Independent Auditors' Report

The Plan Administrator of the
FIG LLC 401(k) Profit Sharing Plan & Trust:

Report on the Financial Statements

We have audited the accompanying financial statements of FIG LLC 401(k) Profit Sharing Plan and Trust (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the year ended December 31, 2014, in accordance with accounting principles generally accepted in the United States of America.

(1) Description of the Plan

The following description of the FIG LLC 401(k) Profit Sharing Plan & Trust (the Plan) provides only general information. Plan participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan, established on January 1, 1998, amended and restated as of January 1, 2006, and as subsequently amended, is a defined-contribution plan covering eligible employees of Fortress Investment Group LLC and its affiliates (collectively, the "Company"). Employees who have attained the age of 21 may elect to participate in the Plan immediately upon their employment start date. The Board of Directors is responsible for oversight of the Plan, which is administered by FIG LLC (Plan Administrator). The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Directors.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective January 1, 2012, Fidelity Management Trust Company is the trustee for the Plan and Fidelity Workplace Services, LLC is the recordkeeper for the Plan.

(b) Contributions

Each year, participants may contribute a percentage of their annual compensation (either pre tax or Roth 401(k) contributions), as defined in the Plan agreement, up to the maximum allowable amount determined by the Internal Revenue Service (IRS) each calendar year ($17,500 for 2014). In addition, participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions up to $5,500 for 2014. Participants may also rollover amounts representing distributions from another qualified plan (Rollover Contribution), which are accepted by the Plan. Participants may change their percentage contribution election monthly.

Effective January 1, 2009, the Company may elect, but is not required, to make a discretionary employer contribution for a plan year. Only eligible employees who are employed by the Company on the last day of the plan year (except in the case of death) are entitled to receive a share of discretionary employer contributions. For the 2014 plan year, the Company elected to provide a discretionary profit-sharing contribution, on behalf of each eligible employee, in an amount equal to 3% of the eligible employee's compensation, as defined in the Plan agreement (up to a maximum compensation of $260,000).

(c) Participant Accounts

Participant accounts are credited with the participants' contributions, the Company's contributions, and allocations of plan earnings less an allocation of administration expense. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be paid from the participant's vested account. Participants may direct contributions to be invested in any of the investments offered by the Plan.

(d) Vesting

Participants are vested immediately in their own voluntary contributions and rollover contributions plus actual plan earnings thereon.

Vesting in the Company's discretionary contributions and earnings thereon is based on years of service, as defined by the Plan agreement. Generally, the vesting service for participants begins on their date of hire and a participant earns a year of service for each plan year (i.e. – calendar year) during which a participant has at least 1,000 hours of service, as defined by the Plan agreement.

The vesting schedule with respect to the Company's discretionary contributions after that date is outlined below. Employee's prior years of service as a full-time employee will count towards this vesting schedule.

Years of completed service	Vesting percentage
2	50%
3	75
4	100

Any nonvested contributions may be forfeited upon termination of employment for reasons other than death, disability, or retirement. Such forfeitures are used to first pay for Plan expenses. Any remaining forfeitures will be used to reduce the Company's subsequent contributions to the Plan. For the 2014 Plan Year, the Company allocated $160,000 and $101,320 to pay for the Company's discretionary contributions and Plan expenses, respectively. As of December 31, 2014 and 2013, there were $155,476 and $203,224 of nonvested forfeited amounts included in net assets available for benefits, respectively.

(e) Notes Receivable from Participants

Participants may borrow from their plan accounts an amount equal to at least $1,000 and up to a maximum equal to $50,000 or 50% of the value of the nonforfeitable vested account, whichever is less. Notes are secured by the balance in the participant's account and bear interest at rates at 1% above prime at the time of issuance and maturity ranging from 1 year to 15 years at time of issuance. Generally, notes are to be repaid within five years but loans used to acquire a principal residence may be repaid over a longer period of time. All principal and interest payments are credited to the participant's account. Notes receivable at December 31, 2014 bore interest at 4.25% and have maturity years ranging from 2015 to 2029. Notes receivable from participants are recorded at their unpaid principal balance plus any accrued but unpaid interest in the financial statements.

Repayment will normally be made through payroll deductions. Any outstanding loans not fully repaid when employment terminates will be deducted from any benefit due to the participant.

(f) Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in their account,

or periodic cash installments, provided the participant's account balance exceeds $1,000, over a period not to extend beyond the participant's life expectancy. The Plan is subject to certain minimum distribution requirements as defined in the Plan document. For termination of service for other reasons, the participant may elect to receive the value of the vested interest in their account as a lump-sum distribution or if the vested interest exceeds $1,000 the participant may retain their money in the Plan.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual method of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in net assets available for benefits during the applicable reporting period, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investments and Income Recognition

The plan investments are stated at fair value in accordance with Accounting Standards Codification (ASC) 820, *Fair Value Measurement*. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation (depreciation) includes the Plan's realized gains (losses) on investments bought and sold as well as changes in unrealized gains (losses) on investments held during the year.

The Plan applies the provisions of GAAP, which requires that fully benefit-responsive investment contracts, which are included in the stable value fund, be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan agreement. As such, the statements of net assets available for benefits present the fair value as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. Earnings from the Wells Fargo stable value fund are reinvested in the fund and are reflected in interest and dividends.

(d) Payment of Benefits

Benefits are recorded when paid.

(Continued)

(e) Risks and Uncertainties

The Plan provides for various investment options consisting of a money market mutual fund, mutual funds, and a stable value fund. Such investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in their value, it is at least reasonably possible that changes in risks in the near term could materially affect participants' accounts and the amounts reported in the statement of net assets available for benefits.

Certain of the funds invest in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

(f) Recently Issued Accounting Pronouncements

On May 1, 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent),* which removes the requirement to categorize within the fair value hierarchy all investments for which the fair value is measured using the net asset value per share practical expedient. The ASU also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The ASU is effective for public business entities for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The effective date for all other entities is fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. Early adoption is permitted for all entities. Management is currently evaluating the impact of adopting this new ASU on the Plan's financial statements

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting—Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965),* I. Fully *Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, III. Measurement Date Practical Expedient.* The standard amends three parts of plan accounting. The amendments in Part I removes the requirement to measure fully-benefit responsive investment contracts to be measured at fair value and now requires contracts to be measured, presented, and disclosed only at contract value. Part II of the amendment eliminates the requirement to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type. Finally, Part III of the amendment provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. The amendments in Part I, II, and III of the ASU are effective for fiscal years beginning after December 15, 2015. Early adoption on one or more parts of the amendment is permitted. Management is currently evaluating the impact of this standard on the Plan's financial statements.

(3) Investments at fair value

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 describes three levels of inputs that may be used to measure fair value:

Level I: Quoted prices in active markets for identical assets or liabilities.

Level II: Observable inputs other than Level I prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or inputs that are observable or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level III: Unobservable inputs supported by little or no market activity and that reflect the reporting entity's own assumptions about the exit price, including assumptions that market participants would use in pricing the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Fair value estimates are made at a specific point in time, based on available market information and other observable inputs. In some cases, the fair value estimates cannot be substantiated by comparison to independent markets. In addition, the disclosed fair value may not be realized in the ultimate settlement of the financial asset as these values do not represent any premium or discount that could result from selling an entire holding of a particular financial asset at one time. Other expenses that would be incurred in an actual sale or settlement are not included in the amounts disclosed.

The Plan's investments in mutual funds are stated at fair market value as determined by quoted prices in active markets and reported as Level I investments. The Plan's investments in the money market fund are stated at the quoted net asset value (NAV) of shares held by the Plan at year end. The Plan's investments in the stable value fund are stated at fair value based on the fair value of the underlying investments and are reported as Level II. The stable value fund is valued at fair value based on the underlying investments and includes valuation of agreements with Wells Fargo, which stabilize the fund such that participants' transactions are carried out at cost plus accrued interest. There are no contractual commitments to purchase individual holdings and, except for the stable value fund described later, there are no restrictions on redemption as the funds are traded daily.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Level I	Level II	Level III	Total
Mutual funds:				
Real-Estate Funds	$ 4,241,922	$ —	$ —	$ 4,241,922

The fair values of the following investments represent 5% or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013:

	2014	2013
Vanguard Institutional Index Fund	$ 16,241,456	$ 12,472,286
Fidelity Contrafund Class-K	12,271,217	10,613,549

Fidelity Treasury Only Money Market	*	6,462,341

* Only applicable for year-end 2013 balance.

Fully benefit-responsive investment contracts, included within the Wells Fargo stable value fund, represent a combination of a fixed income bond portfolio and separate wrapper contracts. This investment is fully benefit-responsive in that it provides that the participants may make purchases and withdrawals at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. The contract is included in investments at fair value as reported to the Plan by Wells Fargo, the issuer, and is then adjusted to contract value in determining net assets available for benefits. The Plan does not invest directly in fully benefit-responsive contracts, and therefore is not required to include in its financial statements the disclosure requirements for stable value investment funds. For information not included in these financial statements, refer to the financial statements of Wells Fargo Stable Value Fund M. The contract value of this contract was $1,945,881 and $1,547,496 as of December 31, 2014 and December 31, 2013, respectively.

During 2014, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $2,796,048.

(4) Related-Party Transactions

Certain Plan investments were shares of mutual funds offered by Fidelity. Fidelity is the recordkeeper and trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions.

The Company pays for administrative fees on behalf of the Plan. Administrative fees include expenses for recordkeeping and loan maintenance services.

(5) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all amounts credited to the participant accounts will become 100% vested.

(6) Tax Status

The Plan adopted Fidelity's prototype plan with a favorable determination letter dated March 31, 2014. The Plan Administrator and tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or derecognize an asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or derecognition of an asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. As of December 31, 2014, the Plan Administrator believes the Plan is no longer subject to IRS examinations for plan years beginning prior to 2011.

(7) Reconciliation of Financial Statements to Form 5500

The following are reconciliations of amounts reported in the financial statements to amounts reported on Form 5500 as of December 31, 2014 and 2013 and for the year ended December 31, 2014:

	2014	2013
Net assets available for benefits per the financial statements	$ 123,614,812	102,937,435
Adjustment from contract value to fair value for benefit-responsive investment contract	26,309	12,671
Net assets available for benefits per Form 5500	$ 123,641,121	102,950,106

Net increase in net assets per the financial statements	$ 20,677,377
Reverse: 2013 adjustment to contract value for benefit-responsive investment contract	(12,671)
Add: 2014 adjustment to contract value for benefit-responsive investment contract	26,309
Net increase in net assets per Form 5500	$ 20,691,015

(8) Subsequent Events

Plan management has evaluated subsequent events through October 14, 2015, the date at which its financial statements were available to be issued, and except as already included in the notes to these financial statements, has determined that no additional items require disclosure.

Independent Auditors' Report

The Plan Administrator of the
FIG LLC 401(k) Profit Sharing Plan & Trust:

Report on the Financial Statements

We have audited the accompanying financial statements of FIG LLC 401(k) Profit Sharing Plan and Trust (the Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Plan's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Plan's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the net assets available for benefits of the Plan as of December 31, 2014 and 2013, and the changes in net assets available for benefits for the year ended December 31, 2014, in accordance with accounting principles generally accepted in the United States of America.

KPMG LLP is a Delaware limited liability partnership, the U.S. member firm of KPMG International Cooperative ("KPMG International"), a Swiss entity.

Report on Supplementary Information

Our audits were conducted for the purpose of forming an opinion on the financial statements as a whole. The supplemental schedule, schedule H, line 4i – schedule of assets (held at end of year) is presented for the purpose of additional analysis and is not a required part of the financial statements but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. Such information is the responsibility of the Plan's management and was derived from and relates directly to the underlying accounting and other records used to prepare the financial statements. The information has been subjected to the auditing procedures applied in the audits of the financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the financial statements or to the financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the information is fairly stated in all material respects in relation to the financial statements as a whole.

(1) Description of the Plan

The following description of the FIG LLC 401(k) Profit Sharing Plan & Trust (the Plan) provides only general information. Plan participants should refer to the plan agreement for a more complete description of the Plan's provisions.

(a) General

The Plan, established on January 1, 1998, amended and restated as of January 1, 2006, and as subsequently amended, is a defined-contribution plan covering eligible employees of Fortress Investment Group LLC and its affiliates (collectively, the "Company"). Employees who have attained the age of 21 may elect to participate in the Plan immediately upon their employment start date. The Board of Directors is responsible for oversight of the Plan, which is administered by FIG LLC (Plan Administrator). The Investment Committee determines the appropriateness of the Plan's investment offerings, monitors investment performance and reports to the Plan's Board of Directors.

The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA), as amended.

Effective January 1, 2012, Fidelity Management Trust Company is the trustee for the Plan and Fidelity Workplace Services, LLC is the recordkeeper for the Plan.

(b) Contributions

Each year, participants may contribute a percentage of their annual compensation (either pre tax or Roth 401(k) contributions), as defined in the Plan agreement, up to the maximum allowable amount determined by the Internal Revenue Service (IRS) each calendar year ($17,500 for 2014). In addition, participants who have attained age 50 before the end of the plan year are eligible to make catch-up contributions up to $5,500 for 2014. Participants may also rollover amounts representing distributions from another qualified plan (Rollover Contribution), which are accepted by the Plan. Participants may change their percentage contribution election monthly.

Effective January 1, 2009, the Company may elect, but is not required, to make a discretionary employer contribution for a plan year. Only eligible employees who are employed by the Company on the last day of the plan year (except in the case of death) are entitled to receive a share of discretionary employer contributions. For the 2014 plan year, the Company elected to provide a discretionary profit-sharing contribution, on behalf of each eligible employee, in an amount equal to 3% of the eligible employee's compensation, as defined in the Plan agreement (up to a maximum compensation of $260,000).

(c) Participant Accounts

Participant accounts are credited with the participants' contributions, the Company's contributions, and allocations of plan earnings less an allocation of administration expense. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be paid from the participant's vested account. Participants may direct contributions to be invested in any of the investments offered by the Plan.

(d) Vesting

Participants are vested immediately in their own voluntary contributions and rollover contributions plus actual plan earnings thereon.

Vesting in the Company's discretionary contributions and earnings thereon is based on years of service, as defined by the Plan agreement. Generally, the vesting service for participants begins on their date of hire and a participant earns a year of service for each plan year (i.e. – calendar year) during which a participant has at least 1,000 hours of service, as defined by the Plan agreement.

The vesting schedule with respect to the Company's discretionary contributions after that date is outlined below. Employee's prior years of service as a full-time employee will count towards this vesting schedule.

Years of completed service	Vesting percentage
2	50%
3	75
4	100

Any nonvested contributions may be forfeited upon termination of employment for reasons other than death, disability, or retirement. Such forfeitures are used to first pay for Plan expenses. Any remaining forfeitures will be used to reduce the Company's subsequent contributions to the Plan. For the 2014 Plan Year, the Company allocated $160,000 and $101,320 to pay for the Company's discretionary contributions and Plan expenses, respectively. As of December 31, 2014 and 2013, there were $155,476 and $203,224 of nonvested forfeited amounts included in net assets available for benefits, respectively.

(e) Notes Receivable from Participants

Participants may borrow from their plan accounts an amount equal to at least $1,000 and up to a maximum equal to $50,000 or 50% of the value of the nonforfeitable vested account, whichever is less. Notes are secured by the balance in the participant's account and bear interest at rates at 1% above prime at the time of issuance and maturity ranging from 1 year to 15 years at time of issuance. Generally, notes are to be repaid within five years but loans used to acquire a principal residence may be repaid over a longer period of time. All principal and interest payments are credited to the participant's account. Notes receivable at December 31, 2014 bore interest at 4.25% and have maturity years ranging from 2015 to 2029. Notes receivable from participants are recorded at their unpaid principal balance plus any accrued but unpaid interest in the financial statements.

Repayment will normally be made through payroll deductions. Any outstanding loans not fully repaid when employment terminates will be deducted from any benefit due to the participant.

(f) Payment of Benefits

Upon termination of service due to death, disability, or retirement, a participant may elect to receive either a lump-sum distribution equal to the value of the participant's vested interest in their account,

or periodic cash installments, provided the participant's account balance exceeds $1,000, over a period not to extend beyond the participant's life expectancy. The Plan is subject to certain minimum distribution requirements as defined in the Plan document. For termination of service for other reasons, the participant may elect to receive the value of the vested interest in their account as a lump-sum distribution or if the vested interest exceeds $1,000 the participant may retain their money in the Plan.

(2) Summary of Significant Accounting Policies

(a) Basis of Accounting

The accompanying financial statements of the Plan are prepared under the accrual method of accounting.

(b) Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America (GAAP) requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and changes in net assets available for benefits during the applicable reporting period, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

(c) Investments and Income Recognition

The plan investments are stated at fair value in accordance with Accounting Standards Codification (ASC) 820, *Fair Value Measurement*. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Purchases and sales of investments are recorded on a trade-date basis. Interest income is accrued when earned. Dividend income is recorded on the ex-dividend date. Capital gain distributions are included in dividend income. Net appreciation (depreciation) includes the Plan's realized gains (losses) on investments bought and sold as well as changes in unrealized gains (losses) on investments held during the year.

The Plan applies the provisions of GAAP, which requires that fully benefit-responsive investment contracts, which are included in the stable value fund, be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined-contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan agreement. As such, the statements of net assets available for benefits present the fair value as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The statement of changes in net assets available for benefits is prepared on a contract value basis. Earnings from the Wells Fargo stable value fund are reinvested in the fund and are reflected in interest and dividends.

(d) Payment of Benefits

Benefits are recorded when paid.

(Continued)

(e) Risks and Uncertainties

The Plan provides for various investment options consisting of a money market mutual fund, mutual funds, and a stable value fund. Such investments are exposed to various risks, such as interest rate, market, and credit risks. Due to the level of risk associated with certain investments and the level of uncertainty related to changes in their value, it is at least reasonably possible that changes in risks in the near term could materially affect participants' accounts and the amounts reported in the statement of net assets available for benefits.

Certain of the funds invest in securities with contractual cash flows, such as asset-backed securities, collateralized mortgage obligations and commercial mortgage-backed securities, including securities backed by subprime mortgage loans. The value, liquidity, and related income of these securities are sensitive to changes in economic conditions, including real estate value, delinquencies or defaults, or both, and may be adversely affected by shifts in the market's perception of the issuers and changes in interest rates.

(f) Recently Issued Accounting Pronouncements

On May 1, 2015, the Financial Accounting Standards Board issued Accounting Standards Update (ASU) No. 2015-07, *Disclosures for Investments in Certain Entities That Calculate Net Asset Value per Share (or Its Equivalent),* which removes the requirement to categorize within the fair value hierarchy all investments for which the fair value is measured using the net asset value per share practical expedient. The ASU also removes the requirement to make certain disclosures for all investments that are eligible to be measured at fair value using the net asset value per share practical expedient. The ASU is effective for public business entities for fiscal years beginning after December 15, 2015, and interim periods within those fiscal years. The effective date for all other entities is fiscal years beginning after December 15, 2016, and interim periods within those fiscal years. Early adoption is permitted for all entities. Management is currently evaluating the impact of adopting this new ASU on the Plan's financial statements

In July 2015, the FASB issued ASU 2015-12, *Plan Accounting—Defined Benefit Pension Plans (Topic 960), Defined Contribution Pension Plans (Topic 962) and Health and Welfare Benefit Plans (Topic 965),* I. Fully *Benefit-Responsive Investment Contracts, II. Plan Investment Disclosures, III. Measurement Date Practical Expedient.* The standard amends three parts of plan accounting. The amendments in Part I removes the requirement to measure fully-benefit responsive investment contracts to be measured at fair value and now requires contracts to be measured, presented, and disclosed only at contract value. Part II of the amendment eliminates the requirement to disclose (1) individual investments that represent 5 percent or more of net assets available for benefits and (2) the net appreciation or depreciation for investments by general type. Finally, Part III of the amendment provides a practical expedient to permit plans to measure investments and investment-related accounts as of a month-end date that is closest to the plan's fiscal year-end, when the fiscal period does not coincide with a month-end. The amendments in Part I, II, and III of the ASU are effective for fiscal years beginning after December 15, 2015. Early adoption on one or more parts of the amendment is permitted. Management is currently evaluating the impact of this standard on the Plan's financial statements.

(3) Investments at fair value

Fair value is defined as the price that would be received to sell an asset or paid to transfer a liability (an exit price) in the principal or most advantageous market for the asset or liability in an orderly transaction between market participants on the measurement date. ASC 820 establishes a fair value hierarchy, which requires an entity to maximize the use of observable inputs and minimize the use of unobservable inputs when measuring fair value. ASC 820 describes three levels of inputs that may be used to measure fair value:

Level I: Quoted prices in active markets for identical assets or liabilities.

Level II: Observable inputs other than Level I prices such as quoted prices for similar assets or liabilities; quoted prices in markets that are not active; or inputs that are observable or corroborated by observable market data for substantially the full term of the assets or liabilities.

Level III: Unobservable inputs supported by little or no market activity and that reflect the reporting entity's own assumptions about the exit price, including assumptions that market participants would use in pricing the asset or liability.

The asset's or liability's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Fair value estimates are made at a specific point in time, based on available market information and other observable inputs. In some cases, the fair value estimates cannot be substantiated by comparison to independent markets. In addition, the disclosed fair value may not be realized in the ultimate settlement of the financial asset as these values do not represent any premium or discount that could result from selling an entire holding of a particular financial asset at one time. Other expenses that would be incurred in an actual sale or settlement are not included in the amounts disclosed.

The Plan's investments in mutual funds are stated at fair market value as determined by quoted prices in active markets and reported as Level I investments. The Plan's investments in the money market fund are stated at the quoted net asset value (NAV) of shares held by the Plan at year end. The Plan's investments in the stable value fund are stated at fair value based on the fair value of the underlying investments and are reported as Level II. The stable value fund is valued at fair value based on the underlying investments and includes valuation of agreements with Wells Fargo, which stabilize the fund such that participants' transactions are carried out at cost plus accrued interest. There are no contractual commitments to purchase individual holdings and, except for the stable value fund described later, there are no restrictions on redemption as the funds are traded daily.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets at fair value as of December 31, 2014:

	Level I	Level II	Level III	Total
Mutual funds:				
Real-Estate Funds	$ 4,241,922	$ —	$ —	$ 4,241,922

The fair values of the following investments represent 5% or more of the Plan's net assets available for benefits as of December 31, 2014 and 2013:

	2014	2013
Vanguard Institutional Index Fund	$ 16,241,456	$ 12,472,286
Fidelity Contrafund Class-K	12,271,217	10,613,549

Fidelity Treasury Only Money Market	*	6,462,341

* Only applicable for year-end 2013 balance.

Fully benefit-responsive investment contracts, included within the Wells Fargo stable value fund, represent a combination of a fixed income bond portfolio and separate wrapper contracts. This investment is fully benefit-responsive in that it provides that the participants may make purchases and withdrawals at contract value. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals, and administrative expenses. The contract is included in investments at fair value as reported to the Plan by Wells Fargo, the issuer, and is then adjusted to contract value in determining net assets available for benefits. The Plan does not invest directly in fully benefit-responsive contracts, and therefore is not required to include in its financial statements the disclosure requirements for stable value investment funds. For information not included in these financial statements, refer to the financial statements of Wells Fargo Stable Value Fund M. The contract value of this contract was $1,945,881 and $1,547,496 as of December 31, 2014 and December 31, 2013, respectively.

During 2014, the Plan's investments in mutual funds (including gains and losses on investments bought and sold, as well as held during the year) appreciated in value by $2,796,048.

(4) Related-Party Transactions

Certain Plan investments were shares of mutual funds offered by Fidelity. Fidelity is the recordkeeper and trustee of the Plan, and therefore, these transactions qualify as party-in-interest transactions.

The Company pays for administrative fees on behalf of the Plan. Administrative fees include expenses for recordkeeping and loan maintenance services.

(5) Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of plan termination, all amounts credited to the participant accounts will become 100% vested.

(6) Tax Status

The Plan adopted Fidelity's prototype plan with a favorable determination letter dated March 31, 2014. The Plan Administrator and tax counsel believe that the Plan is designed and is currently being operated in compliance with the applicable requirements of the Internal Revenue Code.

GAAP requires plan management to evaluate tax positions taken by the Plan and recognize a tax liability (or derecognize an asset) if the Plan has taken an uncertain position that more likely than not would not be sustained upon examination by the IRS. The Plan Administrator has analyzed the tax positions taken by the Plan, and has concluded that as of December 31, 2014, there are no uncertain positions taken or expected to be taken that would require recognition of a liability (or derecognition of an asset) or disclosure in the financial statements. The Plan is subject to routine audits by taxing jurisdictions; however, there are currently no audits for any tax periods in progress. As of December 31, 2014, the Plan Administrator believes the Plan is no longer subject to IRS examinations for plan years beginning prior to 2011.

(7) Reconciliation of Financial Statements to Form 5500

The following are reconciliations of amounts reported in the financial statements to amounts reported on Form 5500 as of December 31, 2014 and 2013 and for the year ended December 31, 2014:

	2014	2013
Net assets available for benefits per the financial statements	$ 123,614,812	102,937,435
Adjustment from contract value to fair value for benefit-responsive investment contract	26,309	12,671
Net assets available for benefits per Form 5500	$ 123,641,121	102,950,106

Net increase in net assets per the financial statements	$ 20,677,377
Reverse: 2013 adjustment to contract value for benefit-responsive investment contract	(12,671)
Add: 2014 adjustment to contract value for benefit-responsive investment contract	26,309
Net increase in net assets per Form 5500	$ 20,691,015

(8) Subsequent Events

Plan management has evaluated subsequent events through October 14, 2015, the date at which its financial statements were available to be issued, and except as already included in the notes to these financial statements, has determined that no additional items require disclosure.
