Independent Auditors' Report

To the Trustees of the
Century Golf 401(k) Plan
Addison, Texas

We have audited the accompanying statements of net assets available for benefits of Century Golf 401(k) Plan (the "Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. Our audit included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of December 31, 2009 and 2008, and the changes in its financial status for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2009 on Page 11 is presented for purposes of additional analysis, and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management. Such schedule has been subjected to the auditing procedures applied in the audit of the basic 2009 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

NOTE 1 - Description of the Plan

The following description of the Plan provides general information only. Participants should refer to the Plan agreement and amendments for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees who meet the participant eligibility requirements. Employees are eligible to participate after completion of six (6) months of service and when the employee attains the age 21. However, employees who are a participant in the Plan prior to 2004 shall continue to participate in the Plan. Eligible employees may enroll in the Plan on the first day of the month coinciding with or following the date on which the employee becomes eligible. The Charles Schwab Trust Company serves as the Trustee, while Milliman, Inc. serves as the Plan record keeper. The Plan is subject to some, but not all, the provisions of the Employer Retirement Income Security Act of 1974 as amended ("ERISA").

Contributions

Each year, participants may elect to contribute from 1% to 25% of their pre-tax compensation, as defined in the Plan, up to a maximum of $16,500 and $15,500 for the years ended December 31, 2009 and 2008, respectively. Participants who are age 50 or older may make an additional elective deferral contribution of $5,500 during 2009 and 2008, respectively. The percentage may be changed as of any subsequent Plan entry date. Any such change will apply only after its effective date, and after it is executed and filed with the Plan Administrator. Fund allocation percentages may be changed once each quarter at no charge.

Under the provisions of the Plan, the Company makes matching contributions equal to 25% of individual participant contributions up to 6% of eligible compensation. Participants are eligible for employer matching contributions the first day of the month following the completion of the participants one year of service. The total of employer and participant contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Employers' contributions and Plan earnings or loss, and charged with management or service fees. Allocations are based on participant earnings account balances and contributions, as defined by the Plan. Additional administrative fees are charged by the Plan record keeper upon fund withdrawal. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Participation

If a participant terminates employment for reasons other than retirement, death, or total and permanent disability, the vested portion of their account (other than his or her salary deferral and rollover contribution accounts, which are always 100% vested) shall be determined in accordance with the following schedule:

Periods of service	Vested %
1	20%
2	40%
3	60%
4	80%
5 or more	100%

To have a year of service for vesting purposes, employees must complete at least 1,000 hours of service during the 12 months beginning on the day they start to work for their employer or, if they do not, they must complete at least 1,000 hours of service in any Plan year. They complete a year of service only upon working for a full 12 months, regardless of when during the applicable 12-month period they complete 1,000 hours of service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000, reduced by the excess (if any) or (1) the highest outstanding balance of any other loans from the Plan during the one-year period prior to the date of the new loan, over (2) the outstanding balance of any other loans from the Plan on the date of the new loan, or 50% of their vested account balance. Loan terms range from 1-5 years or up to 15 years for the purchase of a principal residence. Participants can have a maximum of two loans outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at a fixed rate commensurate with local prevailing rates at the time the loan is approved by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Investment Options

The Plan offers a number of investment options to participants that are exposed to various risks such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could be material.

At December 31, 2009, eleven investment options are available for participant election of contributions to the Plan. Upon enrollment in the Plan, a participant may direct employee contributions in 1% increments in any of the investment options.

The Company's matching contributions are contributed into the investment options elected for employee contributions. The following are descriptions of the investment options, as described in the related fund prospectus:

American Beacon International Equity Fund – Invests at least 80% of assets in common stocks and convertible securities of foreign issuers from at least three countries with a focus on long-term capital appreciate. Management selects securities based on a country's economic outlook, market valuation, and potential changes in currency exchange rates. The fund may invest in high-quality foreign debt.

American Fund Capital World Growth & Income Fund - Invests in foreign and domestic equities, debt obligations, and money market instruments. Management allocates assets according to long-term economic and market trends. It invests primarily in common stocks, government and corporate bonds and cash and equivalents. The debt portion concentrates on intermediate- and long-term fixed-income securities; foreign debt consists mostly of governmental obligations. The fund may invest up to 10% of assets in bonds rated below A.

Dodge & Cox Stock Fund - Invests in companies that appear to be temporarily undervalued by the stock market, focusing on long-term growth of principal and interest with current income as a secondary consideration.

Janus Growth & Income Fund - Invests in a combination of equity and fixed-income securities with a focus on long-term growth of capital and current income and may invest without limit in foreign securities and engage in options and future strategies.

Mainstay Large Cap Growth A Fund - Invests in those companies that Winslow, the Fund's Subadvisor, believes will provide an opportunity for achieving superior portfolio returns (*i.e.,* returns in excess of the returns of the average stock mutual fund) over the long term. When purchasing stocks for the Fund, the Subadvisor looks for companies typically having some or all of the following attributes: addressing markets with growth opportunities; leading or gaining market share; identifiable and sustainable competitive advantages; a management team that can perpetuate the firm's competitive advantages; and, in the Subadvisor's view, high, and preferably rising, returns on invested capital.

Wells Fargo Advantage Small Cap Growth Admin Fund - Invests principally in equity securities of small-capitalization companies that have above-average growth potential, with small-capitalization defined as companies as those with market capitalizations at the time of purchase of less than $2 billion.

PIMCO Total Return Fund - Funds are invested in fixed-income securities and include U.S. government and corporate debt securities, mortgage and asset-backed securities, and money market instruments.

Schwab Retirement Advantage Money Market Fund – Invests in a diversified portfolio of high-quality, short-term debt securities with the objective to provide maximum current income with liquidity and stability of capital.

Schwab S&P 500 Fund – Invests primarily in the common stocks that compose the S&P 500 Index with the objective to track the total return performance of stocks that compose the index.

Gamco Westwood Balanced AAA Fund – Invests in a portfolio of equity and debt securities with a focus on capital appreciation and current income.

Allianz RCM Technology Fund - This investment seeks long-term capital appreciation. The fund invests primarily in equities of technology companies, in at least three countries. The fund may invest in certain foreign securities and assets in issuers organized or headquartered in any country outside the U.S., other than Japan. It may invest in assets in companies organized or headquartered in emerging market countries.

Forfeitures

As of December 31, 2009 and 2008, forfeited non-vested amounts totaled $83,898 and $53,984, respectively. These amounts may be used to reduce future employer contributions and Plan expenses.

NOTE 2 - Summary of Significant Accounting Policies

Basis of Accounting

The accompanying financial statements are prepared on the accrual basis of accounting in accordance with accounting principles generally accepted in the United States of America.

Use of Estimates

The preparation of financial statements in conformity with generally accepted accounting principals require management to make estimates and assumptions that affect the reported amounts of assets and liabilities, and changes therein, and disclosure of contingent assets and liabilities. Actual results could differ from those estimates.

Payment of Benefits

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investment funds are valued at fair value, as reported by the investment managers. The investments are primarily valued using quoted market values. Gains and losses on investments that were both bought and sold during the year are included in net appreciation or depreciation in fair value. Purchases and sales of securities are recorded on a trade-date basis. Loans to participants are valued at cost, which approximates fair value.

Administrative Expenses

Certain administrative fees are paid by the Employer. Management and asset fees are paid by the participants.

Reclassification

Certain amounts previously reported have been reclassified to conform to the current presentation.

Subsequent Events

Subsequent events have been evaluated through June 25, 2010, which was the date the financial statements were available to be issued.

New Accounting Pronouncements

In April and September 2009, the Financial Accounting Standards Board ("FASB") issued guidance which (i) provided additional guidance for estimating fair value when the volume and level of activity for the asset or liability have significantly decreased, (ii) provided guidance on identifying circumstances that indicate a transaction is not orderly, (iii) permitted, as a practical expedient, entities to measure the fair value of certain investments based on the net asset value per share and (iv) expanded the required disclosures about fair value measurements. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits or the changes in net assets available for benefits.

In May 2009 and February 2010, the FASB issued guidance which established general standards of accounting for, and disclosure of, events that occur after the balance sheet date but before financial statements are issued or are available to be issued.

In particular, this guidance established (i) the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure, (ii) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date and (iii) the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits or the changes in net assets available for benefits.

In June 2009, the FASB issued new codification standards which represent the source of authoritative U.S. generally accepted accounting principles ("GAAP") recognized by the FASB to be applied by non-governmental entities. The codification supersedes all non-SEC accounting and reporting standards which existed prior to the codification. All other non-grandfathered, non-SEC accounting literature not included in the codification is non-authoritative. The new codification standards were effective for 2009.

In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

NOTE 3 - Fair Value Measurements

Effective January 1, 2008, the Plan adopted the provisions of ASC 820, "Fair Value Measurements" for all financial assets and liabilities disclosed at fair value in the financial statements on a recurring basis. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 — Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 — Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for instruments categorized in Level 3. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure.

Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions.

The Company uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2 or Level 2 to Level 3.

Valuation Techniques

Money market fund. The investment seeks the highest current income consistent with stability of capital and liquidity.

The fund invests in high-quality short-term money market investments issued by U.S. and foreign issuers, such as commercial paper, certificates deposit and time deposits, variable and floating-rate debt securities, bank notes and bankers' acceptances, repurchase agreements and obligations issued by the U.S. government, agencies or instrumentalities. It seeks to maintain a stable $1 share price. The investment is valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Mutual funds. These investments are public investment vehicles using the Net Asset Value ("NAV") provided by the administrator of the fund.

The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Loans to participants. Valued and amortized cost, which approximates fair value are classified within level 3 of the valuation hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2009 and 2008:

NOTE 5 - Plan Termination

Although they have not expressed any intent to do so, the Employer has the right under the Plan to discontinue their contributions at any time. In addition, although they have not expressed any intent to do so, the Trustees have the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants will become 100% vested in their accounts.

NOTE 6 - Tax Status

Although the Plan has not requested determination from the Internal Revenue Service as to the Plan's tax-exempt status, the master prototype plan from which the Plan was drafted has received a favorable determination from the IRS. Plan management believes that the Plan is designed to operate in accordance with all applicable provisions of the Internal Revenue Code. Therefore, management believes that the Plan is qualified and that the related trust is exempt from taxation under the Internal Revenue Code.

NOTE 7 - Related Party Transactions

As of December 31, 2009 and 2008, the Charles Schwab Trust Company is acting as the Trustee, and Milliman, Inc. is acting as Plan record keeper and provides investment management advice to the Plan Administrator in connection with investments of Funds held by and made pursuant to the Plan. Certain Plan investments are shares of mutual funds managed by the Trustee; therefore, those investments qualify as party-in-interest transactions.

Independent Auditors' Report

To the Trustees of the
Century Golf 401(k) Plan
Addison, Texas

We have audited the accompanying statements of net assets available for benefits of Century Golf 401(k) Plan (the "Plan") as of December 31, 2009 and 2008, and the related statements of changes in net assets available for benefits for the years then ended. These financial statements are the responsibility of the Plan's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with auditing standards generally accepted in the United States of America. Those standards require that we plan and perform the audits to obtain reasonable assurance about whether the financial statements are free of material misstatement. Our audit included examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial status of the Plan as of December 31, 2009 and 2008, and the changes in its financial status for the years then ended in conformity with accounting principles generally accepted in the United States of America.

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplemental Schedule H, Line 4i – Schedule of Assets (Held at End of Year) as of December 31, 2009 on Page 11 is presented for purposes of additional analysis, and is not a required part of the basic financial statements, but is supplementary information required by the Department of Labor's Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974. This schedule is the responsibility of the Plan's management. Such schedule has been subjected to the auditing procedures applied in the audit of the basic 2009 financial statements and, in our opinion, is fairly stated in all material respects when considered in relation to the basic financial statements taken as a whole.

NOTE 1 - Description of the Plan

The following description of the Plan provides general information only. Participants should refer to the Plan agreement and amendments for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all eligible employees who meet the participant eligibility requirements. Employees are eligible to participate after completion of six (6) months of service and when the employee attains the age 21. However, employees who are a participant in the Plan prior to 2004 shall continue to participate in the Plan. Eligible employees may enroll in the Plan on the first day of the month coinciding with or following the date on which the employee becomes eligible. The Charles Schwab Trust Company serves as the Trustee, while Milliman, Inc. serves as the Plan record keeper. The Plan is subject to some, but not all, the provisions of the Employer Retirement Income Security Act of 1974 as amended ("ERISA").

Contributions

Each year, participants may elect to contribute from 1% to 25% of their pre-tax compensation, as defined in the Plan, up to a maximum of $16,500 and $15,500 for the years ended December 31, 2009 and 2008, respectively. Participants who are age 50 or older may make an additional elective deferral contribution of $5,500 during 2009 and 2008, respectively. The percentage may be changed as of any subsequent Plan entry date. Any such change will apply only after its effective date, and after it is executed and filed with the Plan Administrator. Fund allocation percentages may be changed once each quarter at no charge.

Under the provisions of the Plan, the Company makes matching contributions equal to 25% of individual participant contributions up to 6% of eligible compensation. Participants are eligible for employer matching contributions the first day of the month following the completion of the participants one year of service. The total of employer and participant contributions are subject to certain limitations.

Participant Accounts

Each participant's account is credited with the participant's contribution and allocations of the Employers' contributions and Plan earnings or loss, and charged with management or service fees. Allocations are based on participant earnings account balances and contributions, as defined by the Plan. Additional administrative fees are charged by the Plan record keeper upon fund withdrawal. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

Vesting and Participation

If a participant terminates employment for reasons other than retirement, death, or total and permanent disability, the vested portion of their account (other than his or her salary deferral and rollover contribution accounts, which are always 100% vested) shall be determined in accordance with the following schedule:

Periods of service	Vested %
1	20%
2	40%
3	60%
4	80%
5 or more	100%

To have a year of service for vesting purposes, employees must complete at least 1,000 hours of service during the 12 months beginning on the day they start to work for their employer or, if they do not, they must complete at least 1,000 hours of service in any Plan year. They complete a year of service only upon working for a full 12 months, regardless of when during the applicable 12-month period they complete 1,000 hours of service.

Participant Loans

Participants may borrow from their fund accounts a minimum of $500 up to a maximum equal to the lesser of $50,000, reduced by the excess (if any) or (1) the highest outstanding balance of any other loans from the Plan during the one-year period prior to the date of the new loan, over (2) the outstanding balance of any other loans from the Plan on the date of the new loan, or 50% of their vested account balance. Loan terms range from 1-5 years or up to 15 years for the purchase of a principal residence. Participants can have a maximum of two loans outstanding at any time. The loans are secured by the balance in the participant's account and bear interest at a fixed rate commensurate with local prevailing rates at the time the loan is approved by the Plan Administrator. Principal and interest are paid ratably through payroll deductions.

Payment of Benefits

On termination of service due to death, disability or retirement, a participant may elect to receive either a lump-sum amount equal to the value of the participant's vested interest in his or her account, or annual installments over a ten year period. For termination of service due to other reasons, a participant may receive the value of the vested interest in his or her account as a lump-sum distribution.

Investment Options

The Plan offers a number of investment options to participants that are exposed to various risks such as interest rate, credit, and overall market volatility risk. Due to the level of risk associated with certain investment securities, it is reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could be material.

At December 31, 2009, eleven investment options are available for participant election of contributions to the Plan. Upon enrollment in the Plan, a participant may direct employee contributions in 1% increments in any of the investment options.

The Company's matching contributions are contributed into the investment options elected for employee contributions. The following are descriptions of the investment options, as described in the related fund prospectus:

American Beacon International Equity Fund – Invests at least 80% of assets in common stocks and convertible securities of foreign issuers from at least three countries with a focus on long-term capital appreciate. Management selects securities based on a country's economic outlook, market valuation, and potential changes in currency exchange rates. The fund may invest in high-quality foreign debt.

American Fund Capital World Growth & Income Fund - Invests in foreign and domestic equities, debt obligations, and money market instruments. Management allocates assets according to long-term economic and market trends. It invests primarily in common stocks, government and corporate bonds and cash and equivalents. The debt portion concentrates on intermediate- and long-term fixed-income securities; foreign debt consists mostly of governmental obligations. The fund may invest up to 10% of assets in bonds rated below A.

Dodge & Cox Stock Fund - Invests in companies that appear to be temporarily undervalued by the stock market, focusing on long-term growth of principal and interest with current income as a secondary consideration.

Janus Growth & Income Fund - Invests in a combination of equity and fixed-income securities with a focus on long-term growth of capital and current income and may invest without limit in foreign securities and engage in options and future strategies.

Mainstay Large Cap Growth A Fund - Invests in those companies that Winslow, the Fund's Subadvisor, believes will provide an opportunity for achieving superior portfolio returns (*i.e.,* returns in excess of the returns of the average stock mutual fund) over the long term. When purchasing stocks for the Fund, the Subadvisor looks for companies typically having some or all of the following attributes: addressing markets with growth opportunities; leading or gaining market share; identifiable and sustainable competitive advantages; a management team that can perpetuate the firm's competitive advantages; and, in the Subadvisor's view, high, and preferably rising, returns on invested capital.

Wells Fargo Advantage Small Cap Growth Admin Fund - Invests principally in equity securities of small-capitalization companies that have above-average growth potential, with small-capitalization defined as companies as those with market capitalizations at the time of purchase of less than $2 billion.

PIMCO Total Return Fund - Funds are invested in fixed-income securities and include U.S. government and corporate debt securities, mortgage and asset-backed securities, and money market instruments.

Schwab Retirement Advantage Money Market Fund – Invests in a diversified portfolio of high-quality, short-term debt securities with the objective to provide maximum current income with liquidity and stability of capital.

Schwab S&P 500 Fund – Invests primarily in the common stocks that compose the S&P 500 Index with the objective to track the total return performance of stocks that compose the index.

Gamco Westwood Balanced AAA Fund – Invests in a portfolio of equity and debt securities with a focus on capital appreciation and current income.

Allianz RCM Technology Fund - This investment seeks long-term capital appreciation. The fund invests primarily in equities of technology companies, in at least three countries. The fund may invest in certain foreign securities and assets in issuers organized or headquartered in any country outside the U.S., other than Japan. It may invest in assets in companies organized or headquartered in emerging market countries.

Forfeitures

As of December 31, 2009 and 2008, forfeited non-vested amounts totaled $83,898 and $53,984, respectively. These amounts may be used to reduce future employer contributions and Plan expenses.

Benefits are recorded when paid.

Investment Valuation and Income Recognition

Investment funds are valued at fair value, as reported by the investment managers. The investments are primarily valued using quoted market values. Gains and losses on investments that were both bought and sold during the year are included in net appreciation or depreciation in fair value. Purchases and sales of securities are recorded on a trade-date basis. Loans to participants are valued at cost, which approximates fair value.

Administrative Expenses

Certain administrative fees are paid by the Employer. Management and asset fees are paid by the participants.

Reclassification

Certain amounts previously reported have been reclassified to conform to the current presentation.

Subsequent Events

Subsequent events have been evaluated through June 25, 2010, which was the date the financial statements were available to be issued.

New Accounting Pronouncements

In April and September 2009, the Financial Accounting Standards Board ("FASB") issued guidance which (i) provided additional guidance for estimating fair value when the volume and level of activity for the asset or liability have significantly decreased, (ii) provided guidance on identifying circumstances that indicate a transaction is not orderly, (iii) permitted, as a practical expedient, entities to measure the fair value of certain investments based on the net asset value per share and (iv) expanded the required disclosures about fair value measurements. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits or the changes in net assets available for benefits.

In May 2009 and February 2010, the FASB issued guidance which established general standards of accounting for, and disclosure of, events that occur after the balance sheet date but before financial statements are issued or are available to be issued.

In particular, this guidance established (i) the period after the balance sheet date during which management of a reporting entity should evaluate events or transactions that may occur for potential recognition or disclosure, (ii) the circumstances under which an entity should recognize events or transactions occurring after the balance sheet date and (iii) the disclosures that an entity should make about events or transactions that occurred after the balance sheet date. The adoption of this guidance did not have a material effect on the Plan's net assets available for benefits or the changes in net assets available for benefits.

In June 2009, the FASB issued new codification standards which represent the source of authoritative U.S. generally accepted accounting principles ("GAAP") recognized by the FASB to be applied by non-governmental entities. The codification supersedes all non-SEC accounting and reporting standards which existed prior to the codification. All other non-grandfathered, non-SEC accounting literature not included in the codification is non-authoritative. The new codification standards were effective for 2009.

In January 2010, the FASB issued guidance which expanded the required disclosures about fair value measurements. In particular, this guidance requires (i) separate disclosure of the amounts of significant transfers in and out of Level 1 and Level 2 fair value measurements along with the reasons for such transfers, (ii) information about purchases, sales, issuances and settlements to be presented separately in the reconciliation for Level 3 fair value measurements, (iii) fair value measurement disclosures for each class of assets and liabilities and (iv) disclosures about the valuation techniques and inputs used to measure fair value for both recurring and nonrecurring fair value measurements for fair value measurements that fall in either Level 2 or Level 3. This guidance is effective for annual reporting periods beginning after December 15, 2009 except for (ii) above which is effective for fiscal years beginning after December 15, 2010. The Company is currently evaluating the impact that this guidance will have on the Plan's financial statement disclosures.

NOTE 3 - Fair Value Measurements

Effective January 1, 2008, the Plan adopted the provisions of ASC 820, "Fair Value Measurements" for all financial assets and liabilities disclosed at fair value in the financial statements on a recurring basis. ASC 820 defines fair value as the exchange price that would be received for an asset or paid to transfer a liability (an exit price) in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (level 1 measurements) and the lowest priority to unobservable inputs (level 3 measurements). The three levels of the fair value hierarchy under ASC 820 are described below:

Level 1 — Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the reporting entity has the ability to access at the measurement date.

Level 2 — Valuations based on quoted prices in markets that are not active or for which all significant inputs are observable, either directly or indirectly.

Level 3 — Prices or valuations that require inputs that are both significant to the fair value measurement and unobservable.

To the extent that valuation is based on models or inputs that are less observable or unobservable in the market, the determination of fair value requires more judgment. Accordingly, the degree of judgment exercised by the Company in determining fair value is greatest for instruments categorized in Level 3. A financial instrument's level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement.

Fair value is a market-based measure considered from the perspective of a market participant rather than an entity-specific measure.

Therefore, even when market assumptions are not readily available, the Company's own assumptions are set to reflect those that market participants would use in pricing the asset or liability at the measurement date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction (that is, not a forced liquidation or distressed sale) between market participants at the measurement date under current market conditions.

The Company uses prices and inputs that are current as of the measurement date, including during periods of market dislocation. In periods of market dislocation, the observability of prices and inputs may be reduced for many instruments. This condition could cause an instrument to be reclassified from Level 1 to Level 2 or Level 2 to Level 3.

Valuation Techniques

Money market fund. The investment seeks the highest current income consistent with stability of capital and liquidity.

The fund invests in high-quality short-term money market investments issued by U.S. and foreign issuers, such as commercial paper, certificates deposit and time deposits, variable and floating-rate debt securities, bank notes and bankers' acceptances, repurchase agreements and obligations issued by the U.S. government, agencies or instrumentalities. It seeks to maintain a stable $1 share price. The investment is valued using the Net Asset Value ("NAV") provided by the administrator of the fund. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Mutual funds. These investments are public investment vehicles using the Net Asset Value ("NAV") provided by the administrator of the fund.

The NAV is based on the value of the underlying assets owned by the fund, minus its liabilities and then divided by the number of shares outstanding. The NAV is a quoted price in an active market and classified within level 1 of the valuation hierarchy.

Loans to participants. Valued and amortized cost, which approximates fair value are classified within level 3 of the valuation hierarchy.

The following table sets forth by level, within the fair value hierarchy, the Plan's assets carried at fair value as of December 31, 2009 and 2008:

		Fair Value Measurments at Reporting Date Using

NOTE 5 - Plan Termination

Although they have not expressed any intent to do so, the Employer has the right under the Plan to discontinue their contributions at any time. In addition, although they have not expressed any intent to do so, the Trustees have the right under the Plan to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, Participants will become 100% vested in their accounts.

NOTE 6 - Tax Status

Although the Plan has not requested determination from the Internal Revenue Service as to the Plan's tax-exempt status, the master prototype plan from which the Plan was drafted has received a favorable determination from the IRS. Plan management believes that the Plan is designed to operate in accordance with all applicable provisions of the Internal Revenue Code. Therefore, management believes that the Plan is qualified and that the related trust is exempt from taxation under the Internal Revenue Code.

NOTE 7 - Related Party Transactions

As of December 31, 2009 and 2008, the Charles Schwab Trust Company is acting as the Trustee, and Milliman, Inc. is acting as Plan record keeper and provides investment management advice to the Plan Administrator in connection with investments of Funds held by and made pursuant to the Plan. Certain Plan investments are shares of mutual funds managed by the Trustee; therefore, those investments qualify as party-in-interest transactions.
