1. Description of the Plan

The following description of the Aechelon Technology, Inc. 401(k) Plan (the "Plan") provides only general information. Participants should refer to the Plan document for a more complete description of the Plan's provisions.

General

The Plan, a defined contribution plan sponsored by Aechelon Technology, Inc. (the "Company") pursuant to Section 401(a) and related provisions of the Internal Revenue Code ("IRC"), was established effective January 1, 2002. The Plan is designed to provide participants with a means to defer a portion of their compensation for retirement and to provide benefits in the event of disability, death, termination or financial hardship. The Plan covers all employees of the Company who meet certain eligibility requirements. It is subject to the provisions of the Employee Retirement Income Security Act of 1974 ("ERISA").

Plan administration

The Company is the administrator of the Plan and, as such, carries out the duties imposed by ERISA. The Company has delegated certain responsibilities for the operation and administration of the Plan. Trustee and recordkeeping services are provided by John Hancock Management Trust Company or one of its affiliates ("John Hancock"). Certain administrative expenses of the Plan, including recordkeeping, were paid directly by the Company for the year ended December 31, 2014. Investment fees, which may vary according to the individual funds selected, are paid out of the assets of the Plan. Participants should refer to the prospectus of the individual investment funds for further details on individual investment fees.

Contributions

Each year, participants may contribute up to 100% of their annual compensation as defined in the Plan, not to exceed limitations established annually by the Internal Revenue Service ("IRS"), which was $17,500 in 2014. Employees over the age of 50 are allowed to make an additional $5,500 contribution to the Plan for calendar year 2014. Participants are also allowed to roll over contributions from other qualified employer-sponsored retirement plans. All contributions are paid to the trustee for investment in the appropriate investment fund or portfolio in accordance with the participant's directives and the terms of the Plan. The Company may make a matching contribution equal to a discretionary percentage of employee deferrals, which percentage will be determined each year. The Company may also make a discretionary profit sharing contribution for eligible employees, as defined, who are actively employed at the end of the Plan year. The profit sharing contribution is allocated based on each employee's eligible compensation as a percentage of the total eligible compensation for all participants entitled to share in the profit sharing contribution. Discretionary profit sharing contributions for the years ended December 31, 2014 and 2013 were $1,083,985 and $857,117, respectively.

1. Description of the Plan (continued)

Participant accounts

Each participant's account is credited with the participant's contribution and allocations of (a) the Company's contribution and (b) Plan earnings or losses, and charged with an allocation of administrative expenses. Allocations are based on participant earnings or account balances, as defined. The benefit to which a participant is entitled is the benefit that can be provided from the participant's vested account. Participants direct the investment of all funds in the Plan.

Vesting

Participants are immediately vested in all contributions allocated to their accounts, plus actual earnings thereon.

Notes receivable from participants

Participants may borrow from their accounts up to a maximum equal to the lesser of 50% of their vested account balance or $50,000 reduced by the highest outstanding loan balance during the prior twelve month period. All loans must be repaid within 5 years unless the loan is for the purchase of a principal residence for which the loan term may exceed 5 years but not 10 years. The loans are secured by the remaining vested balance in the participant's account and bear interest at rates of 4.25%, which is commensurate with prevailing rates. Principal and interest are paid ratably through monthly payroll deductions but no less often than quarterly. All loans become immediately payable in the event of default, death, disability, or termination of employment.

Notes receivable from participants are recorded at their unpaid principal balance plus any accrued but unpaid interest. Interest income on notes receivable from participants is recorded when it is earned. No allowance for credit losses has been recorded as of December 31, 2014 and 2013. If a participant ceases to make loan repayments and the plan administrator deems the participant loan to be a distribution, the participant loan balance is reduced and a benefit payment is recorded.

Payment of benefits

Distributions and withdrawals are payable upon retirement, termination, financial hardship, disability, or death. If a participant's account balance is equal to or less than $1,000, the balance will be distributed immediately in a lump-sum cash payment unless a direct rollover into another qualified benefit plan is requested. Balances between $1,000 and $5,000 must be rolled over to an individual retirement plan designated by the administrator if the participant has not requested a distribution. If the account balance is over $5,000, the participant can consent to either a distribution paid in the form of a lump-sum cash payment, a direct rollover into another qualified plan or postpone payment to a later date and remain in the Plan as described in the Plan documents.

2. Summary of Significant Accounting Policies

Basis of accounting

The financial statements of the Plan are prepared using the accrual basis of accounting.

Use of estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires the Plan administrator to make estimates and assumptions that affect certain reported amounts and disclosures. Accordingly, actual results may differ from those estimates.

Investment valuation and income recognition

The Plan's investments in mutual funds and money market funds are stated at fair value as determined by quoted market prices of the underlying investments.

Purchases and sales of securities are recorded on a trade-date basis. Interest income is recorded on the accrual basis. Dividends are recorded on the ex-dividend date. Net appreciation/depreciation includes the Plan's gains and losses on investments bought and sold as well as held during the year.

Risks and uncertainties

The Plan invests in various investment securities. Investment securities are exposed to various risks such as interest rate, market, and credit risks. Due to the level of risk associated with certain investment securities, it is at least reasonably possible that changes in the values of investment securities will occur in the near term and that such changes could materially affect participants' account balances and the amounts reported in the statements of net assets available for benefits.

Payment of benefits

Benefits are recorded when paid.

Subsequent events

On January 6, 2015 the plan decided to discontinue the service of the current plan administrator (John Hancock Life Insurance Company (U.S.A.)) and commence services with a new plan administrator (Fidelity Investment Services).

The Company has evaluated subsequent events through the date the financial statements were available to be issued. No other subsequent events have occurred that would have a material impact on the presentation of the Plan's financial statements.

3. Information Prepared and Certified by Trustee

In accordance with 29 CFR 2520.103-8 of the Department of Labor Rules and Regulations for Reporting and Disclosure under ERISA, the trustee certified information regarding the cost and fair value of all investments and notes receivable from participants held at December 31, 2014, and investment and notes receivable from participants' transactions entered into during the year ended December 31, 2014, which was used in the preparation of the accompanying financial statements and supplemental schedule.

4. Investments

The following investments represent 5% or more of the Plan's net assets available for benefits at December:

		(Compiled)
	2014	2013
John Hancock Lifestyle Growth 1	$598,581	N/A
John Hancock Lifestyle Balanced 1	$483,837	N/A
John Hancock Lifestyle Conservative 1	$591,209	$441,000
Clear Bridge Aggressive Growth I	$766,896	N/A
T. Rowe Price Health Sciences	$666,212	$563,002
Money Market Fund	$756,897	$613,942
John Hancock Blue Chip Growth 1	N/A	$672,625

During 2014, the Plan's investments, which were held primarily in mutual funds, appreciated in value (including gains and losses on investments bought and sold, as well as held during the year) by $395,646.

5. Fair Value Measurements

The Plan defines fair value as the price that would be received from selling an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Accounting guidance establishes a fair value hierarchy that prioritizes the inputs to valuation techniques used to measure fair value. The hierarchy gives the highest priority to unadjusted quoted prices in active markets for identical assets or liabilities (Level 1 measurements) and the lowest priority to measurements involving significant unobservable inputs (Level 3 measurements).

5. Fair Value Measurements (continued)

The three levels of fair value hierarchy are as follows:

- Level 1: inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities that the Plan has the ability to access at the measurement date. Level 1 inputs were used for publically traded mutual funds offered by the Plan.

- Level 2: inputs other than Level 1 that are observable, either directly or indirectly, such as quoted prices in active markets for similar assets or liabilities, quoted prices for identical or similar assets or liabilities in markets that are not active, or other inputs that are observable or can be corroborated by observable market data for substantially the full term of the assets or liabilities; or

- Level 3: unobservable inputs for the asset or liability that are supported by little or no market activity and that are significant to the fair value of the assets or liabilities.

The asset's fair value measurement level within the fair value hierarchy is based on the lowest level of any input that is significant to the fair value measurement in its entirety.

Investments measured at fair value on a recurring basis

Investments measured at fair value on a recurring basis consisted of the following types of instruments as of December 31, 2014 and 2013 (Level 1, 2 and 3 inputs are defined above):

Fair Value Measurements	December 31, 2014

5. Fair Value Measurements (continued)

Investments measured at fair value on a recurring basis (continued)

Fair Value Measurements Using Input Type	December 31, 2013 (Compiled) Level 1	Level 2	Level 3	Total
Mutual funds				
Blend funds	$ 3,368,461	$ -	$ -	$ 3,368,461

Money market funds	613,942	-	-	613,942
Total investments measured at fair value	$ 7,165,135	$ -	$ -	$ 7,165,135

The Plan's valuation methodology used to measure the fair values of mutual funds was determined by quoted market prices of the underlying investments.

Valuation techniques utilized during the reporting period in the fair value measurement of assets and liabilities presented on the Plan's statement of net assets available for benefits were not changed from previous practice.

6. Income Tax Status

The Company has adopted a prototype defined contribution plan originated by its trustee. The trustee received an opinion letter from the IRS dated March 31, 2008, stating that the written form of the underlying prototype plan document was acceptable under Section 401(a) of the IRC. The Plan has not requested a separate determination letter from the IRS. The Company believes that the Plan is designed and is currently being operated in compliance with the applicable requirements of the IRC.

Accounting principles generally accepted in the United States of America require the Plan's management to evaluate tax positions taken by the Plan and recognize a tax liability if the Plan has taken an uncertain position that more likely than not would not be sustained upon an examination by the Internal Revenue Service. No uncertain positions have been identified that would require the recognition of a tax liability or disclosure in the financial statements as of December 31, 2014 and 2013. The Plan is subject to routine audits by applicable taxing jurisdictions; however, there are currently no audits for any tax periods in progress. The Plan administrator believes the Plan is no longer subject to income tax examinations for 2010 and prior years.

7. Plan Termination

Although it has not expressed any intent to do so, the Company has the right under the Plan to discontinue its contributions at any time and to terminate the Plan subject to the provisions of ERISA.

8. Party-in-Interest Transactions

The Plan has included in its investment fund options certain funds managed by John Hancock Management Trust Company, or one of its affiliates. John Hancock Management Trust Company is the Plan's trustee as defined by the Plan and, therefore, these transactions qualify as exempt party-in-interest transactions.
