INDEPENDENT AUDITOR'S REPORT

To the Administrative Committee
Harrington Industrial Plastics 401(k) Plan
Chino, California

Report on the Financial Statements

We were engaged to audit the accompanying financial statements of Harrington Industrial Plastics 401(k) Plan ("the Plan"), which comprise the statements of net assets available for benefits as of December 31, 2014, and the related statement of changes in net assets available for benefits for the year then ended, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974, the Plan Administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 4, which was certified by Principal Trust Company, the trustee of the Plan, except for comparing the information with the related information included in the financial statements and supplemental schedules. We have been informed by the Plan Administrator that the trustee holds the Plan's investment assets and executes investment transactions. The Plan Administrator has obtained a certification from the trustee as of and for the years ended December 31, 2014 and 2013 that the information provided to the Plan Administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient, appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter - Supplemental Schedules

The supplemental schedules of Schedule H, Line 4i-Schedule of Assets and Schedule H, Line 4a-Schedule of Delinquent Participant Contributions are required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 and are presented for the purpose of additional analysis and are not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on the supplemental schedules referred to above.

Other Matter - December 31, 2013 Financial Statements

The financial statements of the Plan as of December 31, 2013, were audited by predecessor auditors. As permitted by 29 CFR 2520.103-8 of the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the Plan Administrator instructed the predecessor auditors not to perform, and they did not perform, any auditing procedures with respect to the information certified by Principal Trust Company, the trustee of the Plan. Their report, dated October 13, 2014, indicated that (a) because of the significance of the information that they did not audit, they were unable to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion and accordingly, they did not express an opinion on the financial statements and (b) the form and content of the information included in the financial statements other than that derived from the information certified by the Trustee, were presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA.

Report on Form and Content in Compliance With DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974.

HARRINGTON INDUSTRIAL PLASTICS 401(k) PLAN

NOTES TO FINANCIAL STATEMENTS

December 31, 2014 and 2013

Note 1 Description of Plan

The following description of the Harrington Industrial Plastics 401(k) Plan ("the Plan") provides only general information. Participants should refer to the plan document for a more complete description of the Plan's provisions.

General - The Plan was established to provide retirement benefits for all full-time employees of Harrington Industrial Plastics, LLC ("the Company"). Employees become eligible to participate in the Plan following 90 days of service. The Plan is subject to the requirements of the Employee Retirement Income Security Act of 1974 (ERISA).

Contributions – Under the provisions of the Plan, eligible employees are automatically enrolled to defer three percent of their compensation as defined in the Plan. Each year, participants may contribute up to 100% of pretax annual compensation, as defined in the plan document and are subject to limitations by the Internal Revenue Code (IRC). Participants who have attained the age 50 before the end of the plan year are eligible to make catch-up contributions. Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan. Under the safe harbor rules, the Company will contribute to the Plan on behalf of each eligible employee a basic matching contribution equal to: (1) 100 percent of the amount of the employee's elective deferrals and Roth deferrals that do not exceed three percent of the employee's compensation for the plan year; plus (2) 50 percent of the total amount of the employee's elective deferrals and Roth deferrals that exceed three percent of the employee's compensation, but that do not exceed five percent of the employee's compensation. The Company, at its direction, may also make an additional matching contribution and/or profit sharing contribution to the Plan on behalf of the participants. The Company will determine each year the amount, if any, it will contribute.

Participant Accounts and Vesting - Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and, (b) Plan earnings (losses), and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Participants are immediately vested in their contributions and Employer Safe harbor contributions plus actual earnings thereon. Vesting in the Company's matching and discretionary contributions portion of their accounts is based on years of continuous service. A participant is 100% vested after 1 year of credited service.

Note 1 Description of Plan (continued)

Notes Receivable from Participants - Participants may borrow a minimum of $1,000 up to a maximum equal to the lesser of $50,000 or 50% of their account balance. Participant notes are carried at fair value and are generally repaid through payroll reductions. Interest is earned on loans at a rate of 4.25% to 10.25% per annum.

Payment of Benefits - On termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annuities that are offered by the Plan. For termination of service for other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Forfeitures – The non-vested portions of participants' employer-derived account balances are treated as forfeitures. At December 31, 2014 and 2013, forfeited non-vested accounts totaled $0 and $0, respectively. These accounts will be used to reduce employer's matching contributions.

Note 2 Summary of Accounting

Date of Management's Review - Subsequent events were evaluated through October 12, 2015, which is the date the financial statements were available to be issued.

Use of Estimates - The preparation of financial statements in conformity with generally accepted accounting principles, requires the Plan Administrator to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of additions to and deductions from net assets available for benefits during the reporting period. Actual results could differ from those estimates.

Accounting Change - The Plan elected to early adopt the Financial Accounting Standards Board (FASB) Accounting Standards Update (ASU) 2015-12 applying *Plan Accounting: Defined Contribution Pension Plans; Part I - Fully Benefit-Responsive Investment Contracts* issued on July 2015. This generally accepted accounting policy (GAAP) amendment eliminates the requirement that fully-responsive investment contracts be measured at fair value for purposes of presentation and disclosure, which included providing a reconciliation of contract value to fair value, when those measures differ, on the face of the plan financial statements. Under the amendments, fully benefit-responsive investment contracts are measured, presented, and disclosed only at contract value. The election has been applied retrospectively to all years presented in the financial statements. None of the financial statement line items were affected by this change.

Note 2 Summary of Accounting (continued)

Basis of Accounting - The accompanying financial statements have been prepared on the accrual method of accounting and include only assets, liabilities and changes in net assets of the Plan in conformity with accounting principles generally accepted in the United States of America. As described, investment contracts held by a defined-contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. As required, the Statement of Net Assets Available for Benefits presents the fair value of the investments. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis, if applicable.

Notes Receivable from Participants - Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the plan document.

Investment Valuation and Income Recognition - Investments are reported at fair value. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. See Note 5 for discussion of fair value measurements.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Payment of Benefits - A participant eligible for distribution may elect to have the amount paid in cash in one lump-sum. Any distribution to a participant who has a benefit which exceeds $5,000, shall require such participant's written (or in such other form as permitted by the Internal Revenue Service) consent if such distribution occurs prior to the time the benefit is "immediately distributable." A benefit is "immediately distributable" if any part of the benefit could be distributed to the participant (or surviving spouse) before the participant attains or would attain (or would have attained if not deceased) the later of the participant's normal retirement age or age 55 years 6 months.

Administrative Expenses - All expenses of maintaining the Plan are paid by the Company.

Note 3 Related Party Transactions

Certain plan investments are shares of mutual funds managed by Delaware Charter Guarantee and Trust dba Principal Trust Company. A division of Delaware Charter Guarantee and Trust Company is the trustee as define by the Plan; and, therefore, these transactions qualify as party-in-interest transactions. Fees are not paid directly by the Plan, but reduce the amount of investment earnings allocated to individual participant accounts.

All of these party-in-interest transactions are exempt from the prohibited transaction rules of ERISA.

Note 4 Investments Certified by Trustee

The Plan Administrator has elected the method of compliance as permitted by 29 CFR 2520.103-8 of the U.S. Department of Labor's Rules and Regulations for Reporting and Disclosure under ERISA. Accordingly, as permitted under such election, the Plan Administrator instructed the Plan's independent auditor not to perform any auditing procedures with respect to the following information certified by Principal Trust Company, the Plan trustee, except for comparing such information certified by the trustee to information included in the Plan's financial statements and supplemental schedules.

The trustee has certified as to the completeness and accuracy of all investment balances and notes receivable from participants reflected on the accompanying Statements of Net Assets Available for Benefits as of December 31, 2014 and 2013, all of the investment activity and interest income from notes receivable from participants reflected on the Statement of Changes in Net Assets Available for Benefits for the year ended December 31, 2014, and all investment information in the supplemental schedules.

** Individually, balances are less than 5% of net assets available for benefits.

Note 4 Investments Certified by Trustee (continued)

The trustee also certified the completeness and accuracy of $1,488,245 of net appreciation in fair value of investments for the year ended December 31, 2014. The Plan's investments (including gains and losses on investment bought and sold, as well as held during the year) appreciated or depreciated as follows:

Fair Value as Determined by the Trustee:

Mutual Funds:	$ 1,488,245
Net Appreciation (Depreciation) in Fair Value of Investment	$ 1,488,245

Note 5 Fair Value Measurements

Financial Accounting Standards Board Accounting Standards Codification establishes a framework for measuring fair value. That framework provides a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under FASB ASC 820 are described below:

LEVEL 1 Inputs to the valuation methodology are unadjusted quoted prices for identical assets or liabilities in active markets that the Plan has the ability to access.

LEVEL 2 Inputs to the valuation methodology include:

- Quoted prices for similar assets or liabilities in active markets;
- Quoted prices for identical or similar assets or liabilities in inactive markets;
- Inputs other than quoted prices that are observable for the asset or liability;
- Inputs that are derived principally from or corroborated by observable market data by correlation or other means.

If the asset or liability has a specified (contractual) term, the level 2 input must be observable for substantially the full term of the asset or liability.

LEVEL 3 Inputs to the valuation methodology are unobservable and significant to the fair value measurement.

Note 5 Fair Value Measurements (continued)

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement. Valuation techniques used need to maximize the use of observable inputs and minimize the use of unobservable inputs.

The following table sets forth by level, with the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

Note 6 Fully Benefit-Responsive Investment Contracts

Principal Fixed Income Guaranteed Option is a benefit-responsive group annuity contract issued by Principal Life Insurance Company. Under the terms of the existing contract, the composite crediting rate is currently reset on a semi-annual basis and will never be less than the guaranteed minimum interest rate.

By definition, the Principal Fixed Income Guaranteed Option group annuity contract is an insurance contract. As a result, the Plan may transact according to the terms defined in the contract at any time. On any date, the value of a guaranteed interest fund will be equal to the sum of the deposits to it, reduced by any payments, transfers, or applications with respect to that guaranteed interest fund on or before such date, and adding interest at its guaranteed interest rate.

Note 6 Fully Benefit-Responsive Investment Contracts (continued)

The contract will be terminated on the date when both (a) no current deposit arrangements have been made between the Plan and the custodian and (b) there are no guaranteed interest funds with a value greater than zero under the contract. Provisions relating to annuities in course of payment will continue to govern payment of such annuities until the final payment under each such annuity is made.

Certain events limit the liability of the Plan to transact at contract value with the issuer. Such events include the following: (1) amendments to the plan documents (including complete or partial plan termination or merger with another plan), (2) changes to the Plan's prohibition on competing investments options or deletion of equity wash provisions, (3) bankruptcy of the plan sponsor or other plan sponsor events (for example, divestures or spin-offs of a subsidiary) that cause a significant withdrawal from the Plan, or (4) the failure of the trust to qualify for exemption from federal income taxes or any required prohibited transaction exemption under Employee Retirement Income Security Act of 1974.

The plan administrator does not believe that the occurrences of any such events, which would limit the Plan's ability to transact at contract value with participants, are probable.

Note 7 Plan Termination

Although it has not expressed any intent to do so, the Company has the right to terminate the Plan at any time subject to the provisions of ERISA. In the event of plan termination, the respective participant interest, net of any termination fees, the vested interest of any participant shall not be diminished or adversely affected, and will be distributed to each participant in accordance with the trust agreement.

Note 8 Tax Status

The Internal Revenue Service has determined and informed the Company by a letter dated September 18, 2008, that the Plan and related trust are designed in accordance with applicable sections of the Internal Revenue Code (IRC). Since the original plan document was prepared, numerous amendments have been made. Effective January 1, 2013, the plan document was restated to include all amendments in the past. Since then, the Plan received a favorable determination letter from the IRS.

Note 8 Tax Status (continued)

Accounting principles generally accepted in the United States of America require plan management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there were no uncertain positions taken or expected to be taken that would require recognition of a liability or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress.

Note 9 Risks and Uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants account balances and the amounts reported in the Statement of Net Assets Available for Benefits.
