BHP MINERALS INTERNATIONAL LLC STOCK INVESTMENT PLAN

Notes to Financial Statements December 31, 2009 and 2008

1. Description of Plan

The following description of the BHP Minerals International LLC Stock Investment Plan (the Plan) provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan is a stock bonus plan, established effective November 1, 1973, under section 401(a) of the Internal Revenue Code (IRC) of 1986, as amended. The Plan covers regular salaried employees of BHP Minerals International LLC (the Company), previously known as Utah International Inc., a subsidiary of General Electric Company (General Electric), until its acquisition by the Company. The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974, as amended (ERISA). The Plan was amended effective January 1, 1984 to suspend all contributions, to fully vest all participants who were employees on December 31, 1983, and to close the Plan to new participants. Effective January 1, 2006, the Plan was amended and restated to incorporate all previous amendments and to comply with the latest tax laws and regulations.

Administration

The Company is the Plan's sponsor and administrator. Vanguard Fiduciary Trust Company (Vanguard) serves as the Trustee for the Plan, and Vanguard Group, Inc., serves as the recordkeeper for the Plan.

Contributions and Funding

No employer contributions have been made to the Plan since the suspension of contributions on December 31, 1983. No employee contributions have ever been made to or permitted by the Plan.

Investment Options

Plan funds are held in a stock fund, a mutual fund, and a common collective trust fund held by the Trustee. After December 31, 2003, no additional shares of stock could be purchased by the Plan. Participants may elect to have dividends received in their accounts from the General Electric common stock fund (GE Common Stock Fund) re-invested in the common collective trust fund and/or the mutual fund. The GE Common Stock Fund also contains a money market fund to facilitate Plan transactions. Transfers between the common collective trust fund and the mutual fund are also permitted at any time. Although no transfers may be made to the GE Common Stock Fund, participants may liquidate their interest in the GE Common Stock Fund and have the proceeds invested in the remaining two funds.

1. Description of Plan - Continued

Participant Accounts

Separate accounts are maintained for each participant. Each participant's account is directly credited with an allocable share of Plan earnings or losses. Investment income (loss) allocations are based on the performance of the funds in which the participant has directed his or her accounts to be invested. Upon the occurrence of a distribution event, the benefit to which a participant is entitled is the benefit that can be provided from the participant's account. Participants are 100% vested in their account balances.

Vesting and Forfeitures

Pursuant to suspension of all contributions after December 31, 1983, all participant accounts became fully vested on that date. As of December 31, 2009 and 2008, the Plan had \$3,362 and \$3,300, respectively, in unused forfeitures and earnings thereon that originated prior to the date all accounts became fully vested.

Payment of Benefits

Benefits from the Plan are made payable in whole shares of General Electric common stock, if shares are retained, and in cash in the form of a lump-sum distribution for the other investments. Alternatively, participants may elect to have their entire benefit distributed in a lump sum consisting of all shares of Company stock or American Depositary Receipts of the Company plus any residual cash. However, no such elections were made in 2009 or 2008.

Administrative Expenses

Expenses related to the administration of the Plan may be paid by the Company or by the Plan. During 2009 and 2008, all costs of administering the Plan were paid by the Company.

2. Summary of Significant Accounting Policies

Financial Accounting Standards Board Codification

In June 2009, the Financial Accounting Standards Board (FASB) issued Statement of Financial Accounting Standards SFAS No. 168, *"The FASB Accounting Standards Codification TM and the Hierarchy of Generally Accepted Accounting Principles"* (SFAS No. 168). The FASB Accounting Standards Codification TM, (Codification or ASC) became the source of authoritative accounting principles recognized by the FASB to be applied by nongovernmental entities. SFAS No. 168 is effective for all financial statements issued for interim and annual periods ending after September 15, 2009. On the effective date of SFAS No. 168, the Codification superseded all then-existing non-SEC accounting and reporting standards. All other non-grandfathered, non-SEC accounting literature not included in the Codification became non-authoritative.

2. Summary of Significant Accounting Policies - Continued

Financial Accounting Standards Board Codification - continued

Following SFAS No. 168, the FASB will no longer issue new standards in the form of Statements, FASB Staff Positions (FSP), FASB Interpretations (FIN), or Emerging Issues Task Force Abstracts (EITF); instead, it will issue Accounting Standards Updates (ASUs). The FASB will not consider ASUs as authoritative in their own right; rather, these updates will serve only to update the Codification, provide background information about the guidance, and provide the bases for conclusions on the change(s) in the Codification. SFAS No. 168 is incorporated in ASC Topic 105, *Generally Accepted Accounting Principles*. The Plan adopted SFAS No. 168 for the year ended December 31, 2009, and the Plan will provide reference in its financial statements to both the Codification topic reference and the previously authoritative references related to the Codification topics and subtopics, as appropriate.

Basis of Accounting

The accompanying financial statements of the Plan are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

As described in ASC 962, *Defined Contribution Pension Plans* (formerly FSP AAG INV-1 and SOP 94-4-1, *Reporting of Investment Contracts Held by Health and Welfare Benefit Plans and Defined-Contribution Pension Plans*), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. Investments in the accompanying Statements of Net Assets Available for Benefits include a common collective trust, i.e., the Retirement Savings Trust, which is a fully benefit-responsive investment contract. As required, the Statements of Net Assets Available for Benefits present the fair value of the investment contracts, as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. The Statements of Changes in Net Assets Available for Benefits are prepared on a contract value basis.

Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Recent Accounting Pronouncements

In September 2006, the FASB issued ASC Topic 820, *Fair Value Measurements and Disclosures* (formerly known as SFAS No. 157, *Fair Value Measurements*), which defines fair value, establishes a framework for measuring fair value, and expands disclosures about fair value measurements. ASC Topic 820 was effective for the Plan in January 2008; however, its adoption did not have a significant impact on the Plan's financial statements.

2. Summary of Significant Accounting Policies - Continued

Recent Accounting Pronouncements - continued

In May 2009, the FASB issued ASC Topic 855, *Subsequent Events* (formerly known as SFAS No. 165, *Subsequent Events*), which establishes general standards of accounting for and disclosure of events that occur after the date of the Statement of Net Assets Available for Benefits but before financial statements are issued or available to be issued. ASC Topic 855 defines (i) the period after the date of the Statement of Net Assets Available for Benefits during which a reporting entity's management should evaluate events or transactions that may occur for potential recognition or disclosure in the financial statements, (ii) the circumstances under which an entity should recognize events or transactions occurring after the date of the Statement of Net Assets Available for Benefits in its financial statements, and (iii) the disclosures an entity should make about events or transactions that occurred after the date of the Statement of Net Assets Available for Benefits. ASC Topic 855 was effective for the Plan for the year ended December 31, 2009; however, its adoption did not have a significant impact on the Plan's financial statements.

Risks and Uncertainties

The Plan provides for various investment options. These investment options are exposed to market risk, which generally means the risk of loss in the value of certain investment securities due to changes in interest rates, security and commodity prices and general market conditions. Due to the level of risk associated with certain investment securities and the level of uncertainty related to changes in the value of investment securities, it is reasonably possible that changes in risks in the near term could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits and the statement of changes in net assets available for benefits.

Investment Valuation and Income Recognition

Investments are reported at fair value. Shares in registered investment companies are valued based on quoted market prices, which represent the net asset value of shares held by the Plan at year-end. The fair value of the GE Common Stock Fund is determined by the Trustee based upon quoted market values. The Plan's interest in the common collective trust is valued based on information reported by the investment advisor using the audited financial statements of the collective trust at year-end.

Purchases and sales of securities are recorded on a trade-date basis. Interest is recorded as earned, and dividends are recorded on the ex-dividend date. The Plan presents in the statement of changes in net assets available for benefits the net depreciation in fair value of investments, which includes realized gains (losses) on investments sold during the year and unrealized appreciation (depreciation) of the investments held at the end of the year.

Benefit Payments

Benefits are recorded when paid.

3. Investments

The following investments each represent 5% or more of the Plan's net assets at December 31, 2009 and 2008:

	<u>2009</u>	<u>2008</u>
GE Common Stock Fund	\$ 2,256,445	\$ 2,609,206
Vanguard Balanced Index Signal Fund	930,237	750,829
Vanguard Retirement Savings Trust	896,403	851,384
Investments less than 5% of Plan assets	<u>3,362</u>	<u>-</u>
Total Investments	<u>\$ 4,086,447</u>	<u>\$ 4,211,419</u>

During the years ended December 31, 2009 and 2008, the Plan's investments, including realized gains and losses on investments sold during the year and unrealized appreciation (depreciation) on investments held at the end of the year, depreciated in value as follows:

	<u>2009</u>	<u>2008</u>
GE Common Stock Fund	\$ (221,843)	\$ (3,481,286)
Mutual Funds	<u>128,917</u>	<u>(227,673)</u>
Net depreciation in fair value	<u>\$ (92,926)</u>	<u>\$ (3,708,959)</u>

4. Fair Value Measurements

ASC 820-10 (formerly known as SFAS No. 157) establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

- Level 1** Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
- Level 2** Inputs to the valuation methodology include:
- Quoted prices for similar assets or liabilities in active markets;
 - Quoted prices for identical or similar assets or liabilities in inactive markets;
 - Inputs other than quoted prices that are observable for the asset or liability;
 - Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

BHP MINERALS INTERNATIONAL LLC STOCK INVESTMENT PLAN

Notes to Financial Statements December 31, 2009 and 2008

4. Fair Value Measurements - Continued

If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.

Level 3 Inputs to the valuation methodology are unobservable market data by correlation or other means.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2009 and 2008.

Mutual fund: Valued at the net asset value (NAV) of shares held by the Plan at year-end.

Money market fund: The fair value of these securities is based on the fair value of the underlying securities within the fund, which represent the net asset value (NAV) of shares held by the Plan at year-end.

Common collective trust: Valued at fair value based on information reported in the audited financial statements of the collective trust at year-end.

GE common stock fund: Valued at fair value using the closing price of GE common stock reported on the New York Stock Exchange plus the fair value of the short-term investment fund.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

The following tables set forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2009 and 2008:

Assets at Fair Value as of December 31, 2009
