derived principally from or corroborated by observable market data by correlation or other means.

Level 3; Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset or liability fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Insurance contract investments: Are valued at fair value by Voya Financial by discounting the related cash flows based on current yields of similar instruments with comparable durations considering the creditworthiness of the issuer. Because the participants transact at contract value, fair value is determined annually for financial statement reporting purposes only.

Investment portfolio separate accounts: Valued at the net asset value (NAV) of shares held by the plan at year end.

NOTES TO FINANCIAL STATEMENTS

Note 5 **Fair Value Measurements (continued)**

Individual insurance contracts: The fair value of the individual insurance contracts are determined by appropriate valuation techniques as determined by the American Fidelity Life Insurance Company.

The preceding methods described may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, although the plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following table sets forth by level, within the fair value hierarchy, the plan's assets at fair value as of December 31, 2014 and 2013:

Assets at Fair Value as of December 31, 2014

	Level 1	Level 2	Level 3	Total
Insurance contracts	$ -	$ -	$ 755,584	$ 755,584

Individual insurance contracts	-	-	223,241	223,241
Total	$ 552,822	$ -	$ 978,825	$ 1,531,647

Assets at Fair Value as of December 31, 2013

Individual insurance contracts	-	-	214,719	214,719
Total	$ 496,345	$ -	$ 946,655	$ 1,443,000

Note 5 **Fair Value Measurements (continued)**

The following table sets forth a summary of changes in the fair value of the plan's Level 3 assets for the year ended December 31, 2014:

Level 3 AssetsYear Ended December 31, 2014

	Insurance Contract Investments	Individual Insurance Contracts
Balance, beginning of year	$ 731,936	$ 214,719
Deferrals	33,150	3,682
Net gains	29,070	7,744
Withdrawals	(38,572)	(2,904)
Balance, end of year	$ 755,584	$ 223,241

Note 6 **Investment Contracts with Insurance Companies**

The Plan has insurance contract investments with Voya Financial (Voya) and individual insurance contracts with American Fidelity Insurance Company. Voya maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. Contracts with American Fidelity Insurance Company, held for certain individuals, include cash investment and life insurance features.

As described in Note 2, the contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to these insurance contracts. Contract values represent contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. There are no reserves against the contract values for credit risk of the contract issuers or otherwise. The fair value of the Voya insurance contract investments at December 31, 2014 was $755,584. Current values of individual insurance contracts with American Fidelity Insurance Company totaled $223,241 at December 31, 2014.

Note 7 **Tax Status**

The Internal Revenue Service has determined and informed the third party administrator that the form of the Plan is acceptable under applicable sections of the Internal Revenue Code (IRC) for use by employers for the benefit of their employees. The plan administrator believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Note 8 **Risks and Uncertainties**

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the Statements of Net Assets Available for Benefits.
