To the Plan Committee Members and Plan Administrator of
Associates' Savings Plan

Report on the Financial Statements
We were engaged to audit the accompanying financial statements of **Associates' Savings Plan**, which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements
Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility
Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the *Basis for Disclaimer of Opinion* paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion
As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note C, which was certified by Vanguard Fiduciary Trust Company and TD Ameritrade Trust Company (the Custodians or Trustees), except for comparing such information with the related information included in the financial statements. We have been informed by the Plan Administrator that the Trustees holds the Plan's investment assets, notes receivable from participants, and executes investment transactions. The Plan Administrator has obtained a certification from the Trustees as of December 31, 2014 and 2013, and for the year ended December 31, 2014, that the information provided to the Plan Administrator by the Trustees is complete and accurate.

Disclaimer of Opinion
Because of the significance of the matter described in the *Basis for Disclaimer of Opinion* paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Note A – Description of Plan

The following description of Associates' Savings Plan (the Plan) provides only general information. Participants should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan that provides benefits to employees of Bankers Financial Corporation (the Sponsor) and any subsidiary, related corporation, or entity that adopts the Plan with the consent of the Sponsor (collectively referred to herein as the Employer). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA). The Plan was established April 1, 1984, and subsequently amended and restated as of June 1, 2014.

Any eligible participant will automatically be enrolled with a contribution rate of 4% and the rate shall increase 1% for each subsequent plan year until the contribution rate reaches 10%. All employees have the option to contribute more, less, or not participate in the Plan.

Eligibility to participate in the Plan includes completion of one month of consecutive service beginning with the date of the employee's first hour of service and attainment of age 18. Temporary employees will be eligible upon reaching age 18 and completion of one year of service. Plan entry dates will be the first day of each month.

Administration

The accounting records are maintained by the Company. The Plan's assets are held and managed by Vanguard Fiduciary Trust Company and TD Ameritrade Trust Company (the Trustees). Contributions are held by the Trustees, who invests cash received, interest and dividend income, as directed by the participant, and makes distributions to participants. During the year ended December 31, 2014, the Plan changed trustees. A transfer to TD Ameritrade Trust Company from Vanguard Fiduciary Trust Company of approximately $30 million occurred during April 2014.

Contributions

Participants may contribute up to 100% of pretax annual compensation, as defined in the Plan, subject to Internal Revenue Code (IRC) limitations. The maximum employee deferral for both December 31, 2014 and December 31, 2013 is $17,500 and $17,500, respectively. Participants may also make post-tax Roth deferral contributions to the Plan. A participant who has attained age 50 was eligible to participate in catch-up contributions, subject to IRS limitations of $5,500 for December 31, 2014 and 2013, respectively. Participants may also contribute amounts representing distributions from other qualified plans.

The Plan allows for discretionary Employer matching contributions. To be eligible for a discretionary Employer matching contribution, an employee must be contributing to the Plan and must work a minimum of 250 hours per quarter.

The employee must also be employed on the last day of each quarter to receive any Employer matching contribution for that quarter, except in the case of death, disability, or retirement. The Sponsor declared an Employer matching contribution for the each of the quarters during 2014.

In addition, the Employer, at the discretion of the board of directors, may make a profit sharing contribution to the Plan each year. There was no profit sharing contribution during 2014.

Note A – Description of Plan (continued)

Plan Merger

The assets totaling approximately $700,000 were transferred into the Plan from the DecisionHR Retirement Savings Plan on October 28, 2014. The amount of total transferred funds is reflected as transfers in the accompanying Statement of Changes in Net Assets Available for Benefits.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Company's contribution, if any, and Plan earnings, and charged with an allocation of administrative expenses. Allocations of Plan earnings or losses are based on each participant's investment fund balance in proportion to the total investment fund balance. The benefit to which a participant is entitled is the benefit that can be provided from the participant's account.

Vesting

Participants are immediately vested in their voluntary contributions plus actual earnings thereon. Vesting in the employer contributions is based on years of continuous service. A participant is 100% vested upon death and retirement age or after five years of credited service as follows.

Years of Services	Vesting Percentage
1	20%
2	40%
3	60%
4	80%
5	100%

Investment Options

Upon enrollment in the Plan, a participant may elect to have their employee and employer contributions, and related earnings thereon, allocated to one or more mutual funds or money market investment options. The Plan's investments in mutual funds and money market funds are stated at fair value, which is based on quoted market prices at year-end as reported by the Trustees. The Plan allows for self-directed brokerage accounts. The self-directed brokerage accounts are invested in preferred stocks, common stocks and shares of registered investment companies. Participant loans are valued at their outstanding balance, which approximates fair value.

Notes Receivable from Participants

Participants may borrow from their accounts a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their vested account balance. Loans generally have initial terms of less than five years unless they are for the purchase of a participant's primary residence. Principal and interest are paid ratably through payroll deductions. Loans are secured by the balances in the participant accounts. Stated interest rates with respect to current participant loans are 3.25% at December 31, 2014 and 2013, which is commensurate with local prevailing rates at the time of issuance for commercial loans as determined by the plan administrator.

Note A – Description of Plan (continued)

The Plan Administrator shall consider a loan in default if any scheduled repayment remains unpaid as of the last business day of the calendar quarter following the calendar quarter in which a loan is initially considered past due. In the event of a default, death, disability, or termination of employment, the entire outstanding principal and accrued interest shall be immediately due and payable. If the entire outstanding loan is not repaid, the vested account balance will be reduced by the remaining outstanding balance of the loan**.**

Distribution of Benefits

On termination of service due to death, disability, or retirement, a participant may elect to receive a lump-sum cash payment, in equal monthly, quarterly, semiannual, or annual cash installments, or, upon retirement, in installments based upon the participant's life expectancy at the time of retirement. However, if the participant's vested interests are less than $5,000, they must take a lump-sum distribution. Hardship withdrawals are permitted under the Plan.

Forfeitures

Non-vested amounts, remaining after the distribution of a participants vested account balance, are forfeited. Forfeitures are first used to pay Plan administrative expenses and any remaining amount is used to reduce future employer contributions. At December 31, 2014 and 2013, forfeited non-vested accounts totaled approximately $101,000 and $73,000 respectively. During 2014, forfeitures of approximately $40,000 were utilized by the Plan.

Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and terminate the Plan subject to the provisions of ERISA. In the event of termination of the Plan, each participant's account will become fully vested and non-forfeitable. All appropriate accounting provisions of the Plan will continue to apply until the accounts of all participants have been distributed.

Note B – Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are presented on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America (US GAAP).

As described in the Code *Reporting of Fully Benefit-Responsive Investment Contracts Held by Certain Investment Companies Subject to the AICPA Investment Company Guide and Defined-Contribution Health and Welfare and Pension Plans* (the Code), investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required by the Code, the Statement of Net Assets Available for Benefits presents the fair value of the investment contracts as well as the adjustment of the fully benefit-responsive investment contracts from fair value to contract value. See Note E for further detail.

Note B – Summary of Significant Accounting Policies (continued)

Use of Estimates

The preparation of financial statements in conformity with US GAAP requires management to make estimates and assumptions that affect the reported amounts of net assets available for benefits and the changes in net assets available for benefits and disclosure of contingent assets and liabilities during the reporting period. Actual results could differ from these estimates.

Investment Valuation and Income Recognition

The Plan's investments in money market accounts and mutual funds are stated at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on an accrual basis. Dividends are recorded on an accrual basis. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Benefits

Benefit payments to participants are recorded when paid.

Administrative Expenses

For the year ended December 31, 2014, the Plan paid administrative expenses totaling $97,213 which are recorded in the statement of changes in net assets available for benefits. Plan administrative expenses, including but not limited to accounting, legal, and custodial expenses, are paid from the Plan's forfeiture account, if sufficient funds are available. Any remaining expenses are allocated to participants in direct relation to their participant directed investment. The Sponsor may pay expenses of the Plan.

Fair Value Measurements

The Code has established a framework for measuring fair value under the statement, *Fair Value Measurements*. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy are described below:

Note B – Summary of Significant Accounting Policies (continued)

Level 1	Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.
Level 2	Inputs to the valuation methodology include: Quoted prices for similar assets or liabilities in active markets; Quoted prices for identical or similar assets or liabilities in inactive markets; Inputs other than quoted prices that are observable for the asset or liability; Inputs that are derived principally from or corroborated by observable market data by correlation or other means. If the asset or liability has a specified (contractual) term, the Level 2 input must be observable for substantially the full term of the asset or liability.
Level 3	Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

Following is a description of the valuation methodologies used for assets measured at fair value. There have been no changes in the methodologies used at December 31, 2014 and 2013.

Common and Preferred stocks - Valued at the last quoted sales price as of the close of trading at year end.

Money market accounts: The assets held in money market funds are valued at NAV of the underlying funds. The inputs used to determine fair value of these funds are not always quoted prices in an active market.

Mutual funds: Mutual funds are valued at the daily closing price as reported by the fund. Mutual funds held by the Plan are open-end mutual funds that are registered with the Securities and Exchange Commission. These funds are required to publish their daily net asset value (NAV) and to transact at that price. The mutual funds held by the Plan are deemed to be actively traded.

Common Collective Trusts: Valued at the net asset value (NAV) of units of a bank collective trust. The NAV, as provided by the trustees, is used as a practical expedient to estimate fair value. The NAV is based on the fair value of the underlying investments held by the fund less its liabilities. This practical expedient is not used when it is determined to be probable that the fund will sell the investment for an amount different than the reported NAV. Participant transactions (purchased and sales) may occur daily. Were the Plan to initiate a full redemption of the collective trust, the investment advisor reserves the right to temporarily delay withdrawal from the trust in order to ensure that securities liquidations will be carried out in an orderly business manner.

The methods described above may produce a fair value calculation that may not be indicative of net realizable value or reflective of future fair values. Furthermore, while the Plan believes its valuation methods are appropriate and consistent with other market participants, the use of different methodologies or assumptions to determine the fair value of certain financial instruments could result in a different fair value measurement at the reporting date.

Note B – Summary of Significant Accounting Policies (continued)

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014 and 2013:

		Fair Value Measurements at Reporting Date Using:		
	Assets Measured at Fair Value at 12/31/2014	Quoted Prices in Active Markets (Level 1)	Significant Other Observable Inputs (Level 2)	Significant Unobservable Inputs (Level 3)

Note C – Investments

The Plan Administrator has elected the method of compliance permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the auditors not to perform any auditing procedures with respect to the information certified by the Trustees, except for comparing such information to the related information included in the financial statements and supplemental schedule. The Plan Administrator has obtained a certification from the Trustees that the information provided to the Plan Administrator by the Trustees as of December 31, 2014 and 2013, and for the year ended December 31, 2014, is complete and accurate. Such information includes all investments, notes receivable from participants, investment income, and the information in the supplemental schedule of assets (held at end of year).

Note C – Investments (continued)

Each of the following investments represented 5 percent or more of the Plan's net assets available for benefits as of December 31:

	2014	2013
Vanguard Target Retirement 2025 Fund	$ 4,991,427	$ 4,450,422
Vanguard Target Retirement 2020 Fund	3,815,042	4,131,532

Vanguard Target Retirement 2010 Fund	*	1,763,957
Vanguard Target Retirement 2015 Fund	*	1,519,864

* This fund did not represent 5% or more of the plan's net assets available for benefits at the respective Plan yearend.

During 2014, the Plan's investments, including gains on investments bought and sold, as well as held during the year appreciated in value as follows:

Net appreciation in fair value of investments:	
Mutual funds	$ 1,015,645

Note D – Master Trust Investment Information

Certain Plan investments are held in the Vanguard Retirement Savings Master Trust (Master Trust), which is a common collective trust for tax-qualified pension and profitsharing plans. Each participating plan has a specific interest in the Master Trust. Assets of the Master Trust are allocated to the participating plans according to the investment elections of participants within each plan. The Plan's interest in the net assets of the Master Trust was approximately 0.008% and 0.008% at December 31, 2014 and 2013, respectively. Investment income of the Master Trust for the year ended December 31, 2014 was allocated based upon each Plan's interest within each of the investment funds held by the Master Trust.

The Master Trust primarily invests in a pool of investment contracts that are issued by insurance companies and commercial banks and in contracts that are backed by bond trusts that are selected by the trustee of the master trust, Vanguard Fiduciary Trust Company. The issuers' ability to meet these obligations may be affected by economic developments in their respective companies and industries.

Note D – Master Trust Investment Information (continued)

The following table represents the net assets of the Master Trust as of December 31:

Note E – Fully Benefit-Responsive Investment Contracts

The common/collective trust fund Vanguard Retirement Savings Trust VIII is a benefit-responsive investment contract (the Fund.) The Fund maintains contributions in a general account. As described in Note B, because the investment contract is fully benefit-responsive, contract value is the relevant measurement attribute for that portion of the net assets available for benefits attributable to the guaranteed investment contracts. Contract value, as reported to the Plan by the Fund represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investments at contract value. The investment contract issuer is contractually obligated to repay the principal and a specified interest rate that is guaranteed to the Plan.

There are no reserves against contract value for credit risk of the contract issuer or otherwise. Fair value of the investment contract at December 31, 2014 and 2013 closely approximates contract value and such, there is no adjustment reflected in Net assets available for benefits.

Note E – Fully Benefit-Responsive Investment Contracts (continued)

Certain events limit the ability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the Plan documents (including complete or partial plan termination or merger with another plan,) (2) changes to the Plan's prohibition on competing investment options or deletion of equity wash provisions, (3) bankruptcy of the Plan sponsor or other Plan sponsor events (for example, divestitures of spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transactions exempt under ERISA. The Plan Administrator does not believe that any events which would limit the Plan's ability to transact at contract value with participants are probable of occurring.

The guaranteed investment contract does not permit the insurance company to terminate the agreement prior to the scheduled maturity date.

Note F – Financial Instruments

	Vanguard Retirement Savings Trust VIII Fund for the 12 Month Period Ending December 31, 2014	Vanguard Retirement Savings Trust VIII Fund for the 12 Month Period Ending December 31, 2013
Average yields:		
Based on actual earnings	2.30%	1.98%
Based on interest rate credited to participants	1.89%	1.56%

Certain financial instruments potentially subject the Plan to concentrations of credit risk. These financial instruments consist of mutual funds and money market accounts. The Plan limits its credit risk by monitoring its accounts with what management believes to be high quality financial institutions.

Note G – Income Tax Status

The Plan has received a determination letter from the Internal Revenue Service dated March 31, 2008 for its prototype plan stating that the Plan is qualified under Section 401(a) of the IRC and, therefore, the related trust is exempt from taxation. Subsequent to the issuance of the determination letter, the Plan was amended and the Plan Administrator believes the Plan is being operated in compliance with the applicable requirements of the IRC.

The Plan Administrator evaluated the Plan's tax positions and concluded that the Plan had maintained its tax-exempt status and had taken no uncertain tax positions that require adjustment to the financial statements. Therefore, no provision or liability for income taxes has been included in the accompanying financial statements. The Plan is no longer subject to examination by taxing authorities for years prior to 2011.

Note H – Party-In-Interest

Section 3(14) of ERISA defines a party-in-interest to include, among others, fiduciaries or employees of the Plan, any person who provides services to the Plan, or an employer whose employees are covered by the Plan. Certain Plan investments are mutual funds, money market fund, cash account and self-directed investments, managed by the Trustees. Transactions related to these investments qualify as party-in-interest transactions. Fees paid to parties-in-interest amounted to approximately $97,000 in total during the year ended December 31, 2014.

Note I – Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Note J – Subsequent Events

Management has evaluated subsequent events for potential disclosure in or adjustment to the financial statements through October 7, 2015, the date that the accompanying financial statements were available to be issued.
