Report on the Financial Statements

We were engaged to audit the accompanying financial statements of OSI Consulting, Inc. 401(k) Plan (Plan), which comprise the statements of net assets available for benefits as of December 31, 2014 and 2013, and the related statement of changes in net assets available for benefits for the year ended December 31, 2014, and the related notes to the financial statements.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on conducting the audit in accordance with auditing standards generally accepted in the United States of America. Because of the matter described in the Basis for Disclaimer of Opinion paragraph, however, we were not able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion.

Basis for Disclaimer of Opinion

As permitted by 29 CFR 2520.103-8 of the Department of Labor's (DOL) Rules and Regulations for Reporting and Disclosure under the Employee Retirement Income Security Act of 1974 (ERISA), the plan administrator instructed us not to perform, and we did not perform, any auditing procedures with respect to the information summarized in Note 6, which was certified by VOYA Life Insurance and Annuity Company, the trustee of the plan, except for comparing such information with the related information included in the financial statements. We have been informed by the plan administrator that the trustee holds the Plan's investment assets and executes investment transactions. The plan administrator has obtained a certification from the trustee as of December 31, 2014 and 2013 and for the year ended December 31, 2014, that the information provided to the plan administrator by the trustee is complete and accurate.

Disclaimer of Opinion

Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we have not been able to obtain sufficient appropriate audit evidence to provide a basis for an audit opinion. Accordingly, we do not express an opinion on these financial statements.

Other Matter

The supplemental schedule of assets (held at end of year) as of December 31, 2014 is required by the DOL's Rules and Regulations for Reporting and Disclosure under ERISA and is presented for the purpose of additional analysis and is not a required part of the financial statements. Because of the significance of the matter described in the Basis for Disclaimer of Opinion paragraph, we do not express an opinion on this supplemental schedule.

Report on Form and Content in Compliance with DOL Rules and Regulations

The form and content of the information included in the financial statements and supplemental schedule, other than that derived from the information certified by the trustee, have been audited by us in accordance with auditing standards generally accepted in the United States of America and, in our opinion, are presented in compliance with the DOL's Rules and Regulations for Reporting and Disclosure under ERISA.

1. Description of plan

The following description of OSI Consulting, Inc. (Company) 401(k) Plan (Plan) provides only general information. Plan participants and other interested parties should refer to the Plan agreement for a more complete description of the Plan's provisions.

General

The Plan is a defined contribution plan covering all employees of the Company except employees covered by a collective bargaining agreement where the retirement benefits were the subject of good faith bargaining. Eligible employees must be age twenty-one or older to participate. The Plan entry dates are the first day of each calendar quarter. The Plan includes a deferred compensation arrangement as described in Section 401(k) of the Internal Revenue Code (Code). The Plan is subject to the provisions of the Employee Retirement Income Security Act of 1974 (ERISA).

On October 1, 2014, the Plan was amended to remove the eligibility waiting period and change the entry date to immediate.

Contributions

Each year participants may contribute up to 100% of pretax annual compensation, as defined in the Plan. Additionally, participants may make designated Roth contributions to the Plan in accordance with the Code. Contributions may not exceed the limits and maximum amounts deductible under the regulations of the Code.

Participants may also contribute amounts representing distributions from other qualified defined benefit or contribution plans. Participants direct the investment of their contributions into various investment options offered by the Plan.

Participant accounts

Each participant's account is credited with the participant's contribution and an allocation of Plan earnings. Each account is also charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined by the Plan. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account.

1. Description of plan (continued)

Vesting

Participants are immediately 100% vested in their contributions plus actual earnings thereon. Vesting in the Company's contribution portion, if any, of the participants' accounts plus actual earnings thereon is based on years of credited service. A participant vests in Company contributions ratably over four years of credited service.

Notes receivable from participants

Participants may borrow from their fund accounts a minimum of $1,000 up to a maximum of $50,000 or 50% of their vested account balance, whichever is less. The loans are secured by the balance in the participant's account and bear interest at rates ranging from 5.25% to 10.25%, which is commensurate with local prevailing rates as determined periodically by the plan administrator.

Notes receivable from participants are measured at their unpaid principal balance plus any accrued but unpaid interest. Delinquent participant loans are reclassified as distributions based on the terms of the plan document.

Payment of benefits

Upon termination of service, death, disability, or retirement, a participant will receive a lump-sum amount equal to the value of the vested interest in his or her account.

The Plan allows for hardship withdrawals of elective deferrals. A participant may receive all or a portion of the vested interest in his or her account, subject to certain restrictions.

Mandatory distributions will be made in the form of an automatic rollover to an individual retirement account (IRA), if the terminated participant's distribution is greater than $500 but less than $5,000. Unless the terminated participant elects to rollover the account balance or to receive the distribution directly, the plan administrator can distribute the entire balance to an IRA designated by the plan administrator. Withdrawals due to terminated participants are recorded on the date distributions are made.

Amounts included in net assets available for benefits which were allocated to accounts of terminated participants who have withdrawn from the Plan were not significant as of December 31, 2014.

1. Description of plan (continued)

Operating expenses

The Company absorbs a significant portion of the operating expenses of the Plan.

Forfeited accounts

Forfeitures are created when participants terminate employment before becoming entitled to their full benefits under the Plan. The forfeited amounts may be used to reduce plan expenses. For the year ended December 31, 2014, no operating expenses were paid from Plan forfeitures.

2. Summary of significant accounting policies

Basis of accounting

The financial statements of the Plan are prepared under the accounting principles generally accepted in the United States of America.

Estimates

The preparation of financial statements in conformity with U.S. generally accepted accounting principles requires the plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Actual results could differ from those estimates.

Investment valuation and income recognition

The investments in all of the funds, except the VOYA Fixed Account, are presented at fair value, based on the quoted market prices of the underlying securities within each fund at December 31, 2014 and 2013. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The VOYA Fixed Account is fully benefit-responsive and is reported at fair value and adjusted to contract value. Contract value represents the accumulated contributions plus accrued net earnings, less distributions. Fair value of the VOYA Fixed Account is estimated using discounted cash flows.

2. Summary of significant accounting policies (continued)

Investment valuation and income recognition (continued)

Investment contracts held by a defined contribution plan are required to be reported at fair value. However, contract value is the relevant measurement attribute for that portion of the net assets available for benefits of a defined contribution plan attributable to fully benefit-responsive investment contracts because contract value is the amount participants would receive if they were to initiate permitted transactions under the terms of the Plan. The Statement of Net Assets Available for Benefits presents the fair value of the investment contract as well as the adjustment of the fully benefit-responsive investment contract from fair value to contract value. The Statement of Changes in Net Assets Available for Benefits is prepared on a contract value basis.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Date of management's review

Subsequent events have been evaluated through October 12, 2015, which is the date the financial statements were available to be issued.

3. Investments

The following presents investments at December 31, 2014 and 2013 that represent 5% or more of the Plan's net assets:

	2014	2013
VOYA T. Rowe Price Growth Equity Portfolio	$ 1,118,539	$ 907,141
VOYA Templeton Foreign Equity Portfolio	-	406,553
VOYA JP Morgan Mid Cap Value Portfolio	449,596	-
VOYA Russell Mid Cap Index Portfolio	-	420,329
VOYA U.S Stock Index Portfolio	1,045,732	901,672
VOYA Fixed Account	1,180,472	1,723,169
Total	$ 3,794,339	$ 4,358,864

4. Fair value measurements

The Plan defines fair value in accordance with Accounting Standards Codification No. 820, Fair Value Measurements and Disclosures (ASC 820). ASC 820 defines fair value as the price that the Plan would receive to sell an asset or pay to transfer a liability in an orderly transaction between market participants at the measurement date. ASC 820 also establishes a framework for measuring fair value and a three-level hierarchy for fair value measurements based upon the transparency of inputs to the valuation of an asset or liability. Inputs may be observable or unobservable and refer broadly to the assumptions that market participants would use in pricing the asset or liability. Observable inputs reflect the assumptions market participants would use in pricing the asset or liability based on market data obtained from sources independent of the reporting entity. Unobservable inputs reflect the reporting entity's own assumptions about the assumptions that market participants would use in pricing the asset or liability developed based on the best information available under the circumstances. The Plan's investment in its entirety is assigned a level based upon the observability of the inputs which are significant to the overall valuation. The three-tier hierarchy of inputs is summarized below.

Level 1 Inputs are quoted prices in active markets.
Level 2 Inputs are observable, directly or indirectly.
Level 3 Inputs are unobservable and reflect assumptions on the part of the reporting entity.

4. Fair value measurements (continued)

The following table summarizes the valuation of the Plan's investments by the ASC 820 fair value hierarchy levels as of December 31, 2014 and 2013:

5. Guaranteed investment contract

The Plan has a fully benefit-responsive investment contract with VOYA Life Insurance and Annuity Company (VOYA). VOYA maintains the contributions in a general account, which is credited with earnings on the underlying investments and charged for participant withdrawals and administrative expenses. The contract is included in the financial statements at fair value and then adjusted to contract value as reported to the Plan by VOYA. Contract value represents contributions made under the contract, plus earnings, less participant withdrawals and administrative expenses. Participants may ordinarily direct the withdrawal or transfer of all or a portion of their investment at contract value. The contract has certain restrictions that impact the ability to collect the full contract value. For example, the Plan may not withdraw more than 20% of the beginning of the year balance of the contract without incurring a market value adjustment. Plan management believes that the occurrence of events that would cause the Plan to transact at less than contract value is not probable. VOYA may not terminate the contract at any amount less than contract value.

5. Guaranteed investment contract (continued)

VOYA is contractually obligated to pay the principal and specified interest rate that is guaranteed to the Plan. The crediting interest rate is based on an agreed upon formula but may not be less than 1.50%. In addition, VOYA guarantees a minimum annual effective yield based on the number of deposit years amounts remaining in the contract. These interest rates range from 1.50 to 3.00%.

The Plan does not distinguish between average yields and crediting rates and, as such, the average yield is the crediting rate.

6. Financial information certified by VOYA

The Plan administrator obtained certification from VOYA that the following Plan information, which was furnished by VOYA, is complete and accurate:

- The value of investments in shares of registered investment companies as of December 31, 2014 and 2013.
- The value of investments in the guaranteed investment contract as of December 31, 2014 and 2013.
- Investment income for the year ended December 31, 2014.

7. Party-in-interest transactions

In April 2014, ING U.S. rebranded itself and is now known as Voya Financial.

Plan investments are shares of mutual funds managed by Voya Financial. Voya is the trustee as defined by the Plan, and, therefore, these transactions qualify as party-in-interest transactions.

8. Plan termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA. In the event of Plan termination, participants will become 100% vested in their accounts.

9. Tax status

The Plan (and the trust established under the Plan) was qualified under the applicable sections of the Code by the Internal Revenue Service (IRS). The Plan was restated on January 1, 2010 and has been approved through DATAIR's IRS Opinion Letter dated March 31, 2008.

The Plan administrator believes the Plan is currently designed and being operated in compliance with the applicable requirements of the Code and, therefore, believes that the Plan is qualified and the related trust is tax exempt.

10. Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statement of net assets available for benefits.

11. Reconciliation of financial statements to Form 5500

The following is a reconciliation of material differences in the statement of net assets available for benefits per the financial statements at December 31, 2014 and 2013 to Form 5500:

	2014	2013
Funds held in insurance company per financial statements	$ 1,180,472	$ 1,723,169
Adjustment made from fair value to contract value for fully benefit-responsive investment contracts	44,000	76,082
Funds held in insurance company per Form 5500	$ 1,224,472	$ 1,799,251
